REAL CIRCUS BY AMATEURS

L. C. T. Club Has Arranged to Give An Amateur Circus With Some Assistance.

MAKING GREAT PLANS

A. A. Duchemein, of New York, Will Assist the Committee—Will be Given May 21 and 22, With One Matinee—Full Brass Band—Other Details of Affair.

After working secretly on the project for the last month, the L. C. T. Club has made announcement that it will shortly go into the amusement line on a large scale and give a circus in Plainfield, the like of which the citizens have never seen before. Not only will the club members themselves show what they can do in the tan bark ring, but they will be assisted by professionals from New York with a great array of horses, animals, musicians and the like, not forgetting the golden chariots and the aggregation of side show freaks and prodigies. The plan will require a large outlay of money and energy and the club has resolved to use both to make the affair a distinct success.

Associated with the club committee will be A. A. Duchemein, of New York, who has years of experience in conducting amateur circuses and who with the famous Harry Lehr, gave the great society circus at Newport last year. He was in this city, yesterday, and expressed himself as being confident that the L. C. T. Club could carry out its part. He has already been engaged by citizens of New Rochelle, Kingston and Mount Vernon, N. Y., to assist them in giving similar amateur affairs in those places next month.

As planned at present, the circus in this city will be given on the evenings of Thursday and Friday, May 21 and 22, with one matinee. Three tents will be used, the largest where the main show is to be given having a capacity of 1,800. A full brass band will furnish the music. Committees have already been appointed and the young men are now at work completing details. Regular rehearsals in charge of Mr. Duchemein will not be commenced until two weeks before the dates announced.

MUST CHOSE NEW PLACE.

Wm. Wickoff Arraigned for Sleeping Under Stoop of His Home.

William Wickoff, colored, of East Third street, has an incorrigible propensity for staying out nights. William said he didn't like to go to jail and this morning City Judge Runyon decided to give him another chance.

DIDN'T TROUBLE CITY HIGH

WON EASILY FROM SCOTCH PLAINS HIGH SCHOOL.

One-Sided Game on Stillman Field Resulted in a Score of 14 to 2.

The Plainfield High School had no trouble in defeating the Scotch Plains High School in a one-sided game played on Stillman Field yesterday afternoon. The score was 14 to 2. Both sides played loose baseball, but the visitors completely went up in the air in the sixth and seven of the High School players circled the bags in that one inning. A three bagger by McGinley, two singles and an error by Winters, of the Plains team, brought in four runs in the third. The High School also scored in the second and fifth.

Munro, as pitcher, was decidedly erratic in the first inning and gave four men in succession bases on balls at the very start. He took a big brace, however, and struck out two men, and a neat catch by Ulrich spoiled the remaining chances for scoring by closing the inning. The visitors scored the second time in the fifth.

The City High School players found Johnston in the very first inning and in the course of the game hit the leather for a grand total of fourteen singles, a three bagger by McGinley and a two bagger by Munro. All the hits were timely and well placed. The visitors made but three singles off Munro and their fielding was decidedly below standard.

LITTLE ONES THERE.

Teachers of Junior Department of Baptist Sunday-School Entertain.

Mrs. Frank W. Jones and Mrs. W. B. Vail, both teachers in the Sunday-school of the First Baptist church, entertained the children of their classes in the junior department at the home of Mrs. Jones, of Mountain avenue, yesterday afternoon, between the hours of 3 and 6 o'clock. The afternoon was spent on the lawn where games were played and refreshments were served at a late hour.

There were about fifteen members of the classes present, and children's games were the means of spending a most enjoyable afternoon. When the refreshments were served the tables were decorated with violets and greens. The effect was very pretty.

WHY STREETS WERE NOT WATERED SOONER

Official of the City Sprinkling Company Talks of the Local Situation.

WAS A VERY DRY APRIL

EXTRA SPRINKLING WAGON ADDED TO FORCE YESTERDAY.

Official Thinks Present System is Fairer to Property Owners Than If the Sprinkling is Done by the City.

An official of the City Sprinkling Company said today that the fact that the public has been inconvenienced by dust is because of the unusually dry weather we have experienced during the latter part of April.

Usually the section of town lying south of the railroad is never sprinkled until after May, but this year a part of it was sprinkled two weeks earlier than that owing to the lack of April showers that are generally prevalent during that month.

An extra sprinkling wagon was added to the force yesterday, making one more than was in use last year and it will be continued as long as it is necessary to allay the dust.

The principal reason, the official said, why the present system is a fair one to the property owner, is, that he is not obliged to pay for it if he does not want the work done, while if the city does the work, it should, in fairness to all property owners, sprinkle all of the streets of the city, even the outlying sections and this, he declared, would add not less than $10,000 per year to the tax budget, raising the tax rate about twelve points.

Last year, he explained, the City Sprinkling Company made a proposition to the Council to sprinkle the streets of the city where dwellings, and therefore subscribers, were infrequent at a very low figure; in fact at cost. The same proposition is in force this year and the city can avail itself of it any day.

THE ASSAILANTS.

Arraigned in City Court This Morning—One Signs the Pledge—Other Leaves Town.

Frank Drake and John Callahan came up before City Judge Runyon this morning charged with drunkenness and disorderly conduct on April 27, in attacking Alonzo Randolph without provocation; the attack leading to Randolph firing his revolver in self-defense and causing a general disturbance of the peace. Drake was also charged with interferring with the city fire apparatus.

Both were found guilty and Drake was given the choice of $50 and fifty days or signing the pledge for two years. He concluded to sign. Callahan had a similar alternative of leaving Plainfield by next Monday and staying away, or of living on the State for fifty days and depositing $50 in its exchequer. He decided that Plainfield would be able to worry along without him.

EVANGELISTIC MEETINGS.

To be Held at Mt. Olive Baptist Church for Two Weeks.

The B. Y. P. U., of Mount Olive Baptist church, has decided to omit its usual meetings until Wednesday, May 13. Beginning Monday evening special evangelical services will be held to continue for two weeks. Arrangements have been made to raise money for repairing the church.

Next week Monday and Tuesday evenings, Rev. E. Elliott, of Newark, will assist the pastor in conducting. The pastor will have charge Wednesday and Rev. W. A. Harris, of Cranford, will preach on Thursday and Friday evenings. To all of these meetings the public is cordially invited.

"CELLAR GANG" BROKE GROUND

Started Excavation for the New Borough Engine House With Much Ceremony.

GREAT CROWD PRESENT

Mayor Smalley Handled the First Shoveiful of Earth, Then Members of "Cellar Gang" Took Their Turn—Social Time Followed and Everyone Rejoiced.

Thirty strokes of the fire bell over the Warren engine house on Somerset street was a signal last evening for Mayor N. B. Smalley to take the first shoveiful of earth from the site of the new engine house of the North Plainfield fire department, and the work on the new headquarters was formally started. Three rousing cheers rose on the still night air as Mayor Smalley plunged a shovel into the earth and tossed its contents into a waiting cart. Three more cheers rose from three hundred lusty throats when Chief T. O. Doane, of the Plainfield department, dug a shoveiful of earth and then, amid a continuous round of cheers and the sounding of bells of nearly fifty bicycles, the members of the famous "cellar gang" fulfilled their agreement and dug steadily at the excavation for almost an hour.

The celebration of so great an event in the borough fire department as the starting of the building of the new headquarters was attended with appropriate ceremonies. Long before the appointed hour large numbers of people gathered at the scene of the excavation and gained points of vantage from whence they could view the digging of the first shoveiful of earth. At 7:15 the members of the engine company, accompanied by the West End Hose Company, marched out of the engine house behind the hose truck and, headed by the Independent Fife and Drum Corps, marched to the residence of Recorder Thomas Doud, of Duer street, to secure picks and shovels and then through the principal streets of the Park and business section of the borough.

The parade was headed by Chief Julius J. Stahl and Assistant Chief Herman Klinsman. The guests of honor were Mayor N. B. Smalley and members of the Common Council and Chief of the Plainfield Fire Department T. O. Doane. Some carried red fire torches and lanterns.

At 7:22 the fire bell began to ring and at 7:32 Mayor Smalley amid resounding cheers raised the first spadefull of dirt. By 7:37 the first cart, the largest one of the two dozen on hand, started to leave the site for the dumping grounds near the house of Joseph A. Blatz. Mayor Smalley, when he had laid down his shovel, proposed three cheers for the new engine house which were responded to by over three hundred citizens. Chief Stahl proposed three cheers for the Mayor which were responded to equally as heartily after which the members bent their backs to the work.

After the work had been finished at the lot the members of the "cellar gang" repaired to the rear of Debele & Stahl's store a few doors away where refreshments were served. A social time followed the gathering there when souvenirs of the occasion were distributed among the members. On a neat little card was printed the date and a gentle reminder of the occasion was attached, a silver plated shovel almost three inches in length. This was gotten up by William Debele and J. J. Stahl, two of the leading members of the company.

The members of the "cellar gang" who started the work last evening were: Recorder Thomas Doud, John Carney, Chief Julius J. Stahl, Lafayette Rosensteihl, Bert Bodine, David Bodine, S. B. Joseph, Alonzo Brokaw, John Schenck, Louis Feiring, Albert DeCamp, William Conover, David Allen, Walter Bennett, William Bamberger, Dr. J. Hervey Buchanan, Robert M. Clark, Harry Coddington, Phil C. ANNUAL MUSICALE AT SEVENTH-DAY CHURCH

Attracted a Large Crowd to Hear a Very Enjoyable Programme.

CHURCH WAS CROWDED

WAS GIVEN UNDER CHARGE OF THE CHRISTIAN ENDEAVOR SOCCIETY.

Annual Event at Seventh-Day Baptist Church Excelled Those of Past Years—Those Who Took Part—The Committee.

Although preceded by eight others of a similar nature, the annual musicale of the Seventh-Day Baptist church Christian Endeavor Society, held last evening, was clearly the most successful. In point of artiste it greatly excelled and the audience tested the capacity of the large edifice.

Miss Jessie Utter was directly in charge of the affair, acting as accompanist, and she was assisted by the following well-known artists: Lewis H. Moore, of Brooklyn, organist; Miss Dorothy Waldo, violin; Fullerton Waldo, viola; Dr. Leonard Waldo, violincello; Mrs. Anna Milke, of New York, contralto; George H. Smith, tenor; E. Maxwell Honeyman, tenor; Henry B. Drake, basso, and Fred S. Cutter, basso. With a few exceptions all have appeared at local entertainments, but they achieved another triumph at last night's affair. As each number was concluded, the applause was unstinted and encores had to be given.

Mr. Moore is exceptionally deft with the keys and the gentle yet convincing nature of his tones was greatly admired. He gave as solos the overture, "Pearl of Bagdad" by Torets and Guilmants' Grand Chorus in E flat. The quartette composed of Messrs. Smith, Honeyman, Drake and Cutter contributed several pleasing selections. Mrs. Milke has a rich modulation while her tones are coupled with force. She gave the "Water Lillies" and "Serenade" in the first part and "Life Is Vain" and "Aria From Herodiade" in the second.

The tenor solos of Mr. Smith were greatly enjoyed as were those by the instrumental trio composed of Fullerton Waldo, Dr. Waldo and Miss Dorothy Waldo. While a silver offering was being taken, Mr. Moore presided at the organ.

The musicale was arranged by Miss Utter with the assistance of the music committee which consists of Mrs. J. E. Kimball, Mrs. F. J. Hubbard and Charles P. Titsworth. The young men who acted as ushers were O. S. Rogers, Arthur J. Spicer, George L. Babcock, Asa Randolph, Dr. Marc L. Clawson, Dr. O. B. Whitford, J. E. Kimball, W. C. Hubbard, George Clarke and Paul Whitford.

CLASS ANNIVERSARY.

Mock Trial Was Chief Event at a Pleasant Gathering.

Class No. 15, of Trinity Reformed Sunday-school, was entertained last evening at the home of Albert Schomp, of West Front street. The affair was held in celebration of the first anniversary of the class. A business meeting preceded the social part of the evening when reports were read and addresses were made by Rev. Dr. Cornelius Schenck, pastor of the church, and Elmer Wheeler.

A mock trial was one of the pleasing features of the evening. Charles M. Dolliver acted as judge while the lawyer for the plaintiff was Thomas Carter and for the defendant, Albert Schomp. Miss Bessie Wilson, W. J. Trembath, Clarence Rittenhouse, Frank Platts and Mrs. W. J. Trembath, took the leading parts. CLUB WOMEN'S ANNIVERSARY

Great Event of Monday Afternoon Club at Casino Yesterday Afternoon.

WERE OVER 200 PRESENT

After Anniversary Breakfast Came a Charade Written by Mrs. Florence Howe Hall, a Musical Programme and Toasts—Miss Kenyon Sketched History of Club.

An elaborate breakfast, a bright comedy charade performed by a capable cast and well rendered musical selections united to make memorable the entertainment of the Monday Afternoon Club yesterday at the Casino. The brilliant programme was in fitting celebration of the club's fifteenth anniversary.

After the breakfast menu had been discussed, several toasts were given as announced in yesterday's Press, and an anniversary song written by Mrs. Isaac Miller was sung. The toast on the club's history by Miss Elisa Elvira Kenyon was among the best of the afternoon. Miss Kenyon was the founder and first president of the club which was organized in 1888, incorporated in 1889 and admitted to State federation in 1894. The club has had seven presidents as follows: Miss Eliza E. Kenyon, 1888-90, '92-'94; Mrs. David P. Hall, 1890 92; Mrs. Isaac L. Miller, 1894-96; Mrs. William H. Sterling, 1896 97; Mrs. Edward C. COLUMN FOR THE SHOPPERS

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

S. Scheuer & Co., the grocers on West Front street, can supply your wants in either groceries or meats at the lowest prices. The goods are all of the best quality. Prompt delivery is a feature of this store.

During the summer Fred Endress proposes making all deliveries of meat, poultry and seafood in his patent wagons. Each is equipped with an ice box and the orders are kept as perfectly as if still in the shop.

Hodge's pharmacy in the Y. M. C. A. building is conveniently located for shoppers. Drop in at any time and quaff a glass of nice soda or take home a box of the famous Belle Meade sweets. The money paid for the latter is for the confections and not the name.

Very often one desires to have flowers placed in the sitting room or parlor but finds it hard to select the variety. If a telephone call is sent to C. L. Stanley, of North avenue, an expert florist and decorator, he will not only supply the flowers but will also decorate the rooms.

If you trade with Charles E. Vail, the Park avenue jeweler, or have any repair work done by him, you can be assured that you will get the best. Honest goods at fair prices is the mot to at this store. Mr. Vail is an experienced jeweler and can be depended upon to please his patrons.

Dudley S. Miller, the Park avenue druggist, is meeting with much success in his business. The fact that he handles only reliable goods and uses the best drugs in his prescription work counts for much. Mr. Miller's new soda fountain is a strong attraction and if you want a refreshing drink stop in.

There isn't any sense in wearing heavy shoes during summer and suffering all sorts of discomfort in consequence. At VanArsdale's shoe emporium on East Front street is one of the nicest lines of ties for men and women to be found in the State. They wear every bit as long as shoes and don't cost any more.

GAVE $250 FOR ONE HAND

VERDICT IN VENE CASE AT SOMERVILLE WAS A SURPRISE.

Fourteen-Year-Old Lad Lost Right Hand in Machinery—He Sued for $20,000.

(Special to The Daily Press.)

Somerville, May 1—The jury in the case of Guiseppe Vene against the Somerset Manufacturing Company gave a verdict of $250 for the plaintiff.

Vene, who is only fourteen years old and a foreigner, went to work in the picker house of the defendant company at its mill at Raritan, and, on August 26 last, had his hand cut off. Vene claimed that, while he knew the machine he was operating was dangerous, he had not been instructed thoroughly in regard to it, and brought suit for $20,000 damages for the loss of his right hand.

The case was watched by the people with much interest and the result was an astonishing one, inasmuch, different ones believe, if the boy was entitled to any damages at all for the loss of his hand, he should have been given a much larger sum than $250.

Evidently the right hand is not very highly prized by the twelve "good men and true" who decided the case. It is said, from those who know the doings in the jury room, that one or two men swayed the others, who were voting for any amount from $3,000 up to $5,000.

Something of Man Who Has Been Appointed State Fish and Game Commissioner.

David P. McClellan, of Morristown, has been notified that he had been appointed by Governor Murphy State fish and game commissioner, to succeed Howard P. Frothingham, whose resignation had been filed in the executive office. Mr. McClellan is a thorough sportsman and an extensive hunter and fisherman.

He has lived in Morristown for over thirty years and during that time has been actively engaged in the dry goods business, being at this writing one of the foremost merchants of Morristown. He has been closely connected with the fire department, serving as foreman of Washington Engine Company and also foreman of the Fire Wardens, of which organization he is still a member.

For two years he served as alderman, and while on the board was made chairman of the fire committee. He did much to bring the department up to its present efficient state.

For many years past Mr. McClellan has made annual trips to the Maine woods, and has always returned with plenty of game. He is an excellent shot as well as an adept angler, and withal is careful and judicious. He is a brother of Senator McClellan, of Dutchess county, N. Y.

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of wornout tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up, Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by L. W. Randolph.

MILITIA UNIFORM CHANGES

NO RADICAL CHANGES MADE BY THE STATE MILITARY BOARD.

Headwear Will See Only Difference in Enlisted Men—Slight Ones in Officers' Uniforms.

(Special to The Daily Press.)

Trenton, May 1—The State Military Board has decided to adopt the new full dress uniform of the regular army for the members of the Governor's staff and for the department staff officers. It is further decided not to change the dress of the enlisted men, save in regard to the headwear. The caps now worn by the enlisted men will be discarded, and the State militia will wear the new regulation caps, with broad tops.

No radical changes are to be made in the uniforms of the officers of the national guard. New regulation caps for the officers have been decided upon. Short, light sabres, such as are now in use in the regular army, will be used by all the officers instead of the swords they now carry.

It has also been decided by the board not to change the white shoulder straps and trouser stripes now in use to dark blue because of the protest that went up against this proposed substitution. The chevrons of the enlisted men, will, therefore, be retained. The proposed change in the officers' cap adornment, substituting the State coat of arms in gold for the present scheme, has been also discarded and the present national device with the words "New Jersey" in the scroll will remain in vogue.

No change is made in the horse equipments of the mounted officers. Under the changes made by the board each officer will have to pay out $19 for the new sabres and caps, the latter costing $7 and the sabres $12. The matter of the showy dress uniforms for use by the officers on important military occasions is left to the discretion of the officers, who may or may not adorn themselves in these expensive habiliments, as they elect.

THEATRICAL.

Grace George's engagement in "Pretty Peggy" at the Herald Square Theatre, New York, continues successful. The entertainment is a delightful one, in which a charming story full of life and dramatic action is given added interest by the presence of the young girl who is introduced as the star. Miss George never has appeared to better advantage than in "Pretty Peggy," where her ingenuousness, unaffected manner and graceful demeanor add continually to her following. Miss George's supporting company still includes such admirable players as Robert Loraine, Annie Ward Tiffany, Margaret Mayo, Donald Maclaren, Norah Lamison, Carl Eckstrom, and two hundred others. The scenery is beautiful and the costumes lavish. Matinees will be given Wednesdays and Saturdays.

At the Academy of Music, New York, the big racing drama "The Suburban" is the sensational hit of the year and is nightly received with genuine enthusiasm by the crowds of playgoers who are attracted by the fame of the production to Manager Gilmore's big playhouse. The race scene is the talk of the town. Nothing so realistic has been done on the Academy stage, or, for that matter, on any New York stage for many a day. It is more like the real thing than any contest the stage has yet witnessed, and that is saying much. "The Suburban" tells a most interesting story that interests the average playgoer from the very first scene, and the play is splendidly interpreted by an unusually good cast. The hero is played by Chas. F. Gotthold intelligently and forcefully and J. H. Gilmour, W. S. Hart, Geo. C. Staley, J. M. Colville, John Jennings, Kingsley Benedict are all actors of experience and reputation. Miss Jessie Izett, Fanchon Campbell and Annie Mack Berlein play the feminine roles and Bessie Burt, one of the brightest and most talented child actresses in America, is a favorite with Academy patrons.

B. AND O. CHANGES.

Potter, general manager, will become third vice president, in charge of the operating department. C. S. Sims, general superintendent, at New York, will succeed Mr. Potter, as general manager.

—Dr. David S. Atwood, the dentist, has moved from Central avenue to 518 Park avenue.

NO MORE GRADE CROSSINGS

PENNSY'S TRACKS AT NEW BRUNSWICK ARE BEING ELEVATED.

Last of Grade Crossings Will be Abolished May 17, When New Tracks Will be Used.

(Special to The Daily Press.)

New Brunswick, May 1—All grade crossings on the Pennsylvania Railroad which passes through this city will disappear on May 17 when the first two tracks of the new stone arch bridge and elevation through this city will be completed and trains will commence running regularly over the elevated structure.

It was hardly a year ago when the work on the elevation of the tracks was commenced after permission was granted by the Common Council. It was stipulated that the trains should run on the elevation by June 1, 1903. Contractor H. S. Kerbaugh said yesterday that on May 10 track 4 would be turned over to the New York division and that on May 17 track 3 would be ready for use. Work will begin on tracks 1 and 2 after the steel bridge has been removed. The drawbridge will be removed first as it can not be swung at present on account of the stone arch which was erected along side of it.

The opening of the elevation abolishes forever grade crossings in this city. The freight yard has been elevated and the west bound passenger depot is now in course of construction. Work will shortly be commenced on the east bound depot which, it is said, will be the handsomest between Trenton and New York. It will be of Corinthian style of architecture and will be elaborately finished on the interior. As near as can be estimated the work will be completed in about a year from date.

Thus far eighteen tribes have signified their intention of participating.

Our "CONCAVE" Shoulder and "CLOSEFITTING" Collar

Our "CONCAVE" Shoulder is a new and better way of making the shoulder of a coat. It does away with the superfluous wadding and padding—it gets its breadth and grace of line from the way it is cut, and from the skilful modelling and shaping by hand. It looks wider than the ordinary shoulder and sets better, and will retain its shape—always.

The "Closefitting" Collar is hand made, and worked in so that it always sets perfectly.

All of our $15 Spring Suits and Overcoats are made with our "CONCAVE" Shoulder and "Closefitting" Collar.

Our showing of Spring Suits and Overcoats at $15 is larger than that of any other house in New York. Among the materials you'll find everything that is usual, and much that is unusual.

Spring Suits made with our "CONCAVE" Shoulder and "Closefitting" Collar—$12.50 to $30.

Spring Overcoats made with our "CONCAVE" Shoulder and "Closefitting" Collar—$12.50 to $35.

STREET SPRINKLING.

April was such a dry month that the people of Plainfield are beginning to give serious consideration once more to the municipal problem of street sprinkling. Those constant showers of dust which greeted each pedestrian as he passed down the street were not relished. Each one was impressed with the idea that something ought to be done to prevent a recurrence of them. Either the city officials ought to assume direct supervision of the street sprinkling by private individuals or else the city should go into the business itself. That has seemed to be the general opinion of most people after they have dug out sufficient dust to enable them to talk.

This street sprinkling problem is no new one. It was discussed at length last year but nothing came of it unless it was that the company, which now does the work, improved its service somewhat. In the borough the question came up and the experiment of street sprinkling at the borough expense was tried. Its advocates declare that it has been uniformly successful there. Its enemies say that while it worked all right the first year, the service began to deteriorate as time went on.

One thing is certain. The city streets ought to be regularly sprinkled when they are dusty if it happens to be June or January and if the present method is not satisfactory then it devolves upon the Common Council to provide some new method. Under any circumstances it would be well for the Council to look into the subject and see if the service can be anyway bettered.

It is very proper that the borough should have a sewer system. There is need for it. The citizens of that municipality realize that need as was shown by the resolution, unanimously passed at the recent public meeting held in the borough. It now remains to decide which method should be adopted for the disposal of the sewerage. It certainly would seem as if the best judgment would favor making arrangements with the city of Plainfield for the disposal of the borough sewerage at the city works. If the time does overcome when the communities in this neighborhood can unite together for a joint sewer to tidewater, then the borough would have no disposal works on its hands to get rid of.

It may serve as amusement for some to poke fun at the precautions of the City Board of Health in caring for the city milk supply. It would be a very serious matter, however, if lack of care in looking after that same supply should spread some contagious disease into a score of homes. The milk supply cannot receive too much attention and the City Board of Health should be commended for its efforts. The time for the board to act is before the trouble comes rather than after it starts. Its efforts should be of a preventive rather than a corrective nature.

There really wasn't any cause for fright when that 5:45 train kept the main track from Cranford the other evening, as it did the night of the Westfield disaster, and yet you could hardly blame the people for feeling nervous. The details of that horror were too fresh in their minds. The Jersey Central Railroad has taken every possible safeguard and it is only when the engineer fails to heed signal after signal and warning after warning that the personal element controls the situation.

The place for the transfer station of the trolley company is on private property and not on the public thoroughfare. The Common Council should see to it that the "Public Utilities of New Jersey" spend some of their millions for improvement in a proper transfer station in Plainfield. Then the public would gradually get some chance to use Watchung avenue.

Again the L. C. T. Club is coming to the fore. Its "stag" proved a decided success and now it is arranging for an amateur circus similar to the one given in New Brunswick last year. The same man, who directed Brunswick's successful effort, will be in charge of the L. C. T. circus and a number of prominent Plainfielders have agreed to participate.

PAY FOR BRIDGE.

Middlesex Freeholders Hold It Up Claiming Bridge is Not Safe—Contractor Sues.

(Special to The Daily Press.)

New Brunswick, May 1—Officers of the Board of Freeholders of Middlesex county have been served with the papers in a suit brought by Joseph H. Cutley, of Jersey City, to recover about $10,000, the balance of the contract price for building a bridge for the county over Woodbridge Creek, near Perth Amboy. Cutley was awarded the contract several years ago, and built the bridge. Later the plans were changed to strengthen the bridge sufficiently to permit trolley cars to cross it.

There was a difference of opinion as to who should make the change, and there was also a disagreement over plans. The board claims that the plans were not followed, and that the piling on which the draw is erected does not touch bottom; that it is slipping away in the soft mud, and that the bridge is unsafe. Cutley claims that if the bridge is not all right it is the fault of the plans. The payments on the bridge were held up by the board, and after a number of ineffectual efforts to solve the muddle the suit has been brought.

SMART AND PICTURESQUE.

Delicate Pastel Shades—The New Woolen Goods Very Supple.

There is much extravagance apparent in the new styles. Yet we must all agree there is far less of the grotesque and more of picturesque simplicity than of old. Costumes are plainer, and better taste is displayed in the matter of trimmings. Moreover, there

SILK NET GOWN.

are styles to suit every one, and many of them may be used successfully in renovating last year's gowns.

The new woolen materials are very soft and supple. The newest specimens all show a white thread or white knots interwoven with the self color. Voiles are very pretty with these broken flecks of white, which are also seen on the new zephyrs and lawns.

All the delicate pastel shades in pale blues, pinks, soft greens and biscuit tints are in vogue as well as every possible tone and half tone of gray, ranging from the darkest iron shades to the delicate oyster tints. Black and white is as favorite a combination as ever, and much ingenuity is revealed in the blending together of the two colors.

A dainty evening dress is shown in the cut. The material is silk net over silk, and the entire trimming consists of bands of velvet ribbon placed perpendicularly. JUDIC CHOLLET.

ELABORATE STYLES.

Sack Coats of Black Silk—Costumes In Pale Shades.

Many and varied are the new fashions, and it is invariably a survival of the fittest, for not all the new frocks and frills can be popular.

The sack coatee will certainly prevail, and it is made in black silk as a separate wrap and is particularly attractive in peau de soie inlet with

AFTERNOON GOWN OF BLUE VEILING.

transparent motifs of guipure or in taffeta lace set in wide tucks or accordion plaited.

The separate black coat is a boon to the woman who wears nothing but black and is very attractive with the limp trailing skirt of soft material.

The spring costumes arranged with some species of sack coat are in pale shades of cloth hopsack and summer frieze, and the chief tints are almond, mastic and putty, strawberry tints, reseda with a green tone and also some light tints in green. Bright shades of royal and purple blue are shown, but these will probably have but a brief reign, and the sun will no doubt put them to shame.

The cut shows an afternoon gown of blue veiling over taffeta of the same shade. The sleeves have the new full puffs and caps. JUDIC CHOLLET.

Rightful Won Fulton Stakes.

NEW YORK, May 1.—J. W. Schorr's Rightful, with Bullman up, won the Fulton stakes for three-year-olds at Jamaica. This race is a mile and seventy yard gallop, and a good class of horses started. Africander, who was making his first appearance of the year, opened favorite, but closed at second choice. Rightful broke in front, and Ahumada went to him on the turn. These two raced head and head to the turn out of the back stretch, where Rightful drew away and, holding his advantage to the end, won driving by a length, with Africander second and Colonist, an outsider, third.

Chicago Racing Results.

CHICAGO, May 1. — Hildredth's chestnut gelding C. B. Campbell, backed down from 2 to 1 to 6 to 5, won the mile and seventy yard handicap, the feature of the card at Worth, beating Albula a neck, with Scotch Plaid third, a neck away. It was a spirited contest, in which Campbell outfooted the other two. The result was undoubtedly due in large part to the excellent riding by Jockey A. Hall on Campbell.

Bad Accident at Kinloch Park.

ST. LOUIS, May 1.—South Breeze, third choice in the betting, won the Goodwood stakes, the feature of Kinloch park races. In the second race Fridolin, the favorite, and Woodstick collided on the stretch turn. Both horses went down and were so badly injured they were destroyed. Their riders escaped unhurt.

Powder Explosion Killed Nine.

HOLLIDAYSBURG, Pa., May 1.—The Crescent Powder company plant at Ganister has been completely wrecked by a series of four explosions. Of the thirty employees nine were killed outright, and all the others were badly injured by being blown about the buildings. Adam Taggart of Pittsburg, the superintendent, was found unconscious in his office by his wife and was dragged out of the burning building by her at the risk of her life. The Crescent Powder company supplied the powder and dynamite used in the large limestone quarries of the United States Steel corporation in this country and is owned by Pittsburg capitalists. There were eleven buildings in the plant, of which number five are still standing.

Barker Succeeds Higginson.

NEWPORT NEWS, Va., May 1.—At noon yesterday Rear Admiral Higginson hauled down his flag and the flag of Rear Admiral A. S. Barker was hoisted to the masthead of the battle ship Kearsarge with the customary ceremonies and salutes, Admiral Barker assuming command of the north Atlantic squadron. Rear Admiral Barker sailed for Tompkinsville later with the battle ships Kearsarge, Alabama, Iowa and Massachusetts, which will go into dry dock at Brooklyn preparatory to making their cruise to the Azores this summer. The battle ships Illinois and Texas, the cruiser Olympia and the refrigerating ship Culgoa proceeded to Old Point.

Ottoman Bank, Salonika, Dynamited.

SALONIKA, European Turkey, May 1.—The Ottoman bank has been destroyed by dynamite. The Turkish post office and other buildings were also attacked, resulting in a panic, during which two men were killed and two persons were injured. A detachment of 2,000 additional troops has since arrived here from Smyrna. The attack on the bank was carried out by two bands of men. One of them attacked the guard on duty at the bank and the other hurled the bombs. It is thought that the strong room resisted the explosions. Several of the men who took part in the attack have been arrested.

Czar Asks Clemency For Assassin.

CONSTANTINOPLE, May 1.—The czar has requested that the sentence of death passed upon Ibraham, the Albanian soldier who recently assassinated M. Stcherbina, the Russian consul at Mitrovitza, be commuted to penal servitude for life.

Death From Sunstroke at Paterson.

PATERSON, N. J., May 1.—The first death from sunstroke this season occurred here yesterday. The victim was Henry Engelgrecht, forty years old. He was unloading barrels from a truck when he was stricken.

AN IDEAL LOCATION

BEAUTIFUL AND ACCESSIBLE.

Linden, New Jersey.

ON MAIN LINE PENNSYLVANIA RAILROAD.

Rosedale and Linden Park Cemeteries

Largest Burial Parks in the State.

Transportation Facilities superior to those of any other cemetery, as to number of trains, railroad fare, time and distance.

These New Cemeteries, now being developed on the modern park plan, are attracting universal attention.

By Reason of Location Alone they are destined, in a very short time, to become the best-known Cemeteries in the country and, with their natural advantages, the most beautiful and desirable in which to purchase lots.

They are Accessible from every quarter and within easy reach of over 4,000,000 people, and, considering the steady and rapidly increasing growth of Greater New York and its tributary cities and towns, it is only the question of a short time before plots in Rosedale and Linden Park will equal in value those of our most noted cemeteries.

Popular Favor has already been shown to a marked degree in the sale of lots, several hundred having been sold to residents in Elizabeth, Linden, Rahway, Cranford, Jersey City, Orange, Paterson, Westfield, Newark and New York City, and a large number of interments have been made.

In the Days of Happiness we do not know what is to befall us or when the inevitable will occur; therefore, it is a wiser precaution to make provision for a final resting place during health and life than to force the painful duty on one's friends or relatives after death. A place of burial will be needed sooner or later by every one, and no one should neglect selecting a suitable and proper place until future postponement is impossible.

Linden Lodge is the largest, most modern and best equipped Cemetery Lodge in the country and is provided with every requisite for the comfort and convenience of visitors who come to inspect the properties.

Forest Blaze Destroys Largest Mill In America.

MANY SUMMER HOTELS IN DANGER

Worst Devastation In Years Visits Great Mountain Holiday Resorts at Placid, Loon and Tupper Lakes and Sturgis Region.

PLATTSBURG, N. Y., May 1.—The forest fires in the Adirondacks have gained great headway on account of the high wind in spite of the heroic efforts to check them. Nothing but a good long rain will save the woods in many places from being seriously damaged. Telephone and telegraph wires are down, and but few details are at hand, but enough is known to make it certain the worst forest fire in years is raging.

At Dannemora close watch is being kept that the state prison buildings do not become damaged.

At Lyon mountain the Chateaugay Ore and Iron company shut down all their mines and rushed the men by special train to Standish, where the fires have already burned large quantities of pulp wood and charcoal wood.

At Plumadore, Manley's Kilns and South Inlet hundreds, probably thousands, of cords of pulp wood have been destroyed, and at Plumadore three dwellings have been burned.

At Loon lake the summer hotel, the Loon Lake House, owned by Ferdinand W. Chase, is in serious danger.

At Lake Placid the White Face inn, one of the largest hotels there, is entirely surrounded by forest fires, and unless rain comes soon it cannot be saved.

Proprietors of summer hotels all through the Adirondacks have appealed to the railroads for assistance, and the response has been prompt. Every available man on both the New York Central and Delaware and Hudson roads has been pressed into service.

The Hurd sawmill at Tupper Lake, N. Y., which at the time it was erected, about twelve years ago, was the largest sawmill in the United States, caught fire from forest fires during the night and was destroyed, throwing 200 men out of employment. The entire population of Tupper Lake is fighting the flames. The contractors on the Chateaugay railroad have sent a gang of men to the Loon Lake hotel in the hope of saving that hostelry.

The top of Stregis mountain can be seen ablaze with forest fires, but none of the woods owned by the Paul Smith Hotel company has caught fire as yet. At McColloms and Mountain View gangs of men are fighting the fires in the surrounding woods to protect the hotels.

A telegram from Malone says it is almost impossible to breathe, the village is so filled with smoke, and fires can be seen raging in all directions.

Pennsylvania Forest Fires.

BRADFORD, Pa., May 1.—The worst forest fires in the history of this section of Pennsylvania are now raging. A million dollars' worth of property has been destroyed. Watsonville, south of this city, is reported as being destroyed, and it is feared that a number of lives have been lost. The last word from there was that the fire had surrounded the place and the people were fearful of being burned to death, as there was no avenue of escape. All wires are down in that direction. At Simpson, where the forest is thick and a large number of oil wells are located, the fire is very fierce. On both sides of the railroad the woods are a mass of flames. The people of the town were rescued by a special train being run as far as Davis City and brought to this city. They lost all their belongings. The town of Mount Jewett was threatened with destruction from the fires that have hemmed in the place.

Russian Rioters Kill Women.

VIENNA, May 1.—Horrible brutalities are reported to have occurred during the anti-Jewish riots at Kischeneff. Many women and children were victims of the mob, which included even the better classes of the inhabitants. Some of the victims were thrown from windows to the pavement. The rioters also pillaged and defiled the synagogues and killed the caretakers. What the looters of houses were unable to carry off they saturated with paraffin and burned. The damage done to property is estimated at several million rubles.

Paris Awaits King Edward.

PARIS, May 1.—This city has taken on an aspect of festivity in anticipation of King Edward's arrival here at 3 o'clock this afternoon. The boulevards and avenues radiating on the Place de l'Opera wear a brilliant appearance. The buildings are looped with bunting and flags, and the avenues are filled by a succession of handsome arches resplendent with flowers and flags.

CONDENSED DISPATCHES.

Mariquina, Philippine Islands, has been destroyed by fire. A thousand families are homeless.

Mr. and Mrs. Reginald C. Vanderbilt have returned from their wedding trip in Canada and are at Newport, R. I.

King Edward has left Rome for Paris. There was a great demonstration of popular good will on his departure.

A jury at Frankfort, Ky., has convicted James Howard as principal in the murder of Governor Goebel and given him life imprisonment.

One person was killed and six were seriously hurt in a collision of freight trains on the New York, New Haven and Hartford railroad at Stormville, N. Y.

SPORTING NEWS

ON THE DIAMOND.

The North Plainfield Athletic Club defeated the St. Nicholas nine 3 to 2 on the High School field Wednesday afternoon.

Several new candidates for positions on the Y. M. C. A. team will be called out Saturday for practice. Manager John Steiner is rapidly getting his team in shape for the season.

"Horse" Pond, well-known in local athletic circles, played centre field on the Khiani Club in the game with the City High School Wednesday afternoon. Pond is a sophomore at Princeton.

Manager Denman, of the Westfield Baseball Club, informed The Daily Press this morning that "Jimmie" Montross will positively pitch for Westfield tomorrow in its opening game with the Seventh Regiment team of New York.

Ex-Gov. Foster M. Voorhees and Congressman Charles N. Fowler have accepted the invitation of the Westfield Baseball Association to attend the opening game at Westfield, tomorrow. The Congressman will put the first ball in play.

Manager Cose has made arrangements to play the New Market team on Hope Common, Saturday, May 9. It is also possible the Hopes will cross bats with the Alis Club on the latter's grounds, May 16. It will mark the reopening of the old Crescent Oval.

The Alis Club began practice yesterday afternoon on Alis Common, Randolph road. The team will line-up against St. Mary's, tomorrow, as follows: Dupee, p; Barnes, c; McLaughlin, 1b; Hoffman, 2b; Noble, ss; G. Schoonmaker, 3b; Lederer, lf; W. Schoonmaker, cf; Pond, rf.

Some baseball games tomorrow of interest to Plainfielders will be the following: Westfield against Seventh Regiment, at Westfield; Hope Y. M. A. against Scotch Plains, at Scotch Plains; Alis Club against St. Mary's, on St. Mary's grounds; Y. M. C. A. against Clinton Avenue, on Hope Common; Safe Works against Garwood A. A., at Garwood. In nearly every case the games are scheduled to begin at 3:45.

GOLF.

The second annual invitation tournament of the Garden City Golf Club began yesterday. Among those who will contest are Frank O. Reinhart and J. Whitney Baker.

The handicap committee of the Metropolitan Golf Association, yesterday announced the rating for the golfers in the Metropolitan district, which includes many Plainfielders. Those from this city are rated as follows: Frank O. Reinhart, 4; Robert Abbott, J. W. Baker, W. L. Glenney and N. P. Rogers, Jr., 8; Frank C. Talmadge, Willard Wadsworth, 9; Morris J. Dumont and S. H. Patterson, 11; A. R. Fisk, C. W. Fisk and C. E. Halstead, 12.

Great surprises were given at the invitation tournament of the Garden City Golf Club yesterday, when Frank O. Reinhart, of Princeton, defeated Walter J. Tarvis, in the first match-play round, by 3 up and 2 to play. Reinhart made an 81, while Travis finished with an 83. In the first round match-play for the first cup, J. Whitney Baker, of Princeton, beat E. A. Freeman, of Montclair, by 1 up. The second rounds for the two cups will be played today.

A great improvement has been made at the Hillside Tennis and Golf Club grounds in the erection of two rustic shelter houses. One is stationed at the entrance to the grounds near the trolley terminus, where people can find a convenient place to wait for the cars, while the other one has been located near the tennis courts. This affords a pleasant means of sitting down to watch the games of tennis. Other improvements are constantly being made about the grounds for the purpose of increasing the pleasure of the members and their friends.

VARIOUS SPORTS.

The title of champion running high diver of Plainfield seems to be in dispute. Walter McNaughton claims the honor on account of a recent dive of five feet eight inches, at the Y. M. C. A. gym, while "Duke" Mulford rests his claim to the premiership on a performance of six feet four and one-half inches made Monday night through a wooden window three feet square. Mulford states that if McNaughton desires a match he can have it by addressing George Herman, East Front street.

TENNIS.

The tennis committee from the Hillside Tennis and Golf Club is planning for several team matches during the season. Among the clubs that will play on the Hillside courts are Englewood, Cedar Brook and Park Club. The Englewood team would like to play at Hillside and then entertain the local team on its home courts in a return match. This will no doubt be arranged.

Fire in Brush Heap.

A fire in a brush heap near Randolph road at about 7:40 last evening caused considerable alarm. Mrs. James W. DeGraff, who lives on Central avenue, telephoned to fire headquarters that an explosion and fire had taken place in that locality, but investigation showed that the conflagration was confined to a brush heap.

Chance to Get Acquainted.

A reception to the young people new to the First Presbyterian church, was given last evening at the home of Leroy Gates, of First place. The evening was pleasantly passed with music and playing games. The affair was entirely informal and served well its purpose of introducing the new members into the fellowship of the church.

Plans for Memorial Day.

The committee from Winfield Scott Post, No. 73, G. A. R., and the Woman's Relief Corps having charge of the Memorial Day exercises will meet Saturday evening to perfect plans for the observance of the day.

Lunch-Box Social.

Under the auspices of Howell Division, Sons of Temperance, a lunch-box social will be held Monday evening.

DeWitt's Little Early Risers are the famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. CAMERA CLUB WINS TROPHY BACK AGAIN

Recovers Metropolitan Whist Trophy From Park Club's Veteran Four.

IN A CLOSE CONTEST

PARKS WON TROPHY FROM CAMERA CLUB NINE WEEKS AGO.

One of the Closest Matches of the Season—The Camera Club Winning by a Score of 10 to 8—The Regular Teams Play.

After holding the Metropolitan challenge trophy for nine weeks, during which time they scored eight consecutive wins for it, the veteran Park Club whist four lost the match last evening to the Plainfield Camera Club team. It was by far one of the best matches yet played this season, the play being exceedingly close. Strangely, it was the Camera Club team that lost the trophy to the Parks nine weeks ago, after the former had scored five consecutive wins.

The Camera Club team won last evening's match by two tricks. So close was the playing that it was not until the last round was nearly finished did the Camera Club team realized that it was in possession of the valued trophy. The Parks took the first round 3 to 2, while the Camera Club four took the second round 5 to 2. The last round was a tie, each team scoring three points, making the total score 10 to 8 in favor of the Camera Club.

The Park Club four consisted of Samuel Townsend, S. St. John McCutchen, George T. Rogers and Joseph H. Howell, while A. F. Freeman, F. H. Freeman, W. J. R. Hegeman, Jr., and Ralph T. Willis represented the Camera Club. The Forest Hill Whist Club is the next challenger and the match will probably be played at the Camera Club rooms Thursday evening, May 7. This will give the Camera Club team plenty of whist for next week as on Monday evening the team plays the Newark Bay Boat team for the State trophy.

PLANS FOR CAMP-WOOLFE

FRESH AIR CAMP AT WESTFIELD TO BE CONTINUED.

Reports Received and Officers Elected to Take Charge This Year.

There was a largely attended meeting Monday evening of this week at Westfield under the auspices of the Union Fresh Air Mission Association. The meeting was held in the chapel of the Presbyterian church and there were over 100 workers present to listen to the reports of last year and form plans for the coming season at Camp Woolfe. There were interesting addresses by the various leaders and officers of the association and the report of the treasurer showed the receipts for the past year to be $1,637.61 and disbursements $1,633.27, leaving a balance of $4.34.

The matron of the camp, Mrs. Gertrude H. Diehl, gave a bright and interesting talk on the work of last season and her hopes and plans for the coming season.

The following officers were elected: President, George E. Woolfe, of New York; first vice president, Arthur N. Pierson, of Westfield; second vice president, Joseph Philp, of Cranford; third vice president, H. Higbie, of Elizabeth; secretary, Miss Edith Morehouse, of Westfield; treasurer, Lawrence A. Clark, of Westfield.

Clipping Social.

A clipping social was held last evening at the Grace M. E. church under the auspices of the Golden Rule Circle, King's Daughters. The social was largely attended and was given for the purpose of assisting in completing the pledge towards the support of the City Nurse.

Street Sprinkling.

In the city of Easton, Pa., the street sprinkling is done under the direction of the municipal government, and it is the duty of the chief of the fire department to see that the various taxpayers pay for the sprinkling. The streets are watered by the fire department.

Chance to Exercise.

The latest acquisition to the rooms of the I. O. T. Club is a punching bag for the use of the members. It is complete with a rack and is a fine one. This is the first of a number of apparatus which the club intends securing.

—Miantonomo Tribe, No. 118, Improved Order Red Men, will work the adoption degree this evening, after which the good and welfare committee will provide a good time.

Claim Admitted by Borough Counsel—Appropriation Made to Grand Army for Memorial Day—The Routine Business Transacted.

Bids were opened for bonds for the new engine house in the borough, an appropriation of $35 was voted for Winfield Scott Post, G. A. R., for its Decoration Day celebration, a matter regarding the payment of back interest on money borrowed for school expenses by the Borough Board of Education, were the principal items discussed last evening at the regular monthly meeting of the Borough Council in the Council Chambers. All the members were present excepting Councilman Nichols.

The bids for the fire house bonds were received shortly after the meeting opened. The bid of the Plainfield Trust Company for $10,100 for 4 per cent. bonds expiring on January 1, 1915, was the highest of the three received. It was awarded to the local banking concern. The others were from W. J. Hayes, bankers, of Cleveland, O., for $9,900 and Dicken, Robinson & Company, of New York, bankers, $10,003.

A communication was received from the Plainfield Board of Trade proposing that a committee of three be appointed by the Mayor to confer with a committee from the City Council and a committee of four from the Board of Trade to see what could be done in the way of a consolidation of the two towns. Mayor Smalley appointed Councilmen Robert Clark, Jr., Charles L. Lee and Morris O. VanArsdale.

A communication was received from the Board of Education of North Plainfield calling attention to the present school law which provides that when a school tax has been voted and assessed but has not all been collected, the shortage shall be made up from taxes received from other purposes or borrowed by the borough to make good this deficiency. The board claimed that the law had not been observed, with the result that the board had been compelled in the past to borrow in anticipation of such taxes to meet school expenses and the interest charges met from school funds while properly they should have been borne by the borough. This letter stated that $552.08 in interest has been paid out of the school funds since 1897 and asked if it was not proper to have it refunded from the general fund of the borough account.

This matter was referred to Borough Counsel Charles A. Reed who stated that there was no question but the board was entitled to the money it asked for. Previous to 1898 this was not so but the law of 1902 changed it. It was referred to the finance committee.

Treasurer and Tax Collector George F. Brown reported that the total receipts for the past month were $3,750.06, disbursements, $3,016.26, leaving a balance on hand of $733.80.

Chairman James K. Arnold, of the street committee, reported that the sum of $295.35 had been spent out during the past month for street repairs and Chairman Clark, of the lamps committee, stated that $463.65 had been spent for supplies and cost of lighting and added to $95.13 for Architect Smith's salary, in part, the amount was $559.78. Eight arrests and $15 collected for fines were reported by Chairman Lee, of the police committee. Claims, amounting to $1,250.43 in the aggregate were ordered paid. A resolution by Chairman Northrup, of the finance committee, was offered authorizing the Mayor and Clerk to borrow $1,000.

Chairman Arnold, of the streets committee, offered a resolution to the effect that Walnut avenue, between Harrison avenue and Wilson avenue, be macadamized. Two resolutions were offered by Councilman Lee, one to the effect that back salary be paid to Lawrence Fahn and that the sum of $40 be appropriated for the purchase of a uniform for a regular marshal. Mayor Smalley appointed Hayes C. Reynolds as special marshal for one year beginning yesterday.

GIFTS TO THE HIGH SCHOOL

WERE PRESENTED FROM THE SENIOR AND JUNIOR CLASSES.

At May Day Exercises Held at City High School Yesterday Morning.

Special May Day exercises were held at the City High School yesterday in connection with the usual morning exercises of the day. There were two recitations, one, Burns' poem, "To a Mountain Daisy," by Miss Jean Douglass, and the other Bryant's "Forest Hymn" recited by Miss Louise Taylor. In connection with the exercises was the presentation of two works of art to the school, one by the senior and the other by the junior class.

The senior gift consisted of Robert VanVorst Sewell's recent masterpiece, "The Canterbury Pilgrimage," the original of which adorns George J. Gould's summer home at Lakewood. The picture presented was a carbon photograph, twelve feet in length, framed in three sections. It represents twenty-one of Chaucer's Canterbury Pilgrims on the road to Canterbury. Miss Dorothy Waldo, the class president, made the presentation speech. The junior class presented a plaster cast of Michelangelo's "Moses," together with a handsome pedestal. This is considered one of the most famous works of the noted Italian artist and will prove a valuable addition to the art works of the school. The statue was presented by VanDyke Brooks, the junior president, in the name of the class. Principal Ira W. Travell, of the school acknowledged the gifts in a few words and spoke of their value as works of art. President Probasco of the Board of Education also spoke a few words to the school on the value of pictures in everyday life.

A feature of the programme was a selection, "Blaze Away," by the school Mandolin Club. "Aunt Pheobe's Jubilee" was given as an encore. The mandolin quartette consists of Wm. P. VanEps, C. H. Briggs, Theodore Gavett and Lucius T. Koons.

Feature of Miss Whitney's Recital at the Casino.

Poses plastique will be a notable feature in the musicale to be given by the Misses May Vincent and Bertha Hurst Whitney at the Casino, Tuesday, May 12. In addition to this great feature, Miss May Vincent Whitney will again delight her many friends by her exquisite piano performance and Master Erskine Porter, the famous nine-year-old soprano, will be heard in vocal selections.

A clipping social, which was held under the auspices of the Golden Rule Circle of King's Daughters, for the benefit of the city nurse, was the means of attracting a large number of people Thursday evening at Grace M. SAW TWO MEN OPENING SAFE

Patrolman Saunders Captured One, Joseph Block, While His Companion Escaped.

NO CLUE TO MISSING ONE

Man Passing Saw Burglars at Work and Summoned Policeman—Block Arrested and Held for a Hearing Next Week—They Had Secured No Booty.

Joseph Block, of New street, with a companion broke into Fay's bakery store at the corner of West Second and Liberty streets this morning at about 3 o'clock. Block was captured while attempting to pass through a back window. His companion escaped.

The men were seen by Harris Farbman, of West Third street, who was passing by the bakery window and noticed the men drilling into a safe. Farbman watched them for a time and then notified Patrolman Saunders. Saunders manoeuvred cautiously but unluckily was seen by the men who rushed to the back of the store. Block was taken without a struggle while in the act of passing through a rear window. Saunders fired his revolver at the other, but the shot went wild and the man escaped. No adequate description of him has yet been obtained.

When discovered the men were in the act of opening the door of the safe, but had not had time to remove any of its contents. It is thought they had learned that Mr. Fay had recently sold some valuable diamonds and kept the money in the safe. The case against Block will probably come up Monday or Tuesday of next week. He is now locked up at police headquarters.

HOSE WAGON STRUCK POLE

HARNESS BROKE AS APPARATUS WAS GOING TO THE FIRE.

Wagon Ran Into Telegraph Pole, But No Damage Resulted—Fire Was Small One.

Frank D. Hart, the driver of No 2 hose wagon at headquarters, had a narrow escape from being severely injured if not killed yesterday afternoon while responding to an alarm of fire from box 63 at the corner of South avenue and Berkman street. From East Third street he started to turn into Berkman street when the "split ring," which is connected with the collars of the horses and the ends of the tongue of the wagon, broke open setting one horse free and badly frightening both of them.

The wagon running wild collided with a telegraph pole and almost threw the driver from the seat. The vehicle struck the pole a glancing blow, turning the wheels around. Both Hart and the horses escaped injury.

The fire was in a shed adjoining the factory of the Rushmore Dynamo Works on South avenue. In the shed was stored some yellow pine timber which, it is believed, caught fire from a spark from a locomotive. The blaze was soon under control. The damage will amount to about $100. The lumber was not insured.

Mr. and Mrs. E. R. Ackerman Returned Yesterday by Deutchland After a Pleasure Trip Abroad.

The steamer Deutschland of the Hamburg-America Line arrived yesterday from Hamburg, Southampton and Cherbourg, after a slow trip of six days, 19 hours and 28 minutes. It was a very stormy trip, the big steamer being battered by giant waves and two passengers being injured. For three days the ship had a mighty tussel with the sea. Mountainous seas, pushed along by violent winds, boarded the storm-swept steamer, and two passengers, who ventured on deck were injured so that they were in the care of the ship's surgeon.

Among the passengers on board were Mr. and Mrs. Ernest R. Ackerman, who completed a pleasure trip abroad covering 15,000 miles. This makes a total of 300,000 miles travelled by Mr. Ackerman on his pleasure trips. They return home greatly benefitted in health. The trip was one of the best yet made by them.

GREAT MORAL LEADER.

Life of St. Francis, of Assisi, Described in Lecture by Prof. Griggs in All Souls' Church.

One of the great moral leaders of all time, St. Francis of Assisi, the founder of the great Franciscan order, was the subject of a lecture by Professor Edward Howard Griggs, of New York, at All Souls' church last evening. Professor Griggs revealed St. Francis' relation to the century in which he lived and traced the career of the great Christian from his care-free youth in Assisi through his conversion and renunciation of things worldly to the founding of the orders of St. Francis and Santa Clara. He revealed the meaning of his work and its importance to Christianity. "St. Francis' life was a consecration to a spiritual ideal; he was in the truest sense God's troubadour."

It was a fascinating subject, portrayed in an intensely interesting manner. Professor Griggs' eloquence and depth of knowledge and sympathy with his subject need no comment. His absolute mastery of perspective and detail, and his fine insight into the life and work of the "greatest Christian since Christ" combined to make the lecture notable. The attention of the audience did not waver for an instant.

DISASTER DID IT.

William B. Clarkson, of Sewaren, brought suit against the Jersey Central Railroad for $300 damages. Clarkson, who is employed in a telephone agency in New York, took a train at Jersey City for Sewaren on the night of January 27. It should have connected at Elizabethport with a Newark train for Sewaren, but that was the night of the railroad wreck at Westfield and the train was delayed.

He was obliged to go to Rahway, take a train to Woodbridge and walk home. He was put to an extra expense of 27 cents, he said, besides the inconvenience. He said that the company had offered to pay him $25 but he did not think that was enough.

Judge Erwin told the jury when the case was brought before him Thursday that as the company's service was disarranged by the Westfield disaster it could not be charged properly with negligence. The jurors gave Clarkson a verdict for $25.27.

MEDICAL MEN MET.

Dr. J. H. Buchanan Made Officer of Somerset County Medical Society.

(Special to The Daily Press.)

Somerville, May 2—The Somerset County Medical Society held its annual meeting at the TenEyck House here Thursday afternoon. There were twenty-two physicians in attendance. The following officers were elected: President, Dr. C. R. P. Fisher, of Bound Brook; vice president, Dr. J. P. Hecht, of Raritan; secretary, Dr. J. H. Buchanan, of North Plainfield; treasurer, Dr. T. H. Flynn, of Somerville; reporters, Dr. Wm. H. Long, Jr., of Somerville.

Prof. Wilson, of the Jefferson Medical College, of Philadelphia, spoke on "The Advantages of an Early Diagnosis of Tubercular Joint Diseases." Dr. Ward and wife of Trenton were in attendance. An elaborate course dinner was served by the landlord of the hotel.

THEATRICAL.

"King Dodo," the new comic opera which comes to the Grand Opera House, New York, Monday night for one week with flattering endorsements, will be produced by the big organization which Henry W. Savage presents in all its completeness. The work is from the prolific pens of Frank Pixley and Gustav Luders and is said to be a much more pretentious work then their previous efforts, departing entirely from the conventional lines in construction and musical themes. The story has to do with the overpowering desire of a decrepit old monarch to drink from the fountain of youth and the scope for humorous situations and witty dialogue is declared to be of the broadest character Musically the piece is pronounced surpassingly catchy and there are said to be no less than a score of lyrics which produce the whistling quality to a marked degree.

Last night marked the 100th performance of "The Earl of Pawtucket," with no variation in the story of the large and enthusiastic attendance at the Manhattan Theatre, New York. Every evening that theatre is filled to its capacity by the most brilliant and fashionable audiences known to the present theatrical season in the metropolis. One evidence of the popularity of this comedy is seen in the fact that in many suburban cities and towns theatre parties are made up, special trains are secured, and in this way many people are enabled to see the performance who otherwise might be barred from the pleasure were it not for the fact that these parties are sufficiently large in number to warrant the railway companies in providing excursion trains for their accommodation. Managers Harrison Grey Fiske and Kike La Shelle have effected an understanding with the leading railway companies centering in this city, so that excursion parties will not experience any difficulty in arranging theatre parties, provided the number is sufficiently large to warrant the running of extra trains.

MORE PAY FOR LABOR

Thousands of Workingmen Seek Better Conditions.

NEW YORK SUBWAY WORK HALTED

Leaders of the Movement Want to Avoid All Trouble, but Will Insist on Just Demands Being Granted.

NEW YORK, May 2.—Workingmen to the number of 14,000 are concerned in a movement in this city for higher wages.

The leaders of this movement declare that in its magnitude it is unparalleled in the history of like demands in any city in the world. In the case of a large contingent the increases asked have been granted.

These men have used their influence to avert strikes through arbitration. Some of those who are dissatisfied because they have not gained their ends threaten to mar the otherwise peaceful situation by abandoning their work. There are more than 125,000 of the latter class. About 14,000 are satisfied with what they have received in answer to their formal requests.

About 4,700 structural iron workers connected with the United Housesmiths and Bridgemen's union have received increased wages from the National Association of Structural Iron Manufacturers and Erectors.

Although conciliatory methods have averted labor dissensions that portended most extensive trade embarrassment in New York on May 1, several serious demonstrations have taken place. Between 20,000 and 30,000 employees in the subway are on strike, and construction is thoroughly halted. The striking laborers, who are mostly Italians, paraded yesterday over a course from Harlem to Washington square.

Only about seventy-five or eighty tugs of independent companies are tied up, and traffic is not affected to any serious extent.

The Team Drivers' union, comprising about 4,000 men, are on strike for higher wages.

Chicago Laundrymen Out.

CHICAGO, May 2.—Twenty-five hundred members of the Laundry Workers' union have quit work. There are 5,000 of these workers, including laundry wagon drivers, and less than one-fifth of the number are men. Chinese laundries, of which there are nearly 1,000 in Chicago, are to be involved.

Philadelphia Labor Troubles.

PHILADELPHIA, May 2.—More than 7,000 men in the building trades are on strike here. This action affects directly 1,000 additional workmen, and should the strike continue a week building operations will cease and over 40,000 men will be rendered idle.

Five Thousand Out In Toronto.

TORONTO, May 2.—About 5,000 men are involved in a strike here. Carpenters, builders, laborers and cement pavers demanded an increase of 5 cents an hour, which the bosses refused to concede.

Small Strike In Boston.

BOSTON, May 2.—Many May day adjustments have been reached in the city, and reports received by labor officials indicate that not more than 1,200 laborers were actually compelled to strike.

American Consul Fined.

SOLINGEN, Rhenish Prussia, May 2.—American Consul Landger was fined by the judge of a local court for disorderly conduct in the court room, where he was present as a witness. Mr. Landger protested that he was a United States official and could not be fined in that manner, and the judge sentenced him to three days' imprisonment for continued disorderly behavior. The consul left the court room without being arrested.

Strange Disease Attacks Cattle.

OGDENSBURG, N. Y., May 2.—Thirteen cows and seven horses have died within two weeks on the farm of Hiram Seely in Waddington from a mysterious disease which veterinarians seem unable to diagnose. Strange horses left in the stable over night died the following day. One horse owned by Seely is not affected, while animals bought to replace dead ones have died. Stock on neighboring farms has not been affected.

Filipino Leader Captured.

MANILA, May 2.—Governor Cailles of Laguna province and a party of volunteers have captured Rios, the fanatical Filipino leader in that part of the island of Luzon. Rios was in the dress he had worn when appearing as a "prophet." He is said to be guilty of many crimes and probably will be tried for murder.

April Debt Statement.

WASHINGTON, May 2.—The monthly statement of the public debt shows that at the close of business April 30, 1903, the total debt, less cash in the treasury, amounted to $938,935,418, a decrease as compared with April 1, 1903, of $668,501.

Snow Checks Forest Fires.

PLATTSBURG, N. Y., May 2.—The heavy snowstorm over the Adirondacks practically checked the fierce forest fires that have spread rapidly in the last week. The temperature dropped about 50 degrees.

Arditi, Musical Conductor, Dead.

LONDON, May 2.—Luigi Arditi, the well known musical conductor, is dead at his residence at Hove, Sussex.

Weather Probabilities.

Fair; rising temperature; light, variable winds.

Test Its Hair Growing Powers FREE

To prove what this great Hair Beautifier will do for you, every reader of this paper who is troubled with dandruff or with the appearance of gray or faded hair or bald spots may have by mail a FREE sample bottle. (See Free Bottle Offer below.)

Don't Look Old.

A feeling of regret comes with the first gray hairs. They stand in the way of business and social advancement. Hay's Hair-Health affords a sure means of restoring to the hair the beauty of youth.

Stops Falling Hair

"My hair is now restored to its youthful color. I have not a gray hair left. My husband says I look 20 years younger, and my hair ceases to fall, while before I was in danger of becoming bald."

A Public Boon.

Hay's Hair-Health has earned this title, and thousands are enjoying fine heads of hair produced by this preparation. It quickly cleanses the scalp, removes dandruff, stops falling and breaking of the hair, and changes it if gray to its youthful color and luxuriance.

Stains Nothing.

It is not greasy or sticky; not a dye; does not rub off. Never soils anything. It is made from absolutely pure ingredients and may be safely used by old or young. Hay's Hair-Health is a clean, creamy dressing, delicately perfumed and highly desirable in every way.

In 1900-1901 this preparation was tested to the extent of over five million bottles in the United States and British possessions. It is highly endorsed by the nobility.

H. H. H. is sold by leading druggists everywhere. A large 50c. bottle sent, prepaid, in plain sealed package by PHILO HAY SPECIALTIES CO., 221 Lafayette st., Newark, N. J.; also a 25c. cake Harfina Medicated Soap, best soap for toilet, bath, skin, and hair, all on receipt of 50c. and this advertisement. Never accept a substitute for either of these preparations.

One Bottle Does It.

That is the expression of many who have had their gray hairs restored to youthful color and their bald spots covered with hair after using one bottle of Hay's Hair-Health.

No More Gray Hair.

should you live to advanced age, if you use Hay's Hair-Health occasionally. It is a vital hair food.

Guaranteed

TO QUICKLY RESTORE FADED, BLEACHED or WHITE HAIR to youthful color without staining the skin. An occasional application keeps the hair soft, glossy, of silken texture and disposed to remain in any desired position. Every lady needs a bottle on her dresser.

Harfina Soap.

Nothing like it for keeping the scalp free from dandruff, clear and rosy. Dandruff causes baldness. To keep the hair, scalp and beard in healthy condition, make a strong lather of Harfina Soap and shampoo freely. If it is desired to restore gray hair to youthful color, apply Hay's Hair-Health after shampoo. The grayness will disappear and the hair grow forth in its youthful color and beauty.

A Surprise at Jamaica.

NEW YORK, May 2.—The surprise at Jamaica was the defeat of the 1 to 4 favorite Julia I. in the fourth race. Julia M., on her good race of Wednesday, was made a prohibitive favorite, but third to Contentious and Mordellar was the best she could do. Cameron, the favorite, won the Newtown stakes in a driving finish by half a length from Demurrer. H. R. Schaffer, the owner of the second horse, bid up the winner to $4,000, an advance of $2,300 over his entered selling price. The stable bid the extra $5 and retained its horse. Four favorites won.

Chicago Racing Results.

CHICAGO, May 2.—Favonius, backed from even money to 7 to 10, won the fourth and feature event of the Worth card. He was easily the best and when called upon at the end drew away from his field, winning with plenty in reserve, Mimo, at 30 to 1, beating Dan McKenna a neck for second money.

Child Labor In South Carolina.

CHARLESTON, S. C., May 2.—The child labor bill, known as the Marshall law, is now in effect throughout South Carolina. Under its provisions no child under ten can legally work in any cotton mill. There were so few of such employees that the enforcement of the law did not create a ripple at Columbia, the state capital and a great factory center, where about twenty children were employed. The children reported as usual, but were not permitted to work.

General Viall Dead.

PROVIDENCE, R. I., May 2.—General Nelson Viall, for thirty-six years warden of the Rhode Island state prison, died in Howard, aged seventy-six. He had a national reputation in matters relating to prison discipline. He was a veteran of the Mexican and civil wars.

LAID A CORNERSTONE

Roosevelt at Y. M. C. A. Convention In Topeka.

WARM GREETINGS IN KANSAS CITIES

Earlier In the Day the President Spent Several Hours In Kansas City, Mo., and Her Namesake Across the Line.

TOPEKA, Kan., May 2.—President Roosevelt made two addresses in Topeka last night, one at the laying of the cornerstone of the new railroad Y. M. C. A. building and the other at the Auditorium before the international convention of the Y. M. C. A. Both addresses were heard by immense crowds of people and were received with the greatest enthusiasm. After laying the cornerstone for the Y. M. C. A. building the president was conducted to the residence of Governor Bailey, where he was entertained at dinner. His last address was given at 9:30 o'clock. The crowd was very large, but so excellent were the police regulations that there was little or no confusion.

The work of putting up decorations began early. Flags were displayed in great numbers on the store fronts. The entrances to buildings were draped with red, white and blue bunting. Many private residences put out flags and other decorations in honor of the visit. The Harvard colors could be seen in many places along with the red, white and blue.

President Roosevelt's train arrived in Topeka an hour late. Over 12,000 people assembled at the site of the new Y. M. C. A. building to welcome him. The delay only served to add to the crowd. At 6:55 the booming of cannon announced the arrival of the president's train north of the river. Soon the train was switched from the Union Pacific to the Santa Fe tracks and run down to the new building. Escorted by a local cavalry company and a score of mounted police, the president was escorted to a platform. He made a short address and then laid the cornerstone.

General Manager Mudge of the Santa Fe presided at the exercises. He presented to the president a silver trowel which had been contributed by the road, and with this the president placed the mortar in position.

The opening prayer was made by Rev. H. R. Gregg of St. Louis.

In his address President Roosevelt expressed his pleasure at being in "the geographical center of the United States." He congratulated the delegates to the Y. M. C. A. convention that they had come to Kansas for their great meeting and said he hoped their meeting would be the most profitable ever held. The president characterized the railroad Y. M. C. A. as one of the most potent agencies for good in the country in that it tended to make better men of the railroad employees, upon whom so much depended.

The ceremonies occupied twenty minutes.

President Roosevelt spent five hours in Kansas City, Mo., during the day and was the guest of Kansas City, Kan., just across the state line, for two hours. He left for the west late in the afternoon. In the two cities the president was driven over a route fifteen miles long and reviewed nearly 30,000 school children, made two speeches, one at Convention hall, and partook of a luncheon at the Baltimore hotel as the guest of the Commercial club of Kansas City, Mo.

Saranac Lake Hotel Burned.

PLATTSBURG, N. Y., May 2.—The Stevens House, Lake Placid, is safe and uninjured. The Hotel St. Armand, owned by J. Mannix, near the driving park at Saranac Lake village, has been destroyed by fire, and the fence and buildings of the driving park have caught fire and are now burning. Every effort is being made to stop the flames. It appears that the snowfall that extinguished the flames in most places throughout the Adirondacks was not as heavy at Saranac Lake and did not entirely check the forest fires in that vicinity.

Disastrous Blaze In Virginia.

RICHMOND, Va., May 2.—Over two blocks of buildings in West Point, Va., the York river terminus of the Southern railway, are in ashes as the result of a fire of unknown origin. Among the buildings burned are the express office, the post office, the Pemberton House and a number of stores. Rough estimates put the loss at $125,000, with no estimate of insurance. The fire practically wiped out the business section. No lives were lost.

Wireless Marconi at Rome.

ROME, May 2.—Signor Marconi has arrived here. He was received at the railroad station by the mayor of Rome, members of the ministry and a crowd of several thousand persons, accompanied by a band. Many flags were displayed. The crowd detached the horses from Signor Marconi's carriage and dragged the vehicle to his hotel.

THE GREATEST GOOD.

This attempt to have the drawbridges over Newark bay and the Raritan and Hackensack rivers closed during the rush hours with the railroads is deserving of the support of the people in the suburban cities throughout Jersey. The traffic through none of these bridges amounts to the importance of that of the railroads which feed New York with its business men as well as freight. It is rather important, therefore, that there should be as little delay as possible and any equitable arrangement which will not seriously interfere with the traffic on those waterways is much to be desired.

Plainfield is interested in this movement as the traffic on the Jersey Central is often delayed at the Newark bay bridge by the passage of some craft. In the morning hours when the trains to New York follow each other in rapid succession and a host of men and women are to be carried to their business duties in the great city, it is important that everything shall work for their speedy transportation. Delays at the draw may seriously affect some and are bound to work as an argument against living in this section. The same is true of the late afternoon and early evening when the same procession of trains leaves the Communipaw terminal.

The present project would close the drawbridges for certain hours only. It is opposed by Newark merchants and the boatmen. It may inconvenience some of them a trifle but the far greater inconvenience which results from delayed trains on the railroads should not be forgotten. The greatest good for the greatest number is what is desired and that would be a regulation of the draws so that trains at the rush hours could not be held up by some little oyster sloop or other unimportant craft.

Attention has been called to the difficulty in calling the North Plainfield fire department out for a still or telephone alarm at night. Oftimes a single extinguisher in the hands of a fireman will end a blaze in its incipiency. That assistance cannot be secured now without turning in a box alarm, as there is no one at borough fire headquarters to answer the call. Formerly there used to be a borough marshal constantly on duty in that neighborhood and he generally heard any telephone call. Now there is only one doing duty in the borough at night. While it is expected that different arrangements will be made when the new engine house is built, it would be well if some plan could be adopted now which would place the borough department in closer touch with the public at night.

There were some great sights when the members of the "cellar gang" started work on the new engine house for the borough Thursday night. There were some lame men in the borough yesterday after that lively attack on Mother Earth with picks and shovels. They kept their promise, however, and wielded the instruments for the excavation of the cellar.

Think of it! The sprinkling car of the Elizabeth, Plainfield and Central Jersey Street Railway Company, went into commission before the time it was compelled to according to law. Something must be the trouble. If the company will only continue on those lines hereafter, it will win the love and respect of the whole community.

It would be well if the Common Council looked into the subject of street sprinkling. While it may not be necessary to take any definite action, a little investigation might have a wholesome effect.

Beginning yesterday, the Elizabeth Journal appeared under the charge of its new management.

The sprinkling carts of the borough are doing duty once more. They were decidedly welcome.

BONDS FOR ENGINE HOUSE DISPOSED OF

(CONTINUED FROM PAGE 1.)

The street committee, as a result of a resolution by Mr. Arnold, was introduced to look into the matter of laying a storm sewer on the eastern side of Grove street from the northerly side of Prospect place to Green brook The construction of the sewer will be under the charge of the street committee. That committee was authorized to look into the matter of repairing the washed out gutter on Jackson avenue between Somerset street and Watchung avenue. The meeting then adjourned.

WHAT HE SAID.

W. W. Howland Explains His Remarks at Sewer Meeting.

To the Editor of The Daily Press:—In justice to myself, will you kindly correct your report in The Press of my remarks at the meeting on Wednesday night at Saengerbund Hall? What I did say in part was substantially that while there was no immediate necessity for, or in other words, undue haste in deciding the question of sewers, I would gladly join the citizens of the borough in favor of it, whenever an economical and satisfactory system could be decided upon, which is quite different from what I was reported as saying.

W. W. Howland.

Strangers Welcomed.

A surprise party was tendered Rev. and Mrs. D. O. Lindholm at the parsonage of the Swedish Pilgrim church on East Sixth street Wednesday evening, which took the form of a reception to welcome the strangers to this city, Mr. and Mrs. Lindholm having arrived here recently from Connecticut. The evening was pleasantly spent in playing games and listening to music until a late hour when refreshments were served. There were about twenty members of the church present.

SCARCITY OF LABOR.

It Has Been Disastrous to California Fruit Growers.

A Combination That Failed to Control the Market—San Francisco's Famous Chinatown to Be Moved.

[Special San Francisco Letter.]

LARGE fruit crops, of most all varieties in this state, and a scarcity of labor, and large crops throughout the country, have been disastrous for the growers and shippers of fruits during the past season. Some of the fruit scarcely repaid freights, and much of it did not pay the cost of production, excepting the earliest shipments, and the grapes, which commanded unusually large prices. Large quantities were carried by the canners, consequently they made a small pack, comparatively, and were very particular as to quality and size. Dried fruits averaged much smaller than the previous season, brought lower prices, and the labor of harvesting and in canning cost more. Grapegrowers have been more fortunate, but those of the latest districts lost part of their crops by rain. Generally speaking, the deciduous growers were not prosperous last year. The output, however, was larger than that of the previous year. The total shipments were 8,141 car loads, while the shipments of 1901 were 6,459 car loads. Of the shipments in 1902 New York received 2,475 car loads, and Chicago 1,301 car loads. Pears were in greater demand than any other variety of fresh deciduous fruits, the total shipments being 2,011 car loads; peaches, 1,777; grapes, 1,033, and plums and prunes, 2,475. The shipment of pears shows an increase of about 25 per cent. over that of the previous year. There is a falling off in shipments of peaches of about ten per cent., and an increase of about 30 per cent. in the shipments of plums and prunes. The shipment of grapes shows a slight increase in the eastern demand.

MEXICAN-CHINESE QUARTER OF SAN FRANCISCO.

The output of raisins is estimated at 96,000,000 pounds; that of 1901 was 150,000,000, the largest of any crop in the history of the state. The output of prunes is estimated at 150,000,000 pounds; that of 1901 was 81,500,000 pounds. The prune crop of 1900 was 160,000,000 pounds. While the raisin growers have received good prices, and are working in harmony with the wine makers, the Prune Packers' association has become disrupted, and growers closed out for what they could get. The growers had agreed to sell only to the original packers, and the packers agreed to buy only from the organized growers. The growers were to fix the price, and they attempted to organize 90 per cent. of the growers in the association. Growers not in the association, and those in Oregon, Washington and Idaho, sold for what they could get, and then there was a general "cutting" everywhere.

IMPORTED CHINESE BRIDE.
(Market Value of a Girl Like This Is Fixed at $2,000.)

The output of other dried fruits is as follows: Peaches (estimated) 24,000,000 pounds—5,500,000 pounds less than that of the previous year; apricots, 12,000,000, a falling off of nearly 400,000 pounds; apples, 6,000,000, a decrease of 500,000 pounds; pears, 3,000,000, a decrease of 1,500,000 pounds; plums, 2,800,000, a shorter product by 1,600,000 pounds; nectarines, 420,000, a decrease of about 30 per cent.; figs, 7,250,000, an increase of 740,000 pounds; and dried grapes, 450,000, an increase of 90,000 pounds.

The orange crop for the season of 1901-2 was 19,180 car loads of 350 boxes to the car. The crop for 1902-03 is estimated at 22,000 car loads. The year has been prosperous for orange growers, and the profits were larger than those of the previous season of 1900-01. Within the past few years orange orchards have been more extensively planted in northern California, and these are now bearing, which accounts for the increased crop. Heretofore, it has been held that the southern part of the state was the "citrus belt," but it has been demonstrated that citrus fruits will grow in the foothill sections—north as well as south of the Tehachipi, the so-called belt range. The orange is as secure from frost in the northern foot-hills as in those of the south. And also just as liable to be nipped in the bud. The orange crop from the north was marketed last year before New Year's day, and sent to the south the first ripe oranges of the season. This seems to be strange, but it is owing, it is believed, to the fact that the summers in the north are not so long and dry, and that there is more strength in the soil, whether irrigated or not. Altitude, and not latitude, limits the growing of citrus fruits, and until this fact was learned the cultivation of these fruits was limited to the lower levels of southern California.

The lemon crop of 1901-2 was 1,825 car loads. The crop was not profitable, nor large, as our growers have not reduced the cultivation of this fruit to an "exact science," nor provided for its necessary care and storage. Most of the larger and more experienced growers have made satisfactory profits. While we supply the markets west of Chicago, our growers have not been able to profitably reach the markets of the Atlantic states, owing to the competition of the Sicily

San Francisco is more prosperous than ever before in its history. This is mainly because of the "open door" to the east—China, the Philippines and our acquisition of the Hawaiian islands. There is a great and an increasing demand for laborers, especially in the building line. Within the past year 25 "sky-scrapers" have gone up, from eight to 14 stories. Until a few years ago, there were only half a dozen tall buildings in the city, builders fearing the effects of earthquakes. But as lots became more valuable, the buildings rose higher and were put up much stronger.

The city authorities are endeavoring to "improve" the Chinese quarter out of existence, or rather move it to the suburbs. It is proposed to tear down the rookeries and shanties and widen the streets, after condemning the property for that purpose. Chinatown is about eight blocks square and is encroaching upon the American quarter on three sides, and has absorbed part of the Mexican quarter on the north side. This was, originally, the business part of the city, but as the city extended toward the bay by filling in lots, the merchants moved in that direction, and the Chinese occupied the deserted business houses, some of which have stood for half a century. In this quarter was built the first brick house in the city, the bricks for which were brought from New York on a sailing vessel. It is now a tenement house, occupied by about 500 Chinese. Property in this section has become so valuable within the past year that it looks as if the "Chinese must go" to the suburbs and there build another "Chinatown." But they prefer their present business location. They do an immense trade with the Caucasians, most of which they would lose if they were pushed back out of the business streets. Property owners who rent to them will make a legal fight against this "renaissance," and the Chinese will aid them. It will be a long and a stubborn legal battle.

The removal of these 30,000 Celestials from the very business center would be a great financial benefit to the city, and would largely increase the values of adjacent property, especially the residential property on the west. Dwellers in that section must come through Chinatown to reach their places of business, and so must those who live in the southern and northern parts of the city. The Chinese quarter may be called our "Middle Kingdom," considering its favorable and commanding location. If the movement shall be successful, it will be the first instance of the kind—the removal of a "colony" of about 30,000 people from the heart of a city to its suburbs, and against their will. On the sites of these rookeries will arise brick buildings, with modern improvements, and perhaps several "sky-scrapers." From the most thickly populated, filthiest and most immoral quarter of the city, it will be changed into one of the most beautiful and valuable. It will, in a measure, do away with much of the gambling and opium smoking among the white people, for Chinatown will not be so convenient to them. They are largely instrumental in maintaining Chinatown, and in its expansion.

An Artist Who Roasted Frankfurters

TWO women lived near the sea, but not in sight of it. As the spring wore on and the air began to be warm in the sun fire and bright with the etheric sun gold they longed for a whiff of the salt water, a sight of the blue green, foam capped breakers. They took a trolley to Coney Island, seven miles away.

At the shore the friends found a warm corner at the intersection of a pier and a bathing shed, where the sun shone and the wind could not enter and where there were not too many broken bottles to prevent them from stretching out upon the drab sand. One turned her back to the sun and built sand heaps like a happy child; the other sat facing the sun and gazed silently far out over the sea, where her heart is always. Both breathed in deep and long the electric ocean ozone.

This was very poetic and idyllic, so I have been at pains to tell of it, but there is more to it. That is, that the two friends before they knew it were made so hungry by the glorious sea air—or was it the sun tonic which so stimulated their digestion?—that the "hunk" of gingerbread they had brought with them was too small.

Near by was a pretentious restaurant that had all the luxuries of the season placarded upon its outsides and little besides oldish doughnuts and baked beans in its insides. The women took a seat at a table and asked for the soft shell crabs on the bill of fare.

"We ain't got no crabs yet. The season ain't open."

"Lobsters?"

"We ain't got no lobsters yet. The season ain't open."

The season was evidently open enough to advertise the crabs and lobsters on the menu, but not open enough for these to materialize before the customers. The customers had to walk by faith and not by sight.

THE FRANKFURTER MAN.

The friends left the delusive place and wandered disconsolate. "I know what," said one. "Here are some roast frankfurters. Let us have some frankfurter sandwiches."

"I don't like frankfurters," answered the woman with the finikin palate.

"But these look uncommonly good," said the one who has learned not to be too squeamish. The result was they approached the stand of the frankfurter man. He was uncommonly clean; so was his outfit. He had a row of frankfurters upon a sheet iron plate over a charcoal furnace. He turned them with an air of solicitude and watchful care as their plump sides became brown and juices bubbled out.

Well, the two respectable ladies were so hungry that they each ordered a frankfurter sandwich. The frankfurter roaster split a well baked bread roll, whisked a sausage upon it with a fork, handed it to the customer and said, "Help yourself to mustard."

The ladies did so; then, bold and unabashed, started down again to the sunny corner in the sand. A row of rowdies, idle waiters and Coney Island fakirs lined the walk on each side. As the ladies went past them, carrying each her frankfurter sandwich, some of these fellows uttered mournful dog howls and others barked, "Bow, wow, wow!"

Nevertheless the frankfurters tasted extremely good, and the ladies devoured them with relish, even the one who frowned on frankfurters owning that they were very nice. When the women started home, they passed again the frankfurter stand. There was the man roasting sausages still, with the absorbed air of an artist and an enthusiast, as though world movements depended on the perfect cooking of those tiny pink meat rolls. The woman who does not like frankfurters told the man that his were the best she ever tasted. His face brightened up at the compliment.

"There's lots more in roasting frankfurters than a body would think," he said. "You have to watch 'em every minute. Time and ag'in I've hired somebody to roast 'em for me and never found anybody to do it right. There's an art in it, you know, and I was two years learnin' to turn 'em out as good as this."

The man was the true artist. He wrought to perfection the only work his brains and environment permitted him to do. Everybody can do some one thing in perfection and make a good living at it.

PARIS WELCOMES EDWARD.

Great Demonstration Attends Arrival of British Sovereign.

PARIS, May 2.—King Edward on his arrival here was accorded a hearty reception by republican France. His welcome at the Luxembourg railroad station by President Loubet and the chief officers of state and his drive through the avenues, the Bois de Boulogne and the Champs Elysees presented a continuous succession of brilliant spectacles.

Everywhere the populace gave the king an enthusiastic greeting, the demonstrations at the Place de l'Etoile and Place de la Concorde becoming tumultuous. King Edward, smiling and bowing, showed the keenest appreciation of French good will.

Only scattered shouts of "Fashoda!" and "Kruger!" were heard, and they were lost in the tremendous volume of demonstrative approval.

Vast crowds filled the boulevards from the early hours, people struggling to gain the vantage points along the route to be followed by the royal procession. On the square fronting the railroad station was a surging mass of humanity. A detachment of the First cuirassiers in showy uniforms, with gilt breastplates and helmets and waving plumes, held back the crowds.

The front of the station was elaborately draped with crimson and gold hangings, and the interior was transformed into a superb reception room hung with Gobelin tapestry, having crimson and gold furnishings and decorated with flowers and plants. On the balcony was stationed the band of the Republican guard in stunning blue and white uniforms.

President Loubet, surrounded by cabinet ministers, the presidents of the senate and the chamber of deputies, the grand commander of the Legion of Honor, the military and naval dignitaries and the diplomatic corps, presented an imposing appearance.

As the train entered the station the trumpets sounded a royal salute and the band played "God Save the King."

King Edward descended from his car and advanced slowly and alone, smiling and saluting. He wore the scarlet uniform of a British field marshal, his chapeau topped by waving red and white plumes and his breast adorned with various insignia, including the cross of the Legion of Honor. President Loubet stepped forward and grasped the king's hands. The meeting between the sovereign and the president was cordial, almost demonstrative. M. Loubet welcomed the king to France, and King Edward, smiling, responded in French, expressing his thanks for the splendid manifestation in his honor.

Fierce Fire Near West Point.

HIGHLAND FALLS, N. Y., May 2.—The most extensive forest fire known in this section broke out and is raging in the woods on the east side of Crow Nest mountain above West Point and Highland Falls. It has already burned over territory two miles long and a mile wide and is moving northward toward Cornwall. The forestry students here from Yale fought the flames in the underbrush for hours, and the citizens are organizing to make some effort to prevent the flames from spreading to the farm lands. Several soldiers are also doing duty. The fire has burned over a portion of the R. H. Harriman tract.

Safe Crackers Sentenced.

GREENVILLE, S. C., May 2.—James Long, Walter Wood, H. W. Wilson and Charles Rogers, members of the famous Nolan gang of post office robbers and safe crackers, have been convicted in the United States court here on all three counts in the indictment against them for post office robbery, safe cracking and theft of government property. They were sentenced to serve five years each in the federal prison at Atlanta.

AN IDEAL LOCATION

BEAUTIFUL AND ACCESSIBLE.

2 Miles from Elizabeth. 7 Miles from Newark. 14 Miles from New York.

Linden, New Jersey.

ON MAIN LINE PENNSYLVANIA RAILROAD.

Rosedale and Linden Park Cemeteries

Largest Burial Parks in the State.

Transportation Facilities superior to those of any other cemetery, as to number of trains, railroad fare, time and distance.

These New Cemeteries, now being developed on the modern park plan, are attracting universal attention.

By Reason of Location Alone they are destined, in a very short time, to become the best-known Cemeteries in the country and, with their natural advantages, the most beautiful and desirable in which to purchase lots.

They are Accessible from every quarter and within easy reach of over 4,000,000 people, and, considering the steady and rapidly increasing growth of Greater New York and its tributary cities and towns, it is only the question of a short time before plots in Rosedale and Linden Park will equal in value those of our most noted cemeteries.

Popular Favor has already been shown to a marked degree in the sale of lots, several hundred having been sold to residents in Elizabeth, Linden, Rahway, Cranford, Jersey City, Orange, Paterson, Westfield, Newark and New York City, and a large number of interments have been made.

In the Days of Happiness we do not know what is to befall us or when the inevitable will occur; therefore, it is a wiser precaution to make provision for a final resting place during health and life than to force the painful duty on one's friends or relatives after death. A place of burial will be needed sooner or later by every one, and no one should neglect selecting a suitable and proper place until future postponement is impossible.

Linden Lodge is the largest, most modern and best equipped Cemetery Lodge in the country and is provided with every requisite for the comfort and convenience of visitors who come to inspect the properties.

TRADE CONDITIONS.

Dun & Co. Review the Week's Business—April Failures.

NEW YORK, April 2.—At the leading cities high temperature has stimulated the distribution of seasonable merchandise at retail, but dry goods jobbers and commission houses report only a fair trade. Leading manufacturing lines are active, except for some hesitancy at textile mills. In iron and steel, footwear, furniture, harness and clothing there is little idle machinery. Structural work is vigorously prosecuted, and supplies of building material are not allowed to accumulate.

Failure returns for the month of April make a gratifying exhibit as to number, but the amount of liabilities involved was very large. Strictly commercial defaults numbered 750, with an indebtedness of $11,811,967, against 855 failures for $7,359,341 in the corresponding month of 1902 and 763 defaults involving only $5,571,222 in April, 1901, which was in every respect a month of remarkably low mortality in the commercial world.

Classification of defaults last month shows that 212 occurred in manufacturing, with $6,396,295 liabilities, compared with 220 a year ago for $2,908,-817. This heavy increase in liabilities of insolvent concerns was chiefly due to twelve defaults aggregating $4,721,-820, leaving less than one-third of the total manufacturing loss for the other 200 failures. Excluding the few distorting defaults for over $100,000 in both years, the average loss to each failure is almost the same as in 1901.

Trading bankruptcies were 492 in number and $4,586,595 in amount against 580 failures involving $3,947,-455 in 1902. Other commercial failures numbered 46, with liabilities of $829,-077, compared with 55 defaults for $502,620

DEDICATION CLOSED.

Imposing Civic Parade Led Final Day's Programme.

STATE BUILDING SITES SET APART

Second, or International, Day's Ceremonies a Success—Addresses by M. Jusserand, Senor Ojedo and Former Senator Thurston.

ST. LOUIS, May 2.—The dedication exercises are over, and the exposition officials have every reason to be satisfied with the launching of the greatest world's fair project ever attempted. For one year now the task of completing the various buildings and beautifying the grounds will receive their careful attention.

The programme for the third day opened this morning at 10:30 with an imposing civic parade, which moved from Grand and Lindell avenues. The parade was reviewed by visiting governors from the reviewing stand between the Manufacturers' and Varied Industries buildings.

This afternoon at 1:30 the audience assembled in the Liberal Arts building. William H. Thompson, chief of the grounds and buildings committee and treasurer of the exposition company, called the meeting to order, and an invocation by Rev. William R. Harper of Chicago was pronounced. The address of welcome was delivered by Governor Alexander M. Dockery of Missouri and the response by Governor Benjamin B. Odell of New York.

Rabbi Leon Harrison pronounced the benediction.

Following the exercises in the Liberal Arts building the site of each state building was dedicated.

Like a calm after a storm was international day at the exposition compared to Dedication day, which preceded it. The day's programme was carried out as originally planned, but there were numerous delays that brought the conclusion of the exercises about three hours later than was originally intended. The chief procrastinator was the committee which had the welfare of the foreign representatives under its immediate control. The fact that representatives of eastern nations cannot move about as energetically as can the active president of the United States aided a little in retarding the exercises.

The weather out of doors was ideal. Within the Liberal Arts building it was uncomfortably chilly and damp, and but for the fact that the Marine band played constantly during the two hour wait that preceded the commencement of the programme the audience that heard the addresses of the foreign representatives would have been smaller than it was. It was not large at best, there being only about 1,200 people in the hall, about one-twentieth of the number which heard the president Thursday.

There was a decided improvement in the management of the crowd. A detachment of the Sixth infantry, U. S. A., was on duty, and the work was much better performed, even allowing for the difference in the size of the crowd. The speeches were heard by everybody in the hall.

The French ambassador, M. Jusserand, made a distinct hit with his audience and was frequently interrupted by applause. Senor Ojedo was cheered to the echo as he advanced to make his address. Former Senator John B. Thurston, who was president of the day, alluded in a pleasant manner as he introduced the minister to the late trouble with Spain, declaring that all ill feeling against that country had passed away, and the warm greeting that met the Spanish minister went far to prove his words.

President Cleveland left for home this morning, going direct to Princeton, N. J.

Vasquez In Cuba.

SANTIAGO, Cuba, May 2.—The Dominican gunboat El Presidente has arrived here. The gunboat took ex-President Vasquez of Santo Domingo and a number of other political refugees to Guantanamo and was detained there because of the refusal of the Cuban government to permit her to purchase coal. Ex-President Vasquez is seriously ill and remained at Guantanamo, but twelve Dominican generals, a number of former provincial governors and many other refugees came on El Presidente. They all agree that there is no further chance of resisting the Dominican revolutionists with success.

St. Lawrence Canals Open.

OGDENSBURG, N. Y., May 2.—The St. Lawrence river canals are opened for navigation. Twenty-four steamers and barges which had run the first two rapids were at the head of Lang Sault awaiting the opening. On board were 600,000 bushels of grain for export and several thousand tons of coal for Montreal. There has been no like occurrence in many years. The removal of canal tolls promises great activity on the St. Lawrence route this season.

Commander Hooker Dead.

NEW YORK, May 2.—Commander Edward Hooker of the United States navy, retired, is dead at his home in Brooklyn after a long illness. He was over eighty years of age, having been born in Farmington, Conn., on Christmas day, 1822. He retired at the age of sixty-two. He took an active part in the naval operations for the Union in the war of the rebellion.

BORROWED A WHEEL.

As the Owner Hadn't Given Permission, "Barney" is in Trouble.

"Barney" Tracey, a well-known resident of Stiger's alley, got into trouble yesterday. In the afternoon he attended a "pink" tea, imbibed too freely and then started out to do the town. He borrowed Frank J. Hubbard's bicycle for awhile and was having a good time, when Patrolman McCarty arrested him. He was arraigned before Justice Huff and held to await the action of the Grand Jury. In default of $250 bail Tracey was sent to Elizabeth, where he will keep his father company.

Athletic Meet.

Saturday, May 9, is the date set for the annual athletic meet of Leal's School.

GUARANTEED.

That word means something, when it is backed by the $5,000,000 capital and surplus of the

FIDELITY TRUST COMPANY.

It means for you an easy mind if you have one of those guarantees covering the title to your premises.
The man, who does business the way it was done a generation ago, is surely on the road to failure. This is an age of progress. There has been progress in methods of conveyancing as well as in other lines. Out of the need for something less uncertain than a lawyer's certificate and a lawyer's responsibility, has grown up the system of policies of insurance, or guarantees of title by companies with large capital and a force, specially trained in the work.
There is none better in this line than

THE FIDELITY TRUST COMPANY OF NEWARK, N. J.

It has an agency at Elizabeth for conducting Union County business. Rates will be given on application at its office, No. 215 Broad Street, and an investigation of its resources and methods is invited.

Adams, of this city, was elected illustrious oriental guide. The institution of the new temple is to take place next Monday evening.

Announcement is made through Dr. D. C. Adams, H. B. Woodland and H. W. Marshall that all member of Mecca Temple who desire to become charter members of the new Salaam Temple can do so by reporting on or before May 4.

TOOK TOO LONG.

After Trying for Two Hours to Get Jury, Case Was Settled.

The case of John Dunn, bartender, against Charles Schantz, p roprietor of a saloon on Park avenue, for wages, was to have been tried yesterday afternoon before Justice Mosher and a six men jury, but after spending two hours, from 2:30 to 4:30, in attempting to get six jurymen, and failing, the lawyerss got together and settled the claim by paying the plaintiff $20. He brought suit for $24 as wages. Lawyer W. G. DeMeza represented the plaintiff, while Assemblyman Newcorn represented the defendant.

During the two hours consumed first one lawyer and then the other would challenge the men selected by Constable Gjettleesen as jurymen. The work became so tiresome that a settlement was effected.

LIVELY RUN.

Horse Bolted After An Encounter With An Automobile.

What might have been a serious runaway was cleverly averted yesterday afternoon by Newton Honeyman, who drives for Dr. D. C. Adams. He was driving along East Second street, near Netherwood avenue, alone, when the horse took fright at a passing automobile. The horse pulled back, at the same time breaking a piece of harness which allowed the breeching to drop. This frightened the horse and it started to run away. With a steady hand Mr. Honeyman guided the steed through Second street and it was not until Plainfield avenue was reached that he was able to get the animal under control. No further damage resulted.

CONFERENCE IN SESSION

STILL CONTINUES AT SOMERVILLE WITH DAILY MEETINGS.

Papers of Interest Were Read—Some Appointments — Other Routine Business.

(Special to The Daily Press.)

Somerville, May 2—The second day's services of the thirtieth annual New Jersey A. M. E. Zion conference were even more largely attended Thursday than those on the previous day. The chief feature of the morning exercises was a powerful lecture on "Old Testament Studies: Deutronomic Code," by Rev. Dr. C. D. Hazel, dean of Camden. This was followed by devotional exercises and reports from various pastors.

The afternoon services Thursday were devoted chiefly to devotion and continued reports of pastors.

Thursday night Rev. Dr. W. H. Coffee, the church extension agent, made a strong speech for the interest in the weak churches and for the expansion of God's kingdom.

Rev. W. H. Bachelier, of the Virginia conference and Rev. Dr. Miller, of Missouri, were present and made short speeches.

The organization of the conference is as follows: Secretary, Rev. J. C. Rogers; assistant secretary, Rev. C. H. Brown; financial secretary, Rev. Rev. J. H. Mason; statistician, Rev. Wm. F. Randolph; corresponding secretary, Rev. B. W. Swain; reporter, Rev. J. R. Dangerfield; marshals, Revs. J. H. Huggins and G. N. Ray; postoffice messenger, Rev. E. C. Block.

LUNA PARK.

Will Open Saturday, May 16, Instead of Today.

New York's new playground, or as it is better known, New York World's Fair at Luna Park, will open Saturday, May 16, upon which day tickets dated May 2, will be honored. Today was the original date set, but the illness of Frederic Thompson, the designer of Luna Park and the inventor of A Trip to the Moon, and 20,000 Leagues under the Sea, with the delay in installing the electric plant to make current for the 200,000 electric lights, made a postponement necessary. This magnificent fairy romance covers twenty-two acres, cost $1,500,000, and will be conducted at an average daily expense of $2,500.

In addition to the many spectacular features, there will be a constant programme of free shows provided by the world's greatest sensational dare-devil performers. Among these is Hardy, the Puss in Boots, on the high wire; Cameron, who "slides for life," on a high wire from the top of the 200 foot high electric tower to the ground, hanging only by his teeth for the slide, 2,800 feet in length; the Kani Royal Japanese Troupe; Irwin, the marvelous head balancer over the lagoon, on a thread of wire; Beyer, the blindfolded unicycle act, descending the chutes into the lake; the circus; native villages, and many others.

Gave Her a Surprise.

A surprise party was tendered Miss Tina Smith, of Duer street, Wednesday evening, by her sisters. There were twelve present and the evening was pleasantly spent in singing, listening to piano selections and in playing games. Refreshments were served at a late hour.

Ice Formed.

I. V. Adams, of Warrenville, was in town this morning and reported that ice was formed on the shallow ponds in the vicinity of his place last evening. Fortunately it was a dry frost and the fruit crop will not be injured although it is probable that the strawberries will suffer some.

Expect the Assessors.

Commencing Monday the City Board of Assessors will make their regular rounds. As many new buildings have been erected and a large number of new families have moved to Plainfield, the work of the board will be more extensive than last year.

Last Club Meeting.

Miss Ernestine C. Smith, of Madison avenue, will entertain the Duplicate Whist Club, Tuesday evening, May 12. It will be the last meeting of the club this season.

We Are All Familiar

with the deep, hoarse bark, grimly called "a grave-yard cough." It is the cry of the tortured lungs for mercy. Give them mercy in the form of Allen's Lung Balsam, a remedy for pulmonary trouble, so highly esteemed that it is recommended even in the early stages of consumption. In the later stages mortal skill is unavailing. Nobody can afford to neglect a cold.

INSTITUTIONS TURNED DOWN

MUCH WONDERMENT AS TO WHY THE LEGISLATURE ACTED SO.

Newark News Says Senator Cross is Getting a Whole Lot of the Blame.

Nobody has yet given a satisfactory explanation of the Legislature's attitude in refusing to make an appropriation for the needed new wing at the Rahway Reformatory, says the Trenton correspondent of the Newark News. One reason offered was that the domestic building erected last year cost too much. Soon after deciding this, the Senators suffocated Senator Strong's bill for the employment of an architect to investigate what the cost should have been. They also refused to approve the plan for the employment of a State architect to direct all work on public buildings.

As it stands now the reformatory is full. There are 256 cells and they are about all occupied. After they are filled the first offender, for whom if was intended, will have to go to State prison, where there is no room to spare. More machinery is needed at the reformatory to allow of the installation of other trades to make the inmates self-supporting, or more nearly so. This request was also turned down. The only allowance made was for bare maintenance.

The appropriations asked by the State Village for Epileptics, to erect buildings and increase the capacity for patients, were also turned down by the appropriation committee. Less than one-tenth the epileptics who are eligible for treatment here can be cared for at the village for lack of accommodations. The appropriation allowed by the committee was barely enough for maintenance and necessary repairs. It may not hold out for that.

Other institutions were treated in a similar way. Since the Legislature adjourned Senators and Assemblymen are telling stories of cheese-paring on the part of the committee with much indignation. Senator Joseph Cross, of Union, who was its chairman, is getting a whole lot of the blame for a policy many members are declaring to have been small and generous. Senator Cross opposed an appropriation to provide for the expenses of the dedication of the Antietam battle monument, on the ground that it was to be a junket.

Members whose appropriations were turned down, and managers of institutions who received scant courtesy, are unable to understand why such strict economy should have been exercised with a surplus of $3,000,000 at the State's command, benefiting the State only to the extent of two per cent. per year, even if it does help to swell the profits of the banks where it is deposited.

Locomotives Aplenty.

The Rock Island Railroad is buying twenty locomotives a month. Rather expensive, when the average cost of a new locomotive is $16,000. The Pennsylvania orders are for something like 400 locomotives. The Atlantic type of locomotive has been adopted for passenger service on the Pennsylvania system, east and west of Pittsburg.

Funeral of J. J. Giddes.

The funeral of the late J. J. Giddes, who passed away on Thursday at his late residence in Mt. Horeb, will be held tomorrow morning from his residence at 9:30 o'clock and from the Mt. Horeb M. E. church at 10 o'clock. The interment will be in the Methodist cemetery.

Three Fingers Torn.

James Clelland, of East Front street, was injured yesterday afternoon in some machinery in the rear of his house. Three fingers were crushed and torn. His injuries were dressed at P. B. Hodge's pharmacy by Dr. Joseph F. Berg.

Collection for Hospital.

At Grace M. E. church tomorrow morning there will be baptism, reception of members and Holy communion, at which time a collection will be taken for the Methodist Episcopal Hospital in Brooklyn.

Police Say He's a "Fence."

Moses Bender was arrested by Patrolman Higgins this afternoon on a charge of receiving stolen goods. It is alleged he purchased a bicycle tire that had been stolen by "Barney" Tracey.

SEASON OPENS FOR BASEBALL

All the Local Teams Were Out Saturday for Practice Games and Trial Work.

SOME INTERESTING ONES

While Several Teams Had Already Been Out, It Really Marked the Start of Baseball—Some Surprises—The Results of the Most Important Games.

The baseball season is now getting into full swing. Saturday saw all the local teams out for practice games and some interesting contests resulted. There were several surprises in the results. The cold wind did not make the day an ideal one for baseball but there was plenty of interest even if the air did feel as if an ice berg were in close proximity. Following are some of the most important games of Saturday:

ALIS, 13; ST. MARY'S, 7.

Weak stick work in the first innings and ragged fielding was the cause of St. Mary's defeat Saturday afternoon, at the hands of the Alis Club nine, the score being 13 to 7. The season was early and the weather too cold for fast play and neither team distinguished itself remarkably.

Alis' play was clearly superior, especially in the field, although St. Mary's braced strongly towards the latter part of the game. Both box artists performed capably, Dupee for Alis, having considerably the better of the argument. The Alis man mowed down the opposing batters in great style, striking out sixteen men. He gave two bases on balls and allowed seven hits, four of them being bunched in the sixth inning. White, for St. Mary's, had speed and fairly respectable control. He struck out nine men and allowed nobody to walk. He was touched up for ten hits, however, and didn't seem particularly ambitious in his fielding. His support was enough to discourage any pitcher.

A feature of the game was a brilliant one-hand catch by Lederer of a difficult line fly. The game was played on St. Mary's grounds.

The batting order was as follows: Alis—Barnes, c; Lederer, lf; Hoffman, 2b; Dupee, p; Noble, ss; G. Schoonmaker, 3b; McLaughlin, 1b; W. Schoonmaker, cf; Pond, rf. St. Mary's—Cooney, 3b; R. Scott, 2b; Davidson, cf; Mailburn, c; Deegan, lf; Winn, 1b; Mack, ss; J. Scott, rf; White, p.

Scores by innings:

										R.	H.	E.
Alis	1	4	0	3	2	0	2	1	0	13	10	4
St Mary's	0	1	0	0	0	3	0	3	0	7	7	12

WESTFIELD, 6; 7TH. REG., 5.

(Special to The Daily Press.)

Westfield, May 4 — The baseball game Saturday afternoon between the Westfield and Seventh Regiment, N. Y., teams, attracted a very large crowd of enthusiasts. It was the opening game on the home grounds and by way of an extra attraction, Congressman Fowler was present and tossed the first ball over the plate. Much interest centered in the fact that "Jimmie" Montross, of Plainfield, occupied the box for Westfield. He pitched a magnificent game, sustaining his reputation. Eleven innings were required to decide the supremacy of the teams, the final score being 6 to 5. The game was witnessed by many Plainfielders.

PLAINS, 5; HOPES, 1.

The baseball season at Scotch Plains was opened Saturday afternoon when the strong team of the Hope Y. M. A., gave several hundred spectators one of the prettiest games of the season and for six innings kept the locals guessing. Manager Cose's team was strengthened by Kenny and Boien, the Clark's O. N. T. battery, of Newark.

Kenny kept the heavy hitters of the Scotch Plains team guessing until the sixth inning when timely base hits by Bosterli and Williams, assisted by a base on balls presented to Harvey netted three runs. In the eighth, another batting streak netted two runs more in the tally making a total of five.

The visitors made their lonely score in their half of the third inning. Dalley hit to Williams at third and should have been thrown out with yards to spare, but a wild throw took the ball out into the bleachers and be-

HILLSIDE PLAYERS COMPETE

WEEKLY PLAY FOR GOLF COMMITTEE CUP SATURDAY.

First Honors to A. R. Fisk Who Now Has Fair Lead for That Trophy.

It was a trifle chilly on the Hillside Tennis and Golf Club course Saturday afternoon, but the course was in such fine condition that a great many members ventured out and made the rounds. The recent dry spell has had a tendency to better the condition of the course, until at present it is equally as good as in mid-season. As on previous Saturdays, there were many players on the course who were not contesting for the Golf Committee cup, although a goodly number entered that event.

Augustus R. Fisk was low man with a net score of 79, while E. T. Barrows and his son, Dudley H. Barrows, finished second and third respectively with net scores of 80 and 81. Generally the scores were good, considering the strong wind that blew over the course. It was a decidedly cold [wind, yet the players managed to keep warm. Those at the club house remained indoors and enjoyed hot refreshments.

The scores for the Golf Committee cup are as follows:

	Gross	Hand.	Net
A. R. Fisk	84	5	79
E. T. Barrows	95	15	80
D. H. Barrows	87	6	81
Leighton Calkins	88	6	82
J. E. Erickson	108	25	83
E. T. Newkirk	91	6	85
Walter Peterson	96	10	86
C. W. Abbott	93	6	87
J. P. Murray	106	15	91

The standing for the Golf Committee cup is as follows:

	Points.
Augustus R. Fisk	7
H. Reeve Stockton	3½
C. Westley Abbott	3
W. L. Glenney	2
Jules Erickson	2
H. W. Beebe	2
Dudley H. Barrows	1½

STREET WORK.

Busy in the Borough Putting the Macadam Streets in Condition.

Work on the streets of the borough has been progressing merrily during the past week. Hampered at first by rains and inclement weather the street committee has been making better pavements while the sun shines with the result that many of the streets in the borough are now in good condition. The work has been under the supervision of Chairman James K. Arnold, of the streets committee of the Borough Council.

There is some talk of macadamizing some of the streets but this matter has not yet been seriously considered. The two streets which will receive attention first, it is planned, will be upper Duer street and Pearl street.

Water Frightened Horses.

The bursting of the hose at the fire Friday morning in the rear of 31 Somerset street caused a panic among the horses which were being shod in the blacksmith shop of Frank Hand. Two of the horses broke loose but were captured by Howard Cooper. The noise of the water pouring onto the sheet-iron side of the shop made a deafening noise which caused the panic.

Duplicate Whist Party.

A pleasant event of Saturday afternoon was a duplicate whist party given by Mrs. DeWitt C. Brokaw, of Washington Park. There were nine tables in all, the guests being both from North Plainfield and Plainfield. The afternoon was given up entirely to the playing of whist, after which refreshments were served. There were no prizes.

Practice Shoots.

The members of the Independent Gun Club held a meet at the club grounds on Maple avenue Saturday afternoon when practice shoots were the attraction. Some good scores were made. The next regular shoot will be held Decoration Day. The club will give a dance in Saengerbund Hall this evening.

Claims Injuries by Auto.

Suit will be instituted this week by Edward Keller, of 68 Somerset street, against Wm. R. Stanbery for injuries received, he claims, by the latter's automobile when it knocked him down and ran over his foot Friday noon on Somerset street. Keller has retained S. S. Swackhamer as his counsel.

Another Death Claim.

Another death claim, as a result of the Westfield disaster, has been settled by Claims Agent John K. Large. It was that for the death of Frederick A. Smith, of East Seventh street.

CLUB FAIR.

Success Attended Efforts of the Park A. C. Saturday Afternoon.

The members of the Park A. C. held a fair Saturday afternoon on the lawn of Mrs. W. J. Boome, of Willow avenue, which was largely patronized and netted the club $48.50. This will be devoted to securing jerseys for the members and for fitting up the clubhouse which is located on the grounds of the Martin property on Mercer and Washington avenues. John Valiant, Jr., and Tracy Howard had charge of the candy table. Gwendolyn Strong and Lawrence Milne had the ice cream table in their charge and Russell Pond and Leslie Brokaw were in charge of the cake table. Lloyd Fisher and Jack Dewey presided over the lemonade table and Charles Lyman, Jr., took control of the grab bag. The committee in charge of the fair comprised Lawrence Milne, Jack Dewey and Lloyd Fisher.

ON WEDDING DAY.

Mr. and Mrs. Henry Heidloff Happily Surprised by a Party of Friends.

A surprise party was tendered Mr. and Mrs. Henry Heidloff at their home on West Front street, Wednesday evening, in honor of the fifteenth anniversary of their wedding day.

The party assembled at the home of Mrs. Margaret Sweeney, of Liberty street, at an early hour and then went to Mr. and Mrs. Heidloff's home in a body. The host and hostess were taken by surprise but most enjoyable evening was spent, when music and games were the leading features.

A piano duet was rendered by Frederick and Miss Anna Crumm, of New York; a piano solo by Miss Lillian Duckworth and several others took part in musical and vocal selections.

REDEEM OUR IDEALS.

Religion and Politics Should Be Inseparable, Says Prof. Hall.

"There is no more corruption in politics than there is in business or social life," said Professor Thomas C. Hall, of the Union Theological Seminary, at the Crescent Avenue church, last evening. The theme of his discourse was the "Redemption of Political Life." He asserted that the stories of corruption in politics are exaggerated, and said that the term, "politics," ought not to have a disagreeable significance.

The redemption of political life, he said further, means more than mere sporadic reforms. "We need to redeem our ideals." Every political action involves a moral issue, and the man who believes a measure is unworthy of his conscientious approval but supports it for reasons of personal interest is as bad as the worst of those who take and receive bribes. Religion and politics cannot be separated without corruption resulting.

RECEPTION TO WRITER.

Pad and Pencil Club Entertained Millard F. Elderton.

In honor of Millard Filmore Elderton, the well-known newspaper man who resigned his position on a local paper to accept the city editorship of the Elizabeth Journal, the Pad and Pencil Club tendered him a reception in its club rooms Saturday evening. The newspaper men of Plainfield presented him with an umbrella as a token of their esteem.

A social timed followed which was termed a "Night in Bohemia," during which refreshments were served and a general good time was held.

INFORMAL DANCE.

Saturday Night Gathering at the Park Club Was Successful.

The Saturday night dance at the Park Club attracted a large number of society folk, including many of the younger set. The affair, while in charge of the entertainment committee, was given under the patronage of Mrs. Samuel Townsend and Mrs. Walter M. McGee, both of whom received the guests, assisted by other members of the committee. Music for dancing was furnished by Garland, of New Brunswick, and it was very satisfactory.

HALF HOLIDAY BEGINS.

Slight Change in Working Schedule at Pond's to Provide For It.

Commencing today, there is slight change in the working schedule of ours at the Pond Machine Tool Works. Previously the men had three-quarters of an hour for dinner, going to work at 6:30 o'clock in the morning and quitting at 5:30 o'clock in the evening. The new schedule gives the men a full hour for dinner, while the time of commencing and quitting work is just the same. On Saturday the men will quit at 12 o'clock noon.

INJURED AT ENGINE HOUSE

ALEX. MUIR FAINTED AND STRUCK HEAD AGAINST A POST.

Now at Muhlenberg Hospital, But Condition is Not Considered Very Serious.

Alexander Muir, of Essex street, a call man at No. 3 hose house on West Fourth street, is at Muhlenberg Hospital this morning suffering from concussion of the brain. Word was received from the hospital this morning that he was much improved, but that he still suffers severe pains in the head. His condition is not regarded as serious.

Muir arose yesterday morning as usual at about 8 o'clock. After taking his bath, he called to a companion, Louis Dunavan, that "he felt queer and it was terribly hot." The next moment, he opened the bath room door, staggered, and, before he could be reached, fell headlong forward against a post, striking his head and falling unconscious. Dunavan picked him up and called for help.

Dr. Peter B. Cregar was summoned immediately and Muir's family notified. Dr. William H. Murray, of Watchung avenue, the family physician, was then called and the young man taken to the hospital in the ambulance. He remained in an unconscious state for some five hours. His attack is supposed to have been brought on by stomach trouble. Muir is well-known as manager of the Safe Works baseball team and an active worker at Hope chapel.

ALL PEAPACK IS AROUSED

BITTER FIGHT OVER QUESTION OF SALOON FOR THAT PLACE.

Application for License Was Considered in Somerset County Court—Decision Reserved.

(Special to The Daily Press.)

Somerville, May 4—In the Somerset county courts Friday, a bitter fight was waged over the granting of a hotel license for Peapack. It seems there has never been a hotel in that village and when Mrs. Arabella Dalley sold her "corner property" the good people never dreamed that it would be indirectly purchased by Thomas Howard, a well-known landlord of Far Hills, for the purpose of establishing a hotel there.

The W. C. T. U. immediately took up the scrap and secured two remonstrances, which were filed against the license. These are signed by about 200 citizens, but Howard has seventeen signers on his application and a petition signed by over 100 people. The Union also secured John A. Frech and Horace Codington to represent them and Howard had Bartine Beekman for his counsel.

The hearing was attended yesterday by nearly all the citizens of Peapack, where sentiment seems to be about evenly divided, and the interest was intense. Photographs, that had been taken at the expense of the temperance union, were exhibited in the court room. They were pictures of the proposed hotel building, which is now in course of repair, and were for the purpose of showing that the building is inadequate to meet the demands of a respectable hostelry.

Many witnesses told their ideas in regard to the matter and the lawyers argued loud and long, after which Judge Schenck reserved his decision.

Sunday-School Room Repaired.

Owing to the repairs now being made in the lecture room of the First Baptist church it was impossible to hold the Sunday-school session there yesterday. It was held in the main part of the church. It is hoped that the repairs will be completed during the coming week.

Knocked Down by Bike.

William R. Stanbery, of the Watchung Silk Mills, was run into and knocked down by a boy on a bicycle at the corner of Front street and Park avenue, Saturday afternoon. No serious damage was done, aside from a severe shaking up for the boy on the bicycle.

Health Board Meeting.

There will be a meeting of the Plainfield Board of Health tomorrow afternoon, when several matters of importance will be considered.

Council Meeting.

The regular May meeting of the Common Council will be held this evening, when considerable business will be transacted.

PROGRESSIVE TENNIS TOURNAMENT.

First in a Series of Cup Competitions at the Park Club.

A progressive tennis tournament has been inaugurated at the Park Club on Washington avenue. Tournaments are to be held every Saturday afternoon, the first of the series taking place Saturday. The trophy is a pewter cup, a beauty from Tiffany's. Interest in the tournament is keen.

The tournament is a "round robin" affair, every competitor playing seven games with every other competitor. The man who wins the highest percentage of games played in any single tournament captures the trophy and championship for one week. The one having the highest percentage for the entire season holds the cup "for keeps." In Saturday's competition, Charles Dupee led, winning 71 per cent. of his games. William Burrows was second with a record of 65 per cent.

HE THREW THINGS.

Conjugal Felicity in Case of Mr. and Mrs. Henry Lewis, Conspicuous by Its Absence.

The joys of connubial bliss seem to be a minus quantity in the case of Mr. and Mrs. Henry Lewis, colored. Henry had his wife arrested and brought up in Justice Mosher's court Saturday afternoon, charging her with threatening his life.

As a matter of fact, Henry who has a playful tendency of throwing things at his wife and otherwise maltreating her, was drunk all day Saturday and was himself very much at fault. The case against his wife was dismissed and Mrs. Lewis immediately entered a complaint before the city court for non-support.

Lewis will enjoy free board and lodging for thirty days at the expense of the State, Judge Runyon passing sentence this morning.

JOINED THE CHURCH.

Received at the Morning Service in Several Local Churches.

Communion services were held in several Plainfield churches yesterday and in every case there were accessions to the membership. At the First M. E. church four were received by letter and four on probation. At the Monroe Avenue church three were received by letter, while at Grace M. E. church two were received on probation, two by letter and three were received into full membership from probation. At the First Presbyterian church there were ten in all received, four on confession and six by letter. Six new members were received at the Congregational church, three on confession and three by letter.

MEMORIAL FOR DR. BABCOCK.

Rev. Dr. W. R. Richards is Interested in the Movement.

Rev. Dr. William R. Richards, formerly pastor of the Crescent Avenue church, but now of the Brick Presbyterian church, New York, is prominently identified with a movement to erect a memorial to the late Dr. Maltbie D. Babcock, who was pastor of the New York church. The cost of it has not been determined, but will probably reach $250,000. The memorial will consist of a wholly new plant for Christ church, in West Thirty-fifth street, New York, and will be given by the Brick Presbyterian church. Dr. Richards refuses to say much about the plans at present.

ITALIAN WEDDING.

Vincent Parello Married to Miss Fonsina Lunga, Recently Arrived.

A pretty Italian wedding took place yesterday noon at St. Mary's R. C. church, when Vincent Parello, of North avenue, an employe of the Central Railroad of New Jersey, was united in marriage to Miss Fonsina Lunga, who recently arrived in this country from Italy. The ceremony was performed by Rev. Father Egan. After the wedding a reception was held at the home of the brother of the groom on North avenue. Guests were present in large numbers from this city, Newark, Elizabeth and New Brunswick.

CASH STOLEN.

Burglars Entered Barber Shop of Raffey Tozze on Grant Avenue.

Burglars entered the barber shop of Raffey Tozze on Grant avenue, last evening and stole $30 in cash and a quantity of cigars and tobacco. An attempt was made to steal some razors and napkins but the burglars were evidently frightened before they succeeded in completing the job. Entrance was effected by breaking the lock on the front door. Mr. Tozze returned home from a bicycle ride and discovered the place in a state of chaos. He notified the police.

GOLFIACS OUT AT THE PARK

REV. JOS. O. M'KELVEY WINS FIRST HONORS FOR PRESIDENT'S CUP.

Large Field Competed Saturday Afternoon—W. de la R. Anderson Made Low Gross Score.

Even with a cold wind sweeping out of the north-east, the golfiacs assembled in goodly numbers at the course of the Park Golf Club Saturday afternoon and most of them took part in the weekly competition for the President's cup. Rev. J. O. McKelvey was in excellent form and had no trouble in landing first place with T. U. Dudley, Jr., one of the new members, second. W. de la R. Anderson was out and made the lowest gross score, 96, but it did not land him anything in the competition.

The standing for the President's cup is now as follows:

	Points.
Jos. O. McKelvey	3
Charles A. Reed	2½
Frank Rogers	2½
T. U. Dudley, Jr.	2
Rev. C. L. Goodrich	1
George T. Rogers	1

The scores of 100 or better for the trophy were:

	Gross	Hand.	Net

ROBBED LOCAL BANK.

Three Men Arrested in New York, Who Are Said to Be Those Who Robbed First National Bank.

Three men who gave their names as Joseph Howard, broker; John Lake, broker, and George Watson, canvasser, were arrested yesterday in Morningside Park, New York, by several detective sergeants. It is claimed that they are the most notorious bank thiefs in the country and Inspector McClusky says that one of the last jobs that Howard or Kiloran, as he is better known, was connected with in this country that he had any knowledge of was in Plainfield, when the gang robbed the First National Bank of $22,000.

Inspector McClusky claims that the names given are wrong. That two of them are Joseph and John Kiloran, brothers. Their history is well known to the police. The three men have been abroad for some time.

HELD WITHOUT BAIL.

Block Appeared Before Justice Huff Charged With Attempting to Rob Safe in Fay's Bakery Saturday.

Joseph Block, of New street, charged with breaking and entering Fay's bakery at the corner of West Second and Liberty streets, Saturday, was this morning held for the Grand Jury without bail by Justice F. J. Huff.

The State produced as witnesses, Patrolman James Saunders, who captured the prisoner as he was passing through the window and Harris Ellis, or Forbman, who saw the men drilling into the bakery safe. Fay testified to leaving the store locked up in good condition early in the evening.

William Newcorn, who appeared for the defense, endeavored to prove that Block was not recognized as one of the men working at the safe, the inference being that he was on the premises by chance. Francis J. Klatz appeared for the State.

There is a suspicion that the men concerned in the attempted robbery of the Fay safe are the same gang that has been doing several other similar "jobs" in Plainfield and vicinity.

FAVORED INDIVIDUAL CUPS.

Sense of Informal Meeting at First Presbyterian Church.

Following the regular morning service at the First Presbyterian church, yesterday, an informal meeting was held for the purpose of getting the opinion of the members regarding the adoption of the individual communion cups. While no definite action was taken, ninety per cent. of those present favored the individual cups. The matter will have to be decided at a regular church meeting, called for the purpose, but it is more than likely that the change will be made in the near future.

Canoeing Party.

The members of the junior department of the Y. M. C. A., accompanied by the secretary, Kenneth Robbie, went to New Market, Saturday afternoon, where they enjoyed some sport on the pond in canoes.

"MORNING AFTER" IN CITY JUDGE'S COURT

Squad of Sorrowful Ones Arraigned Before Judge Runyon on Minor Offenses.

SOME SENT TO JAIL

HARRY PALMER STRENUOUSLY ILLUSTRATED ARGUMENT WITH DEALER.

His Methods Were Not Proper, But Judge Thought He Had a Right of Dispute—Drink Was Responsible for His Trouble.

"It is no time for mirth and laughter,
On the cold gray dawn of the morning after."

An extraordinarily large number of Saturday drunks who came up in the city court this morning before Judge Runyon must have felt the force of the foregoing trenchant observation.

Andrew Ryan misbehaved himself Saturday, imbibing freely of the cup that inebriates and acting quite unbecomingly. He will be sequestrated for some twenty days in the county jail. Henry Lewis also retires from the bosom of his much abused wife and family, and his address for the next thirty days will be care of the county jail.

Oscar Waldron, who hails from Elizabeth, thought he would do Plainfield up Saturday night while under the stimulus of "spiritum frument." Oscar has a good mother and, for her sake, sentence was suspended. Adam Hubler was another unfortunate who celebrated the end of his week's labors. It was a first offense and Adam was discharged.

Barney McVoy is quite careless in his language when he feels his liquor. He asserts that he has never been drunk before but the Judge thought he needed a lesson. $5.

Bridget Ward, a domestic who claims Brooklyn as her abiding place, answered an advertisement in the Brooklyn Eagle and forthwith took up her labors in Plainfield. Forty-eight hours after landing she became intoxicated. She said she took two fingers of whiskey for cramps, with which she is in the habit of being afflicted. She was sent back to Brooklyn. Sentence in the case of Martha Snedeker, drunk Sunday, was suspended.

One of the humorous cases on the docket was that of Harry Palmer, colored, who his a dsiupte with Sigmund Frech in regard to the mending a of wheel. Frech claimed Harry eluded payment and Harry said Sigmund failed to live up to his agreement. Palmer illustrated to the court his methods of remonstrance, which were strenuous in the extreme. He shoved Frech all over the court room, giving a very realistic illustration, to the delight of the spectators. Judge Runyon did not approve of his methods but thought he had the right of the dispute and discharged him.

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of wornout tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up. Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by L. W. Randolph.

THEATRICAL.

"The Sultan of Sulu," the George Ade musical comedy which is nearing its fifth consecutive month at Wallack's, has broken all records for receipts at that theatre. According to the statement of the management of the theatre Mr. Ade's piece has given the historic playhouse the largest four months' business in its history. There is every reason to believe the popular satire will continue for many months. Of the many musical numbers in the production "Since I First Met You" is perhaps the most popular. However, "U. S. A.," the new song rendered by Miss Maude Lillian Berri, the prima donna, is one of the novelties of the piece.

Klaw and Erlanger's great production of the Drury Lane spectacle, "Mr. Blue Beard," will be continued at the Knickerbocker Theatre but two weeks longer, beginning this evening. The closing performance will positively take place Saturday evening, May 16. Notwithstanding the great demand for seats which still prevails, no extra performances will be given. Beginning this evening, therefore, but sixteen opportunities will remain in which to witness this remarkable spectacular entertainment. These will be the last times it will ever be presented in New York, it opening the New Iroquois Theatre in Chicago in September. After being presented there several months it will be seen in some of the larger cities. At the close of the engagement of "Mr. Blue Beard" at the Knickerbocker, over 200,000 people will have seen it, giving it the record of the largest attendance for its run ever scored by any attraction in New York City. Seats for all remaining performances may be ordered by mail or telegraph.

Washington is a typical spring resort and its bustle is purely social and political. There are gathered in the Capital representatives of every nation and country, and their comings and goings are of no little interest. Then the doings of the Senate and House are features which every tourist delights in following, and these features together with the visits to the numerous public buildings keep one busy all the while one is in Washington. The Royal Blue Line of which the New Jersey Central is the initial road is going to operate an excursion to Washington on May 7, and cost of tickets for the three days' excursion including all expenses is $12. CRUSHED BY A FLIER

Terrible Railway Accident In Detroit.

MANY EXCURSIONISTS ARE KILLED

Fast Train on Grand Trunk Line Crashes Into a Crowd of Polanders Waiting For a Lake Shore Special.

DETROIT, Mich., May 4.—A Grand Trunk Pan-American flier from Chicago ran into a crowd of a thousand people at the corner of Dequinder and Canfield streets at 8:30 last evening, killing ten to fifteen men and seriously injuring about thirty more. The majority of the killed and wounded are from Toledo. Fifteen hundred Polanders from Toledo came up to Detroit on a special Lake Shore train to celebrate a holiday. They left the train at the corner of Dequinder and Canfield streets and went over to St. Joseph's church, where they spent the day with that congregation.

The Lake Shore tracks run out Dequinder street, and a special train was to stop for the Toledo excursionists at Canfield avenue at 8:30. Accompanied by hundreds of their local friends, waiting for the train, the excursionists jammed Canfield avenue some time before the train was due in readiness for its arrival.

When the train was sighted, the crowd pushed across the track and on to the Grand Trunk tracks, which adjoin those of the Lake Shore, just as the Grand Trunk Pan-American flier came thundering in from the west. The people were thrown into the air and dashed to either side of the track. Many of them were ground under the wheels.

The police department was notified, and all the ambulances in the city rushed to the scene. The victims were scattered along the tracks for a distance of two blocks.

Lanterns were procured, and the work of rescue began immediately. The scene reflected by the light of the lanterns was horrible. Gradually the mangled and crushed bodies were recovered and sent to the hospitals or morgue.

At 10 o'clock the police had identified four of the dead.

Rock Miners' Mass Meeting.

WILKESBARRE, Pa., May 4.—A mass meeting of rock miners was held in this city yesterday to take action on the 10 per cent advance decreed by the coal commission which the men claim they are not receiving. This class of miners are now all members of the United Mine Workers' union, but as they work for individual contractors they have not received the advance given to the other miners. The rock men now propose to have an understanding, and if the advance is not given them within the next two weeks they will all go on strike. F. L. Sommers, chairman of the meeting, stated that the rock men formerly had a union of their own, but they all joined the United Mine Workers, and when the latter declared rock work unfair during the long strike the rock men quit with the rest. He declared none of them has received the back pay decreed for the coal miners, and but a few of them have received the 10 per cent advance.

Praise For German Navy.

PHILADELPHIA, May 4.—"The rise of Germany as a naval and maritime power during the last thirty years has surprised the world. I believe that her battle ships for their tonnage are the best afloat," said Rear Admiral George W. Melville, chief of the engineering bureau of the United States navy, in a paper read by him before the Engineers' club of this city. Admiral Melville took for his subject "The Military Importance of Naval Engineering Experiments," during which he referred to the scope and purpose of the naval engineering laboratory that is to be established at Annapolis, Md.

Financial Bill For Next Congress.

WASHINGTON, May 4.—Senator Aldrich, chairman of the senate committee on finance, who is spending a few weeks at Hot Springs, Va., has invited Senators Allison, Platt of Connecticut and Spooner, all Republican members of the finance committee, to visit him there for the purpose of conferring over provisions of a financial bill to be introduced at the next session of congress. They are expected to reach Hot Springs today. The bill formulated will be along the general lines of the bond deposit bill of last session.

Labor Scarce In California.

ST. PAUL, May 4.—W. H. Murray, representing the California promotion committee of the Commercial organization of San Francisco and California, has arrived here in search of laborers to assist in harvesting the fruit crop. Mr. Murray says that the labor situation in the fruit districts is a very serious one. The cause of the labor shortage, Mr. Murray states, is the Chinese exclusion act. Chinese being excluded from the United States, California fruit growers have had to seek elsewhere for labor and are turning to the eastern states.

Plague at Mazatlan, Mexico.

MAZATLAN, Mexico, May 4.—There is much alarm here over the reappearance of the plague. Two persons who were serving a quarantine at the observation station were attacked. Another case of plague also occurred in the city. Official data has just been made public to the effect that from Dec. 1 to April 15 187 persons were attacked by plague. Of these 328 succumbed to the disease.

ROOSEVELT'S TOUR

Kansas Greets President With Arches and Flags.

EIGHT THOUSAND CHEER AT SALINA

Children Strew His Path With Flowers, While a Cowboy Band Fills the Air With Music.

SHARON SPRINGS, Kan., May 4.—President Roosevelt attended the little Methodist church at this place and listened to a most instructive sermon by a Presbyterian minister, Rev. William Carter of Kansas City. A pleasing incident occurred as the services began. Two little girls were standing in the aisle near the president's pew. As soon as the president saw them he drew them into his pew, and during the singing the three shared the same hymn book. At the conclusion of the services the president shook hands with a large number of people. In the afternoon he went for a long horseback ride, accompanied by Senators Burton and Long and President Butler of Columbia college.

Senator Warren of Wyoming and Civil Service Commissioner Foulk joined the president here.

The town was full of strangers who came to see the president, some of them riding fifty miles for that purpose. A Sharon Springs admirer of the president presented to him a two-week-old badger. The little animal is as friendly as can be and will be taken home to Washington to join the growing menagerie of the Roosevelt children.

At Chapman, Kan., a band and 200 people greeted the president as he appeared on the platform of his car. Some admirer in the crowd presented him with a football, which from its appearance had seen service. The president accepted the gift.

At Abilene a handsome arch covered his passage. School children threw flowers in his path, and an immense crowd greeted him. Senator Burton introduced the president. Several members of the Twentieth Kansas regiment acted as a guard. The decorations were beautiful and abundant. A cowboy band furnished the music.

President Roosevelt was greeted at Ellsworth by thousands of people. He made a ten minute speech.

Eight thousand people greeted him at Salina, and he made a fifteen minute talk. He was surrounded by 3,500 school children with flags, who cheered him heartily.

Secretary Root, who joined the president at St. Louis, bade him goodby here and boarded an east bound train for Columbus, O.

Short Cut to Buffalo.

BINGHAMTON, N. Y., May 4.—It is understood that the Lackawanna company will build the new road from Nichols, N. Y., to Nicholson, Pa., surveys for which have been made and the construction of which has been announced for an early date. The main line of the Lackawanna from New York to Buffalo would thus be shortened forty miles by cutting out the long bend made to reach Binghamton. All through freight and passenger trains would then be run by the new line, and over an hour between New York and Buffalo would be saved.

Rogers Law Unconstitutional.

CINCINNATI, O., May 4.—The superior court here has held to be unconstitutional the Ohio law known as the Rogers act, under which the Cincinnati street railway held a franchise for fifty years. All the lines in this city recently had been taken over by the Cincinnati Traction company, one of the Weidner-Elkins properties. The decision in the court of last resort will affect the franchises of street railways all over Ohio. It is stated that a new franchise will be granted by the Cincinnati council, but not for so long a period.

Two Negroes Lynched.

VICKSBURG, Miss., May 4.—Bob Bryant and Will Morris, arrested for the murder of W. M. Legg, were hanged to the Yazoo bridge at Hayes Bluff. Bryant had made a confession implicating Morris, whom he accused of firing the fatal shot. Last night Deputy Sheriff Frank Scott and four other deputies started for town with the men. South of the Legg place 200 farmers armed with rifles and shotguns stopped the officers and took away the prisoners.

A Much Wanted Man.

FOND DU LAC, Wis., May 4.—J. Curtis Harrington, alias J. C. Curtis, of Schuylerville, N. Y., has been arrested here charged with forging a draft for $1,500, which he is said to have presented at the Commercial National bank. The chief of police has a telegram from Little Rock, Ark., saying that Harrington is wanted at Lincoln, Ill.; Springfield, Mo., and Schuylerville, N. Y., on similar charges. Harrington admits that he is wanted in Indian Territory.

Peru Sends Midshipmen.

LIMA, Peru, May 4.—Six Peruvian midshipmen who will enter the United States navy have started on their way to New York on the steamer which sailed from Callao for Panama. The Peruvian government has addressed to the government at Washington a note expressing its gratitude for the deference shown to the navy of a sister republic.

Sing Sing Chaplain Resigns.

OSSINING, N. Y., May 4.—The Rev. George Sanderson, chaplain at the Sing Sing prison, said it was true he had sent in his resignation. The chaplain's action is said to have resulted from differences between him and certain missionaries at the prison.

KAISER MEETS POPE

German Ruler Pays a Fourth Visit to the Vatican.

GERMAN PRINCES ALSO ADMITTED

Audience With His Holiness Lasted Forty Minutes—Emperor William Received by Populace With Great Demonstrations.

ROME, May 4.—Emperor William was received by the pope yesterday. He had a conference with the pontiff of forty minutes' duration and then returned to the residence of the Prussian minister to the holy see.

The day was bright, and as the emperor and his suit traversed the streets of Rome he was enthusiastically acclaimed. His majesty presented Prince Frederick William and Prince Eitel to the pontiff. At the Vatican the emperor was received with military honors by the palatine guard and dignitaries of the pontifical court.

The visit of Emperor William was returned by Cardinal Rampolla, papal secretary of state, at the Prussian legation.

Emperor William has always declared that he enjoys going to the Vatican from an artistic and spectacular point of view. The moment he arrived at the Plaza of St. Peter he was alert and animated, pointing out objects of interest to his sons. In fact, the spectacular part of the visit began there, as the great square, densely crowded, was most imposing. As his majesty passed the students of the German Ecclesiastical college, called "little cardinals" because of their red gloves, raised a formidable "Hoch!" "Hoch!" On the far side of the plaza there were assembled 1,000 pilgrims from Cologne, carrying flags and bouquets of flowers. They received their emperor with tremendous applause, presented the flowers to him and made impressive demonstrations of loyalty. Picked Swiss guards assumed the duty of guarding the imperial carriage at the entrance to the Vatican. Passing the Borgia tower, his majesty and his suit entered the famous court of San Damaso. Here the emperor and his sons were received with military honors by the palatine guards and a platoon of gendarmes, while the papal colors, yellow and white, floated in the light breeze.

When Pope Leo was advised of the arrival of his guests, the door was thrown open and the pontiff appeared. He was dressed in white, with the exception of a small cape of red velvet trimmed with ermine. The emperor advanced alone, making a profound bow. The pontiff inquired in French as to the emperor's health. Emperor William then presented his two sons. His majesty and the pontiff then retired to the latter's private study. The audience lasted forty minutes. At the end of this time the princes were summoned and spoke to the pontiff.

The imperial party then paid a brief visit to Cardinal Rampolla.

Upon his three previous visits to the Vatican Emperor William returned direct to the Quirinal. This was not liked by the Vatican, as it was thought he should first return to neutral ground. It was appreciated, however, by the Quirinal, as to do so is considered somewhat of a slight upon the pope. King Edward followed this course. Yesterday Emperor William returned from the Vatican to the Prussian legation accredited to the holy see, where he changed carriages, his cuirassiers remaining at the legation.

Matos to March Against Caracas.

WILLEMSTAD, Curacao, May 4.—General Matos, the leader of the Venezuelan revolution, has left this island and landed on the Venezuelan coast. He proceeded to Barquisimeto, where he assumed control of a large revolutionary force. He will march inland, and in combination with General Rolando from the east he purposes to commence operations against Caracas. The recent defeat in the Rio Chico district of the government Generals Gomez and Ferrer at the hands of revolutionists under General Rolando has been fully confirmed. The government forces are said to have been completely annihilated.

Schulte, assistant chief of the department of agriculture, will accompany the Germans on their tour.

THAT SEWERAGE PROBLEM.

When the question is fairly put to them there is hardly a resident or tax payer in the borough who will not admit that sewers are needed. Even some of the bitterest of the "antis" have publicly stated that they believe such a system would benefit the borough. They declare they are in favor of sewers if a suitable method of disposal can be secured.

Everyone admits that the ideal method of sewage disposal in this section is a sewer to tidewater. That was what Plainfield wanted to do but the great cost of such an enterprise made it prohibitive even to a wealthy city like Plainfield. If Plainfield cannot afford much less can the borough of North Plainfield.

Unable to pipe the sewerage to tidewater, the Common Council did the next best thing and established a sewerage disposal plant. That is now working successfully as has been authoritatively stated by the State Sewerage Commission. Now North Plainfield can either establish a disposal plant of its own or make arrangements with Plainfield to utilize the city's works.

It is the latter proposition which will appeal most to the property owners in the borough. It can be done at a less cost than any of the others and the borough will have none of the bother of keeping the plant in operation. Should any better method appear, the borough will then be free to take advantage of it by simply cancelling the contract with the city and will have no plant of its own to get rid of. When city and borough are one, as they are going to be some day, it would be decidedly a nuisance to have two methods of sewerage disposal. From all points of view, therefore, it is most desirable that the borough build its system of pipes and arrange with Plainfield for the disposal of the sewerage.

Contemptible attacks have been made on Health Officer Thurlow for simply following out the directions of the City Board of Health. It must be remembered that Mr. Thurlow is the employe of that board and simply follows out its orders and sees that the rules laid down by the board are obeyed. It is the Board of Health that is responsible for the strict rulings concerning the milk supply and, instead of being condemned for its carefulness, it should be commended. There is no factor of greater importance to the city's health than the milk supply and common interest demands the greatest care in its production and transportation.

All the local baseball teams are rapidly getting into condition for the opening of the two local leagues. Saturday's games showed improvement on the part of several of them. Although the afternoon was chilly and by no means ideal baseball weather, fair audiences witnessed a number of the games.

Frank O. Reinhart is again winning laurels on the golf links. Of Plainfield's young men who are adepts at that game, Reinhart has now made the cleverest showing. With the scalps of a National and a State champion at his belt, Reinhart has much to be proud of.

That much talked of report of the city auditor will be made public at the Common Council meeting this evening and The Daily Press will publish a synopsis of it in Tuesday's edition.

One of the acts of this evening's Council meeting will be to confirm the bond issue for the new City High School. Then the Council will also approve of the tax budget.

CARRIED TOO FAR.

J. J. Mondeau Says He's Been a Victim of Practical Joke.

Plainfield, N. J., May 4, 1903.

To the Editor of The Daily Press:—During the past week the different newspapers in this city and throughout the country have made me the object of a practical joke and have been publishing articles concerning me, which in the end have become offensive. Many of the things which have been said are entirely untrue and foundationless, while I appreciate a practical joke and would not hesitate to promote one myself, but I feel that this matter has been carried to extremes, and has been the means of causing me not a little displeasure and think that it is time that they give me a rest and stop it. I feel that it is my duty in justification to myself and others that I should make this statement.

A CHURCH BATTLE.

Members Fight Each Other and Then Unite Against Police.

JOLIET, Ill., May 4.—A pitched battle, in which prayer books and broken furniture were the missiles, took place in the Slavonic Roman Catholic church here, and when the police arrived to quell the disturbance the belligerents turned from each other and united their forces against the officers. The fight, which grew out of old factional differences, resulted in no serious bodily harm to any of the 2,000 men, women and children who were in the church when it began, but the panic among the affrighted women and children was the cause of severe bruises. Bloody and lacerated faces and hands were evidence of the fierceness of the contest, and the protests of Father Kollar and others were unavailing to restore peace.

The men had been penned in by a mob of angry women, who pelted the stronger sex with whatever they could lay their hands on. The men who could fled or jumped from the windows, and when the police arrived they returned to the assistance of the women. It was not until the police had drawn their revolvers and threatened to use them that peace was restored and arrests were made.

CROWDS VISIT RUINS.

Five Dead and Thirty Injured In Cleveland (O.) Explosion.

CLEVELAND, O., May 4.—Nearly fifty policemen were required to keep back the crowds that visited the scene of Saturday's terrible explosion at the Thor Manufacturing company. The explosion was one of the most disastrous that ever occurred in the city. Nearly all the houses in the immediate vicinity are vacant because of their greatly damaged condition, and those still further away will require material rebuilding. The Cohen family is the hardest hit of those killed and injured, it being cut in two, three of its members being killed. The mother and two sons were the victims. In all the houses within a radius of a quarter of a mile new window glass is required in many.

Thus far five people are dead, while thirty others are lying at hospitals, some fatally and others more or less seriously injured.

The explosion is said to have been caused by one of the girl employees stepping into some powder on the floor of the factory.

HARTMAN TRIAL CLOSED.

Captain Charged With Embezzlement Reported Acquitted.

MANILA, May 4.—The court martial of Captain Carl F. Hartman of the signal corps, who was charged with embezzling government property, has been concluded. It is believed that the captain has been acquitted.

The trial of Captain Hartman was sensational, the defense claiming that the charges against him sprung from animosity. Major Glassford of the signal corps accused the prosecution of intimidating witnesses.

C. G. Milne, postmaster at Tacloban, island of Leyte, who was recently convicted of misappropriating government funds, has been sentenced to seven years' imprisonment.

Three vessels for the coast guard fleet that were built in Japan have been found to be defective. The government may accept them, however, withholding a portion of the price.

Receiver For Lehigh Valley Traction

ALLENTOWN, Pa., May 4.—A bill in equity has been filed in the United States circuit court at Philadelphia by Tom L. Johnson, executor of Albert L. Johnson, deceased; Alexis L. Dupont of Delaware and John B. Hoefgen of New York as creditors of the Lehigh Valley Traction company asking the court for the appointment of receivers. Knowledge of the filing of this bill was not brought to the local officers of the company until Saturday. The application will probably be heard in the United States court at Philadelphia on Wednesday. Among other things the petition sets forth that the company suffered severely last year from floods, fire and coal strikes, creating a coal famine. It is understood that the company will make no resistance to the appointment of receivers. The lines of the company extend over a considerable portion of the southeastern part of Pennsylvania.

A Thousand Arrested In Salonika.

PARIS, May 4.—A dispatch received here from Salonika says the police in their search for persons suspected of being concerned in the outrages there discovered that the revolutionists had mined the principal districts of the town with the intention of blowing them up simultaneously. But circumstances forced them to act before their preparations had been completed, and the planned disaster was averted. The Turkish population, however, is dangerously inflamed. It is estimated that 300 persons are dead as the result of the outbreaks. One thousand arrests have been made.

All Quiet In Santo Domingo.

SANTO DOMINGO, May 4.—The German gunboat Panther has left here for San Pedro de Macoris. She has been instructed to visit Dominican and Haitien ports. The American cruiser San Francisco has arrived. Quiet now prevails throughout Santo Domingo, and political prisoners have been released.

German Commander Resigns.

BERLIN, May 4.—The hereditary Prince of Saxe-Meiningen, commander of the Sixth army corps at Breslau and brother-in-law of Emperor William, whose recent orders against the maltreatment of soldiers and drunkenness in the army created a sensation, has resigned.

Rosedale and Linden Park Cemeteries

Largest Burial Parks in the State.

Transportation Facilities superior to those of any other cemetery, as to number of trains, railroad fare, time and distance.

These New Cemeteries, now being developed on the modern park plan, are attracting universal attention.

By Reason of Location Alone they are destined, in a very short time, to become the best-known Cemeteries in the country and, with their natural advantages, the most beautiful and desirable in which to purchase lots.

They are **Accessible** from every quarter and within easy reach of over 4,000,000 people, and, considering the steady and rapidly increasing growth of Greater New York and its tributary cities and towns, it is only the question of a short time before plots in Rosedale and Linden Park will equal in value those of our most noted cemeteries.

Popular Favor has already been shown to a marked degree in the sale of lots, several hundred having been sold to residents in Elizabeth, Linden, Rahway, Cranford, Jersey City, Orange, Paterson, Westfield, Newark and New York City, and a large number of interments have been made.

In the Days of Happiness we do not know what is to befall us or when the inevitable will occur; therefore, it is a wiser precaution to make provision for a final resting place during health and life than to force the painful duty on one's friends or relatives after death. A place of burial will be needed sooner or later by every one, and no one should neglect selecting a suitable and proper place until future postponement is impossible.

Linden Lodge is the largest, most modern and best equipped Cemetery Lodge in the country, and is provided with every requisite for the comfort and convenience of visitors who come to inspect the properties.

HOUSE CLEANING HINTS.

How to Make Carpets, Walls and Brasses Neat.

This is the time of the year for the dread house cleaning. It is only dread, however, when it is not done properly. There shouldn't be clouds of dust and debris if the cleaning has been conscientiously attended to during the year.

The woodwork, the paper and the ceilings perhaps require more attention than anything else because they are usually neglected.

Take a loaf of bread and make wads of the inside; then, standing on a stepladder, clean the wall paper with long, rapid strokes downward. This will be found to have a wonderful effect if done carefully. The brass chandeliers, if they have been neglected, need oxalic acid, followed by a brisk polishing with tripoli and paraffin. Wrought iron must be well washed and then wiped over with kerosene. Parquet floors should be rubbed with wax and turpentine polish, one pound of melted wax to one pound of turpentine, and then polished.

CLEAN THE PAPER WITH BREAD.

Glass, whether of windows or mirrors, can be made much brighter by being washed in weak tea or alcohol.

The carpet should be spread, after shaking, on the grass or on a clean floor. It should be scrubbed with a new broom dipped in a pail of ammonia water or ox gall and water in the proportion of a pint of gall to three gallons of soft water. If the carpet does not need to come up after the sweeping, it can be wiped over with a cloth wrung out frequently in clean water to which ammonia has been added.

The cellar is perhaps one of the most important places in the house. Every nook and corner should be cleaned out, even the coal bins. The rat holes should be stopped up with chloride of lime. Last of all, apply a generous coat of whitewash to the walls, ceilings and even foundation stones.

Above all, clean out your closets; dispose of everything for which you have no immediate use. It is by accumulating things she may at some time need that the weary housekeeper stores up trouble and hard work for herself.

HELEN CLIFTON.

FOR A SUMMER HOME.

A Hint Concerning the Furnishing of the Living Room.

The picture represents a large room, occupying nearly the whole of the ground floor of a summer house. The color scheme is pale green and terra cotta, the woodwork being painted white. The small paned windows are wide to admit plenty of fresh air and

sunlight. The woodwork of the ceiling is stained green to correspond with the walls.

The settles in either side of the fireplace are particularly attractive for a large room. They are upholstered in green denim, the same material being used for the lower section of the walls.

ALICE DE WALD.

The New Skirt.

Skirts begin to show some signs of rebellion against the close fit that has prevailed so long, and there are three story skirts, arranged to show three separate parts or to have three deep and ungathered flounces. These are cut on the bias and laid around more like folds than flounces. The sleeves are also three story affairs, and, if one may use the strange comparison, the effect includes three levels and three perspectives. First is a cap effect at the top, then a big and puffy middle at the elbow, and the rest is close like the chatelaine cuff of yore. Some of the thin sleeves are tucked half way down, and the rest is bagged in at the wrist so that the outside hangs down much farther than the inner side. These are anything but graceful, but it is said they are the forerunners of worse atrocities in sleeves than a woman ever dreamed of. It is expected that the new styles will be in full vogue by fall.

Don't Meddle.

MYSTERY OF THE BAYOU WOODS

By WALKER KENNEDY.

Copyright, 1903, by A. N. Kellogg Newspaper Co.

On December 2, 18—, a man hurriedly entered the dingy police quarters in Nilus, unbuttoned his overcoat, shook the snow from his large slouch hat, and, warming his thin, trembling fingers before the fire, confronted the chief of police. The latter made a casual but not careless examination of the newcomer, and saw that he was a young man of good appearance whose face wore an expression of bewilderment and horror. As the snow melted from his overcoat, it was seen to be very much the worse for wear, and the clothing under it was threadbare in the extreme. The man's shoes were pitifully thin and insufficient, and the wearing of such makeshifts was little more than a mere observance of custom. Suffering of an acute kind had drawn its tracery over the young man's countenance. Deep lines showed beneath the eyes, which were unnaturally lustrous, and the skin was drawn tightly over the pale, defiant face, creating at once the impression that starvation had perhaps been at work there. Despite the general shabbiness of the man's apparel there was an unmistakable air of gentility about him; and there could be little doubt that a history, possibly a romance, was hidden beneath the tattered clothes and the suffering face.

The manner of the newcomer was nervous, suspicious and eager, and the chief of police was satisfied that developments of importance were about to be made.

"You have a communication to make to me?" he asked, after directing his visitor to a chair.

"Yes."

The response was prompt, and given with an air of relief that the officer had divined his errand.

Just then the door opened and another young man entered. He saluted the chief affably and was about to retire, when something in the attitude of the officer and the visitor caused him to hesitate. He was the chief reporter on one of the Nilus papers, and he sniffed the aroma of news in the air.

"Am I interrupting you?" he asked in a way intimating the hope that he was not.

"This gentleman is about to make a statement to me. Whether it is of a private nature——"

"By no means," quickly interrupted the person referred to. "I do not imagine that it would do any good to keep it private. Besides, the newspapers will have it to-morrow."

"This gentleman is chief reporter on the Gazette," said the officer.

"I have no objection to his hearing what I have to say."

Irving Warde, the newspaper man, bowed and took his seat. He never missed an opportunity to learn anything that was apt to make its way into the newspapers.

The stranger began his story at once. "My name is Herbert Wright, and I am the son of John T. Wright."

"The Cotton King!" said the chief in evident surprise.

"Of course you are surprised to see a son of his reduced to such straits as I am, but that has nothing to do with my coming here. I may as well say at the start that differences have existed between my father and myself, but they are wiped out now, for he is dead."

"Dead?" said the chief, now thoroughly aroused. "When did he die?"

"That I cannot say exactly. His body was found this morning."

Warde, who had been listening with an air of indifference, now became palpably interested.

"Then your father was killed?" asked the chief.

"There can be no doubt of it."

"Where did this happen?"

"In the Bayou Woods, about three miles below the city."

"What do you know of the case?"

"I judge that he had gone out hunting and that he was waylaid in the woods. I know that he intended going. He liked it in this kind of weather. He was a great hunter; indeed, it was the thing which seemed to afford him the most pleasure. He was killed while hunting, and the wounds on his head indicate that he was killed with a bludgeon. Possibly he may have been shot as well; I did not look for that."

"Who discovered the body?" asked the chief incidentally.

"I did," said Wright.

"Under what circumstances?"

"Well, you see," said the young man, who was slightly embarrassed by the question, "I live just beyond the Bayou Woods, and I usually pass through them on my way to the city."

"You have employment in Nilus, I presume?" said the chief.

"No; I am sorry to say that at present I am entirely without employment."

"Well, as you were saying, you were coming in town for the purpose of——"

"No, you are mistaken; I didn't say what my purpose was, or that I had a purpose at all, and as that has no possible bearing on the case I do not care to go into it."

"Just as you please," answered the chief; "but sometimes a frank statement saves a man a great deal of trouble. Resume your story, if you please."

"This morning as I was passing through the woods my attention was attracted to a heap of snow in the pathway through the forest. I at first thought a dead animal lay beneath the drift, but an examination at once removed this idea, and I recognized there before me the body of my father. I saw at once that he had been murdered, and I hastened to the city to notify the police. I ought to say right here that while the relations between my father and myself recently have not been of a friendly nature, I have every desire to see his murderer punished. I therefore came to you at once, thinking that the body ought not to be disturbed until the detectives have made their examination."

"Allow me to commend your discretion," said the officer.

"I think that is all the information I can give you," said Wright, speaking as though a weight were off his mind.

"I would like to ask you a few more questions, which you can answer or not, as you see fit," said the chief, kindly.

"Very well," said Wright, resuming his seat.

"Before we get at that, however, you had better give me a clearer idea as to how we can find the body."

"Are you familiar with the paths leading through the woods?"

"Yes, there are two. One goes straight through them and terminates in a thoroughfare which leads into the heart of the city, while the other makes a detour and runs toward the river. A person coming toward Nilus and having the choice of paths would naturally take the straight cut, as the other would cause him considerable delay. I suppose, of course, that the body will be found along the direct path."

"That would be the path taken by an ordinary traveler," replied Wright; "but my father, you must remember, was out hunting, and he would have no object in taking the short and frequented way. His body was found on the other path."

"True," said the chief, reflectively, "a hunter rambles around considerably. Were you out hunting, too, Mr. Wright?"

The question caused Wright to change countenance. Evidently he began to see that a suspicion was creeping into the mind of the officer, for there could be no doubt that he was quick of apprehension. He rallied and answered with a sort of honest defiance: "It was merely a whim, and I don't suppose that I am accountable to the police for my whims."

"No one has intimated that you were accountable to the police for anything," said the chief, coolly. "You come to me with certain information, and I am trying to get out of you all of the facts that I can. I find that you are withholding something from me. I don't say that you haven't a good reason for doing so. You come to Nilus for a purpose you will not reveal, and you take an out-of-the-way route for a reason you will not give. You are, moreover, the only man so far as is known, who has seen the body of John T. Wright. Now, it is just possible that you may know who the murderer is; or——" He paused and then said bluntly: "You may yourself have killed your father——"

"Stop!" cried Wright starting up, his eyes flashing. "You have no right to make any such inference. I am here at the dictates of duty to give you information that may lead to the punishment of the man who committed this murder. The man who was killed had treated me like a dog instead of a son; but I want to see his murderer brought to justice. Your small detective tactics will not avail you in my case. Your suspicions of my motives are absurd, and they do no credit to your sagacity. I am an unfortunate man, but if you were a good judge of human nature, you would know that I could never have done such a fiendish thing as this."

The chief listened to this impassioned outburst with rather a bored air. When it was finished, an amused expression flitted across his face. He had evidently made a test and was satisfied with the result. Without paying the slightest attention to the young man's criticisms he resumed quietly: "Well, since you have refused to answer my last question, I will come to another. With whom do you live?"

"I live with my wife and child in a small cottage beyond the Bayou Woods."

"Ah! You are married? Have you any objection to stating the condition of your family?"

Wright's countenance fell, his eyes became wistful and he faltered as he answered: "It is terrible. My wife—we—have—have nearly starved."

Will Repeat the Race.

ANNAPOLIS, Md., May 4.—The Naval academy began its rowing here by winning the eight oared race from the crew of the University of Pennsylvania. The completeness of the victory was marred, however, by the fact that the rough water caused the visitors' shell to fill, and it swamped a half mile from the finish. The referee awarded the race to Annapolis, but the navy refused to accept it, and the race will be rowed over on May 16.

Judge Himes Won the Derby.

LOUISVILLE, Ky., May 4.—Within the shadow of the wire Judge Himes, a despised outsider, snatched from Early the twenty-ninth Kentucky Derby at Churchill Downs. It was the confidence of the twice successful jockey, Winkfield, that lost to the favorite the blue ribbon event of the Blue Grass State. Woodlake and Treacy finished in the order named.

Yanger Whipped Broad.

LOUISVILLE, Ky., May 4.—After having been placed under arrest at the instance of the Citizens' league the undefeated feather weight, Benny Yanger, and Kid Broad fought at the Southern Athletic club, Yanger getting the decision at the end of the twentieth round.

LONGSHOREMEN STILL OUT.

Shippers Threaten to Import Men From England.

MONTREAL, May 4.—An attempt to settle the longshoremen's strike was made by a conference between representatives of the stevedores and shipping agents and the officers of the international union. As far as wages, hours, etc., went an arrangement was quickly effected, but when it came to recognition of the union, defined in this case that none but union men should be employed upon the wharfs, the shipping men flatly refused to make the concession.

On the other hand, the union officials stated that they considered this the only point of importance in the fight. The conference then broke up. The union officials were notified that if the men were not back at work today the steamship men would at once cable to England instructions to send forward the first batch of 1,000 men, with a second thousand to follow. Some of these men have already sailed, and some are now at work in the harbor.

The militia are still doing duty on the wharfs, but an attempt is being made to secure their release by substituting the men attached to the Canadian regular forces.

STRIKERS' UNIQUE SCHEME.

Track Men Tramp Through New York and Connecticut For Recruits.

STAMFORD, Conn., May 4.—Without previous warning twenty-five track men employed by the New York, New Haven and Hartford Railroad company in the Harlem river yards went on strike. The men demanded $2 per day and eight hours.

The twenty-five started for New Haven on foot with the idea of inducing all other laborers employed on track and construction work between New York and New Haven to quit. There are about 6,000 such laborers in the city of Bridgeport alone.

The strikers are unorganized. Without any recognized leader they set out on their tramp. As they marched along the track they armed themselves with clubs. Practically all the section and track men between New York and Rye were induced to quit by the mob before the company officials realized what was taking place.

When the strikers passed through Stamford, their band numbered about 200. They made no disturbance here. The track men and laborers seem to be afraid of them, and it looks as if their march would cause an extended tie up of construction on the New York division.

The Watchung A. C., of Dunellen, defeated the Triangle Club, of New Brunswick, in an interesting game on the Lincoln avenue grounds, Dunellen, Saturday afternoon by the score of 10 to 7. H. Moynihan was in the box for the local team and was in good form. He was given good support in the field.

A baseball game was scheduled between the North Plainfield High School and the Lincoln High School, of Westfield, for Saturday morning. It was called off, however, at the request of the Westfielders. The Borough High School boys met defeat at Westfield and they were looking for revenge here. The return game will be played at a later date.

The Underwood A. A. journeyed to Bound Brook Saturday afternoon and defeated the Laurel A. A., of that place, by the score of 4 to 3. The line-up of the Underwoods was: Doane, captain, 1b; Wills, cf; J. Douglas, 2b; Glenny, ss; Long, 3b; Guinn, lf; E. Taylor, R. Taylor, rf; W. Douglas, c; Minford, p. The battery for the Laurels was Harney and Haughey.

The baseball game at Dunellen between the Dunellen A. C. and the Cuban Giants was not finished Saturday afternoon. The score at the beginning of the ninth inning was 8 to 3 in favor of the home team. In this inning Manager Walters was displeased with a decision given calling one of his men out when he attempted to steal second base, and he called his men off the field. The game was concluded at that point. The visitors were weak in stick work, being unable to connect with Ettinger's curves effectively. The home team played one of its best games of the season.

C. A. A. C., 8; Y. M. C. A., 4.

The baseball season of the Y. M. C. A. opened Saturday afternoon when a game was played between a team representing that association and the Clinton Avenue Athletic Club. The game resulted in a score of 8 to 4 in favor of the Clinton Avenues. The game was played on the Clinton avenue field instead of Hope Common as announced. The players of both teams were handicapped by a cold wind which blew out of the south east and a rough field.

Dwyer twirled the ball for the Clinton Avenues while Squires occupied the box for the Y. M. C. A. players. Dwyer was exceptionally strong and his curves confused the men at the bat. Squires worried the Clinton Avenue batters until they became accustomed to his tactics. Dodd at short played good ball. Perrin at short stop on the Y. M. C. A. team also did good work while Mayer, as catcher for the same team, played a star game. The men on that nine seemed to be rather slow on bases although Squires, Keefe and Hand succeeded in making runs.

The C. A. A. C. team was composed of Dodd, ss; Dwyer, p; Baker, c; Farley, 3b; Saums, 1b; Hamilton, rf; Mague, lf; Pangborn, 2b; Goodman, cf, and Bolmer, cf. John Kriney was the manager of the team.

The Y. M. C. A. line-up was as follows: Mayer, c; Perrin, ss; Beekman and Montross, 1b; Barry, rf; Keefe, c; Squires, p; Smith, 3b; Mundy and Marsh, lf; Hand, 2b. John Steiner is the manager of the team.

The umpires were Charles Maul and Matthew Sampson.

The score by innings is:

C. A. A. C.	0	1	0	6	0	0	1	0	0	—8

STEVENS, 15; P. H. S., 11.

The Undergraduates of Stevens' Institute, of Hoboken, defeated the baseball team of the City High School Saturday by a score of 15 to 11. The game was played on Stillman field and was largely attended. The local players held the visitors down very well until the eighth inning when the Hobokenites knocked out eight runs.

S. W., 11; GARWOOD, 5.

Safe Works won a well played game from Garwood Saturday at Garwood, the score being 11 to 5. Breen in the box pitched his first game and did well. The Safe Works nine lined-up as follows: Breen, p; Allen, c; Keen, 1b; Moore, 2b; Sigford, 3b; Enright, ss; Jackson, lf; Gaston, c; Bradley, rf.

THREE DIVISIONS.

Changes in Method of Operating the Lehigh Valley System.

The contemplated changes in the operating department of the Lehigh Valley Railroad, are being discussed, as under the new plan one of the divisions will be abolished, which will necessarily make a number of changes in the officials. It is said that the first division will extend from Buffalo to Geneva; the second from Geneva to Easton and the third from Easton to New York. The large dining hall at Geneva will be closed for the purpose of providing offices for the new headquarters. It is thought that in operating this road with three divisions instead of five, as at present, a great saving will be made.

Memorial Day Observance.

The G. A. R. Memorial Day committee met Saturday evening and completed arrangements for the observance of Memorial Day. L. L. McVoy was appointed marshall for the day and it was decided to attend divine services Sunday evening, at St. Joseph's R. C. church, North Plainfield, when Rev. Father Miller, the rector, will preach an appropriate sermon. The members of the Woman's Relief Corps will also attend this service.

LORAIN'S MURDER MYSTERY.

Dead Girl's Brother Says Rev. Walzer Is Not Guilty.

LORAIN, O., May 4.—The Rev. Charles Reichlin, pastor of St. Joseph's church in this city and brother of Agatha Reichlin, who was murdered last Thursday night, made a sensational denunciation of the authorities for the arrest of Rev. Ferdinand Walzer on the charge of murdering his sister, saying he was innocent. The occasion was the morning services in that church and the place was from the altar steps.

Rev. Ferdinand Walzer, a Toledo priest, has been arrested charged with the murder of Miss Agatha Reichlin. Walzer was a guest at the Reichlin home on Thursday night when the crime was committed.

During the night, according to the story of Rev. Walzer, he heard screams from the room occupied by the girl and declared that he gained the hallway just in time to see a man disappearing through an open window. When Casimer Reichlin reached his sister's room, she was dead, her head having been nearly pounded to a pulp with a rock or some blunt instrument.

Bloodhounds were brought here from Fort Wayne, Ind., and they were given the scent of the murderer. The dogs circled around the house several times and finally went to the room occupied by Rev. Walzer on the night of the murder. They again took the trail and led the officers directly to St. Joseph's hospital, where Rev. Walzer slept last night. He was found at the hospital and placed under arrest, the officers claiming there were many suspicious circumstances against him in addition to the bloodhounds following his trail.

The scene of the murder was the point of interest for thousands of callers at the Reichlin home yesterday, where the body was in view until it was taken into St. Joseph's church at 3 o'clock, where the vespers for the dead were said.

Murder Suspect Arrested.

SANDUSKY, O., May 4.—A man arrested here for carrying concealed weapons is now held on suspicion of knowing something of the Reichlin murder at Lorain. When first arrested, the man gave his name as Charles Frank, then as Frank Charles and still later as Kennedy. He is medium sized and smooth shaved. His shoes were covered with suspicious blotches, and a physician pronounced them blood stains, though not positive that the blood is human. The man had a new revolver in his possession. He will be held pending developments.

RUSSIA IN MANCHURIA.

Regiments of Russo-Chinese—Japan Watches the Muscovite.

VICTORIA, B. C., May 4.—Mail advices were received here that Newchwang is being strengthened by the Russians, who have expressed to the Chinese authorities that this course was made inevitable, as Russia may soon come into conflict with a certain power. It is also reported that Russia has formed nine regiments of Chinese troops in Manchuria as an auxiliary to the regular garrisons. The number, it is said, will be increased to 50,000 within three years.

The Yomiukei Shimbun of Tokyo has an interview with Prince Takahashi, one of Japan's eminent jurists, in which the Manchurian question is discussed. He suggests that if Russia refuses to withdraw her troops from Manchuria Japan also should send an army to Moukden.

Manchuria, he says, would then be maintained as neutral territory.

The Asahi Shimbun, discussing the Manchurian question, suggests that Japan take advantage of the provisions of her commercial treaty with China to open new ports in Manchuria. Hungkiang, at the mouth of the Yalu, and a point higher up the Yalu are the places suggested. The Asahi says that what Hankow is to Shankhai Hungkiang is to Newchwang, and the opening of the port would facilitate Japan's Manchurian trade.

News comes from Shanghai of an insurrection which broke out at Hetachingfu and Menghsien, in Honan province. Indignant at the Russian officials on the pretense of having to raise funds for the indemnity to the foreign powers, the inhabitants revolted. The yamens at both places were attacked and destroyed, and the officials fled. The rising is interfering with the operations of the Peking syndicate (British), which has mining and railway works in Honan.

A Comet Discovered.

CAMBRIDGE, Mass., May 4.—A cable message received at Harvard college observatory from Dr. Kreutz, at Kiel, announces the discovery of a comet by Griggs of Thames, New Zealand, who saw the object on April 17. It was observed by Dr. Tebbutt at his observatory at Windsor, N. S. W., in the following position: April 26, 8617, Greenwich mean time; right ascension, 4h. 3m. 2s.; declination, south 16 degrees 23m. 25s. Its daily motion is in R. A. 1 degree 26m., in declination south 27m.

WHAT OTHERS SAY.

Clippings From Other Newspapers Which May be of Interest to Plainfield and Its Citizens.

It is to be noticed that the newspapers of the State are going ahead and making Gubernatorial nominations for both parties next year without any reference to the passage of the primary reform law by the late Legislature. Do not these editors believe that the people will have a hand hereafter in the selection of their candidates?—Newark News.

An engineer on a "mogul" locomotive was knocked out of his cab, near Washington in this State, one day last week, and his train ran a considerable distance before he was missed. The "hogback" between the engineer and fireman prevented the latter from seeing the accident. This is not an argument in favor of three men in a cab; it is an argument against the use of the "Mogul" locomotive.—Elizabeth Journal.

Some Union county papers and politicians have been saying unkind things about the Union county Assembly delegation—Hall, Newcorn and Coyne—because they did not wield enough influence with the Governor to have Charles McBride named to succeed the late John C. Rankin as a member of the State Board of Assessors. As a matter of fact, the assemblymen were not consulted about the appointment. Neither, it appears now, was United States Senator John Kean, although he wanted to have a say about it. Senator Theodore Strong, the appointee, had helped to elect John F. Dryden to the United States Senate. It was the first chance that had offered itself to pay off the favor, and Govrenor Murphy was glad of a chance to help Senator Dryden out of a political debt.—Newark News.

CONDITION OF CITY FINANCES

Report of City Auditor Collins Shows City Accounts for Last Three Years Correct.

THE RECOMMENDATIONS

City's Liabilities and Assets Are Summed and Explained—Would Make Some Changes—It Commends Present City Officials—Text of Portion of Report.

The report of City Auditor George E. Collins was made public at last evening's session of the Common Council. The accounts for the last three years were reviewed and found correct but Mr. Collins gave some interesting facts concerning the condition of the city's finances and made some suggestions as to the present methods which he believed would be to the advantage of the city.

This report is a voluminous one and contains many schedules of back taxes and other figures of no particular interest to the general public. There are some interesting portions of the report and these are given in full. The important portions of the report are as follows:

Audit report for the years 1900, 1901 and 1902.

In accordance with an agreement made December 27th, 1902, with Mr. George P. Mellick, then chairman of the committee on finance of the city of Plainfield, N. J., I have audited the books and accounts of the said city for the years 1900, 1901 and 1902 and the following is my report, supplemented by sundry schedules and forms.

The audit comprised a complete verification of all entries, footings and balances on the Treasurer's books, together with a comparison of vouchers, cancelled bonds, etc., with the record of cash disbursements. The verification of the footings of all records of the Tax Collector's office, postings to the tax receipt books and to the individual credit of the tax payers in the ward books as to general taxation. Footing and posting of all record of Martin act receipts and all assessments, and the comparison of all reports, pass books and other evidences that the money received had followed proper channels. A careful review of the receipts by the City Clerk of license fees of all kinds and the turning over of such funds to the city treasurer. A similar statement of the receipts of the city court for fines imposed.

The result of the work in each department will be taken up herein after and treated in detail.

The financial standing of the city as at December 31, 1902, is shown by the balance sheet, Schedule "B," the details of which, as appearing on the City Treasurer's ledger, are as follows:

LIABILITIES.

Bonds:

The city's indebtedness, represented by outstanding bonds, consists of the 4 per cent. bonds issued for sewer construction to the amount of $141,000 and two bonds of $1,000 each, for street improvement.

Bills Payable.

The notes of the city outstanding at December 31, 1902, amount to $15,461.88 of which $8,400 is for addition to the sewerage plant. The balance is represented by two notes for maintenance, being $4,000 for account fire department and $3,061.88 for the operation of the sewer equipment.

Martin Act Funds.

There remains in the hands of the Treasurer, balances of the proceeds of the sales of real estate for arrears of taxes, which have been conducted by authority of the Martin act, as follows:

Tax sale of 1900	$ 255 68
Tax sale of 1901	311.84
Tax sale of 1902	1,011.42
Total	$1,578.94

Further the amount paid at these sales in excess of the city's claim is included in a trust fund of $385.67, making a total held subject to redemption of $1,964 61.

M. Honan & Sons—Attached.

Being a balance of $115 40 remaining on account of a transaction in connection with the construction of the sewers.

ASSETS.

Sewer.

The book value of the sewer plant and equipment is $179,122.29 which is in excess of the city's outstanding liability on this account by $29,722.29.

The real value of this plant is considerably in excess of the figures at which it is carried, as liberal provision for maintenance and repair is made every year and considerable money has been spent in construction, in addition to the bond issues on which the book value was based.

Fire Department.

As great care is exercised in keeping the buildings and equipment of the fire department in the highest degree of efficiency, the value of $55,223.47 at which the proper is carried, would seem to be moderate.

There is no debt outstanding as against this property, the whole amount having been paid from the taxes.

Martin Act Investments.

The city's purchases at the several Martin act tax sales have been as follows:

Tax sale of 1900	$4,661.93
Tax sale of 1901	202 91
Tax sale of 1902	290.97
Total	$5,055.81

Assessments Receivable.

Assessments have been levied for street improvement and macadamizing and flagging and curbing and there remains to be collected a total of $3,044.12 as detailed on the balance sheet.

Taxes Receivable.

The balances receivable on account of the taxes levied for 1900, 1901 and 1902 is shown as appearing on the Treasurer's ledger, from which record the total receivable in respect of the back years is also derived, the amount outstanding being $91,939.55.

At least $30,000 should be regarded as being doubtful of collection, as by the action of the provisions of the Martin act, all tax levied on real estate is collected after three years and what remains is made up of personal, poll and dog taxes, which are in many cases, difficult to collect.

An exhaustive schedule of the arrearage has been prepared and this subject will be further commented on, under the head of the "Office of the Tax Collector," together with suggestions as to improvements in the plan of the records, aimed to simplify the work, and to increase the value of the books for the purpose of reference.

Accounts Receivable.

These balances represent amounts which were found to need adjusting, as the audit progressed, and as the funds were not in the Treasurer's hands when his accounts were closed for the year, they were here treated as accounts receivable.

Cash On Hand.

The balances on deposit, at the credit of the city on December 31, 1902, have been fully verified and were found to amount to $44,424.

Surplus.

The assets exceed the liability by the sum of $218,423.20 at the values appearing on the Treasurer's ledger and if $30,000 is deducted from the total of taxes receivable, as being doubtful of collection, as heretofore recommended, the surplus would be $188,423 20.

Office of The City Treasurer.

This office has a splendid system of double entry accounts, embracing in its scope all financial transactions relative to the city's business. The books are so operated that they not only tell a complete story of the receipts and disbursements for each department, but by a system of resource accounts, it is possible to get at the total amount applicable to each department, from each tax levy and the balances remaining uncollected of each year's taxation.

Vouchers are filed in numerical order for every item of disbursement, corresponding with the order of the entries on the cash book. They have all been compared and found correct, with the exception of those shown in Schedule "C," which have not been presented for payment.

All footings and postings were checked and the balances verified.

Office of the Tax Collector.

This office has received and passed to the City Treasurer in the three years under review, about $750,000. As with few exceptions, the individual payments are small in amount, the work involved is enormous in volume and the results are very creditable to the people in charge.

The bookkeeping methods are cumbrous, involving much unnecessary repetition and increasing the liability of errors.

Further the records are encumbered with a large volume of arrears of personal and poll tax which the Collector considers uncollectable. With a view to putting this evil before the Common Council, schedules have been made of all outstanding taxes at December 31, 1902, including everything not more than twenty years old.

ELECTION AND THE REPORTS

AT THE ANNUAL MEETING OF LADIES' CHRISTIAN WORK SOCIETY.

One of Trinity Reformed Church's Most Active Organizations—Substance of Reports.

The annual meeting of the Ladies' Christian Work Society of Trinity Reformed church was held yesterday afternoon in the parlors of the church. There was a good attendance of members and much interest was taken in the proceedings. In the selection of officers for the coming year, all excepting Mrs. B. D. Newell, as secretary, were re-elected. Mrs. Newell takes Mrs. T. R. VanZandt's place, the latter retiring. The officers are as follows:

President, Mrs. Elizabeth A. Parse; first vice president, Mrs. Cornelius Schenck; second vice president, Mrs. Anna M. Gillem; third vice president, Mrs. Oscar W. Dunham; treasurer, Mrs. Robert Clark, Jr.; secretary, Mrs. B. D. Newell.

The treasurer, Mrs. Clark reported receipts for the year in the general fund of $223.48 and $102.76 for the missionary fund. There was disbursed of the general fund $126.06 and $102.76 of the missionary fund. This leaves a balance in the general fund, with all bills paid, of $97.42.

The president read an interesting letter from Mrs. Ellis, who, together with other women, is engaged in looking after the young women who arrive on steamers as first and second class passengers. These women are assisted in finding suitable homes and are helped in many ways to get a right start. This is practically a new work in this department and thus far it has been very successfully carried on.

The society also considered the advisability of holding a strawberry festival and it is likely that one will be held during the third week in May. The various committees will be announced by the president at a later date.

WON AT THE LAST MOMENT

THRILLING FINISH TO BASKET BALL GAME AT Y. M. C. A.

Business Men Defeated Reform A. A. by the Score of 22 to 20 Last Evening.

As pretty a game of basket ball as has been seen here this season marked the third and deciding meeting between the teams of the Y. M. C. A. Business Men and the Reform A. A. at the Y. M. C. A. gymnasium last evening. The Business Men won but the deciding goal was thrown in the last minute of play.

In the first half, the Reform boys played their opponents right off their feet and led 14 to 8. Then the lack of practice by the Reform team began to tell and the Business Men crept up slowly and just succeeded in passing their opponents in the finish. The play was fast and exciting and a large crowd grew properly enthusiastic.

The teams lined up as follows:

Reform A. A.		Business Men.
O'Loughlin	rf	Whitford
Taylor	lf	Doane
Scott	c	Spicer
Higgins	rg	Clark
Smith	lg	Browning

Score—Business Men, 22; Reform A. A., 20. Goals from the field, O'Loughlin, (3), Scott, Smith (3), Whitford, Doane (2), Spicer (5), Browning. Goals on fouls—Taylor (2), Doane (4). SPEAKERS FOR GRADUATION

JUDGE ASHMAN, OF PHILADELPHIA, WILL BE COMMENCEMENT SPEAKER.

Contracts for City School Supply of Coal Awarded at Last Night's Meeting.

Judge William N. Ashman, of the Orphans' Court, Philadelphia, has been invited to make the commencement address at the City High School graduation exercises this spring and has accepted. Rev. Charles L. Goodrich will deliver the address before the grammar school. This was the principal announcement made at the meeting of the City Board of Education last evening. The ordinary routine business was transacted.

The board has been invited to send delegates to the annual convention of the National Educational Association, department of school board, to be held in Boston, July 8 and 9. Following the usual custom, the president of the board, Dr. J. B. Probasco, and the superintendent, Professor H. M. Maxson, will be the representatives. The board was urged to see that all teachers attended the meeting of the Union County Teachers' Association Saturday in Elizabeth.

It was further announced that the daily attendance on which the school appropriations is based is 342,141, as compared to 354,424 last year. This shows a decrease from last year's figures but on the other hand there is more money in the treasury. County Superintendent W. J. Shearer stated that on account of the establishment of the Garwood school the work on appropriations has been delayed.

Bids for supplying coal to the schools were received from Hetfield & Company, Consumers Coal Company, McDonough Brothers, and Boice, Runyon & Company. The lowest bids were accepted as follows: Pea coal, $4.75 per ton, Hetfield & Company; nut coal, $5.75, Boice, Runyon & Company; stove coal, $5.75, Boice, Runyon & Company; egg coal, $5.75, Consumers Coal Company. Medical inspectors, T. H. Tomlinson and A. F. VanHorn reported the examination of forty pupils. James B. Wilson and the J. L. Hammett Company submitted estimates on school supplies which were referred to the committee on supplies.

RECEIVED FRIENDS.

Mr. and Mrs. John Hummer Celebrated Their Recent Wedding.

Mr. and Mrs. John Hummer, whose wedding occurred last week, tendered a reception last evening at their home at 1077 Arlington avenue to a large number of their friends. The evening was pleasantly spent in a general social time with music interspersed. Miss Florence Ackor rendered several vocal selections and others in the party favored with selections upon the piano. An elaborate repast was served late in the evening. Guests were present from this city, Roselle, Elizabeth and Watchung.

Sprinkling Car Running.

The trolley sprinkling car is now making regular trips over the various trolley lines, although the slight rain of Sunday night and Monday morning laid the dust considerably. The first trips were made Saturday and the sprinkling was a blessing to all living on the line of the trolley, as well as those who rode in the cars.

Wedded in Newark.

The wedding of Miss Elizabeth Kress and James Howley, both of Perth Amboy, took place in Newark last Wednesday afternoon at St. Columba's church. Mr. and Mrs. Howley will reside on West Front street, this city, where Mr. Howley is employed in the Manganese Steel Safe Works.

NO SPRINKLING BY CITY NOW

But Action on the Subject Is Expected in the Near Future, However.

MORE MACADAM ROADS

Council Holds Lengthy Session, But Nothing of Great Importance is Considered—Petitions for Street Sprinkling Received—Lots of Other Business is Transacted.

A long session of the Common Council, including a forty minute recess, marked by no business of any great importance, was held last evening. It was the regular May meeting and all the members were present. There was no end of routine matters, including a number of ordinances for final adoption. The application made by the Central New Jersey Telephone Company for a franchise was not mentioned or considered, as it was believed it would be. The question of municipal street sprinkling was left to an executive session held after the regular meeting, and this will probably be brought up for action in the near future.

When the meeting was called, Mr. Tolles moved to suspend the regular order, so as to allow for a hearing on the proposed extension of the sanitary sewer. During this time a communication was received from O. B. Leonard, Dr. Frank S. Wells, T. E. F. Randolph and Robert McCutchen advocating the extension of the sewer system, claiming that such an improvement would be a great benefit and would tend to cause the erection of many houses. In fact, they claimed that at least fifteen houses will be erected along the proposed route of the extension if the sewer system is provided. The communication was referred to the street and sewer committee. Later in the evening Mr. Tolles offered a resolution in connection with the proposed ordinance calling for the extension of the sewer system and moved that the ordinance be referred to the street and sewer committee to be reported upon at a later Council meeting.

Then followed a bunch of petitions and communications. The residents on the south side of West Seventh street, near Division street, asked for an electric light. The matter was referred. A communication was received from J. Fred MacDonald and other residents of Watchung avenue, asking about the proposed widening of the avenue, which the city expected to carry out after the property-owners did their share of the work. The communication was rather sharp and called the attention of the Council to the fact that no answer had been received from previous letters on the subject. The property-owners want to know what the city proposes to do about the matter. On a motion offered by Mr. Tolles, the communication was referred to the corporation counsel.

Two petitions, one headed by City Judge Wm. N. Runyon and the other by Postmaster E. H. Bird, asked the Council to consider and act upon the question of municipal street sprinkling. The petitions were referred to the street and sewer committee. A petition from A. D. Thompson and others, asking that Woodland avenue from East Seventh street to Watchung avenue be macadamized, was received and Mr. Tolles of the street committee, reported that provision had been made for this work and would be included in a general ordinance to macadamize a number of streets. A similar report was made on a petition received from Henry Leifke and others asking for the acceptance and macadamizing of West Fifth street, between Grant and Monroe avenues.

F. C. Lounsbury and others petitioned for an electric light at the corner of West Second street and Plainfield avenue, claiming the corner to be especially dark. The matter was referred.

In view of the power vested in the Common Council to appropriate special sums for the use of the Board of Health in emergency, the Board of Health, through its president, C. J. Fisk, asked the Council to appropriate the board $1,286.18 in addition to the regular appropriation, in order to square accounts to January 1, 1903, on account of the care of contagious disease, including small pox cases. The sum was appropriated.

CONDITION OF CITY FINANCES

(CONTINUED FROM PAGE 1.)

Many of the people named are said to be dead. Others have moved beyond the jurisdiction of the courts. It is recommended that this matter be taken up with the Collector and all that is hopelessly uncollectable, be eliminated.

Throughout the books are items marked "remitted," but as the plan of the books makes no provision for references, it is not possible to ascertain whether the remitting has been by the constituted authority, and these items have been listed with the outstandings and marked "remitted?" to bring them to your attention.

Vigorous enforcement of the law, would doubtless result in the collection of a considerable sum, and the reports of the Marshall should be of value in forming a correct judgment regarding the value of the amounts which are claimed to be uncollectable.

Those items, which in the judgment of the Council, are to be carried, as possible of collection, should be transferred to a book of arrears, which should be ruled and printed to conform to the design hereafter recommended for "ward books." The labor and expense involved would be more than compensated for by the greater facility with which they could afterward be handled and by making it possible to make all the transactions of the Collector's office, elements of a plan of absolute proof, which will be fully described under the head of "ward books."

The books, known as "ward books" can be much improved by adding columns to give the date and authority in each case where tax is remitted.

Further, if a cash column is added, in which to enter the amount of each payment, it would be possible to prove these books with the tax receipt book, as accurately as a double entry ledger is proven. The value of such a proof cannot be over-estimated, as it would show the correctness of the posting to the individual credit of the tax payers, in the ward books, the posting of the debits for the cash received to the various years in the tax receipt books and would show the total of the balances outstanding of each year's tax levy. By these totals the City Treasurer and the Collector of Taxes would be certain that their books were in agreement. The difference between the total outstandings at any two proofs, would have to equal the cash receipts for the time elapsed between proofs, thus confirming the footings of the cash book.

A draft of the rulings and headings for the ward book with the additions suggested above, is furnished in Form "I." It will be observed that the rulings added do not necessitate increasing the size of the page, as the space needed has been taken from other columns where the spacing in the old books is unnecessarily wide.

Alteration of the original figures on the "ward books" should be strictly forbidden, as after the levy has been accepted by the Council, the figures *form the basis of the records for the year.* When the Assessors or others *discover that a change should be* made, a form prepared for this purpose, should be used and after being approved by the Council, the Collector should make the correction, entering proper reference. The papers should then be forwarded to the City Treasurer, so that he may correct his accounts and file away the papers for audit.

The book, known as the "cash book," or "delinquent cash book," is inadequate in its provisions and the title is misleading. A book planned as per form "II" will give all the information now found in the "delinquent cash book" and in addition to admitting of more accurate proof, would, by its provisions for distribution, eliminate the large volume of repetition of entries, now necessary to keep up the present "tax receipt book." Whereas, a large book is filled every year, a single page would answer to summarize a year's receipts in respect of each year's tax levy; the details all being fully set forth in the cash book, form "II."

Greater safeguard should be thrown around the collection of taxes. It is due to the Collector and his bondsmen, as well as to the taxpayer, that every precaution be exercised, to place this office above criticism.

The present arrangement of the city offices is admirably adapted to a plan of checking, under which no tax receipt is a discharge, unless countersigned by the City Auditor. The money could be received by the Collector, as at present, entered on his record, and the bill stamped "paid." The bill so stamped, should then be passed to the auditor's office, where the name and the amount of the payment should be listed on a sheet or form adapted for this purpose, the Auditor's stamp affixed, and the bill, bearing both stamps in evidence of payment, issued to the taxpayer. The Auditor's tally sheet should be forwarded direct to the Treasurer, who should compare it with the Collector's report.

By providing a moderate salaried assistant in the office of the City Clerk and Auditor, that office could arrange to conform to the office hours of the Collector of Taxes, and this very necessary improvement in the plan of work inaugurated.

Let it be clearly understood, that nothing in this suggestion, should be construed, in the slightest degree, as an attempt to reflect on the present conduct of the Tax Collector's office. On the contrary, the undoubted evidence of the integrity and faithfulness of the present incumbent only tends to emphasize the facts, that the city of Plainfield is peculiarly fortunate in the selection of its public servants and that while safe men are filling the various positions of trust, plans should be inaugurated to fully safeguard these important offices in the future.

The audit of the Collector's books has embraced every feature of the work of the office and such errors in bookkeeping, as admitted of simple correction, have been cheerfully adjusted by the Collector when brought to his attention.

Items which require your consideration and authorization to correct or adjust, are set forth in schedule "E."

Office of the City Clerk.

This office receives all the fees for license issued to hackmen, peddlers, carters, auctioneers, etc. Also the money deposited for the advertising of applications for liquor licenses and the fees for the transfer of liquor licenses.

A complete record is kept of the money received for licenses issued to hackmen, peddlers, carters, auctioneers, etc., and a comparison of this book with the stub of the certificate book, showed every certificate accounted for, with the exceptions hereinafter noted.

The fees for advertising and transfers in respect of liquor licenses being only occasional transactions have not been so thoroughly recorded but as the absence of a record has resulted, at times, in these items being temporarily overlooked, a form for a more complete book to include all cash receipts has been prepared in compliance with the request of the City Clerk, see form "III."

City Court.

This department has kept no record of cast receipts and disbursements.

The figures used in this report have been compiled from a minute book or diary kept by the City Judge, for the period from January 1, 1900, to September 3, 1901, and from this latter date from the police blotter at police headquarters, the City Judge having no record whatever. This work was of a character not properly embraced in the scope of an audit, as it involved the reading of the minutes of all cases to ascertain the final disposition and in all cases where fines were imposed, the listing of the dates, names and amounts.

It will be seen how necessary it is that a simple but complete record of *cash receipts and disbursements be* provided for the City Court. Form "IV" has been prepared to meet this need and it will be observed that in addition to furnishing a complete record of the receipts, it provides for detailed information regarding disbursement of money. This latter provision is of the utmost importance as during the three years under review, the City Judge disbursed $323 28 that did not pass through the hands of the City Treasurer.

By the adoption of this form, the danger of error will be reduced and there will exist no reason why the *receipts should not be passed to the* Treasurer every month.

All cash disbursements should be represented by vouchers, numbered and filed to correspond with the order of their entry on the cash book, form "IV" so as to admit of satisfactory audit.

Schedule "A."

This schedule is heretofore referred to in this report under the comments on the audit of the Tax Collector's office and is composed of twenty-one supplementary books. The first two of these books show in detail the outstanding taxes of the levy in respect of the year 1902, as well as all items on the ward books for that year, that are not satisfactorily closed. This latter includes the items which are supposed to have been remitted by either the Commission of Appeal or the Common Council.

The Corporation Counsel has stated that all taxes remaining on the books after twenty years are presumed to have been paid, unless it can be proven that in the mean time a promise to pay has been made.

Guided by this opinion, schedules of the arrearage for nineteen years prior to 1902 have been prepared, a book being devoted to each year.

The volume of the outstandings and unsatisfactory credits is so large that this division into separate books as to each year, was found necessary, so as to put the subject matter into convenient form for the consideration of your committee and the Council.

The subject of proper reference to the authorization for the remitting of taxes is one that should have your careful attention, as the present methods provide no safeguard on this point whatever.

The collection of personal, poll and dog taxes, judging by the volume now in arrears, would seem to be a difficult matter, whereas the tax on real estate is certain of realization.

Therefore, it is recommended that in the future, the tax levy of each year be taken on the books of the Treasurer, in two figures.

The tax on real estate to be considered a real asset for the purpose of calculating the city's resources and the balance to be regarded as of nominal value, as otherwise the figures are liable to prove misleading, giving the impression that the surplus is much greater than it actually is.

The accounts, with the exceptions noted, are in business-like shape and in every department the city appears to be efficeintly and faithfully served

Finally.

Throughout the entire progress of the audit, I have received the kindliest treatment by the officials with whom I have been brought in contact, who have spared neither trouble nor inconvenience to afford me the most ample facility and assistance and to their several efforts is due much credit for the satisfactory results obtained.

In closing, I desire to thank you and the several members of your committee, the City Treasurer, City Clerk, Collector of Taxes, the City Judge and other officials for the courtesy with which I have been treated.

Respectfully submitted,
G. E. Collins.

BEAUTIFUL AND ACCESSIBLE.

ON MAIN LINE PENNSYLVANIA RAILROAD.

Rosedale and Linden Park Cemeteries

Largest Burial Parks in the State.

Transportation Facilities superior to those of any other cemetery, as to number of trains, railroad fare, time and distance.

These New Cemeteries, now being developed on the modern park plan, are attracting universal attention.

By Reason of Location Alone they are destined, in a very short time, to become the best-known Cemeteries in the country and, with their natural advantages, the most beautiful and desirable in which to purchase lots.

They are Accessible from every quarter and within easy reach of over 4,000,000 people, and, considering the steady and rapidly increasing growth of Greater New York and its tributary cities and towns, it is only the question of a short time before plots in Rosedale and Linden Park will equal in value those of our most noted cemeteries.

Popular Favor has already been shown to a marked degree in the sale of lots, several hundred having been sold to residents in Elizabeth, Linden, Rahway, Cranford, Jersey City, Orange, Paterson, Westfield, Newark and New York City, and a large number of interments have been made.

In the Days of Happiness we do not know what is to befall us or when the inevitable will occur; therefore, it is a wiser precaution to make provision for a final resting place during health and life than to force the painful duty on one's friends or relatives after death. A place of burial will be needed sooner or later by every one, and no one should neglect selecting a suitable and proper place until future postponement is impossible.

Linden Lodge is the largest, most modern and best equipped Cemetery Lodge in the country and is provided with every requisite for the comfort and convenience of visitors who come to inspect the properties.

CAUSE OF DEAR COAL

Legislative Committee's Bay State Report.

INDEPENDENT OPERATORS BLAMED.

They Seized Eastern Markets, and Local Dealers Also Took Unjust Advantage—An Antimonopoly Law Recommended.

BOSTON, May 5.—While recognizing that the primary cause of the high price of coal last winter was the strike and the secondary cause the seizure of the eastern markets by the independent operators, the legislative coal investigating committee, which has just filed its report, finds that in many cases local dealers in Massachusetts took advantage of this situation to exact from the public the highest prices obtainable without reference to the question of whether or not they were obtaining a fair profit. The committee also finds that the opportunity for this action by the local dealers was greatly facilitated by the general existence throughout the commonwealth of coal clubs, so called.

The committee recommends a bill preventing such monopolies as well as a bill providing for the public weighing of coal and in conclusion recommends that the testimony be referred to the attorney general, and if he finds that there is sufficient evidence of violation of existing law he to institute prosecutions.

In its report the committee states that it has held public hearings and examined 308 witnesses and that as the coal situation in Boston and vicinity was more or less typical of the situation within the commonwealth it was examined with particular care.

The supply of coal arriving at Boston from domestic sources for 1902 was 1,634,478 tons short of the supply in 1901. This shortage was, however, partially made up by an increase in receipts of foreign coal of 505,255 tons. It appears, therefore, that, though the net shortage was not inconsiderable, it was much less than the well nigh prohibitive prices prevailing during the past winter would seem to have indicated.

Trouble Again In Schenectady.

SCHENECTADY, N. Y., May 5.—Five weeks ago a screw maker named Gilmore was employed by the General Electric company. He refused to join the local union, and the matter has been taken up by the Trades Assembly and the Allied Metal Mechanics. John Mulholland, international president of the latter organization, is in this city, and after several conferences the matter has been left to the executive board of his organization. The demand is that Gilmore be either discharged, compelled to join the union or transferred to another department. The company flatly refuses to discharge Gilmore or compel him to join the union. Gilmore, who lives in Albany, is assailed with cries of "Scab!" and called vile names every time he boards a trolley car, while the conductor is invariably asked to throw him off.

Seven Seamen Lost.

NEW YORK, May 5.—Out of a crew of seventy-two men, who had labored helplessly for three days to keep afloat the fishing brig Sans Souci, bound for Cape St. Lawrence, which had been caught in an ice floe, sixty-five were landed at this port by the Phœnix line steamship St. Andrew's. The others were washed overboard by a huge wave which fell squarely on the vessel's deck, except one who was injured at the time and died the next day. The crew was rescued a week ago.

Dynamited the Church.

CHICAGO, May 5.—The war which the negro preachers of Chicago are waging on "policy" culminated in an attempt to dynamite the Institutional church. A negro mass meeting to arouse public sentiment against the evils which the game is said to work among the colored population had been held, and the congregation had been dismissed only a few minutes when the dynamite was exploded. The explosion broke all the windows and blew a large hole in the south wall.

No Word From Explorers.

STOCKHOLM, Sweden, May 5.—Anxiety is felt here that nothing has been heard from the Nordenskjold antarctic expedition for some months. Preparations are being made to send a relief expedition in September if no news is received by that time. The *Nordenskjold expedition left Gothenburg, Sweden, Oct. 16, 1901.*

Icebergs and Ocean Fatality.

SYDNEY, C. B., May 5.—*The British* barkentine Culdoon has arrived here from Ireland. She sighted forty icebergs near the grand banks. The steamer Unique, just arrived from Glasgow, reports that while on the voyage a negro seaman was stabbed by a Spaniard and cannot live. The Spaniard is under arrest.

Prominent Georgian Dead.

ATLANTA, Ga., May 5.—Major James H. Warren, who since 1872 has been secretary to the executive department of the Georgia state government, has been instantly killed by a Georgia railroad passenger train at Kirkwood, three miles from Atlanta, where he lived. He was eighty years old.

Will Not Go to Philippines.

IOWA CITY, Ia., May 5.—Dr. Frederic E. Bolton, professor of pedagogy at the State university, has cabled his refusal of the presidency of the Manila Normal school because he dislikes the Philippines.

ROOSEVELT'S TOUR.

Silver State's Capital Warmly Greets His Excellency.

BREAKFAST WITH THE COWBOYS.

All Colorado Took a Holiday to Greet the President, Who Was the Recipient of Many Souvenirs.

DENVER, May 5.—This is president's day in Colorado, and at every stopping place on President Roosevelt's itinerary it has been observed in Fourth of July fashion.

The nation's chief executive was the guest of the city of Denver for two and a half hours, and the people, regardless of political affiliations, greeted him with a warmth and heartiness of welcome not exceeded on his transcontinental tour.

At the state capital as the president stepped upon the speakers' stand Mrs. Helen M. Caspar presented to President Roosevelt on behalf of the Daughters of the American Revolution a silk flag beautifully wrought.

"I deeply appreciate this priceless gift," said the president.

Then Colonel Charles L. Cooper of the Fifth cavalry, mustering officer of the rough riders, handed the president a photograph of his command taken at San Antonio, Tex. Mr. Roosevelt, who was prominent in the picture, the only one of the scene in existence, laughed aloud and exclaimed, "That certainly is all right, colonel."

A reception was held by the president in Governor Peabody's office in the capitol. By the president's side was Mrs. Peabody and the Misses Peabody. The military officers of the state and national army stationed at Fort Logan were introduced. The president was presented with a handsome gold pin by John Kukendall in the name of the cowboys of America.

At the train Governor Peabody on behalf of the Colorado board of world's fair commissioners presented to the president a souvenir medal made of solid gold taken from the El Paso mine at Cripple Creek and accompanied by a beautifully engrossed certificate.

At Hugo President Roosevelt was treated to a cowboys' breakfast. It was partaken of standing, and then the president shook hands with his hosts. The train pulled out amid a chorus of cowboy yells.

Check on "Mushroom" Strikes.

CHICAGO, May 5.—Advocates of industrial peace have won a victory in the Chicago Federation of Labor that will be a check on mushroom strikes and, it is believed, will prevent a repetition of the labor controversies that have marked the last two months. The federation has decided to make its executive board a mediator in all disputes and ordered all affiliated locals to submit their troubles to this board for adjustment. This course will insure peace negotiations before a strike is called and will bring to an end such walk outs as those at the Deering harvester plant and in the various laundries of the city. It also probably will head off trouble at the McCormick harvester works.

Another High Society Divorce Case.

NEWPORT, R. I., May 5.—Among the petitions for divorce which will be heard at the session of the supreme court which meets here on Monday next is that of Mrs. Belle Neilson Kemp, sister of Mrs. Reginald C. Vanderbilt, against her husband, Arthur T. Kemp of New York. The Kemps have been prominent in the summer colony here for several years, and their marriage in St. Patrick's cathedral by Archbishop Corrigan six years ago was one of the fashionable events of the season.

Missing Child's Skeleton Found.

MIDDLETOWN, N. Y., May 5.—The mystery surrounding the disappearance of five-year-old Lucy Conkling of this place four years ago has been partly solved by the discovery of the child's skeleton on a mountain near here. The body was identified by pieces of clothing. There were two bullet holes in the child's head. At the time of her disappearance it was believed that she had been kidnaped.

A Man of Many Aliases.

SARATOGA, N. Y., May 5.—J. Colby Harrington, alias J. C. Curtis, alias J. Curtis Harrington, who has been arrested at Fond du Lac, Wis., on a charge of forging a draft for $1,500, is from Schuylerville, Saratoga county, N. Y., where his family resides. He is said to be a promoter, and one of his latest projects in this section was in regard to a mill at Fort Miller, Washington county.

A Premium on Marriage.

WASHINGTON, May 5.—The Philippine commission has put a premium on matrimony by making an increase of $15 in gold per month in the salary allowances of married officers of the constabulary. The increase is for commutation of quarters. There are many bachelors on the force.

Two Killed by an Avalanche.

SYDNEY, N. S., May 5.—An avalanche of stone slid down the side of George's mountain near the Dominion Steel company's quarries, killing two men.

New Cuban Stamps.

HAVANA, May 5.—Congress has authorized an issue of 7,700,000 postage stamps in commemoration of the installation of the Cuban republic.

British Columbia Miners Out.

VICTORIA, B. C., May 5.—Cumberland miners have gone on strike for the recognition of the Western Federation of Miners.

A MILLIONAIRE SHOT

Buffalo Capitalist a Victim of Wife's Anger.

A STORY OF DOMESTIC INFELICITY

John H. Costello Lies In Hospital With a Bullet In His Back For Which Surgeons Probe In Vain.

BUFFALO, May 5.—John H. Costello, capitalist, mine owner and lumber merchant, who was shot in the back and seriously wounded yesterday afternoon by his wife in the corridor of the fourth floor of the Prudential building, is still living.

The surgeons at the hospital probed for the bullet in Costello's back for some time last evening, but they were unable to locate it.

"It's hard to say just how serious the wound is just yet," said one of them. "It may be fatal, but the chances are in favor of recovery." He rested easily last night.

The shooting was the outcome of years of infelicity and open warfare in the courts between Costello and his wife. The Costellos are well known in exclusive social circles. They have been separated for several years, during which time repeated litigation has been engaged in. Mrs. Costello has made frequent attempts to gain possession of her children and, it is alleged, has more than once tried to kidnap them.

Mr. Costello is one of the best known and wealthiest men in Buffalo. He has made a fortune in the lumber business in Pennsylvania and has extensive copper mining interests in the west. He is also interested in a large number of corporations. He is about fifty-three years old and has been for some time past living with his children in the Lenox hotel, on North street.

Mrs. Costello is forty-five years old. She was allowed $100 alimony when divorce proceedings were instituted four or five years ago. Since that time the courts have been kept busy with their affairs. The alimony proceedings dragged through the courts for some time and were followed by a long fight for the custody of the three children. Costello finally won the fight and was awarded the custody of the children. But his troubles did not end there. Mrs. Costello was not inclined to give up the children without a further struggle, and about a year ago she created a scene in the Niagara hotel, where Mr. Costello was then living. She had been ordered by the court prior to that time to keep away from her family, and after the scene in the Niagara hotel Mr. Costello had his wife brought before the court on contempt proceedings, charging her with disobeying the order of the court.

Justice Keneflck, who was sitting in special term at that time, reduced her alimony to $80 per month as punishment for this disobedience.

The Revolt In Nicaragua.

PANAMA, Colombia, May 5.—The official news emanating from Managua, Nicaragua, to the effect that the revolution has been put down is contradicted. The Nicaraguan revolutionary junta here has received a report from General Emiliano Chamorro that the Nicaraguan government steamer Once de Julio has been sunk by the rebel vessel Victoria. The entire crew of the government boat was lost. The rebel victory at Acoyapa and the capture of Omotepe and San Carlos have been confirmed. The members of the junta are hopeful of success and declare that the rebels cannot be attacked, the government forces not being sufficiently strong.

Crisis In Philadelphia Strike.

PHILADELPHIA, May 5. — The strike situation in the building trades in this city reached a crisis when the advisory board of the Master Builders' Exchange announced the decision of the employers to refuse to recognize the "sympathetic strike" clause in the wage schedule of the various trades. A strike of the plasterers' laborers for an advance in wages of 5 cents an hour has also increased the tension. This strike involves the council of allied building trades, with which organization the Plasterers' Laborers' union is affiliated.

To Develop Newfoundland Pulp.

ST. JOHN'S, N. F., May 5.—A wealthy syndicate of American and Canadian capitalists headed by Henry Melville Whitney of Boston has purchased 2,000,000 acres of timber pulp land in Newfoundland and intends to undertake development on a large scale. The syndicate paid over $1,000,000 for its properties and expects to establish one of the largest enterprises in the eastern provinces.

Heavy Stock Losses In Kansas.

SHARON SPRINGS, Kan., May 5.—Snow in the valleys yet tells of the severity of the past week's storm in western Kansas. Farmers are coming in with reports of serious cattle losses. It is probable that more cattle have been killed than in all other storms of the winter combined.

Vasquez Government Fallen.

WASHINGTON, May 5.—A cablegram from Minister Powell at Port au Prince says that the Vasquez government has fallen and that a new provisional government has been created which has the entire territory under its control, with General Gil as president.

Engineers' Strike On.

KINGSTON, N. Y., May 5.—The engineers employed by the Cornell Steamboat company who went on strike have agreed to arbitrate their differences over the question of wages, with the stipulation that in the meantime they shall return to work.

THE AUDITOR'S REPORT.

Just as in any other business concern, it was right and proper that the city's books and accounts be audited That work having been completed, it was manifestly proper that the results of the investigation should be given to those interested. In a business corporation, the stockholders are entitled to the information. In the city, it is the property-owners and tax-payers who should have the same privilege. When the report of the auditor was first presented to the Common Council, it was whispered that the report might remain in the hands of the finance committee. We are glad that the Councilmen have decided to make it public.

There is nothing sensational in the report. The bulk of it, with the exception of the tables, is published in today's Daily Press. The accounts are found correct and there are words of praise for the city officials in the interested departments. The present state of the city's finances is explained so any one may understand. Then Auditor Collins makes certain recommendations in the different departments which, he believes, would work to the interests of the city.

To the uninitiated, it looks as if the work had been very thoroughly done. The report appears to be well gotten up and even to the public some of the recommendations look like good business advice. All of the report is of interest to every citizen and should be read with care as it gives much that affects the city's financial affairs.

It looks as if the men who robbed the First National Bank nearly ten years ago would finally be brought to justice. Two men have been arrested in New York who, the police of that city say, are notorious crooks, one of whose best jobs was the robbing of the local bank. They are accused of another crime now in New York.

New Choir Sang.

The new choir of the Crescent Avenue church sang for the first time, Sunday morning, before a large congregation. The new organist, Arthur Drake, who was formerly organist of the Second Reformed church, of New Brunswick, made his first appearance as regular organist, Sunday. The music was very fine at both services.

Pension Day.

Yesterday was pension day at the office of Dr. Wm. E. Mattison and it was also a sort of a reunion for all the old soldiers to get together to talk over their experiences of the war. Some of the narratives are most interesting.

COLUMN FOR THE SHOPPERS

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

For all kinds of delicacies, including the best teas and coffees, as well as oriental draperies, there is no better place to go than to the Oriental Tea Store on West Front street.

Rogers Fish Company is daily receiving large shipments of fresh shad and mackerel which, of their kind, are warranted the best that swim. This is no "fish" story. Inquire at the store on West Second street.

Whenever one feels tired and thirsty while shopping a visit to B. J Schreiner, the druggist at the corner of Second street and Park avenue, where the best ice cream soda can be secured, will not fail to be refreshing.

Want to beautify your place? Go to the Belleview Nursery Company and take your pick of a choice variety of flowering shrubs, rose bushes, vines, hedges and shade trees. "Now's the time and now's the hour." Don't procrastinate.

This is just the time to replenish your stock of shoes and there is no better place to make the selection than at John H. Doane's shoe store on West Front street. He keeps the best stock of shoes for men, women and children at the popular prices.

If you want to wear "the smile that won't come off," buy your strawberries of T. L. Walsh on North avenue. You will also find there a fine line of Jersey asparagus, tomatoes, cucumbers, lettuce, string beans, fancy table apples, oranges and grape fruit.

Hill & Shupp, the dry goods merchants, are showing an exceptionally fine stock of spring and summer goods and special bargains are being offered in every department. At this store the quality of the goods is not sacrificed for the price, although you will find the price very low.

There are certain brands of coffee which are injurious to the system, but there are many other brands which are practically harmless. The difference lies in the quality. Neuman Brothers have made a specialty for many years of having the best and that is why they can guarantee Old Government Java and Mocha and Java. They also have a choice line of teas, including the famous Formosa Oolong.

SUBURBAN NEWS

A Department Devoted to the Minor Events in Greater Plainfield's Suburbs by Our Own Correspondents.

DUNELLEN.

The regular monthly meeting of the Borough Council was held last evening in the Town Hall. Besides the Mayor, Messrs. Moynihan, Ryno, Kenny, and Schneider, were present. Two petitions were received by the Council, one to have the western side of Jackson avenue paved, and the other to have a part of Front street paved. Both petitions were referred to the ordinance committee. A petition was also received, asking to have Center street macadamized. This was referred to the street committee. An agreement had been made before, however, that the township should macadamize that street and the street committee will look into the matter. A number of bills were received and were ordered paid if found correct. The Clerk was instructed to issue a note to cover the amount. The Mayor then spoke of the lawlessness in certain parts of the borough at all times and said, he proposed to have it stopped. To that purpose he appointed all the Councilmen and Owen Mahan to act as special marshals. After several committees had reported, Mr. Schneider spoke about several stores in town which keep open and have a Sunday trade. The matter was referred to the law and order committee. The meeting then adjourned.

The Watchung A. C. feels quite roud of the fact in beating the Triangle Club, of New Brunswick. The Triangle Club is in the league at that place and this is its first defeat. The victory was won by the locals mainly by fine field work, in which Peters figured prominently, and good pitching by "Harve" Moynihan.

One of the features of Saturday's game was the fine catching of McQuade, who was behind the bat in Browns' place. He formerly played with the Rochester Eastern Leaguers. If Manager Smith can keep him he has a prize.

Fred Giddes was back at his old station on first for Dunellen, Saturday. His playing strengthened the team materially.

A. F. Samson has given up business for the summer and will spend most of the time at home.

A regular meeting of the Banjo Club was held last evening at the home of Miss Emma Nelson.

The town scraper was out yesterday clearing out the gutters throughout town.

NEW MARKET.

The baseball game Saturday between the locals and the Orange Field Club was a regular old-fashioned slugging exhibition in which base hits and errors played the most prominent part.

It is rumored that Township Supervisor Cathers is to resign his position at the end of the year.

An entertainment is being planned to take place the last part of the month in the hall.

The meeting of the Township Committee will be held this afternoon at Dent's Hotel.

PLAINS AND FANWOOD.

The local fans are well pleased with the showing made by Manager Johnston's colts Saturday afternoon. Only three errors were charged up against them which speaks well for the team as this was the first time the members had ever been together as a team. As the season advances and team work developes, the locals will prove as strong, if not stronger than last season.

The teachers of the Baptist Sunday-school are attending the Teachers' Institute meeting being held this afternoon and evening at the Park Avenue Baptist church, Plainfield. Rev. G. M. Shott will teach the lesson at the evening session.

The work of building the extension to the bleachers on the ball ground will be finished this week. When done the club will be able to furnish seating capacity for about 300 people.

Tickets will be out in a few days for the entertainment to be given by Fanwood Council, R. A., Wednesday evening, May 13. The entertainment will be followed by a dance.

Flannery in centre field Saturday afternoon, pulled down three pretty base hits, which was enough to take the heart out of any batter.

A number from town will attend the A. O. U. W. reception to be given in the I. C. T. rooms in Plainfield tonight.

The members of the dancing class are arranging to give a reception at the close of the series of lessons being taken.

Mrs. Wm. H. Lee has been entertaining her brother, P. J. Fitzgerald, of Philadelphia, over Sunday.

J. Shreve, Mrs. Isaac L. Miller; corresponding secretary, Miss Susan S. Hubbell; recording secretary, Miss Mary K. Whiton; treasurer, Mrs. James R. Joy.

Mrs. Margaret Reville, of 732 West Third street, says: "For a long time I was troubled with a lame weak back and I never found anything which gave me any relief until I obtained Doan's Kidney Pills from L. W. Randolph's drug store and began to use them according to directions. It was only a short time before I felt the good effect and from that time on I improved steadily under the treatment. My back pained me and was so weak and sore that I dreaded to bend, and when I had a cold or over exerted myself I suffered severely. I used several different kidney remedies but got little, if any relief. I give Doan's Kidney Pills all the credit for my improvement. I think they are a fine medicine for a lame back."

Proceedings of the Board of Chosen Freeholders of Union County.

[OFFICIAL.]

Regular meeting of the Board of Chosen Freeholders of the county of Union, N. J., held on Thursday, April 2d, 1903, at 2:30 p. m.

The meeting was called to order by the clerk of the board.

Roll call showed all members present except Director Hubbard and Freeholder Cady.

The clerk stated that owing to the absence of the director it would be necessary to elect a director pro tem, and called for nominations. Freeholder King was nominated, and as there were no further nominations he was declared elected as director pro tem by the unanimous vote of the board.

The minutes of the previous meeting were on motion approved as read.

No petitions, communications or memorials were presented.

NEW BUSINESS

By the committee on line bridge on Girard avenue, in the city of Plainfield:

Whereas, The Board of Chosen Freeholders of the county of Somerset, in joint session with a committee of Union county, has requested Union county to co-operate with them in building an iron girder, buckle plate bridge over Green brook, in Girard avenue, in the city of Plainfield and North Plainfield; be it

Resolved, That a committee of five members be appointed to look into the advisability of building such a bridge, and report back to this board.

Signed, W. A. Westphal, John Robison, E. K. Adams, Noah Woodruff, Joseph McCandless, Committee.

After some discussion it was ordered, on motion of Freeholder Westphal, that the foregoing preamble and resolution be adopted.

Director pro tem King appointed as said committee Freeholders Westphal, Robison, Adams, Woodruff and McCandless.

The board then on motion referred back to reports of committees.

REPORTS OF COMMITTEES.

By the committee of Girard avenue bridge.

To the Board of Chosen Freeholders of the county of Union:

Gentlemen: Your committee appointed to look into the advisability of building a bridge over Green brook, at Girard avenue, in the city of Plainfield, in connection with the county of Somerset, would report that they have looked into the matter, and would recommend that they be authorized to build a bridge, the cost to Union county not to exceed $1,700.

Signed, W. A. Westphal, John Robison, E. K. Adams, Noah Woodruff, Joseph McCandless, Committee.

Freeholder Westphal moved that the report be received and recommendation adopted, which was duly seconded.

Freeholders Westphal explained, with reference to the speedy report as made by the committee, that the committee was composed of the same members, with one exception, as had been appointed two or three years ago to consider the construction of a bridge at the point as stated in the report.

The committee therefore was thoroughly qualified to make a report at once.

During the time mentioned the Somerset county board had declined to act in the matter, but was now willing to go ahead, and he hoped the report of the committee would be adopted.

After some further discussion, during which County Attorney Codington stated that under the circumstances the action of the committee was in no way illegal, the report of the committee and the recommendations therein contained were on roll call unanimously adopted.

Letters from Women

Cured by the use of Kodol are received daily. Their troubles nearly all begin with indigestion or other stomach disorder.

If the food you eat fails to give strength to your body, it is because the juices secreted by the stomach and digestive organs are inadequate to transform the nutrient properties of the food into blood. That is indigestion. The system is deprived of the amount of nourishment required to keep up the strength, and the result is that one or more of the delicate organs gradually grows weak, and then weaker, until finally it is diseased. Here a great mistake is made. That of treating the diseased organ. The best doctors in the land make this very mistake. Why should they? It is so easy to see that the trouble is not there.

Kodol Cures

This famous remedy puts the stomach and digestive organs in a healthy condition so that rich, red blood is sent coursing through the veins and arteries of every muscle, tissue and fiber throughout every organ of the entire body, and by Nature's law of health, full strength and vigor is soon restored to each.

Kodol cures indigestion, dyspepsia and all stomach disorders.

I have taken Kodol for nearly two months after each meal and it is the only remedy that gave relief from the terrible pains I endured. After a time I would take it but once a day, and now, while I keep a bottle handy, I seldom need it, as it has cured me. MRS. J. W. COOLBAUGH, Milo Center, N. Y.

What the New Woman Is About

A SCENE so extraordinary that it is surprising no more notice has been taken of it was witnessed not long ago in Philadelphia—quiet, Quaker Philadelphia, of all places in the Union for anything violent to occur among well bred people. The gentle yet wide awake women of a certain temperance society were holding a meeting. It was a meeting for members of the organization, yet stranger spectators were present. The case was discussed of Reed Smoot, the United States senator from Utah who was charged with being a practical polygamist and concealing the fact. The ladies denounced in unmeasured terms the brazen insult to American and all womanhood which the presence of a polygamist in the nation's highest legislative body would mean. They threw into their speeches all the eloquence of the feminine new found power in public oratory as they spoke their minds on Mormon polygamists. Indignation and excitement were at their height when a young man in a back seat rose and announced that he was a Mormon missionary and would like to explain his particular brand of theology to the ladies. There was a gasping for breath among the women, then a storm of furious hisses and cries, these becoming savage and menacing, like the shouts of the French petroleuses. At length the words "Throw him out!" could be distinguished. There was an ominous moment of delay, then half a dozen of the older, stronger women made a simultaneous rush at the offender. Their wrath was too great for mere words. They seized hold of him, others joined them, and the interloper was irresistibly shoved toward the door. He had no chance to defend himself, for an amazon army was on him. It pushed him through the door, through the hall, and then white, slender feminine hands actually hurled him down stairs, and he went tumbling to the bottom. Talk of weak woman!

Do not sit with legs crossed at the knees. It stops blood circulation, paralyzes the free action of the great neural system that supplies the lower half of the body with nerve stimulus, therefore life and health. I have known neuralgia, rheumatism and partial paralysis to result from long continued pressure on these great nerves. Besides, and what will count for more than all with some women, the cross-legged attitude is ugly and ungraceful. It does not look pretty.

* *

A young lady of fashion lately met with a disastrous blow. She had a party gown made according to an "exclusive" model. She depended on the dressmaker not to permit any common trash to get hold of the model and copy it. The dressmaker, in the face of a prospect of gain, proved faithless and built another girl's gown on the same pattern. "Of course now I can never wear the dress," said the first girl indignantly. Dear, dear! This is dreadful.

* *

A reverend gentleman recommends the founding of a school to teach girls to become good wives. Yes, yes. But it would be much more to the point if the reverend gentleman should look at his own side of the house and found a school to teach men to become good husbands. They need it more than women do, heaven knows. Moreover, there is much talk of mothers' clubs. It is about time we had a few fathers' clubs for a change. Mothers have been preached at by church and state for forty centuries, while it has been supposed that any old thing would do for a father. It is a grievous mistake that one civilization is suffering most grievously for. Give us some societies for the improvement of fathers!

The loveliest creature on this planet is just a bright, sweet, pretty girl. There is an actual radiance about her.

* *

What a glorious saying that is of the minister who said, "While a woman is not to blame for having been born ugly, she is distinctly blamable if she is ugly in old age?"

* *

Well bred women never play practical jokes.

* *

It is a wonder that more women do not learn to prepare the bottled maraschino cherries, so called. They are high priced, but any woman who lives in the country and has cherry trees of fine quality can prepare the fruit in this way. In general in the canning and preserving of cherries an exquisite flavor may be given to the fruit by the seeds. Stone the fruit carefully, laying aside the seeds. With a hammer crush the cherry stones, so that the delicate, almondlike flavor of the inner pulp may be got at. Put the crushed stones and seeds into a little bag along with the sugar intended to sweeten the cherries and boil to a sirup to be poured over the fruit previous to cooking it.

I wish people would not send me letters in those awful black bordered mourning envelopes. It always gives me a scare.

Mrs. John Vance Cheney says that "spiritual, mental and physical gymnastics" all together possess wonderful capabilities for producing health, power and beauty.

"Where?"

"At his home in the country."

"That was two days ago. Did you apply for money?"

"Yes."

"And he refused?"

"Yes."

"How have you kept your wife from starving since then, if no one would help you?"

"I have received a little help since then."

"From whom?"

"Oh, I don't care to go into all that," said Wright, impatiently.

"Have you any reason to suppose that your father had a personal enemy who had some cause to wish his death?"

At this question it seemed that an inspiration came to Wright, but he checked an apparent inclination to accept the suggestion as a solution of the mystery. The chief and the newspaper man looked at him inquiringly.

"Your question," said he, "has put an idea into my head, but I do not think I ought to frame it in words, for you might say it was preposterous. After all, it is a mere ghost of a suspicion, but I may be able to give you a clew some time to work upon."

The chief pressed him for an answer, telling him that the suspicion itself might furnish a clew, but

THE CHIEF PRESSED HIM FOR AN ANSWER.

Wright would not reveal his thoughts. So, after a diagram of the Bayou Woods for the officer and locating approximately the body of the murdered man thereon, Wright took his departure.

The chief and the newspaper man looked at each other tentatively for a few moments before either spoke.

"I confess I am puzzled," replied the chief. "It is, of course, easy to make up theories. Wright has been playing in very tough luck for some time. He has been disowned by his father; he is out of employment; he sees his wife dying of starvation, and he cannot obtain honest work. What would a man do under such circumstances? It might reasonably be conjectured that he would not hesitate to commit a murder. But in his case, if he really committed the crime, we have to make some very peculiar assumptions. We must assume that he is a very accomplished actor, and that he is a villain of iron nerve. Having committed this crime, would he be the first to report it to the police, and would he not have a ready lie for every question that he refused to answer? But this is no time for speculations. An examination of the body may reveal an entirely different state of facts from those which fit any particular theory we may have, and the sooner we go to the Bayou Woods the better. If you would like to go along I will take you in the buggy with me. I think it best to make an investigation before the coroner is notified to make the inquest."

Warde accepted with alacrity. He was not a bad judge of human nature himself, and his mind was already busy with fascinating theories, to the verification or explosion of which he was prepared to devote some of his time and energy. The chief of police was evidently a close observer, but he lacked one quality which Warde possessed in a remarkable degree, namely, imagination. Perhaps it was a difference in mental traits which made one of them a journalist and the other a policeman. At least some people who labor under the delusion that a newspaper man relies upon his imagination for his facts might be inclined to think so, but far, far be it from me to indorse that popular fallacy.

Leaving instructions with an officer to have Herbert Wright shadowed and to notify the coroner an hour later that a murder had been committed in the Bayou Woods, the chief called for his buggy, and, accompanied by Warde, was soon driving in the direction of the scene of the tragedy.

CHAPTER II.

The Bayou Woods was a locality with many contradictory features. When it was not picturesque it was unutterably dismal. When its mighty trees were not a delight its scrubby undergrowth was a vexation to the spirit. On the bosom of pools whose slime was an offense to the eye were spread in summer time fleets of water lilies whose beauty was an inspiration to the fancy. Flower and fungus were alike characteristic of it in the warmer months, and in the rainy season it seemed to act as a vast sponge and absorb an abnormal amount of moisture. Rotting timber, half-fallen oaks, patches of canebrake and clusters of holly trees were among its marked features. Deadly malaria stalked through its gloomy aisles; the bark of the trees always bore evidence of the highwater mark of the last overflow, and melancholy marked it at all times.

The Bayou Woods was also a locality with a history; and, moreover, man, in some odd and unusual guise, dwelt sporadically therein. A few primitive houses could be found scattered through it, occupying the highest points above the line of overflow. It was considered a good hunting ground, but that was the only good known of it. More crimes perhaps had been committed there than in any other suburban section.

On the north line of the woods were several houses occupied by people of the lowest class.

One of these was a dance house and saloon, where the liquor that fires as well as inebriates could always be found. Death had presided over many orgies in this highly unsavory den, and even the officers of the law never entered the place without a shudder. From time immemorial the people who conducted it had been allied with murderers and thieves, and the dingy walls, if they had been tongues as well as ears, could have told of the violation of nearly every law, human or divine. Before this place the chief of police stopped and he and his companion alighted. Before investigating any crime committed in the Bayou Woods it was always advisable to see if any pupil of the Devil's Den, as the place was called, had been concerned in it.

The repulsive exterior of the place did not do justice to the fascinating hideousness of the interior. The very atmosphere there savored of vice and crime. A large stove heated it almost to suffocation, and it was evident that if this heat did not produce insensibility that state might very readily be reached by a drink from one of the Satanic black bottles behind the bar. The individual who presided over the den might readily have been mistaken for the devil himself under conditions that were favorable. The potent influences of rum were apparent in his sinister eyes, the blotches of red upon his nose and cheeks and the stubble upon his face. In short, the entire scene reminded one strongly of the pictures disseminated by the prohibitionists to give a palpable illustration of the effects of the demon drink.

When the chief of police entered the place the barkeeper, Mr. William Boggs, looked up, slightly alarmed. Then he seemed to reflect a moment, and the expression of alarm was succeeded by one of relief. The chief had never let his eye wander from Bill's face, for it was to a certain extent an open page when read aright. Had Boggs at once put on an air of defiance, the officer would have said: "This fellow knows all about the affair, but he will not tell." If he had shown signs of fear when the officer entered, and without appearing to reflect had assumed a jaunty, a suspicious or a defiant air, the chief would have been sure that Bill had himself taken a hand in the crime. But when he stopped to reflect the chief knew just as well what was passing in the scamp's mind as if he had spoken out. If Bill had to review the recent past in order to ascertain whether there was anything for which he could be wanted, it was evident that he was not implicated in the murder.

The chief told him that he and his friend wanted to warm themselves for a minute or two, asked him a few questions, satisfied himself that Bill had never even heard of the tragedy and then departed.

Yellow Tail's Race.

NEW YORK, May 5.—John Hackett's Yellow Tail, with 120 pounds on his back and admirably ridden by Waterbury, won the Montague stakes, the feature event at Jamaica. The winner was at the remunerative odds of 30 to 1. The big son of Watercress ran the one mile and a sixteenth in 1m. 46 2-5s., which equals the mark set by Blackstock in the Excelsior handicap on the opening day. Injunction cut out the running to the stretch, where Waterbury sent Yellow Tail to the leader and in a driving finish won by one length, with Injunction second and the favorite, Africander, third. Starter Fitzgerald was served with an injunction prohibiting him from using the starting machine. Judge Pettingill then went in to do the starting and after using the barrier for the first two races was compelled to resort to the recall system, the association having been served with a second injunction.

Winners at Worth.

CHICAGO, May 5.—Golden Rule, backed from 5 to 2 to 9 to 5, beat Burnie Bunton, the odds on favorite in the third race and feature event on the card at Worth. Dominick's clever ride landed Cornwall a winner by a neck in the second race. Alfred C. was second, a neck in front of Frank M., and Dodie S. was lapped on the three. Jockey Dominick rode three winners.

Racing at Churchill Downs.

LOUISVILLE, Ky., May 5.—The chief feature of the card at Churchill Downs was the Debutante stakes for two-year-old fillies, which was won by White Plume, an added starter. White Plume, sent to the front at flag fall, maintained the lead throughout, finishing a length and a half to the good, with Nannie Hodge second and Saraross third.

Ruhlin Wins at Wrestling.

NEW YORK, May 5.—Gus Ruhlin, the Akron giant, defeated Gustav Sander in a wrestling match last night at Prospect hall, Brooklyn, winning two bouts out of three. The first fall was won by Ruhlin in 3m. 8s., the second by Sander in 8m. 5s. and the last by Ruhlin in 8m. 5s.

AFTER LONG ILLNESS.

A New Resident of New Market Passed Away This Morning.

The death occurred this morning of George W. Leonard at his late residence at New Market where he has lived for almost a year. Death followed a long illness lasting several months and was due to general debility. He was sixty-four years of age and leaves one son, Prof. Arthur W. Leonard, of the Chicago public schools. He is expected home today. The deceased was for many years a real estate dealer in New York City where he lived until recently, when he retired from active business.

The funeral services will be held Thursday morning at 11 o'clock and the interment will be in Greenwood cemetery, Brooklyn.

Wedded at Williamsport.

Many friends will be interested in the announcement of the marriage of Miss Madge Martin, of New York, to Chester Morton, formerly of New York, but now of Williamsport, Pa. The wedding was celebrated quietly last Saturday at Williamsport where the groom is engaged in business. The bride is well known in Plainfield, having visited here a number of times, as has also the groom.

GUARANTEED.

That word means something, when it is backed by the $5,000,000 capital and surplus of the

FIDELITY TRUST COMPANY.

It means for you an easy mind if you have one of those guarantees covering the title to your premises.
The man, who does business the way it was done a generation ago, is surely on the road to failure. This is an age of progress. There has been progress in methods of conveyancing as well as in other lines. Out of the need for something less uncertain than a lawyer's certificate and a lawyer's responsibility, has grown up the system of policies of insurance, or guarantees of title by companies with large capital and a force, specially trained in the work.
There is none better in this line than

THE FIDELITY TRUST COMPANY OF NEWARK, N. J.

It has an agency at Elizabeth for conducting Union County business. Rates will be given on application at its office, No. 215 Broad Street, and an investigation of its resources and methods is invited.

A PUBLIC HEARING LIKELY

RESULT OF COUNCILMANIC CONFERENCE ON THE SPRINKLING QUESTION.

No Expression of Opinion Regarding Proposed New Telephone Franchise.

The conference held by the Common Council last evening after the regular meeting to consider the question of street sprinkling, was strictly informal and did not result in any action, excepting that it is likely that a public hearing will be given in the near future. The Council is anxious that the question shall be discussed pro and con and any intelligent knowledge on the subject will gladly be received. That the streets can be sprinkled satisfactorily for $2,000 or any figure near that, is simply considered as preposterous.

An attempt was made in executive session to get the sense of the members regarding the application of the Central New Jersey Telephone Company for a franchise, but a majority of the members were not ready to give expression to their opinions. They are not yet satisfied that the people of Plainfield want another telephone system.

The young couple will spend the rest of the week on a short honeymoon and upon their return they will reside in this city. During Mr. Mondeau's absence Mrs. C. F. Platts will substitute for him in the local office.

Williamsport, Pa., May 5—The Supreme Court has just given a final decision in the celebrated Pangborn case in favor of Mrs. Louisa L. Perrine, the contestant for her father's property. This is the highest court in Pennsylvania and by the decision Mrs. Perrine will receive twenty-eight tracts of land in this city amounting in value to about $20,000. Isaac P. Runyon, of Plainfield, has represented Mrs. Perrine in the fight for the property, ably assisted by other counsel.

NO SPRINKLING BY CITY NOW

(CONTINUED FROM PAGE 1.)

Another communication was received from C. J. Fisk, as president of the Board of Governors of Muhlenberg Hospital, in which he asked the Council to remit the taxes assessed against the new hospital property, as the property was purchased for the sole purpose of building a new hospital and is exempt from taxation. The matter was referred.

The residents of Columbia avenue, between Leland avenue and Frederick street, asked for an electric light, which matter was referred, and the members of Winfield Scott Post, No. 78, G. A. R., asked the Council for the usual appropriation of $100 with which to assist them in a proper observance of Memorial Day. The appropriation was granted.

The Board of Trade communicated with the Council regarding the matter of consolidating with the borough with the city, and asked the Council to appoint a committee to confer with a committee from the board to see what steps are advisable to secure such a union. The matter was referred to the finance committee.

The Potter Printing Press Company asked the Council to remit $38.14 overpaid taxes on the company's property on South Second street. This petition was referred to the finance committee.

Jacob C. Dunham, janitor at the city offices, petitioned the Council for an increase in salary from $16 to $25 a month on the grounds that the work requires so much of his time that he believes that he is entitled to more money. The request was referred to the finance committee.

Building Inspector T. O. Doane reported that during April thirty-three building permits were granted and Street Commissioner Gavett reported that during the same month there were twenty-four sewer permits granted. Dr. Charles B. Lufburrow, city physician, reported that between January 1 and May 1, of this city, he made in all 175 visits to the city poor. This includes thirty visits to the Industrial Home. There was one death, Josephine Myers, in that time. He reported that the city's health at this time is very good.

L. J. Spicer resigned his position as a call-man in the fire department and his resignation was accepted on a motion by Mr. Lee, chairman of the fire committee.

At this time Corporation Counsel Craig A. Marsh made a report on several matters with which he has had to do. He stated that the Supreme Court had dismissed the writ in the case of L. M. Donavan, of the city fire department, against the city, as previously reported in these columns. Regarding the case of the American Sewage Disposal Company against the city, he reported that the complainant company had not yet concluded the taking of testimony. In the matter of the renewing the contract with the Plainfield Water Supply Company for a term of nine years, Mr. Marsh decided the question by reporting that the failure of the city to notify the company at the expiration of its contract with the city on May 1, was the same as renewing the contract for the specified time and no other action was necessary.

Mr. Marsh also reported that in the case of F. T. Rice against the city for damages to his horse, wagon and harness, by reason of an obstruction left in one of the city streets, the complainant had offered to settle the claim for $75, whereas he originally claimed $150 as damages. On Mr. Marsh's recommendation Mr. Tolles moved that a settlement be made for $75.

Still one more matter reported upon by the corporation counsel was that relative to an amendment to the city building ordinance which compells all persons in the fire limits in erecting partitions in stores or similar places to make such partition 1¼ inches thick instead of ⅞ of an inch and the same must be covered with plaster board and filled in with studs of brick. Mr. Lee later explained this action by saying there are now several instances where persons had erected light partitions to divide stores and they are simply fire-traps. Mr. Lee introduced an ordinance covering this point according to the amendment and it was passed on the first and second readings and ordered advertised. These partitions must extend from the floor to the ceiling and safely constructed to prevent fire spreading from one part of a store to another.

The lengthy report of George E. Collins, city auditor, was presented by Mr. Daniel, chairman of the finance committee, and read. A major portion of the report will be found in another part of The Daily Press.

In accordance with resolutions offered by Mr. Daniel the sum of $1,500 was borrowed for the improvement of the sanitary sewer system and $500 was transferred from the general to the fire fund.

A communication was received from the Town Improvement Association of Plainfield and North Plainfield in which the women offered to take care of the city park from the present time to November 1 next for $100 and make such improvements as the sum would allow. On Mr. Tolles' motion the offer was accepted and the $100 was appropriated for the specified object.

After Mr. Tolles offered an ordinance providing for the laying out, acceptance and macadamizing of West Fifth street, from Grant to Monroe avenues, according to the city ordinance covering that kind of work, he offered another ordinance providing for the macadamizing of a number of streets. The work must be done by November 30, 1903, and the ordinance provides for the issuance of thirteen bonds of $1,000 denomination each to cover the expense of the work. Commissioners are to be appointed to assess benefits and damages and the property-owners are to pay their proportionate share for the work. These bonds are to run three years and are to bear 5 per cent. interest. This ordinance, as well as the one preceding it was adopted on first and second readings and ordered advertised. Monday evening, June 1, was the time set for a public hearing on these proposed improvements. The streets covered in the second ordinance are as follows:

Woodland avenue, from East Seventh street to Watchung avenue; East Seventh street, from Richmond street to Belvidere avenue; East Third street and Midway avenue, from Richmond street to Berckman street; Berckman street, from Front street to South avenue; Prospect avenue, from Park avenue to Hillside avenue; Sycamore street, from Fourth street to Sixth street; West Seventh street, from the present macadam to the city line; West Fifth street, from Grant avenue to Monroe avenue; South Second street, from Plainfield avenue to Muhlenberg place; Albert street, from Front street to Dunellen avenue; Dunellen avenue, from Clinton avenue to Compton avenue; Rock avenue, from Middlesex county line to the southeast end of the present macadam; Darrow avenue, from West Fourth street to West Seventh street. This work is to be equally as good as the macadam on Madison avenue, between Fifth and Eighth streets.

Before the Council adjourned Mr. Daniel called up two ordinances for final adoption. One was that providing for the appropriation of $125,000 for a new City High School and the other one was the tax ordinance. Both were adopted and ordered advertised. On Mr. Tolles' motion the Council then adjourned to meet Monday evening, May 18, at 8 o'clock.

LUNCH-BOX SOCIAL.

Enjoyed by Sons of Temperance and Their Friends.

The Sons of Temperance met last evening for a lunch-box social and musical entertainment at their rooms on West Second street. Solos were rendered by Mrs. John Manley and Miss Evelyn Manley, and a recitation was given by Master Manley. A duet, and song and dance by Misses Madeline and Lydia Edgar contributed much to the evening's enjoyment. Several other musical selections were on the programme.

The committee in charge was Mrs. Andrew Cox, Mrs. Hattie Gibbons, W. B. Ayers and S. B. Scribner.

OUT-OF-TOWN UMPIRES.

City Baseball League Prefers Them to Home Talent.

Out-of-town umpires will officiate in the games of the City Baseball League this spring. This was decided at a league meeting last evening. It was also settled that official scorers should be appointed and that they should furnish tabulated summaries of the games to Plainfield papers. Frank Stone, the photographer, offered to present the winning team a photograph and his offer was accepted with thanks.

TEA TABLE TALK.

Short Sketches That Are Not Always News, But Just as Interesting.

Edward Campbell, of East Sixth street, is the possessor of a peculiar pet in the shape of a tame raccoon. The animal is the especial property of Mr. Campbell's daughter, Miss Lottie Campbell, and performs all manner of amusing tricks. Miss Campbell frequently trundles her strange pet along the street in a baby carriage with the animal fully togged out in baby clothes. Other accomplishments the small "coon" has in plenty, among them that of sitting down at table and taking its meals with the family. The animal made a brief trip down town the other afternoon and exhibited its playful tendency by climbing over all and sundry individuals who were willing to accept its advances.

There was a somewhat curious coincidence between the special session of the Legislature Tuesday and the last extraordinary session summoned by the Governor, held May 25, 1897, to correct an error in the law providing for the submission of proposed constitutional amendments to a vote of the people. That session was called for noon, and convened about an hour later, as did Tuesday's. There was but one subject considered at each, and in length they were nearly the same. Tuesday's session adjourned a few minutes after 5 o'clock. That of 1897 lasted until 6:47 p. m., the longer time being due in large measure to longer delay in having bills printed and presented.

West End's Election.

The annual election of officers of the West End Hose Company took place last evening at the hose house on Harrison avenue. The nominations made last month were carried through. George Giddes was elected foreman, Henry Hansen, treasurer, William Demarest, secretary, Augustus Feiring, financial secretary, Dennis Baglin, first assistant foreman, John Bremmer, second assistant foreman, Charles Keller, delegate to the Relief Association. The regular election of Warren Engine Company will take place this evening.

Guests Weren't Expected.

A surprise party was tendered Mr. and Mr. David Lindsay at their home at the corner of Berkman and East Sixth streets, last evening, by a half dozen young men. The evening was pleasantly spent in social intercourse and music. The party was given in honor of the event of the host and hostess coming to this city to live, they having moved recently from Scranton.

LITTLE HELEN HAD VIEW FROM INSIDE

Her Investigations Gave the Boulevard Its Sensation of the Present Year.

A KETTLE CAUSE OF IT

PUT HER HEAD INSIDE AND THEN THE TROUBLE BEGAN.

All the West End, Patrolman Higgins Included, Coulda't Get Her Head Out Again—Was Finally Released at the Hospital.

Helen Bocklowitz, aged three, is of an inquiring turn of mind. She wanted to know what the insides of a stew kettle look like and wasn't satisfied with an ordinary point of view. So to gain a more intimate knowledge of the subject, she inserted her small "coco" into the dark interior of the vessel and from this vantage point continued her investigations.

It is to be hoped she was satisfield. At any rate she had ample opportunity, and for some two or three hours, yesterday afternoon, she provided the West End with a sensation the like of which that interesting quarter of the city has seldom, if ever experienced.

"First off," the infant was proud of her achievement, and paraded with great eclat, up and down that part of West Third street, known as the "Boulevard," presenting, in her extraordinary helmet, a strange and awesome spectacle. Finally encountering "darkness there and nothing more," the youngster concluded she had enough and tried to remove her head piece.

Then came "the times that try men's souls." A crowd of about a hundred and fifty of assorted nationalities, inhabitants of the West End, attracted by the unusual sight, gathered around the enterprising "kid" and almost convulsed themselves laughing. Shouting and gesticulating, each one excitedly proffered advice as to the most efficacious method of extricating the prisoner. Men, women and children, not one of them was satisfied until he had a shy at the kettle; but all to no avail. They greased the infant's neck with lard and other lubricants until the poor youngster presented a sorry spectacle with the unpleasant liquid streaming all over her anatomy; they took hold of both handles to the iron pot and lifted the "kid" bodily off her feet. But the kettle stuck. It moved in a circulating direction with great ease, but off it would not come, and to further complicate matters, every time the small unfortunate was touched, she set up a howl to wake the echoes. There seemed no immediate cause for alarm on the ground of suffocation; the child's lungs were in excellent working order. When she was left alone she seemed to realize her importance and threw out her chest proudly.

Advice poured in on all sides.

"Send for der plumber," said one enthusiast.

"Getta da coppa," offered an excited native of sunny Italy, apparently under the impression that if the police could get a man into a prison he ought to be able to get him out. Patrolman Higgins tried his hand and quite disappointed his West End admirers by failing to rescue the captive little one.

"Whuffo you no send fo' de doctah," said another, of darker hue, and his advice was finally taken. The child, attended by an admiring concourse, was carried to Muhlenberg Hosptial in a runabout driven by Mrs. Michael Weber. At the hospital the nurses vainly experimented and then Dr. VanHorn, by the aid of a sharp instrument, released the unfortunate without the aid of anaesthetics.

Settled Fire Loss.

The insurance company, which had the property of George Fairchild on its list, settled last week for $141 for the fire which visited the latter's house a week ago. It will be remembered that the fire was a most peculiar one and it was thought that it had been caused by mice and matches. This, Mr. Fairchild thinks, is not the case but that the blaze was started by spontaneous combustion.

AFTER PIGEON OWNERS.

One Arrest Made in Borough for Keeping Pigeons—Others to Follow.

The investigations which the Board of Health of the borough has been making regarding the pigeon nuisance in certain parts of the borough have led to the arrest of one man and it is probable that if the nuisance is not abated in other quarters further arrests will follow.

David Conover, of Duer street, was arrested by Constable William N. Pangborn Saturday evening and in Justice Mattison's court he pleaded guilty to having the pigeons. It is stated that he had seventy-five paid of the birds, much to the annoyance of his neighbors. He was fined $3 and warned to get rid of the birds. There is another man who lives on Watchung avenue who has been notified to abate the nuisance of the same sort.

Many members of Watchung Council of the Knights of Columbus journeyed to New Brunswick yesterday afternoon and last evening to attend the State Council which met there in the rooms of the Knights on George street. The session lasted from noon until 7 o'clock in the evening.

Many matters of interest came up for discussion including the matter of placing the associate members of the order on the same footing as the insurance members. This raised much discussion but it was finally passed. This allows the associate members to hold offices. The vote was almost unanimous.

The visiting guests were dined by the members of the New Brunswick lodge and the meetings were presided over by Thomas B. Fay, of Long Branch. There were no supreme officers present as elections were being held in all the States throughout the country yesterday. Thomas Mackesey, of East Orange, was re-elected as national representative. SWELTERING AND FREEZING

WEATHER MAN'S LACK OF CONSIDERATION FOR PUBLIC HEALTH.

All Sorts and Conditions of Weather Marked a Remarkably Versatile April.

All sorts and conditions of weather were doled out to a long-suffering public during the month of April. One achievement in particular marks the capacity of the weather man, when on April 30, he perpetrated a temperature of 89, following a record of 86 on the day previous. His capriciousness is further attested by a difference in temperature of 42 degrees occurring within twenty-four hours. The temperature for the month was slightly above the normal, the highest being 89, April 30, and the lowest 26, on the 5th and 6th.

Talk about breaking records! Phew! There has passed the hottest April 29 and 30 ever registered. They were likewise the hottest April days in twelve years with the exception of April 17, 1896, when it was 96.

The total rainfall for the month, 4.05 inches, occurred within a period of nine days, causing a struggling populace to inhale dust in large quantities for the rest of the month. The greatest rainfall in twenty-four hours happened on the 14th, 1.38 inches. There were nine clear days, ten partly cloudy and eleven cloudy. The precipitation was about normal. Altogether a remarkable month.

COURT OPENS AT ELIZABETH

Justice VanSyckel Denounces Sunday Baseball in Charge to the Grand Jury.

PLAINFIELDERS ON JURY

May Session Notable for Damage Suits Against Trolley Company and Central Railroad—Causes Are Unusually Numerous—List of the Local Ones.

(Special to The Daily Press.)

Elizabeth, May 6—The opening of the May term of court yesterday attracted the usual large number of interested people. From present indications the term promises to be a lively one as there are a number of Supreme Court cases in which Plainfieders are interested which are now ready for trial. Some of these include the several suits brought against the Philadelphia and Reading Railroad Company on account of the Westfield disaster.

Judge VanSyckel was on the bench, and the new custom adopted by the Union County Bar Association was used for the first time. This custom is used in the Federal Courts whereby the members of Bar and the public maintain silence and remain standing while the crier formally opens the court. Its adoption yesterday received the unanimous praise of all.

In his charge to the Grand Jury, Judge VanSyckel spoke especially of the practice of gambling in saloons and pool-rooms about Elizabeth, also Sunday baseball playing. He said that he wanted the practice stopped and while he preferred that the Grand Jurors wait until after next Sunday before taking action, if the Sunday baseball playing was continued in the county he wanted all police and court officials who are legally responsible, indicted.

The Plainfield members of the Grand Jury are Robert H. Cook, Samuel P. T. Wilbur, George O. Stevens and Andrew McCardle. The Plainfield members of the petit jury are W. W. Coriell, H. M. Demarest, O. M. Dunham, Charles Geise, Theodore LaRue, Thomas A. Moore, J. A. McKeon, Jonathan B. Smith, I. D. TenEyck.

Of the Supreme Court causes the following are of interest to Plainfielders:

Myra R. Searles and Frank Searles against the Elizabeth, Plainfield and Central Jersey Street Railway Company, in tort, C. A. Marsh represents the plaintiffs and Riker & Riker the defendants; Carrie Bristol against the Elizabeth, Plainfield and Central Jersey Street Railway Company, in tort, same counsel; Marie Claassen and William Claassen against the Middlesex and Somerset Traction Company, in tort, C. AN ADDITION TO PARK CLUB

THE GROUND WAS BROKEN FOR THE FOUNDATION MONDAY.

Will Provide for Substantial Enlargement of Main Hall and Adds Other Features.

Ground was broken Monday for the foundation of the new $12,000 addition to the Park Clubhouse and it is hoped that the entire building will be ready for use next October.

The plans for the addition are substantially as already announced in The Daily Press. They provide ample accommodations for a splendid dance hall or auditorium facing a stage, seventeen feet in width. The club has always been cramped for room in its main hall when giving entertainments of a dramatic or musical nature, as well as dances, and the spacious new hall will provide much relief. On either side of the stage are large dressing rooms.

A tea room eighteen feet by twenty-two feet, ten inches, will be a feature of the renovated building, and generous kitchen accommodations will be afforded. A women's dressing room, fourteen feet six inches, by sixteen feet six inches, will be a marked improvement, and there will be a men's dressing room slightly smaller. The additions will extend both on the north and south sides of the building as it stands at present. The architect and builder is Charles H. Smith.

NEW RULES AT THE LIBRARY

These recommendations were adopted by the board, as was also the recommendation the sum of $250 be appropriated for the purchase of books for the general library.

The recommendation of the librarian that a list of biographical works be prepared was adopted, and the librarian was requested to prepare such a list. The report of the librarian for April was read and ordered on file, after which the meeting adjourned.

CHANGED LAWYERS.

Court Allowed Transfer on the Affidavit of the Plaintiff.

In the case in tort of Miss Evelyn Simonson, of the borough, against the Philadelphia and Reading Railroad Company, for injuries sustained in the Westfield disaster, C. A. Marsh, yesterday in the court at Elizabeth, asked for a transfer of counsel for the plaintiff at her request. It was her wish that John H. VanWinkle & Son, of this city, act as her counsel instead of Lawyer Welch, of New York.

In an affidavit presented by Miss Simonson she claimed that misrepresentations had been made to her by previous counsel. The court allowed Lawyer Welch and his partner, Lawyer Stillman, of Jersey City, the customary fees for what they have done and granted the request of the plaintiff for the transfer of counsel.

An older son, who was on the front porch heard a noise and running into the house found his mother lying on the floor dead. Mrs. Forristel had a weak heart and her death was not altogether unexpected.

The deceased was thirty-eight years of age and was born in New York city. She has lived in Plainfield about six years. A husband, a daughter and two sons survive her. NO ENTERTAINMENT IN THE HOUSE OF GOD

Rev. H. C. Cronin Expresses Decided Opinions at County Sunday-School Institute.

AMONG THE SPEAKERS

AFTERNOON AND EVENING SESSIONS AT PARK AVENUE BAPTIST CHURCH.

Various Phases of Sunday-School Work Presented in Afternoon by Mrs. Alonzo Pettit, of Elizabeth—The Speakers for Evening.

Superintendents and teachers of many local Sunday-schools attended the institute of the Union County Sunday-school Association which was held in the Park Avenue Baptist church yesterday afternoon and last evening.

At the afternoon session the time was taken up with devotional exercises, blackboard talks, map teaching and many other interesting topics of Sunday-school work. This was conducted by Mrs. Alonzo Pettit, of Elizabeth, and was followed by a question box which was also conducted by Mrs. Pettit.

At the close of the afternoon session supper was served in the chapel of the church which was in charge of Mrs. Nelson Runyon, Miss Jennie Giles and Miss Elizabeth Runyon. In the evening the institute was called together again.

The speakers were Rev. H. C. Cronin, of Jersey City, J. V. Foster, president of the New Jersey Sunday-school Association, Rev. G. M. Shott, of Scotch Plains, and Mrs. Alonzo Pettit, of Elizabeth. The evening session was largely attended.

Rev. Mr. Shott gave an exposition of the Sunday-school lesson for next Sunday as an idea for the teachers present to learn their lessons with a system. Mr. Foster gave an account of the objects of the association and some plans which have been mapped out for the work. Mr. Cronin, in speaking of entertainments held in churches said that he was decidedly opposed to having any kind of an entertainment in the House of God. He was even opposed to holding Christmas entertainments in the church, saying, "Even Santa Claus should be eliminated from the church." He said that in his church he has not had a supper, entertainment, or even a social to which admission was charged since he has been pastor of the church for ten years.

THEATRICAL.

If laughter and applause can be taken as an indication of the measure of enjoyment of an audience in witnessing a performance, the demonstrations of approval of "Mr. Blue Beard" at the Knickerbocker Theatre can only be regarded as indicative of unusual satisfaction. Many hits have been made on Broadway, both this season and in years past, but none has ever impressed an audience like "Mr. Blue Beard." It represents the highest attainment in scenic effects and beautiful costuming and in comic musical entertainment, and is, by long odds, the most gigantic thing in the shape of an amusement that the American stage has ever presented. "Mr. Blue Beard" appeals to everybody who delights in musical entertainment of the higher order. Its fun is bright and merry, its musical specialties are novel and pleasing to both the eye and the ear and its stage effects, while strikingly dazzling, are thoroughly artistic. There is nothing vulgar in it from any aspect, even considered from the highest standpoints in art and music, and yet it is in no sense over the head of any in the audience and pleases everybody. Perhaps one secret of the really tremendous success "Mr. Blue Beard" has made is to be found in the fact that it presents a very large number of features pleasing to everybody, and, unlike most productions, does not cater to any particular class or lover of any special kind of entertainment. It embodies romantic drama, comedy, farce, musical features, specialties and spectacle most harmoniously blended into a performance more replete with interest than any seen in New York in years. Klaw and Erlanger have good reason indeed to feel proud of their contribution to the American stage made in "Mr. Blue Beard."

"The Sultan of Sulu," the popular George Ade musical satire which Henry W. Savage's competent company has played at Wallack's Theatre, New York, since the first of the year, continues to tax the capacity of the house. Although the piece is just entering upon its fifth month, the end of the engagement is not in sight, and the merry musical piece will undoubtedly remain at Wallack's until it is succeeded by "Peggy from Paris" which comes to New York next autumn. The latter is also the work of George Ade. Not a change in the big cast of "The Sultan of Sulu" has been made since the engagement began. To the credit of the author and composer, the statement has repeatedly been made that the most popular song of the day in New York is "Since I First Met You." The tinkling melody is being played by nearly every orchestra in New York. Among other song hits of the piece is "U. S. A.," which was introduced by Maud Lillian Berri, the prima donna, a short time ago.

A COLLISION AT SEA

Clyde Liner Sunk Off Virginia Coast.

TWENTY PERSONS IN WATERY GRAVE

Terrible Accident Occurred at Early Morning in a Dense Fog—The Injured Ship Sank Quickly. Lifeboat Swamped.

NORFOLK, Va., May 6.—The collision at sea which caused the sinking of the Clyde steamship Saginaw by the Old Dominion Steamship company's liner Hamilton on the Virginia coast is now known to have cost the lives of at least twenty persons.

The Hamilton left New York early in the afternoon for Norfolk, and the Saginaw passed out the Virginia capes at 9 o'clock the same night, bound from Richmond and Norfolk for Philadelphia. A dense fog settled along the coast shortly after nightfall, and while going through this fog at reduced speed the Hamilton crashed into the Saginaw's side about twenty feet from the stern.

The scene of the collision is about thirteen or fourteen miles off the shore and between 180 and 200 miles south of New York and between 125 and 140 miles north of Norfolk.

The fog whistles of both vessels were distinctly heard by each other for several minutes before the collision occurred. According to Captain Boaz of the Hamilton, his ship was making about nine miles an hour and the Saginaw about ten. The fog was so thick that objects a ship's length away were invisible, and when the two crafts hove in sight of each other, bow on, there was but a moment's interim before they met.

The Saginaw veered, as did the Hamilton, but they had not time to clear each other, and the knifelike steel prow of the south bound vessel struck the Clyde ship on the port quarter about twenty feet from her stern, cutting the entire rear of the ship away. The inrushing water caused the Saginaw to settle rapidly in the stern, and the impetus of the Hamilton took her out of sight of the crippled vessel. The engines, already reversed, were put full steam to the rear, and the Hamilton circled the scene of the wreck, at the same time lowering two lifeboats. There was consternation among the passengers of the Old Dominion ship, and the first thought was for their safety, but so soon as it was discovered that the ship was uninjured save that some bow plates were stove in all efforts were directed to the rescue of those on the Saginaw.

When the Saginaw was again sighted her stern was under water and her bow was high in the air. Panic stricken people rushed over her decks and scrambled toward the bow. Lifeboats were lowered, and into the first fifteen colored women were placed, according to Second Officer Morris, who was in command. The boat was swamped as it struck the water, and its occupants were thrown into the sea. All were drowned save the second officer and the colored stewardess. The latter died before the small boat reached the Hamilton more from injuries received by the impact of the collision than by drowning. She had been held up by First Mate Goslee, who sank himself as the small boat from the Hamilton reached them.

In the meantime the rush of waters into the bow of the Saginaw had caused the decks to burst from their fastenings with a roar like the report of big guns, and tons of freight of all description soon littered the sea. To floating wreckage the struggling people in the water clung with desperation, and many of them were rescued by the boats from the Hamilton and Saginaw.

Before the lifeboats of the Hamilton had reached the Saginaw the latter had disappeared beneath the waves, and nothing but her topmasts were visible. To these several men were clinging, one of whom was the aged captain, J. S. Tunnell.

The Hamilton hovered around the scene of the wreck for more than an hour, but no sign of life could be seen among the mass of floating freight. Two bodies, one of a man and the other of a woman, both clad only in nightdresses, were observed drifting between bales of cotton and cases of goods.

The known saved from the Saginaw are: Captain J. S. Tunnell, badly injured about the head and internally, also two ribs broken; Chief Engineer Beitzer, Second Assistant Engineer Murrey, Second Mate W. L. Morris, several colored deck hands, firemen and coal passers.

The passengers saved are: E. B. Cole of Philadelphia, who lost a purse containing $700 and a large diamond stud; J. Trevor of Philadelphia, R. B. Youngbead of Chester, Pa.; George B. Hood of Philadelphia, Harry F. Winters of Camden, N. J.; Mary A. Sanderson of Windsor, N. C.; Morris Payner, Jr., of Northwest, Va.; John Reese of Norfolk, Va.; Miller Pennell of Norfolk, Va.; Judson Sevills of Berkeley, Va., and David Rowland of Newport News, Va.

Purser McCormick of the Hamilton estimates that the Saginaw sank within ten minutes after the collision, though there are others who say that the time was probably longer. The purser stated that lifeboats were lowered from both vessels immediately after they struck. One of these from the Saginaw filled with passengers was overturned in the suction, and all hands were thrown into the water. The passengers and crew of the Saginaw were rescued in various ways. Some were taken from the water and others

from the boat just before she went down.

Captain J. S. Tunnell of the Saginaw did not leave his vessel until the last minute. He was finally taken from the rigging of the sinking ship and when got aboard the Hamilton was found to be badly injured.

The Hamilton was in command of Captain R. B. Boaz. No one on the Old Dominion boat was hurt, and the vessel was damaged only about the bow. This damage is comparatively small when all things are considered.

To Arbitrate Tunnel Strike.

NEW YORK, May 6.—An agreement has been reached between the subcontractors on the subway and the Central Federated union, representing the striking excavators and rockmen. The meeting was held in John B. McDonald's office. By this agreement, which remains to be ratified by the strikers, they are to return to work and the question of wages is to be submitted to arbitration. It is believed that the men will all be back at work tomorrow.

An Ugly Negro Killed.

RALEIGH, N. C., May 6.—A special from New Bern, N. C. says: "George Vann, a negro ex-convict, who had shot at a young white man named Thomas Green here during the night, was shot to death on an excursion train here by officers. He was resisting three officers and fired at Officer Dixon, wounding him in the thigh. He then attempted to throw Officer Lupton off the train. A fusillade followed, and the negro was killed instantly."

Heroic Fireman Dead.

NEW YORK, May 6.—William McNally, the young fireman hero who was terribly burned while trying to rescue Henry McWilliams from a fire in the four story tenement at First avenue and Fifteenth street last Sunday, is dead in Bellevue hospital. Ice Floes May Block St. John's.

ST. JOHN'S, N. F., May 6.—Incoming shipping reports immense ice floes drifting south over the Grand banks and into the ocean steamer track. All the northern coast line of Newfoundland is blocked with floes. It is feared that St. John's and the eastern coast line will become icebound within the next day or two. Vast numbers of icebergs are moving south with the current and constitute a menace to steamers.

Forest Fires Fatal.

PLATTSBURG, N. Y., May 6.—Continued dry weather and strong winds have started the forest fires again on the northern slope of the Adirondacks, causing the death of one person. Bert Eseltine, a farmer, near Everton, four miles from St. Regis Falls, lost a son fifteen years old and a horse. The lad went to the pasture to catch the horse, but the flames surrounded them, and both were burned to death.

Old Seacoast Guns to Be Sold.

BOSTON, May 6.—General Crozier, chief of ordnance, has taken steps for the disposal of the armament of Fort Independence, on Castle island, in the harbor. The park commissioners are to improve and beautify Castle island. Fort Independence was built in the early days of the war of the rebellion, and on it are still mounted a number of seacoast guns and carriages of obsolete pattern.

Civil War Veteran Dead.

Father Walser Freed From Reichlin Murder Charges.

NO CLEW TO THE GIRL'S SLAYER.

Inquest Also Fails to Reveal Motive. Jury Finds Deed Was Committed With a Stone In the Hands of a Person Unknown.

ELYRIA, O., May 6.—At the end of a rather complete investigation into the cause of the death of Agatha Reichlin, who was murdered last Thursday night, Coroner French of this county late last evening gave as his conclusion the verdict, "That Agatha Reichlin came to her death from wounds inflicted by a stone in the hands of a person unknown."

The investigation was held in the presence of a large and deeply interested crowd of witnesses and spectators. The conclusion reached by the coroner resulted in the freeing of Father Walser from confinement later in the evening.

The witnesses included policemen who had been called to the Reichlin home at 1:30 o'clock Friday morning and Casimir Reichlin, a brother of the murdered girl. Rev. Charles Reichlin, another brother, testified. The consensus of the testimony of the witnesses was favorable to Father Walser's claim of innocence and in support of the theory that a burglar or some other desperate man had committed the crime. Captain Ketchum of the police testified that the bloodhounds did not pay any more attention to Father Walser's bed than to the other beds in the house.

Father Walser Discharged.

LORAIN, O., May 6.—Father Ferdinand Walser, arrested last Saturday in connection with the murder of Agatha Reichlin, was brought to this city from the county jail at Elyria and discharged from the charge of murder which was placed against him at that time. Mayor King went through the formality of reading the warrant for Walser's arrest, and his attorney, E. G. Johnson, entered a plea of not guilty.

Mayor King then stated that, as the prosecuting attorney had remarked, there was not sufficient evidence to hold the accused, and "I have nothing to do but discharge him from custody. The crime that was committed on the 1st day of May was the most atrocious crime ever committed in the city of Lorain. When Father Walser was arrested Saturday public feeling against him ran high in the community, and on account of the excited condition of the public the prosecutor and myself thought arrest of the priest necessary for his protection, that he might be safe from any attack that the excited populace might make upon him. Who killed Agatha Reichlin no one knows but the murderer himself and his God. No one is more pleased than I am that there is no evidence to warrant the detention of the accused. I hope whoever committed the crime may yet be punished. The city officers will not feel their duty done, but will continue the inquiry until the murderer of Agatha Reichlin may be properly avenged."

Father Walser arose and, with moistened eyes, addressed Mayor King as follows:

"You cannot say a word against me. You have hurt me a great deal. Agatha Reichlin is the last person I would have killed. I can't kill anybody. I couldn't kill a chicken. I thank the officials for their courtesies extended me. Especially would I thank Sheriff Salisbury, as he alone treated me as a noble gentleman could have done."

Austria to Intervene.

LONDON, May 6.—The Vienna correspondent of the Daily Telegraph says the Turkish ambassador at Vienna, acting on the porte's instructions, has requested the Austro-Hungarian minister of foreign affairs, Count Goluchowski, to address a final warning to Bulgaria and that the count, while expressing regret that the Turkish precautions were so inadequate, the outrages having been foretold, has promised to intervene at Sofia.

General Lombard Dead.

NEW ORLEANS, May 6.—General E. H. Lombard, formerly major general commanding the Louisville division of the United Confederate Veterans, is dead, aged sixty-two years. He served gallantly with the Pointe Couppe artillery during the war, being frequently mentioned for bravery on the battle field.

Plumbers' Strike Continues.

SCHENECTADY, N. Y., May 6.—The plumbers and steam fitters have been unable to reach an agreement with their employers, and the strike has been resumed. The men asked $4 for eight hours' work, but modified their demands to $3.50, while the employers have offered 42 cents an hour, or $3.36 a day.

"Quick Lunch" Waiters Strike.

CHICAGO, May 6.—Nearly 200 colored waiters employed in down town restaurants and lunch rooms have struck, causing considerable inconvenience to hundreds of "quick lunch" people. The trouble arose over the substitution of union white girls in the place of colored men.

STREET SPRINKLING.

While the Common Council did not take any action on the question of municipal street sprinkling at the meeting Monday night, the Councilmen showed a willingness to give the subject further consideration and ascertain if there is a general desire to see the city assume that work. While public hearings are never definite in settling any question, the Council will probably hold one to obtain, if possible, some idea of the feeling of the public on this question.

If the people of Plainfield do want the streets sprinkled, this will be the opportunity of letting their wants be known. The recent dry weather with its accompanying clouds of dust has brought the subject home with particular forcefulness. It has served to demonstrate that something ought to be done to prevent a recurrence of the recent conditions. Either the company, which has been doing the work, wants to change its methods to suit varying conditions or else the city wants to take up the task of keeping the streets properly sprinkled.

The present method of having the sprinkling done by a private corporation to be paid for by the householders as individuals has certain advantages and disadvantages. By this arrangement it is the householders, who get the direct benefit, and not the property owners who foot the bill. Those who do not wish the work done are not compelled to pay for it. But the inevitable result of this is that patches of roadway are left dry and dusty and the householder, who pays to have the street sprinkled in front of his own, house has to suffer from the dust blown off the road in front of his neighbor's home. Then there are stretches of road, where there are no houses, which would be sprinkled under the new arrangement but which are now thick with dust. This is particularly true on the outskirts of the city.

This subject has come up for consideration before. There has never, apparently, been such a chance of carrying it through to a successful culmination. The dust clouds of the last week or two have served to effectively demonstrate the need of some change. If it is municipal street sprinkling that is desired, this is the time to get it. It may not be possible to have the change made for this season but there will be plenty of time to include it in the appropriations for another year if the people care to stand for the increase in expense.

Among the acts of the Common Council at its meeting Monday evening was to pass on first and second reading an ordinance providing for the macadamizing of a number of streets which have heretofore been neglected. There isn't the slightest doubt that the improvement is a needed one and that it will tend to greatly develop the property on the streets considered. One of Plainfield's greatest boasts has been its beautiful streets and the more that are added to them the greater will be the benefit.

Although summer is actually here, the basket ball enthusiasts are loath to give up their favorite sport. It looks however, as if another week would see the end of the contests until the cold weather comes again. Each year shows more and more interest in basket ball. If Plainfield only had a suitable place to accommodate an audience, the game would achieve the popularity here that it does in other cities.

There is no doubt but Watchung avenue, between East Front street and Green brook, should be widened to conform with the rest of that thoroughfare. The property owners along the section in question called the attention of the Common Council to the matter and wanted to know what was going to be done. It is certainly the duty of the city to act as soon as possible.

Company K has a new home now. While it is not all that an armory should be, it has its advantages over the former quarters and gives opportunity for more extended evolutions by the local militia boys.

The local horsemen promise that they will be active this summer. A meeting of trotting and pacing events is now being arranged for Independence Day.

The Daily Press has received a communication from the Borough Board of Health which will be published as soon as the press of news will allow.

DUNELLEN.

While turning his horse around in front of Garretson & Gray's office yesterday, Freeholder Peter Staats did not give the animal enough room. As a result it jumped and threw Mr Staats out into the road. He clung to the reins and his horse was stopped by bystanders before it could run away. Mr. Staats was shaken up and cut slightly about the face.

The County Board of Freeholders will organize for the year this afternoon. Many from this place are anxious to find out whether or not P. C. Staats, freeholder from this place, will hold his seat, without a contest. Former efforts to deprive him of his seat have proved useless and whether or not, one will be made this time is a question.

Borough Counsel H. B. Willis was in town yesterday getting people to go to New Brunswick Thursday to protest against granting another liquor license for this town. It is said that quite a strong fight is being made for the license.

The Central Railroad, through the agency of J. K. Large, has settled with the mother and sisters of John Currid, who was a victim in the Westfield wreck. The settlement is reported to have been very satisfactory.

A large part of the force of men employed at Levering & Garrigues Iron Works at this place have been laid off, it is said because of the inability to secure supplies, because of strikes in other places.

John Moynihan has returned to his duties as engineer of the drill, after laying off for some time for the benefit of his health.

Some seats will shortly be erected for spectators at the games of the local team on the Madison avenue grounds.

The Card Club spent last evening very pleasantly at the home of Miss Martha Whitenack, of Somerville.

Another dance is being planned by the Watchung Ball Club, to benefit its treasury.

A regular meeting of the Juniors was held last evening in Apgar's Hall.

Henry Garretson visited in New Market, yesterday afternoon.

NEW MARKET.

A meeting of the Township Committee was held yesterday afternoon at Dente' Hotel. A great deal of routine business was transacted and considerable time was taken in considering three petitions. These petitions asked that certain parts of the voting districts of South Plainfield, East Bound Brook and New Market, be supplied with electric lights. The petitons were signed by residents and property holders in the districts where the lighting facilities are desired. The committee set apart May 20 as a time for a public hearing on the petitions and on the first Tuesday in June they will be voted upon. It is the general opinion that the petitions will all be granted with the possible exception of the one from New Market, as that district is large.

The funeral services over the remains of George Leonard will be held tomorrow morning at 11 o'clock from his late residence. Interment will be in Greenwood cemetery, Brooklyn, and Rev. Frank Fletcher will be in charge of the services.

From all indications boating on the pond is going to be as popular as ever, again this year.

Prayer meeting will be held in the First Baptist church this evening at the usual time.

PLAINS AND FANWOOD.

If the weather is fine Saturday afternoon the attendance at the baseball game should be a record breaker as the national game was never more popular than it is this year. Saturday's game with the Hopes was witnessed by nearly 300 people and many were no doubt kept away on account of the day being so cold.

The Amity Club enjoyed its weekly meeting for reading and study in the Library rooms last night. The meetings of the club are well attended and are proving very interesting to the members. Plans were discussed for the clipping table which will be in charge of the club at the Library fair to be held in June.

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of wornout tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up, Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by L. W. Randolph.

AN IDEAL LOCATION

BEAUTIFUL AND ACCESSIBLE.

2 Miles from Elizabeth. 7 Miles from Newark
14 Miles from New York.

Linden, New Jersey.

ON MAIN LINE PENNSYLVANIA RAILROAD.

Rosedale and Linden Park Cemeteries

Largest Burial Parks in the State.

Transportation Facilities superior to those of any other cemetery, as to number of trains, railroad fare, time and distance.

These New Cemeteries, now being developed on the modern park plan, are attracting universal attention.

By Reason of Location Alone they are destined, in a very short time, to become the best-known Cemeteries in the country and, with their natural advantages, the most beautiful and desirable in which to purchase lots.

They **are Accessible** from every quarter and within easy reach of over 4,000,000 people, and, considering the steady and rapidly increasing growth of Greater New York and its tributary cities and towns, it is only the question of a short time before plots in Rosedale and Linden Park will equal in value those of our most noted cemeteries.

Popular Favor has already been shown to a marked degree in the sale of lots, several hundred having been sold to residents in Elizabeth, Linden, Rahway, Cranford, Jersey City, Orange, Paterson, Westfield, Newark and New York City, and a large number of interments have been made.

In the Days of Happiness we do not know what is to befall us or when the inevitable will occur; therefore, it is a wiser precaution to make provision for a final resting place during health and life than to force the painful duty on one's friends or relatives after death. A place of burial will be needed sooner or later by every one, and no one should neglect selecting a suitable and proper place until future postponement is impossible.

Linden Lodge is the largest, most modern and best equipped Cemetery Lodge in the country, and is provided with every requisite for the comfort and convenience of visitors who come to inspect the properties.

THE WHY OF STOLES.

Henriette Rousseau Discusses Dame Fashion's Latest Decrees.

I have been breaking my head for two days, as the French say, to find out why the pretty new lace arrangements now worn as ornaments over coats and dresses and on wraps of every description should be called stoles. It would seem that every one is stole mad just now, for few there be without something of the kind. There are many varieties of these affairs, which I think scarcely merit to be called garments, since they are entirely ornamental.

A few of these stoles are arranged with short capes of the dress or coat material or else of some light and delicately colored silk. Generally speaking, all those of cloth or solid goods are made with a stitched hem, but oth-

NEW STOLES.

ers have accordion plaited ruffles, sometimes two or three, one above the other, but all below the stole arrangement of lace.

The Monte Carlo coats seem to be particularly well adapted for decoration in this style, and most of them do have the lace down the front. The heavy Irish crochet lace is more showy and, in fact, better than any other except the renaissance, but many prefer the relief of the Irish point. It sets up so well on any kind of material and shows like sculpture when put upon cloth in one of the soft and beautiful pastel shades so well liked for handsome tailor suits. In saying "tailor suits" in this connection I do not mean the gowns worn in the street for all occasions, for the delicate colors and tints are impossible for such requirements, but the dresses are finished in the perfection that is called tailor made. Every seam is pressed and finished so that the gown seems to have grown together. On such a dress the Irish lace shows like incrustations of ivory carving. Some of these fine broadcloth gowns have a short coat of the same stuff, and while the dress is incrusted with the lace the coat has a stole down the front. Few of them show any attempt at a high collar, but the dresses still reach the chin.

Thin dresses are so pretty that I scarcely know where to begin to speak of them. The very prettiest is the skirt moderately long in front and demitrain in the back, with five or six narrow ruffles at the bottom, and the full gathered back. Many dainty thin frocks have folds down the skirt to flounce length, and there they are let loose, to form a graceful and desirable fullness. Sometimes these plaits are arranged in clusters, and they also are left to form a flounce at the hem, but between the clusters of folds there are set diamonds of castle braid and lace. These come in three and four sizes, so that the small ones are used on the waists and the larger ones on the skirt.

I saw a beautiful dress at one of the big stores. It was made of lace of a delicate all over trailing design. The underskirt was ivory white taffeta, and skirt and lining were made up together, so that when the seams were sewed the folds came under in fan shape, in a way to show the delicacy of the lace in the dress. Down each seam in the skirt there was a line of heavy Irish point made so that the ends fell on the side of the fan shaped folds. The waist was blouse shaped, with a pelerine cape of the lace edged by the Irish point. This also was laid all around the hem of the skirt.

Among the novelties is the linen cheviot with the little rough knots over the surface. It is made into everyday street costumes and is generally treated like the woolen cheviots. The colorings are the same, and they are strap stitched and slot seamed like the woolen stuffs. Some have blouses with sailor collars, while others have the regulation snug basque effect.

A dress of this durable and satisfactory material had long flared and double slot stitched seams, besides a whole lot of other stitching wherever it could be added. The bodice was snug, with a tiny postilion at the back. It buttoned closely in front and had a turn over collar, a high white linen collar, a chemisette and a narrow black tie. How neat this looked beside the very frivolous yet beautiful frippery of the fanciful lace and other thin dresses with all their fluffy daintiness! It was water in a desert.

The new hats? Oh, no; not this time. There is not room for them under a volume. But they are so bedecked with flowers and ripe and native fruit that one smells them a block away.

HENRIETTE ROUSSEAU.

MYSTERY OF THE BAYOU WOODS

By WALKER KENNEDY.

Copyright, 1903, by A. N. Kellogg Newspaper Co.

"That place offers every inducement to a man to go out and assassinate his fellow man, but this time I believe it plays no part in the tragedy. Our labor is simplified that much; for where we have to examine the denizens of the Den as witnesses there is so much ornamental, artistic and clumsy lying done that it is almost impossible to get the truth. Sometimes, however, those fellows have a trick of telling the truth just to throw the police off the track."

They now drove around the woods until they came to the roundabout path already referred to in the statement of Herbert Wright. The horse was hitched to a tree and the two men began to plow their way through the snow. It had melted just enough to make their footprints as distinct as if they had been drawn by an artist on paper. Suddenly Warde called attention to the fact that there were two series of footprints in the snow, and that some one else than Wright had traversed the path. It was further discovered that the footprints were pointed in opposite directions; in other words, one of the persons had been coming to the city and the other had been going from it. It would be interesting to know who had taken the roundabout path from the city and why he had done so. It occurred at once to the two men that perhaps Wright had gone back by that route.

This suggested an examination of the tracks, and it was immediately apparent that they had been made by two persons, or at least by a person who had worn two different kinds of shoes, for the footprints were nothing alike. It was known that Wright had made the tracks pointing to the city, but who had made the others? Following the trail was easy, so the two men walked rapidly along toward the scene of the murder. This trip through the Bayou Woods was by no means inspiring. The land was locked in a settled gloom, and the wind took its way with a desolate insistance through the somber trees. No noise broke the silence save such as was made by the chief and the newspaper man, in whose faces was a wide dissimilarity of expression. In the eyes of the elder there was only the cold, calculated interest of a man plying his accustomed trade, while the face of the latter quivered now and then with the excitement of an experience too novel as yet, even in his reportorial life, to leave his nerves entirely steady. They made a strange contrast walking side by side through that weird silence of snow and forest, and yet both were equally alert, equally in earnest.

At length they came to the object of their search—the thing that had once been John T. Wright, "the Cotton King." The dead man lay on his back, his face turned up to the sky and his staring eyes fixed upon the black branches of a tree overhead. There was frozen blood in his hair, and his head rested in a dark red pool that stained the snow. The officer made as minute an examination as possible without touching the body of the dead man. Several blows had been dealt upon the head with a bludgeon. There was no evidence anywhere of the use of a pistol, though it was possible that an examination of the body by the coroner might reveal pistol wounds that could not now be seen on account of the position of the corpse. The face of the dead man had upon it a look of ghastly surprise, which was presumptive evidence that the attack had come without any warning whatever.

"Everything would indicate," said the officer, "that the attack had come from behind, and that Wright fell forward, and that the murderer beat him about the head until he killed him. His gun, you see, is at some distance beyond his head; his hat fell in the same direction."

"It is also evident, I should say," declared Warde, "that some one besides the old man's son has touched the body. Judging from the disturbances of the snow, which seems to be recent, the body has been turned completely over. I wonder if the footprints can throw any light upon the subject?"

Young Wright's footprints told a clear story. He had evidently come straight along the path, brushed the snow away from the corpse, discovered who it was, and then hurried on to the city. It was certain that he had quickened his steps after making the discovery, for the tracks were wider apart than they had been before, and there could be no doubt that he had not loitered about the corpse, and that he had not tampered with it, as very few of his tracks could be seen there. These facts told that much in his favor.

The unknown person, however, seemed to take a deep interest in the corpse. His tracks made almost a circle around it, and as his foot had slipped here and there in the snow it was evident that he had tugged at the body and turned it over. There was also reason to believe that he had examined the pockets of the clothing, as the coat was thrown open in such a way as to suggest that the inside pocket had been rifled, or at least searched. This, however, could be dismissed as a mere surmise, for the contents of the pockets must have been extracted at the time of the murder.

"I am afraid this clew will not amount to much," said the chief.

"Why?"

"For the reason that I can imagine a very clear explanation of the last comer's action. He stumbled by accident upon this dead body, with its face down. Naturally he would turn it over the better to see who it was. Failing to recognize the dead man, he would probably search the pockets to see if there were any papers that would lead to his identification."

"If that be the case," said Warde, "and this is an honest man, would not his first impulse be to notify the police?"

"Yes, or else some of the neighbors."

"If he has notified any of the neighbors it is reasonable to suppose that their curiosity would have brought them hither by this time. People, as you know, will walk miles to see a dead body, specially where the death involves some horror, but there is as yet no evidence that any curiosity exists in this neighborhood. It is also certain that the stranger is in no hurry to notify the police, for he has continued on his way instead of returning to town. If this man is square he will some time to-day reveal his identity by notifying the authorities."

"But he may not be square. He may be a man with a bad reputation, one who knows that his discovery of such a crime would direct suspicion on himself. Or he may have noticed that the crime had already been found out by some one, Wright's tracks being conclusive evidence of that."

"I should not judge that the person who made these tracks was a vagabond or a rough customer himself. You will observe that they were made by a broad and flat shoe; indeed, I am sure the mysterious stranger wore arctics. Now arctics are worn almost exclusively by persons in fairly good circumstances."

"Your reasoning is very ingenious," said the officer admiringly; "but still it would hardly be fair to connect a stranger who comes along to-day and stumbles upon a dead body with a murder committed a day or two ago. But there is nothing to do now but await the coming of the coroner's ——"

RELIANCE OUTSAILED.

The Defender Columbia Proves Better In Light Wind.

GLEN COVE, N. Y., May 6.—It required just twenty minutes yesterday for the peerless cup defender Columbia to demonstrate that in a light wind and beating to windward she is a better boat than the new Herreshoff cup yacht Reliance.

Starting from a position to leeward and slightly astern of the Reliance, the Columbia sailed through the new boat's lee, tacked across her bow and in the next leg of a mile and a half increased her lead to nearly a quarter of a mile. The Reliance then withdrew. When the Columbia went through her lee the Reliance kept off and voluntarily gave up the advantage of her windward position, but she was none the less decisively and emphatically outsailed.

This was the first brush between the two boats. The sea was as smooth as a pond, and the performance raises grave doubts whether Designer Herreshoff's second attempt to build a boat to beat the Columbia is any more of a success than his first.

Worth Track Record Broken.

CHICAGO, May 6.—Gregor K., an American Derby candidate, not thought able to go a distance, broke the track record for the mile and seventy yards in the fourth event at Worth, winning the race in rather easy fashion from the best field of aged horses he has ever met. The new record was set at 1:44 3-5 as against the old mark of 1:45 1-5. Nitrate, the favorite, secured second place a length in front of Bondage. Gregor K. went to the post at 12 to 1. There was a desperate finish in the third race between Beau Ormondo and Favonius. After the hardest kind of a drive through the stretch, both horses running like a team, Beau Ormondo managed to get his nose far enough in front at the wire to secure the verdict.

Bookmakers Lost Heavily.

ST. LOUIS, May 6.—A light rain fell early in the afternoon, but did no more than settle the dust on the track at the fair grounds. Hemlock was backed from 8 to 1 to 5 to 2, and the bookmakers lost heavily. The feature of the card was the fourth event, won by South Breeze. W. B. Gates led from the start, but he was passed easily by South Breeze at the head of the stretch. Edgardo was second by a neck.

Racing at Jamaica.

NEW YORK, May 6.—Saccharometer at the prohibitive odds of 1 to 3 won the Williamsburg handicap at Jamaica. The big son of The Judge got off second, but Shaw, his rider, sent him to the front, and he, maintaining his advantage to the end, won easily. Race King won the Elmhurst stakes for two-year-olds in easy fashion.

Favorites All Lost.

LOUISVILLE, Ky., May 6.—Perfect weather, a fast track and a large attendance were the conditions of the racing at Churchill Downs. It was a bad day for players of favorites, for not one of the six choices finished first under the wire. Monsieur Beaucaire proved the surprise of the day. He went begging at 8 to 1.

Baltimorean Wrestler Wins.

BALTIMORE, May 6.—George Burlingame of this city defeated Andy Boxwell of Washington in a wrestling match here. Burlingame gained the first and third falls.

Derrick Breaks; Two Dead.

PITTSBURG, May 6.—By the breaking of a derrick boom at the Mount Washington tunnel of the Wabash road two men were killed and two others fatally hurt. The derrick was lifting a huge tub of cement when the derrick boom broke.

Cleveland Laborers Strike.

CLEVELAND, O., May 6.—About 500 building laborers are on strike to enforce a demand for an increase of pay from $2 to $2.40 per day. A number of contractors have conceded the demands of the laborers.

A Confederate Monitor.

ST. JOHN, N. B., May 6.—The Portland Rolling mills have purchased from the British admiralty the old monitor Scorpion, built for the Confederate navy forty years ago.

SPORTING NEWS

ON THE DIAMOND.

The Safe Works team will go to Flemington Saturday to try conclusions with the crack team of Hunterdon county.

While Manager Alex. Muir is confined to Muhlenberg Hospital as the result of his fall Sunday, Edward Gaston will have charge of the Safe Works nine.

The North Plainfield High School baseball team will play ball with the Pingry High School team, this afternoon, at Elizabeth. The game will be an interesting one.

The City High School baseball team will play the team from St. Francis Xavier Preparatory School Thursday afternoon on Stillman field. The game has been called for 3:45.

Ted Shortman will be seen back in the infield on Hopes Saturday. Another candidate for the place was tried Saturday but "Brit" Martin is satisfied that Shortman can furnish the goods and will probably keep him at short.

Ettinger proved a valuable man to Dunellen last year and even the strongest of the City League teams had trouble hitting his delivery. He is back with Dunellen this season and it is said that he is pitching better ball than ever.

George Dupee, of last year's Y. M. C. A. team, is doing the twirling for the Alis aggregation this season. Dupee is admittedly one of Plainfield's best pitchers when in good form and his opening game showed that he had lost none of his old time skill.

Early evening practice will be started by the candidates for the Hope Y. M. A. team tomorrow evening, when they will assemble at Hope Common at 6:15 under the charge of Captain "Brit" Martin. There will be another practice Friday evening at the same hour.

The Hope Y. M. A. baseball team has arranged with the Sacred Heart nine, of Newark, to play a game of ball in this city, Saturday. "Kid" Garsey will pitch for the visitors. This game promises to be an interesting one and the attendance will no doubt be large.

The finishing touches on the Crescent Oval baseball diamond will be made this week, preparatory to the opening game Saturday afternoon, when the Alis team will play its first on its own grounds with the Star Athletic Club team of Newark. There will be accommodations on the oval for the seating of 300 people and "bleachers" will be provided in addition.

Last season's play with the Hope Y. M. A. did wonders for Monro, now captain of the City High School team. He is a good player and more than once has helped his team out of a bad hole by keeping his head. He doesn't pretend to be a pitcher but he can fill the bill quite satisfactorily when necessary. His favorite place is at third, although he has been catching VanAuken quite regularly.

WHIST.

The Plainfield Camera Club whist four, fresh from its victory over the veteran Park Club four in the whist match for the Metropolitan challenge trophy, went to Bayonne Monday evening to battle with the Newark Bay Boat Club team for the State trophy, and there met defeat. The home team was victorious by a score of 8 to 6. The match was a close and exciting one, but the Camera Club team was hardly up to its playing strength and had to submit to the inevitable. Tomorrow evening the Camera Club team will meet the Forest Hill team, challengers, in the continuation of play for the Metropolitan challenge trophy.

CYCLING.

Dr. Frank S. Wells and Rev. George B. Shaw, of this city, received handsome Pierce bicycles yesterday. They are the latest model and are fine specimens of workmanship.

TROLLEY TRIAL.

The Case of Mrs. Frank R. Searles Against Trolley Company is Still Before the Court.

(Special to The Daily Press.)

Elizabeth, May 6—The first case called in the Supreme Court this morning was that of Mrs. Frank R. Searles against the Elizabeth, Plainfield and Central Jersey Street Railway Company, in tort. Some time ago, Mrs. Searles was injured while riding in a carriage at Fourth street and Madison avenue, the carriage being in collision with a trolley car. Mrs. Searles was taken into court on a stretcher.

Among the witnesses called after C. A. Marsh, as counsel for the plaintiff, opened the case and gave a history of it, were Dr. T. S. Davis, Dr. H. H. Lowerie, father of the plaintiff; Thomas Doane, John Storke, C. E. Drake and Mrs. Bristol, a sister of the plaintiff. The testimony of the eye-witnesses to the accident was that the motorman of the car did not ring his gong, while the testimony of the physicians was that Mrs. Searles is a physical wreck. The case occupied the greater part of the morning and it will probably not be concluded today.

Workmen Gave Dance.

A very enjoyable dance was held last evening in the I. C. T. Club rooms for the benefit of the degree team of the local lodge of the Ancient Order of United Workmen. The music was provided by Suhr's Imperial orchestra and nearly all of the airs were the latest hits. The committee in charge of the affair comprised: Vincent W. Nash, Jr., chairman; Matthew D. Sweeney, Charles S. Wilson, Clarence H. Leland and F. Merton Lunger.

—Sigmund Frucht, of Park avenue, has made a purchase of a large number of the best makes of bicycles and he will sell them at prices lower than those charged in New York. An inspection of the wheels is invited.

The Misses Edith and Jessie Little, of Sandford avenue, are visiting friends in Paterson.

The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that Catarrh of the Stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure Catarrh of the Stomach. Kodol digests what you eat—makes the stomach sweet. Sold by L. W. Randolph.

ANOTHER ARREST.

Jacob A. Fass Charged With Being Implicated in Fay Burglary—Says He Was Home Asleep.

Jacob A. Fass, of West Third street, a local store keeper, was arrested at the Plainfield station while returning from New York late last night by Patrolman McCarthy, on the charge of being implicated in the attempted robbery of Fay's bakery early on the morning of May 2.

Fass is accused of being one of the men seen drilling into the safe. For himself, he claims he can prove that at the hour in question he was at home and asleep in his bed. Fass appeared before Justice Huff this morning and waived examination. He was held in $500 bonds for the Grand Jury. Bail was furnished.

WARREN'S ELECTION.

Officers Chosen for Borough Fire Company at Meeting.

Warren Engine Company elected these members last evening for a term of six months: Foreman, L. B. Bodine; first assistant foreman, A. F. Brokaw; second assistant, Frank E. Kesslering; secretary, Phillip Kirch; treasurer, J. H. Higgins; financial secretary, William Debele; engineer, Louis Feiring; first assistant engineer, "Lucky Jim" Walker; second assistant engineer, Winfred Conover; stoker, Harry Codington; delegate to the Firemen's Relief Association, Jacob M. Higgins.

Following the election the meeting adjourned after paying some bills. Matters relative to the new engine house and the work attached to digging the cellar were discussed while a smoker was enjoyed.

IMPROVEMENT IN DAIRIES.

Reported at May Meeting of City Board of Health.

The May meeting of the City Board of Health was held yesterday afternoon. Owing to the illness of President C. J. Fisk, who is detained at home with a severe attack of rheumatism, he was unable to be present.

Health Officer Leon R. Thurlow reported that during April he made niney-one inspections of dairies. This is out of a total of ninety-seven from which milk is furnished in this city. A great improvement is noted in all dairies and a very large decrease in the number of bacteria in milk from that of a year ago.

Health Inspector William Addis reported that at persent there are nine persons in quarantine. He made 167 visits and inspections during April.

PREPARATORY LECTURE.

Will be Held at Crescent Avenue Church This Evening.

The preparatory lecture will be given in the chapel of the Crescent Avenue church this evening and a meeting of the Session will follow. Any person wishing to unite with the church by letter or on confession will be welcome. Dr. Thomas C. Hall will be in the church study for a half-hour prior to the meeting and will be glad to confer with any considering the duty of entering into church membership. This afternoon Rev. Joseph O. McKelvey will be in the study for the same purpose. The regular communion service will be held at the church Sunday morning.

TOO LATE FOR SHOW.

Offer to Give Minstrels for Hospital Accepted—Will be Given Next Fall.

A meeting of the members of the Young Men's Association of Hope chapel was held last evening at the chapel. Nothing of importance was done although much routine business was transacted. The offer to repeat the minsterl show for the benefit of Muhlenberg Hospital was accepted by the hospital governors but it is now so late that the show will probably not be given until another year.

Wants to Swap Again.

James H. Finley, of 421 East Third street, is looking for a 1901 Cleveland bicycle which he left outside the Y. M. C. A. rooms Monday night while attending the Reform Club-Business Men's basket ball game. Somebody evidently exchanged wheels, leaving an Eldridge bicycle in place of the Cleveland. Both wheels had yellow rims and the mistake evidently resulted from this fact. Finley would like to exchange again, as he thinks he got the worst of the bargain.

Crisis Expected Today.

E. Douglass Murphey, of Sandford avenue, who was brought home from the south Sunday with a high fever, has developed typhoid. Drs. J. B. and Norman H. Probasco are in attendance and two trained nurses have been brought out from Belleview Hospital, New York City. The lad's condition is considered serious and the doctors expect the crisis today.

Prepared for Reception.

An adjourned meeting of the alumni association of the North Plainfield High School was held last evening in the main auditorium. Little business was transacted aside from arranging minor details for the commencement reception this year.

HOT FIGHT.

Westfield's Election Yesterday—Democrats Elected Two to Office—Legal Fight Not Not Settled.

(Special to The Daily Press.)

Westfield, May 6—The first town election yesterday was the hottest that has ever taken place in Westfield. A large vote was polled and both parties worked to their utmost.

While the Republicans worked hard for all their candidates, they centered most of their effort on assessor and collector, two offices which they have not been able to capture though they have had for years a normal majority of over 200. The Democrats elected these two officers, John M. C. Marsh assessor and Addison H. Clark collector, with these exceptions all the Republican candidates were elected, Martin Welles councilman-at-large and Lloyd Thompson for town clerk. All of the councilmen are Republican. As two freeholders for the town are elected by the Council, this will insure two Republicans from Westfield in the county board.

The question of the legality of the Democratic tickets has not been settled and it is now rumored that a defect has been discovered in the nomination of the Republican candidates.

WELCOME TO PASTOR.

Reception at Monroe Avenue M. E. Church Last Evening to Rev. John MacMurray and Wife.

At the Monroe Avenue M. E. church last evening a reception was tendered Rev. and Mrs. John Mac Murray, who returns to the pastorate of the church for another year. Walter M. McGee presided and Rev. Dr. J. R. Bryan, who was pastor of the church when first licensed to preach, pronounced the address of welcome. Rev. Dr. W. C. Snodgrass alluded to the past history of the church and assumed an optimistic note in speaking of its future. He mentioned particularly the rapid growth of the Sunday school.

The rest of the programme consisted of a recitation by Mrs. W. H. Hellman, a soprano solo by Miss May Brower and piano solos by Miss Charlotte Aldrich. A phonograph in charge of Charles W. Leveridge discoursed sweet strains. An exceedingly pleasant social evening was passed and refreshments were served.

Rev. Dr. Edwin L. Earp was unable through sickness to be present but forwarded his best wishes.

People Believe In It.

It has been cynically said that anything can be sold by advertising nowadays. This is not so. Many liniments have been advertised but only one—Perry Davis' Painkiller—has stood the test of sixty years' use. Today its popularity is greater than ever and is based not upon what anybody says but upon what the remedy does. There is but one Painkiller, Perry Davis'.

Dated Plainfield, N. J., May 4, 1903.

AN ORDINANCE

I. C. T. IS PREPARING FOR AMATEUR CIRCUS

Will be Held on St. Mary's Baseball Grounds on West Fourth Street.

ALL CIRCUS FEATURES

MEMBERS OF THE CLUB AND LOCAL BUSINESS MEN WILL TAKE PART.

Evening Performances on May 22 and 23, With Matinee on Second Day—Some of Those Who Will Take Part—Other Details.

The members of the I. C. T. Club are making great headway for the circus which they will hold in this city on May 22 and 23, with a matinee on the second day. The circus will be complete with all the trimmings, including pink lemonade, roasted peanuts, side shows and monkey cages and the inevitable "barker" for the side shows and the main tent performance. The show is to be held on St. Mary's baseball field on West Fourth street and Spooner avenue. The baseball game, which has been scheduled for Saturday, May 23, will be cancelled, as in the agreement with the owner of the field it was stipulated that all ball games should give way to circuses.

Several business men in this city have consented to enter the ring as clowns or other performers. Nearly all the members of the club will participate in the show, and among those who have consented to take some part are Archibald Hacquer, Matthew D. Sweeney, William Harsel, Edward Shortman, Edward Sutton, Walter L. Hetfield, Jr., Bertram Firstbrook, Alfred Berry Marsh, Thomas M. Muir, Harry Blimm, and several of the committee.

The committee which has the arrangements in charge for the affair is made up of the following members of the club: V. W. Nash, Jr., chairman; Leonce Texier, George L. Apgar, Charles Hertle, H. C. Drake, Joseph Robinson and Edward Texier.

This is one of the greatest enterprises the club has ever undertaken and it seems probable that the members in their endeavor to make a success of it will be liberally supported by the Plainfield people. The show was given in New Brunswick last year when the members of the Brunswick Club, a sporting organization, took part in the various roles. Although the show was given on a rainy night the club netted a large amount from the show. The performance given was an excellent one and as the professional part of it is to be given here by the same concern with an increased list of artists, it is very probable that the circus will draw large crowds.

PRIZE ESSAYS IN.

Winning Essay Will be Published In High School Oracle.

The annual prize essays were handed in Monday at the City High School. The three from each class considered best by the teachers will be forwarded to a specially appointed board of five who will select the prize winners. The prize for the best composition will be awarded at the commencement exercises at the close of school in June. The prize essay will be published in the June number of the High School Oracle.

Meeting of City Union.

The City Union of the King's Daughters will hold its semi-annual meeting Tuesday afternoon at 3:30 o'clock in the Trinity Reformed church. Reports from the various circles will be read in regard to their year's work. The election of officers will also take place. A most cordial invitation is extended to all persons to attend this meeting.

Social at First Presbyterian.

Under the auspices of the Ladies' Aid Society of the First Presbyterian church, a social and entertainment will be held this evening in the chapel of the church. A cordial invitation is extended to all members of the church and congregation.

Car Broke Down.

A Fourth street open car was delayed for about fifteen minutes yesterday noon as it was turning from Watchung avenue into Fourth street, there being a slight breakdown in the machinery on top of the car.

Special Features.

The attention of those interested is called to the Christian Endeavor Society meeting to be held at the First Baptist church, Sunday evening at 7 o'clock. There will be special features.

PINGRY SCHOOL WON GAME

EASILY DEFEATED NORTH PLAINFIELD HIGH SCHOOL NINE.

Borough Boys Outclassed by the Elizabeth School—The Score Was 16 to 2.

The members of the North Plainfield High School baseball team were defeated yesterday afternoon at Elizabeth, when they played the Pingry School on the home field. The local members made the journey on the trolley cars and the game was called at 3:30. The score was 16 to 2. Manager George said that the game was lost through wild throwing and costly errors. Weak batting was also ascribed to be one of the reasons for defeat.

The two runs were made by Adams and Humble while Armstrong made one two base hit and George, as pitcher, struck out five men and put four men on bases on balls, while Pingry's pitcher struck out thirteen men and gave only one man his base on balls. Ovens as catcher did good work.

The line-up of the local team was McLaughlin, 3b; Ovens, c; Adams, rf; Humble, 2b; Kipsey, 1f; Newmiller, lf; George, p; Conover, ss; Armstrong, 1b.

DON'T WANT NAME CHANGED

STATE EPISCOPAL CONVENTION VOTES AGAINST CHANGE OF NAME.

Plainfield Represented at Convention by Clergymen and Lay Delegates.

The 119th annual convention of the Protestant Episcopal church of the Diocese of New Jersey, convened in St. Paul's church, Camden, Tuesday and Wednesday with a large attendance of clergy and laymen present. The clergymen present from Plainfield were Rev. E. V. Stevenson, Rev. William Vincent Dawson, Rev. E. M. Rodman, Rev. William Montgomery Downey and Rev. C. Harris Rush. The lay delegates from Grace Episcopal church were J. B. Dumont, W. E. Lowe and Howard Fleming and from the Church of the Holy Cross J. A. Alexander was the delegate.

The matter of most importance brought before the convention by Bishop Scarborough, who presided, was that of changing the name of the church, that is by leaving out the words "Protestant Episcopal" The idea was to take a vote on the question of leaving out those two words and if the decision was favorable then to take a vote on adopting some other name or not just as the diocese thought best.

There were sixty-five votes by the clergy, of which thirty were in favor of changing and thirty-five were against. The vote of the laymen resulted in fifteen votes being cast in favor of the change and fifty-four against.

The convention next year will be held in Christ Episcopal church, Elizabeth.

HOW MEMORIAL DAY WILL BE OBSERVED

Plans for Its Observance by Local Members of the Grand Army Post.

TO DECORATE GRAVES

SPECIAL SERVICES AT REFORM HALL IN THE AFTERNOON.

Company K and the High School Cadets Expected to Act As An Escort to Veterans—Special Preaching Service May 24.

For some time past the members of Winfield Scott Post, No. 73, G. A. R., have been preparing for the proper observance of Memorial Day, May 30, and within a short time all details will be completed. The Post has received $25 from the Borough Council and $100 from the Plainfield Council to assist in the observance and according to the plans now made, a profitable day should be spent. This day, which has been set apart for honoring the memory of those who gave their lives for their country, is very sacred to the veterans and as each year finds the ranks smaller and smaller, the devotion to this cause strengthens measurably. Winfield Scott Post has been fortunate during the past year in losing a very few members and this is a cause of much thankfulness.

On Sunday evening, May 24, the members of the Post and the Woman's Relief Corps will attend divine services at St. Joseph's R. C. church, on Manning avenue, where Rev. Father Miller will preach a patriotic discourse and there will be special music by the choir.

On Decoration Day in the morning the various cemeteries in Plainfield and vicinity, including Westfield, will be visited by details and the graves of dead soldiers decorated with flowers. According to the usual custom there will be a short parade in the forenoon and it is likely that Company K and the Plainfield High School cadet battalion will join in this parade. The Raritan Brass Band has been engaged for the occasion and will lead the line of march. It is also quite likely that the North Plainfield and Plainfield avenue cemeteries will be visited and special exercises held by the veterans.

The Post and Corps will reassemble in the afternoon at Reform Hall, where special services will be held, consisting of music by the band, singing by children and an address by a speaker, whose name will be announced later. The veterans will also hold their own special service, including the reading of President Lincoln's address at Gettysburg. There will also be other attractive features to mark the occasion.

Isaiah L. McVoy has been appointed marshal of the day and he will be assisted by William C. Smith, as an aide, in the parade. The arrangements for the observance of Memorial Day are in charge of a special committee from the Post, of which W. C. Smith is the chairman and Dr. J. F. Berg is the secretary and treasurer. This committee is now engaged in perfecting the plans. Another meeting of the committees will be held Saturday evening, when further steps will be taken to complete the plans.

At Reform Hall the Post will be assisted by members of the Woman's Relief Corps in the exercises and a committee from the Corps will have charge of the children's chorus.

Saengerbund Meeting.

The regular monthly meeting of the Gesang and Turn Verein will be held this evening, at Saengerbund Hall. Matters of importance will come up for discussion including the formation of plans for the annual May walk. This has been an event of much interest for many years among the members of the Verein and elaborate plans will be arranged. All the members are urged to be present.

Elevator in Private House.

The work of installing an elevator in the home of O. T. Waring on Park avenue is about completed. It will be used by Mrs. Waring, who has been quite ill. She is now able to get about the house and by aid of the elevator can go from one floor to another easily.

Amendments to be Considered.

The regular meeting of Perseverance Lodge, No. 74, Knights of Pythias, will take place tomorrow evening. Amendments to the constitution and by-laws will be considered and the new third rank team will give a dress rehearsal.

MARTIN ACT SALE.

Will Take Place This Afternoon at the Office of Tax Collector Frank H. Smith.

The sale of property under the provision of the Martin Act will be held at Tax Collector Frank H. Smith's office on North avenue, this afternoon at 2 o'clock. Mr. Smith is much pleased with the way the delinquents are redeeming their property and up to today there were not over fifty properties left to be sold. During the early part of this week Mr. Smith has been kept very busy receiving taxes on this old score and it is likely that many more properties will be redeemed before 2 o'clock tomorrow afternoon.

Ever since the Martin act was enforced in Plainfield delinquents have been quick to learn that it is far better to redeem the property before it is sold. Afterward there is increased cost which adds much to the total expense. Mr. Smith has experienced less trouble this year than ever and very few taxpayers call at the collector's office with the idea of scalping that genial official. This has not always been the rule, as Mr. Smith knows only too well. He has had an opportunity of studying human nature and he now believes that he has mastered most of the difficult problems which confront him.

BOWLED OVER.

Henry Martine, Aged Borough Resident, Struck by Trolley Car on Somerset Street.

Henry Martine, an old resident of the borough, was knocked down last evening by a trolley car at the upper end of Somerset street and was painfully injured. He was taken into his house near by where his injuries were dressed.

Martine, who is about sixty-five years of age, stepped out of his house at the corner of Somerset street and Coddington avenue and started to cross the street to get some milk from a near by house. He is very deaf and he did not hear the trolley approach, and it being dark, he could not see it. He was fairly in the middle of the tracks when he seemed to be aware of his danger and, instead of going forward, he hesitated with the result that the fender lifted him from his feet and threw him heavily to one side.

It was found later that his injuries consisted mostly of bruises and that no bones were broken. He will be confined to his bed for several weeks until he recovers from his shock.

AT SHUFFLE BOARD.

Tournament at Y. M. C. A. Continues to Attract Attention.

The shuffle board tournament at the Y. M. C. A. continues to attract much attention among the members. Another tournament has been started by the juniors. This afternoon VanArsdale will play Denton and Stutman will play Freeman and tomorrow afternoon Nash will play Webster.

The men's tournament in the same game will be played off in four games. This evening Aalholm will oppose Spicer and Koons will oppose Jones. On May 9 Kenan will play Collier and Brokaw will be Smalley's opponent. May 12 will witness a game between Denton and Martin and Latereteviz and Connett. On May 14 Pittenger will play the winner of the other contests.

In Justice Mattison's Court.

Landlord and tenant proceedings have been instituted in Justice Mattison's court by George Collins against Mrs. J. Hayes, wife of James Hayes, who was sent to Somerville for a term for stealing chickens. The papers were served by Constable Pangborn.

Dispossess Proceedings.

Dispossess papers have been served on Fred Berner, who has been made the defendant in dispossess proceedings instituted in Justice Mattison's court by Mrs. Martha Goodman, agent. The papers have been served by Constable William N. Pangborn.

Settled Satisfactorily.

The claim of Wm. VanDeventer, who was injured in the Westfield disaster, was settled yesterday by Claims Agent J. K. Large, of the Jersey Central, with Mr. VanDeventer's attorney, Craig A. Marsh, to the latter's entire satisfaction.

Finger Caught in Safe.

J. Fred MacDonald, the real estate dealer, of North avenue, had one of his fingers severely mashed, Tuesday, while closing a safe in his office. The entire end of the finger was practically mashed to a pulp, causing much pain.

WHAT SPRINKLING OF STREETS WOULD COST

Estimates Considered by the Councilmen Throw Light on the Subject.

LOTS OF FOOLISH TALK

IT WOULD PROBABLY COST THE CITY CLOSE TO $10,000 TO DO IT.

No Foundation for Reports That It Could be Done for $2,000 or by Fire Department Horses—Councilmen Ready to Hear Argument.

The members of the Common Council who have given much time and thought to the question of street sprinkling are very much amused concerning the grossly exaggerated reports as to what it will cost the city to satisfactorily do this work. Such reports have been characterized as the foolish ideas of persons who know little or nothing about the matter. Some persons have an idea that the city can sprinkle all of the macadamized streets for about $2,000, but a close examination of the facts does not bear out the statement.

At the executive meeting of the Council Monday evening, following the regular meeting, the question of street sprinkling was discussed at some length and a few facts based on a rather conservative basis will be of interest just now.

It is estimated that it would require ten teams, as many watering carts and as many men to start with. There are thirty-five miles of macadamized streets in the city and at the least calculation they would have to be sprinkled twice a day, once in the morning and once in the afternoon. The average amount of work to be expected of any one team and wagon would be six miles a day. Now, allowing that the city hired the number of teams and wagons necessary, it would cost at least $4 a day for each team and wagon, and estimating on two hundred days, which is conservative, it would then cost the city about $8,000. On this basis it would ultimately cost near $10,000 for the services of a foreman would be required, as well as that of an additional man to care for the horses. To be sure these are only estimated figures and facts, but they serve the purpose of giving taxpayers an idea of the expense, and the members of the Council are considering wisely before any step is taken.

Some few persons have advanced the idea that the city fire department horses could be used to good advantage in the street sprinkling. It is not thought that the fire committee would be willing to have the horses used in this way, but if such should be done, it might mean a more serious loss in case of fire. The delay of five minutes might entail a loss of $50,000, a much larger sum than the street sprinkling would cost.

The question of putting the cost in the tax budget has not been considered seriously as yet, for the Councilmen are waiting to hear from Corporation Counsel Marsh as to the legal phase of the matter. It is understood that Mr. Marsh is of the opinion that the cost for this work can be put in the general tax budget by making the appropriation for the street work large enough to cover the sprinkling. This could not be done this year, unless the Council amended the tax ordinance, which has just been adopted on its third reading. It is roughly estimated that such action would increase the tax rate at least seven or eight points, something that the average taxpayer would not relish. Besides, the figures given do not include cost of water, a large item of expense.

However, the Council intends to give the question every consideration and even if the people want to stand the expense the members will not refuse them. A hearing on the matter will be given soon, when everybody will have a chance to speak for or against the enterprise.

Criterion Club Dance.

The Criterion Club will hold another of its dances in the Casino, this evening. The music will be provided by Westervelt's orchestra of three pieces, from Elizabeth. The arrangements which have been made for the dance are elaborate and a most enjoyable evening is anticipated. The club has gotten out some attractive souvenir invitations and the admission will be by card only.

Masonic Meetings.

The grand commandery of Knights Templar will convene at Trenton Tuesday and on the next day the grand chapter of Royal Arch Masons.

WOMEN'S CLUB GATHERED

SEMI-ANNUAL MEETING OF STATE FEDERATION AT MADISON.

Held Yesterday Morning and Afternoon—Some of the Prominent Speakers.

Some notable speakers were heard yesterday at the semi-annual meeting of the Federation of Women's Clubs of New Jersey in the assembly rooms at Madison. Mrs. George W. Case, Jr., president of the Fortnightly Jaunts, one of the entertaining clubs, delivered the address of welcome, and Miss Mary McKeen, the State president, responded.

The programme of the morning opened at 10:30, the question box in charge of Miss Belle Snyder, of Montclair, being a leading feature. The department work of the federation was discussed at some length. The report of the chairman of the reciprocity bureau, Mrs. M. B. Kinsley, of Arlington, was read. Miss Ellen Mecum, of Salem, lead the discussion of the department of libraries.

Mrs. C. L. Crear, of Rutherford, outlined the work of the educational department, and Mrs. C. J. Silvers and Mrs. A. B. Endicott presented a report on town improvement and forestry. Luncheon was served at 12:30.

In the afternoon the speaker of note was Professor M. S. Woodman, of the Teachers' College, New York City, who addressed the federation on the subject of "Arts and Crafts." The programme closed with an hour's discussion with the president.

MR. WIGHTMAN TO RETURN

HAS ACCEPTED OFFER OF THE BOROUGH BOARD OF EDUCATION.

Will Remain As the Supervising Principal of the Borough Public Schools.

Homer J. Wightman, the supervising principal of the North Plainfield High School, has decided to accept the terms made him by the members of the teachers committee of the Borough Board of Education and will remain for the present at least. This was decided upon by Mr. Wightman a few days after the meeting of the Board.

John Valiant, who is a member of the Board, when asked about the reports concerning the terms made to Mr. Wightman said last evening that the terms were agreeable to the superintendent and that he has accepted them. Asked if it was true that the increase in salary would amount to $500 per year, as stated, he said that he would not discuss that point.

Mr. Wightman was made an offer to accept the superintendency of a school in Connecticut. He made a proposition, it is understood, to the North Plainfield Board of Education and they, in turn, made the offer which he has accepted.

ORACLE IS OUT.

Second Number Since New Board of Editors Took Charge.

The May number of the City High School Oracle appeared yesterday. The number is the second one to be issued under the second board of editors, appointed in April, and is bright and breezy in every way. A literary item of especial merit is a comparison between Grey's Elegy and the Deserted Village, written by Miss Jean Douglass. Alden E. Moore has written a bright editorial urging that the school glee and mandolin clubs become permanent organizations. The number contains the announcement of the postponement of the publication of the June issue until the evening of June 18, so that the issue as a commencement number will be of greater interest.

At the annual meeting of the Military Order of the Loyal Legion, of New York, held last evening at Delmonico's, Rev. Dr. Hubbell, of this city, was re-elected chaplain for another year. Brevet Brigadier General Hubbard was elected commander to succeed Commander Burnett. Among the Plainfield members who attended the meeting were S. C. Peck, Dr. Frank S. Wells, John E. Stewart, Major W. D. W. Miller, M. C. Dobbins and Walter C. Dobbins.

Baptist Meeting.

The annual meeting of the East New Jersey Baptist Association will be held in the Central Baptist church, Elizabeth, tomorrow, when an unusually strong programme will be presented. There will be representatives present from the First Baptist and Park Avenue Baptist churches.

PASSING OF FORMER SCHOOL CADET MAJOR

E. Douglas Murphey Succumbed to Fatal Illness at His Home Yesterday.

HE MADE A GOOD FIGHT

BUT GRADUALLY WEAKENED AND WAS BROUGHT HOME TO DIE.

Had to Leave School Last February and Spent Some Time in Southern Pines, N. C.—He Was a Very Popular Young Man.

E. Douglas Murphey, former major of the City High School battalion, died yesterday afternoon at 1:30 o'clock at his home on Sandford avenue. His death was particularly sad and the whole High School is today shrouded in sorrow and in the social and church circles in which he mingled the hand of death has cast a silence which expresses the sorrow that is apparent everywhere.

Major Murphey was just twenty years of age; a young man with an excellent future before him and a record equally as good behind him. He was a member of the City High School but on account of his health he was obliged to leave his studies last February to seek recuperation in the south. There, at Southern Pines, N. C., he fought bravely for life but instead of improving he gradually weakened. They called his trouble intermittent fever but a few days ago, when his father went after him and brought him back to this city, it was found that the young man had an aggravated case of typhoid. He was already beyond medical aid and yesterday morning he slept his life away, surrounded by his sorrowing father and mother.

He was a sergeant in Captain Edwards' corps at the City High School before the school battalion was organized. When the battalion was organized he at once enlisted as a member and soon became major. He has built up that part of the school wonderfully since he has held that office and has done much to place it on its present footing. He was a member of the class of '04.

He is survived by his father and mother, Mr. and Mrs. Egbert Douglas, Sr., of Sandford avenue. He was a member of the First Presbyterian church and for many years has taken an active interest in the Sunday-school work.

The funeral services will be held Friday evening at 8 o'clock and the interment will be in Hillside cemetery Saturday morning. It is possible that it will be a military funeral although the plans are not completed so far. The battalion will probably attend the services in uniform and the bearers will all be in uniform.

FORM GLEE CLUB.

An organization to be known as Perseverance Glee Club was organized last evening among the members of Perseverance Lodge, No. 74, K. of P. Ass Pope was elected musical director and on motion was empowered to get some music and engage a piano for rehearsals. Captain Flannery was elected president of the club and on motion was instructed to ask permission of the lodge to use the rooms for rehearsals on nights when it is not otherwise used.

A week from Friday night, May 15, the club expects to render a number of selections during the good and welfare of the lodge session.

At a late hour refreshments were served. Guests were present from this city, Dunellen, New Brunswick, Newark and Perth Amboy.

THEATRICAL.

The "Song of the Cities," the most unique of the many novel features of the "Prince of Pilsen," the merry Pixley and Luders musical comedy that is enjoying a prosperous run at the Broadway Theatre, has proved such a popular conception that Henry W. Savage, the producer of the piece, should have secured some kind of a copyright. The song and the accompanying dances are so popular with the audiences that some members of the profession are already imitating both the music and the "business." Since Miss Harriet Burt was selected to play the part of the typical New York girl, there have been no complaints that Miss Burt does not satisfactorily typify Miss Gotham. It will be remembered that Miss Burt was selected from a list of over four hundred applicants. "The Prince of Pilsen" will surely remain in his present quarters for many months to come.

So many good things will be offered at Keith's next week that it is a difficult matter to single out any one act as the headliner. Perhaps the most novel and pleasing will be the singing of Edith Helena. The bill will be particularly strong in comedy. Conroy and McFarland are noted for their sparkling wit. Will H. Armstrong and Holly Magdalene provoke roars of laughter by their original creation "The Express Man." One of the most successful of all the vaudeville satires is Hugh Stanton's "For Reform;" Mr. Stanton is assisted by Miss Florence Modena. The old favorites Guyer and Daly will be seen in that screaming farce, "Something Doing." James J. Morton, a fellow of infinite jest, will introduce his monologue; while the Darrows in their smoke pictures and shadowgraphs are the cleverest entertainers in their line. The Osnatos Trio; Miriam Ainsworth, who makes five full changes without leaving the stage; C. W. Littlefield, the different mimic; Eldora, in his skillful juggling; Lillian and Shorty DeWitt; Robert Harrington, the boy singer; and Keith's moving pictures, in which a number of new films will be shown for the first time, complete a variety bill it would be hard to improve upon.

ON MAIN LINE PENNSYLVANIA RAILROAD.

Rosedale and Linden Park Cemeteries

Largest Burial Parks in the State.

Transportation Facilities superior to those of any other cemetery, as to number of trains, railroad fare, time and distance.

These New Cemeteries, now being developed on the modern park plan, are attracting universal attention.

By Reason of Location Alone they are destined, in a very short time, to become the best-known Cemeteries in the country and, with their natural advantages, the most beautiful and desirable in which to purchase lots.

They are Accessible from every quarter and within easy reach of over 4,000,000 people, and, considering the steady and rapidly increasing growth of Greater New York and its tributary cities and towns, it is only the question of a short time before plots in Rosedale and Linden Park will equal in value those of our most noted cemeteries.

Popular Favor has already been shown to a marked degree in the sale of lots, several hundred having been sold to residents in Elizabeth, Linden, Rahway, Cranford, Jersey City, Orange, Paterson, Westfield, Newark and New York City, and a large number of interments have been made.

In the Days of Happiness we do not know what is to befall us or when the inevitable will occur; therefore, it is a wiser precaution to make provision for a final resting place during health and life than to force the painful duty on one's friends or relatives after death. A place of burial will be needed sooner or later by every one, and no one should neglect selecting a suitable and proper place until future postponement is impossible.

Linden Lodge is the largest, most modern and best equipped Cemetery Lodge in the country, and is provided with every requisite for the comfort and convenience of visitors who come to inspect the properties.

Marcum Found Dead—More Lives In Jeopardy.

KENTUCKY FAMILIES FLEE THE STATE

Jackson Compared to a Man Who Is Sitting on a Barrel of Powder In a Shower of Sparks.

LEXINGTON, Ky., May 7.—A messenger who left the interior of Breathitt county at dawn Monday to bear a warning to Attorney J. B. Marcum that a plot to kill him had been formed the night before reached Jackson a few minutes after an assassin's bullet had crashed through Marcum's brain and heart as he stood in the courthouse door. During Sunday night Edward Strong, a friend of Marcum, was informed that a conspiracy had been entered into at a meeting of several desperate men at a blind tiger three miles from Jackson to assassinate Marcum Monday. At daylight he sent a messenger to convey the information to the attorney, who lay dead when he arrived. This statement has been made by Mrs. Marcum in an interview. If the meeting at the blind tiger Sunday night told of by the widow can be proved the assassin and the plotters may yet be known.

A newspaper man who arrived from Jackson describes the situation there by saying: "The town may be compared only to a man sitting on a barrel of powder in a shower of sparks. When the explosion will come no one knows, but I believe it is inevitable. At least three men know who assassinated James Marcum, and, though they are silent, it is believed their doom is sealed. Such knowledge in Breathitt county means death or exile. There are also others left who know who assassinated Jim Cockrell. They will not be overlooked. If these people remain or there is the possibility of a rigid investigation by the law I believe that they will be put out of the way at an early date. Several families are preparing to follow the example of more than fifty people who during the last six months have fled the country. Male members will leave immediately, and when they have found a home the women and children will follow."

A dispatch from Jackson, Ky., says that the people not involved in the feud contemplate calling on Governor Beckham to bring peace to Breathitt county. It is expected that the contingent with which Marcum was allied, which includes the influential family of Postmaster Hurst, Marcum's father-in-law, are uniting against the Cockrell family with a view of precipitating a fight. Conservative citizens who are acquainted with either family do not express surprise at the report.

Reward For Marcum's Slayer.

FRANKFORT, Ky., May 7.—Governor Beckham, at the request of the county judge of Breathitt county, has offered $500 reward for the apprehension and conviction of the unknown assassin of J. B. Marcum. This is the highest reward permitted by law.

National Guard Bill Signed.

ALBANY, N. Y., May 7.—Governor Odell has signed Assemblyman Hughes' bill designed to prevent discrimination on the part of labor unions against members of the national guard. The bill is very drastic and refers equally to labor unions or employers, making it a misdemeanor to interfere in any way with the employment of a person who is a member of the national guard on account of such membership or to dissuade a person from enlisting by threat of injury with reference to his employment, trade or business. It especially forbids any trade organization from passing any resolution or bylaw discriminating in the matter of membership against any member of the national guard, it being declared the purpose of the new law "to protect a member of the said national guard from disadvantage in his means of livelihood and liberty therein, but not to give him any preference or advantage on account of his membership of said national guard." The act is to take effect Sept. 1, 1903.

New Courthouse For New York.

ALBANY, N. Y., May 7.—The bill providing for a new courthouse for New York county, has been signed by Governor Odell. The bill provides for the appointment of a commission of five by the mayor, who are empowered, with the approval of the board of estimate and apportionment, to select a site for a new courthouse to accommodate the supreme court, the city court and the commissioner of jurors, with a proviso that such site must be south of Franklin street. The site must be approved by the board of estimate and apportionment.

Increased Pay For Postmasters.

WASHINGTON, May 7.—The twentieth annual readjustment of salaries of presidential postmasters throughout the United States is now in progress. The readjustment involves about 5,000 postmasters. Most of the changes are increases. The appropriation for salaries for next year was increased $750,000. There probably will be eighty or ninety fourth class post offices advanced to the presidential grade on July 1 next.

Shot Sister With "Empty" Gun.

MINEOLA, N. Y., May 7.—Viola Symes, the seven-year-old daughter of David Symes of this place, was shot, and probably fatally wounded by her nine-year-old brother Edward. The boy had taken his father's revolver to shoot a cat and, after using it and believing it to be empty, playfully pointed it at his sister and pulled the trigger.

ARIZONA'S WELCOME

President and Party Visit the Grand Canyon.

A TRIBUTE TO THE ROUGH RIDERS

Reception to Members of Old Regiment—A Fifteen Mile Horseback Ride to a Miners' Camp For Luncheon.

GRAND CANYON, Ariz., May 7.—Arizona welcomed President Roosevelt here yesterday, and the welcome it gave him was a warm one. A special train from Flagstaff brought a large crowd, and people also came in from the surrounding country on horseback and in wagons. The president's train arrived here at 9 o'clock in the morning, and until it left, at 6 o'clock in the evening, he was constantly on the go. Horses were in waiting at the station as the train pulled in, and after the president had greeted a number of members of his old regiment he mounted and took a twelve mile ride. Then he returned to the hotel, where he made a brief address to the people and presented diplomas to the graduates of the Flagstaff school.

"It was from Arizona," said the president in opening his address, "that so many gallant men came into the regiment that I had the honor to command. Arizona sent men who won glory on hard fought fields and men to whom came a glorious and honorable death fighting for the flag of their country. As long as I live it will be to me an inspiration to have served with 'Bucky' O'Neil."

The president also paid a compliment to Governor Brodie, who was a member of his regiment and who introduced him to the audience.

"Arizona," continued the president, "is one of the regions for which I anticipate the most benefit from the wise action of congress in passing the irrigation law. I look forward to the effects of irrigation, partly as applied by the government and still more as applied by individuals, profiting by the experience of the government and possibly with help from it, as being of greater consequence to this region of the country in the next fifty years than other material movement whatsoever."

Speaking of the Grand canyon, the president said he believed it was absolutely unparalleled in the world.

"I want to ask you to do one thing in connection with it," he said. "In your own interest and the interest of all the country keep this great wonder of nature as it now it. I hope you won't have a building of any kind to mar the wonderful grandeur and sublimity of the canyon."

At the conclusion of his remarks the president, with Governor Brodie, President Butler of Columbia university and Dr. Rixey, rode out to a miners' camp about fifteen miles from here, where he had luncheon. He spent the remainder of the afternoon inspecting the canyon and at 5:30 o'clock received the members of his old regiment in his car. At 6 o'clock his train left for California.

Bulgarian Leader Killed.

SALONIKA, European Turkey, May 7.—In an engagement at the village of Vanitza between Turkish troops and a Bulgarian band sixty Bulgarians, including their leader, Deltzeff, were killed, while the Turks had four men killed and three wounded. Thirty houses were burned. A Bulgarian band led by Petroff has been routed at Krapesteza. Seven of the Bulgarians were killed. The battle ships Sardegna and Francesco Morosini, the cruiser Carlo Alberto and the torpedo cruiser Calatafimi of the Italian navy have arrived.

Trolleys Must Have Vestibules.

ALBANY, N. Y., May 7.—Governor Odell has signed the bill of the assembly railroad committee which provides that street surface railroad cars operated throughout the state except in New York and Brooklyn in the months of December, January, February and March shall be equipped with vestibules. A penalty of $25 per car per day for each car used without vestibules is imposed.

NAME PROTESTANT EPISCOPAL.

Not Changed—Pennsylvania Churchmen Oppose Any Discord.

PHILADELPHIA, May 7.—The historic diocese of the Protestant Episcopal church in Pennsylvania, the diocese which originally adopted the present name of the denomination, has placed itself on record by an overwhelming vote in convention as opposed to the proposition to change the name of the church. The vote was: Clerical, 112 to 34; laity, 72 to 21, and was taken on a resolution presented by a special committee appointed by Bishop Ozi W. Whitaker at Tuesday's session. The resolution was as follows:

"That in the opinion of the diocese of Pennsylvania any change of the name of the Protestant Episcopal church in the United States of America at this time would be inexpedient."

There was a full and free discussion of the resolution and the report of the special committee which accompanied the resolution. When the vote was taken it was found that in some instances delegates from the same church were divided on the question. Bishop Whitaker and Coadjutor Mackay-Smith voted for the resolution.

The special committee report was in part as follows:

"If the original catholic significance of the word 'protestant' had been more clearly borne in mind and if it had not fallen in popular usage into the purely negative sense of opposition to Rome, it is probable that the present agitation for a change of the name of the church would not have occurred."

Continuing, the report says, "With the world to evangelize and the home to protect it would be the height of folly to waste our time and energies in sowing seeds of discord and division over a mere question of nomenclature."

FAREWELL TO ETERNAL CITY.

The Kaiser Leaves Rome Amid Many Tokens of Friendship.

ROME, May 7.—The people of Rome gave the German emperor a touching farewell. They seemed to want to show their appreciation of all his manifestations of friendship, which have had the effect of making him extremely popular.

The streets from the Quirinal to the railroad station were lined with many thousands of people, cheering, waving handkerchiefs and shouting "Long live William!"

The emperor bade farewell to Queen Helena at the palace, expressing to her in a few graceful words his thanks for the kind reception given him. He drove to the railroad station along the same route as he entered the city. At the station he found the authorities assembled, and to them he expressed cordially his appreciation of the efforts they had made in his behalf. To Prince Colonna he said Rome was the city he most enjoyed; that it was the place more than any other that appealed to his heart and mind. After a cordial grip of the prince's hand and several unmistakeably affectionate embraces between King Victor Emmanuel and the emperor the latter sprang upon the platform of the car, and the train moved amid repeated rounds of applause while the band played the German hymn.

GLORIANIA WRECKED

Fishing Schooner Strikes a Reef, and Crew Perish.

THREE SURVIVORS ON THE CLIFFS.

Gloucester Fishermen Meet Death In an Angry Sea on a Notoriously Dangerous Coast Near White Point Ledges.

CANSO, N. S., May 7.—The American fishing schooner Gloriania, Captain George Stoddart, of Gloucester ran ashore during a thick fog on the cliffs at Whale cove, near White Point ledges, during the night, and fifteen of the crew, including the captain, were drowned out of a total of eighteen.

The Gloriania left the northeast bar of Sable island in the afternoon, bound for Canso. There was a heavy easterly gale blowing, with thick fog. The vessel was kept under short sail, and it is presumed that Captain Stoddart believed he had plenty of sea room. When the Gloriania struck on the ledges she passed over the outer ones, but brought up on the inner reef, butted against a cliff of rocks and then fell off into the sea. When the vessel struck the cliff Richards, Leblanc and Nickerson, the three men saved, were on deck, and they ran forward, rushed out on the bowsprit and climbed up the cliff of rocks to a place of safety before a receding wave carried the vessel off again. Others of the crew who were below rushed on deck half clad and started to lower the dories. As soon as each boat touched the water it was smashed into pieces.

The high seas were breaking clean over the vessel, and she swung broadside on the ledges and commenced pounding heavily. Lines were thrown ashore from the schooner several times, but they were either broken or torn from their fastenings on the rocks by the surging of the vessel. Four of the crew jumped overboard and attempted to swim ashore, but they were caught in the breakers, dashed against the rocks and killed in the attempt. The others who were on the vessel took to the rigging and clung there while their strength lasted, but the enormous seas were more than they could battle against, and one by one they were swept away. The three men on the rocks could see their comrades clinging to the rigging and heard their shouts for help above the roar of the sea, but it was impossible to do anything to save them.

The three survivors spent a terrible night on the cliffs. When daylight dawned they saw one man still clinging to the rigging and made their way to the mainland for assistance. The shore folk hurried to the scene of the wreck, and the man was taken from the rigging, but he was dead.

The place where the Gloriania was wrecked is one of the most dangerous on the Nova Scotia coast. It is less than a mile from where the steamer Blaamanden was totally wrecked last year and only half a mile from the scene of the wreck of the steamer Tiber in February, 1902, when twenty-two lives were lost. The three survivors were brought here and are being cared for by the United States consul. They say that the vessel is a total wreck. None of the bodies has been recovered.

Miss Schley In Steamship Collision.

NORFOLK, Va., May 7.—It has come to light that among the passengers on the steamer Hamilton at the time of the disaster early Tuesday morning was Miss Schley, daughter of Rear Admiral Winfield Scott Schley of the navy, who, with other women passengers on the Hamilton, assisted by the steamer's stewardess, raised $95 in cash, which was distributed among the most needy of the Saginaw's survivors. It is learned that the cargo of the Saginaw, while not complete, was valuable. About $100,000 is one estimate.

Fishing Schooner Lost.

GLOUCESTER, Mass., May 7.—A dispatch just received in this city conveys the intelligence of the loss of the new Gloucester schooner Scythia at Pleasant bay, Magdalen islands, gulf of St. Lawrence. No mention was made of the crew, but it is supposed they were saved. The Scythia was owned by Sylvanus, Smith & Co. of this city. She was engaged in the bank fisheries.

Colonel Stanford Died Poor.

NEW YORK, May 7.—Colonel Asa Philip Stanford, eighty-one years old and a brother of the late Governor Leland Stanford of California, is dead at his home, 409 West Forty-seventh street. Colonel Stanford had been ailing for the last four years, and his death was due to nervous prostration and heart disease. At one time the deceased was a millionaire; but, according to his second wife, who survives him, he died in almost absolute poverty. His property was lost in speculation in this city.

Funerals Must Have Union Hacks.

NEW HAVEN, Conn., May 7.—Union hackmen insisted upon the withdrawal of several hacks in charge of nonunion drivers at a funeral here. When the funeral directors refused to acquiesce the union hacks were withdrawn by the drivers, with the result that the remaining carriages were overcrowded and many persons were prevented from following the hearse to the cemetery.

SUNDAY BALL PLAYING.

Justice VanSyckel expressed his opinion of Sunday baseball in no uncertain terms to the Grand Jury when he charged that body Tuesday morning. It was contrary to the laws of the State and it must be stopped. If it was not, he desired the Grand Jury to indict the officials who continued to wink at the practice. Before any indictments were made, he requested the Grand Jury to wait and see the result of his announcement. If the officers of the law failed to do their duty after being warned, punishment should be meted out to them.

This question of Sunday baseball playing is not one that has bothered Plainfield very much. The local authorities have not allowed it in the city limits and the local players, who desired to play on Sunday had to go elsewhere to participate in the National game. Justice VanSyckel's announcement will really have no effect here as the law in that direction was already obeyed. In Elizabeth, Rahway and other parts of the county, Sunday games are regular features and, unless there is a sudden cessation of them, there ought to be a wholesale lot of indictments by the Grand Jury.

If Sunday baseball is stopped, it may be that some action will be taken against those golf clubs in this county which countenance Sunday playing. The baseball players claim that they have just as much right to enjoy their sport on Sunday as the golfers and if the former are prohibited from Sunday playing, they will probably use their efforts to have the latter included in the prohibition.

The city's milk supply is in better condition today than ever before. And why? Simply because the City Board of Health has been taking steps to have it so and has employed an efficient man, part of whose duty it is to keep a constant watch on that very important food supply. Any man, when he stops to think of it, will be only too glad to see the board take every possible precaution to protect his family from the danger of contagion through the milk or any other food supply. The Board of Health was not put there to be a figurehead. Its duties are before it and it should be commended rather than condemned for doing them.

That much discussed question of a water supply for the city was allowed to drift along until the city, by taking no other action, entered into a new contract with the Plainfield Water Supply Company. At this late hour it was impossible to do anything else but if the Common Council had taken prompt action when the subject was first brought up, something might have been accomplished. At least the city might have secured the right for such patrons as desired it of using water meters.

Some interesting facts concerning street sprinkling will be found in another column of today's issue. The Councilmen have been looking to the subject somewhat and the results of their informal investigation will interest those who have been demanding municipal street sprinkling. Something must be done to prevent a recurrence of those dust storms, but is this the best and most economical way? That's what the Council would like to know.

That crosswalk, which was laid on Watchung avenue opposite to the entrance to the eastbound station, is worse than useless at present. It was laid below the grade of the street and instead of offering a path free from mud across the street to the station it promises to become a small canal everytime it rains. If the crosswalk cannot be raised, it had better be dispensed with entirely.

The present term of court at Elizabeth is of particular interest owing to the fact that an unusual percentage of Plainfield cases are on the calendar. While the great bulk of the damages for those killed and injured in the Westfield disaster have already been settled out of court, there are a few cases which will go to trial this term.

NOT A SUCCESS.

A Borough Taxpayer Not Pleased With Results of Sprinkling by the Borough.

To the Editor of The Daily Press:—I have read with interest your articles advocating the sprinkling of the streets by the city and I wish to ask if you have inquired into the workings of that system in the borough of North Plainfield?

Several years ago the borough purchased the necessary wagons and began the business of street sprinkling. The first year the work was done satisfactorily but at large expense. Since then the work has been extremely unsatisfactory and I, together with many other residents of the borough would much prefer going back to the old system of having the work done by private subscription or pay the borough for sprinkling the street properly in front of my residence.

While I admit that the dry weather combined with high winds during the past week was unusual for April and that it was almost impossible to lay the dust, I noticed that the city did not suffer from blowing dust nearly as much as did our borough.

HAY WAS BLAZING.

Prompt Action Prevented a Serious Fire at the City Mills.

Flames threatened to destroy the buildings of the City Mills on Somerset street a few days ago and had it not been for a number of the firm of Schwed Brothers the building would no doubt have been doomed. Some loose hay which hung beneath the jamp of the loft door became ignited and was blazing up merrily when a telephone call from Schwed Brothers notified Percy Dayton that his place was on fire. A few buckets of water sufficed to drown the flames which had already reached large proportions. No other damage was done.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning May 10—Comment by Rev. S. H. Doyle.

Topic.—What does the story of Zaccheus teach us?—Luke xix. 1-10.

When Louis Kossuth visited the United States, so great was the enthusiasm for Hungary that the trees around the New York Battery were crowded with people who had climbed there to see the distinguished stranger as he passed. That Zaccheus could not get to Christ for the crowd, but had to walk out the avenue ahead of the procession and climb a tree to see him, argues greatly for the popularity of our Saviour.

This story is one of the most interesting in the life of Christ and suggests many useful lessons.

1. Some occupations hinder our coming to Christ.

He was a Roman tax gatherer, and as his business represented Roman oppression it was unspeakably hateful to the Jews. His case was aggravated because he was the chief of the publicans—because he resorted to extortion and because he was a renegade Jew, who had thus become a traitor to his country.

There are businesses now which no man can follow and be on the road to heaven. There are even legitimate lines of business in which it is hard to be a Christian. We may let a good business so fill our minds and hearts that we have no time for Christ.

2. Some personal characteristics may hinder us from coming to Christ. Zaccheus was little of stature, a mere mite of a man. When he came to the crowded street, he was unable to see. Big, burly fellows would push the hated dwarf to one side. He might have rid himself of his despised business, but he could not "by taking thought add one cubit to his stature."

Some have traits of disposition, such as pride, stubbornness, love of pleasure and fashion, evil habits and inherited passions that make it harder to enter the kingdom.

3. Some broad shouldered man hides our view of Christ.

Wherever Zaccheus went he always found a broad shouldered man between him and the object he wished to see. How many little people allow some great man of their community to obstruct their view of Christ! When you try to lead them into the kingdom some broad shouldered great man looms up between them and salvation. They say to your entreaties, "There are Dr. Blank and Professor So-and-so, who are as good as any Christians, yet they are not members of the church." The big man obstructs their view of Christ.

4. An intense desire to see Jesus will be rewarded with success.

Zaccheus conquered his difficulties. It may have been curiosity, but curiosity is a good motive when it leads to Christ. If he could not get through the crowd, he could run ahead of it. If he was small, he could piece out the shortness of his stature by adding to it the height of that sycamore tree. To see Jesus we must get above the sordid earth to a higher point of view. "Where there's a will there's a way."

5. Jesus Christ is searching for us.

Christ was searching for Zaccheus first—long before Christ entered Jericho. Christ came into Zaccheus' town and down Zaccheus' street and along to the tree on which Zaccheus sat. Looking up He saw Zaccheus, and, speaking his name, said, "Come down, for today I must abide at thy house." "The Son of Man came to seek and to save that which was lost." When we are searching for Christ and Christ is searching for us, salvation will come to our house.

EPWORTH LEAGUE.

Topic For the Week Beginning May 10, "Obedience to Our King"—Text, John xv, 10; I John iii, 22.

Abiding in love.

Jesus said, "If ye keep My commandments, ye shall abide in My love."

This must mean at the very surface of it that those who obey His commands He will continue to love. If there was no more than this, it is sufficient to prompt all really devout souls to follow His will and orders. The promise that He will love us is enough of incentive to attract to loyal obedience. How can any one expect the continued regard of the Lord, how abide in His love, if there be disregard of His will and rebellion against His orders?

Looked at from one point of view the commands of Christ are the announcement of the absolutely unalterable laws of all spiritual life. They are no mere demands of an arbitrary and irrational will. They are based in the very nature of spiritual existence. They are the essential truth, and Jesus tells us of them because He loves us and would lead us into all the fullness of blessed life. The only possible path is through keeping the laws of spirit. He not only tells us what the rules are, but He keeps them Himself and so opens the way for us to fellowship forever with Himself and the Father.

But we may go a step beyond this and discover that the cables of love are as firmly knotted around our natures by this obedience as they are bound in His nature. Whoever receives an order and obeys it, by that very act fastens in his own nature a new regard for the one obeyed. He gives love as well as receives it. Obedience confirms and establishes our love to Christ. The more we know of His will and the more fully we keep it the deeper becomes our attachment to Him and His purposes. We identify ourselves with all His mind and work. We love Him as really as He loves us.

Obtaining requests. "And whatsoever we ask we receive of Him." This is a direct consequence. It is not a species of favoritism. It is not in the ordinary sense of reward. Identical interests, appreciative knowledge of His purpose, active participation in His work, leads to asking such things as shall make us more completely helpful in His blessed work and closer to His loving regard. Before the request is offered by us it was prompted in us by His own gracious spirit.

Obedience is not a straitjacket, but is the joyous upleaping of a soul to express itself. It is loving response to a loving call. Obedience is not a chain to fetter us outwardly; it is a spirit within responding to a call to companionship and coworking.

In the Shadow.

We must all go there sometimes. The glare of the daylight is too brilliant. Our eyes become injured and unable to discern the delicate shades of color or appreciate neutral tints—the shadowed chamber of sickness, the shadowed house of mourning, the shadowed life from which the sunlight has gone. But fear not; it is the shadow of God's hand. He is leading thee. There are lessons which can be learned only there. The photograph of His face can be only fixed in the dark chamber. But do not suppose that He has cast thee aside. Thou art still in His quiver; He has not flung thee away as a worthless thing. He is only keeping thee close till the moment comes when He can send thee most swiftly and surely on some errand in which He will be glorified. O shadowed, solitary one, remember how closely the quiver is bound to the warrior, within easy reach of the hand and guarded jealously!—Rev. F. B. Meyer.

Only One Way.

There is really only one way to live a genuine, healthy, useful, Christian life, and that is never to draw any promissory notes for our blessed Lord and Saviour, but to perform the duty of the hour in the hour and to take the next step that is right before us. The eccentric John Randolph once cried out in his shrill tones: "Mr. Speaker, I have discovered the philosopher's stone. It is, 'Pay as you go!'" This is as sound a maxim in religion as in finance. A vow of consecration is a rightful, solemn, legitimate act, but, like the vow of wedlock, is to be of perpetual obligation. To perform a vow means to do at once our dear Master's bidding. The secret of faithful keeping of our vows to Him is to keep our hearts in the love of Jesus.—Rev. Theodore L. Cuyler.

Care For Our Souls.

See how men throw overboard the lading of the ship when it becomes a question of saving their lives. Reason teaches them that the less precious must go first. They do not throw over first their gold and then their corn; neither do they lose their lives to save their ingots. So let us, above all things, care for our souls and their eternal interests.—Episcopal Recorder.

Making the Most of It.

We may not have much ability, but if we are faithful in the exercise of the little we possess we may, without even so much as intending it, either awake or encourage others of greater power to do their best.—Lutheran.

Each Day's Motto.

To choose this motto each day
Will be a blessed plan:
"I'll try to do one good, kind deed
For Jesus if I can."

I'll try to see in other lives
What He would have me do
And in a tender, noiseless way
Be kind and good and true.

I'll try to make each little day
Record one deed of love,
Which I may read at eventide
And find fulfilled above.
—Philadelphia Ledger.

SUMMER WRAPS.

They Are Soft and Flowing—Made of Lace and Silk.

A dressy wrap is an indispensable adjunct to the smart girl's summer wardrobe. It may be of almost any material, crepe de chine even, but it must be wide and roomy and have graceful drooping lines.

Sack coats of heavy lace are lined with louisine silk and tie with long chiffon ends. In black they are generally useful, besides being most dressy. A garment of this description can easily be made at home, and the lace already shaped can be bought for these wraps as well as it can for robes.

LACE AND CHIFFON STOLE.

The taffeta silk coats are giving way to peau de soie, as the latter wears well and taffeta certainly does not.

Louisine, both in the dull and the lustrous weaves, is another silk most popular for waists, suits and serviceable linings. It is as cheap as taffeta and twice as well worth buying.

All the sleeves of garments are wide and flowing.

The illustration shows a stole of white lace and chiffon.

JUDIC CHOLLET.

FOR DRESSY WEAR.

All White Costumes Ever Popular. Thin Black Gowns.

The cream or the all white gown has come to be an accepted fact, and it is certainly smart as well as almost universally becoming.

These dresses are usually made of veiling or crepe de chine and are trimmed with inletting of heavy Irish lace or heavy silk embroideries. Fringe is also seen on many of them.

SILK COAT.

The Greek key pattern seems to be a favorite for the bottoms of skirts and the bordering of capes and wide collars. It is often carried out in black velvet of a narrow width.

For a useful dressy costume nothing can surpass the thin black gown, whether of lace or of some thin spangled material. Crepe de chine robes also are embroidered in silk and trimmed with handsome fringe. Taffeta applique brightens up costumes of black voile and crepon.

Very decorative are little bows of black velvet on white or cream crochet. On a blouse of this description there is nothing so pretty as a simple pattern with sufficient frou frou down the front.

The picture shows a dressy coat of gray silk trimmed with lace dyed to match.

JUDIC CHOLLET.

A Vegetable Curiosity.

Attorney General Douglas of St. Paul, Minn., has a vegetable curiosity. It is a hybrid plant which at the roots is putting forth potatoes and above the ground several well developed beefsteak tomatoes. The plant was produced at the state experiment station by grafting a tomato vine to a potato plant.

MYSTERY OF THE BAYOU WOODS

By WALKER KENNEDY.

Copyright, 1903, by A. N. Kellogg Newspaper Co.

In making their examination, the two men had been careful not to approach too near the body, which was left with the tracks in the snow just as they were. That page of evidence was allowed to remain as it had been found, and if it contained any revelations the coroner could not complain that they had been confused.

Warde, who was a good draughtsman, drew on a large piece of paper as accurate a picture as possible of the marks in the snow about the body. He also made a careful measurement of the footprints made by the stranger, and then drew a facsimile of it upon his paper. He also measured the distance between the tracks, and averaged them. The chief did not pay any particular attention to the movements of the young journalist, regarding them as the harmless activities of an amateur detective. Furthermore, he fancied that the coroner's jury was approaching, as he could hear the sound of human voices, and all his interest was now centered in the inquest.

Despite the lack of interest shown by the officer in Warde's conjectures, the latter was by no means satisfied, and he took it into his stubborn head that he would follow up those footsteps and discover if possible who was the person that had made them and what he had been about. This unknown had also discovered the murder, and it seemed to Warde that he certainly ought to be identified and made to tell just what he knew about it.

Relying, therefore, upon the chief of police for the details of the coroner's inquest, Warde continued his investigations of the tracks.

CHAPTER III.

Irving Warde followed the footprints in the snow with ease and celerity, and as he did so his mind was actively speculating upon the case, in which by this time he had become as absorbed as a chess player is in the courtly strategems of queens and knights. His intuitions told him that plain, ordinary robbery had not prompted the crime; and, if the minor crime had been committed, it had been for the purpose of veiling the real motive for the murder.

When he had gone some distance the footprints turned almost at a right angle and cut directly through the woods. Perhaps after all the unknown was out hunting; but if such were the case the evidence of it would soon appear. As the under-

THE FOOTPRINTS TURNED ALMOST AT A RIGHT ANGLE.

brush thickened and the ground became more irregular the trail straggled about considerably. Now it entered snowdrifts a foot or two deep, then it ran over the tops of small hillocks and now it skirted piles of tangled growth. Warde did not find the task an easy one, but this rather stimulated his purpose and he plodded stubbornly on.

Fifteen minutes more of tramping and he was wondering whither this apparently aimless route of the unknown would lead him, when he found himself in the path which made a direct cut through the woods. Here the stranger's footprints merged with those made by another person, and took the direction of the city. It required but a moment to see that young Wright had made the tracks leading from the city.

What strange fatality was this which caused these two men to continually cross each other's trail? Could there be any collusion between them and could they have met where their footprints crossed? These were idle questions to ask and the newspaper man did not undertake to answer them, but followed the trail back to the city. On he went until he came to the edge of the Bayou Woods, and looking to his left he beheld the Devil's Den. What was his surprise now to find the trail suddenly diverted toward that locality. After all, the unknown might have been one of the habitues of the place. When Warde reached the Den there were so many footprints around it that he found it difficult to keep up with the aretics and at last he was completely baffled.

There was no use trying to follow the trail any further, for everything was in hopeless confusion; so, keenly disappointed, Warde started for the roundabout path which would take him back to the scene of the murder. He now noticed that the original trail over which he and the chief of police had gone had been obliterated by a number of footprints, evidently made by the coroner and his jury. As he was casually looking at these he suddenly uttered an exclamation of the utmost astonishment; for there on the snow he again detected the imprint of the mysterious aretics, and he soon satisfied himself that the unknown had joined the coroner's jury and the few stragglers who had gone with them to view the body of the murdered man. There could be no doubt of this, for he found traces of the aretics frequently, some little distance from the regular path, as if the unknown had been pushed out there by the jostling crowd. A wild excitement took possession of Warde, and he fairly ran toward the spot where Wright had been killed, all eagerness to look at the man who wore the aretics, and decide whether there was any probability that he had any connection with the crime. Great was his disappointment to find that the body had been removed and that the inquest had been adjourned, for not a human being was in sight. On his way back he detected more evidences of the unknown in the shape of footprints pointing toward the city.

As fast as he could go he sought the headquarters, where he found his friend, the chief of police.

"What did the coroner's jury do?" he asked.

"They simply examined the body and took in the bearings, as it were, ordered the corpse to be taken to the home of the deceased, and adjourned the inquest until to-morrow. Wright was undoubtedly robbed of a watch and several other valuables, which so far can only be guessed at. To-morrow the inquest will be continued at the Wright place, and more light will be thrown on the case. By the way, how did your mysterious criminal pan out?"

"I will lay the facts before you and you can judge for yourself as to their value."

Warde then told the story of the footprints, how the unknown had not gone through the woods, but had cut across to the direct route, and was going back to the city when he fell in with the coroner and his party, joined them, went back with them to the scene of the murder, and for all Warde knew was a member of the coroner's jury.

"Well, that certainly is peculiar," said the chief. "I wish I had known it; I might get some satisfaction out of your man."

"Did you observe no one with aretics on?"

"No; I never thought of looking, as it never occurred to me that your man had made a roundabout trip through the woods and joined the coroner. Of course there was a considerable number of stragglers who were gathered up as the coroner made his way to the scene of the murder. I presume that officer brought the jurors with him. He also had a lawyer, Col. James Franklin, with him. The colonel was an old friend of Wright's, and he will assist at the prosecution, if there is anybody to prosecute. He will also devote himself to discovering who the murderer is. I think we will find him of service, as he is a man of great penetration."

"I will call upon him and find out what he knows about Wright, and get his ideas as to the murder."

Mrs. Margaret Reville, of 732 West Third street, says: "For a long time I was troubled with a lame weak back and I never found anything which gave me any relief until I obtained Doan's Kidney Pills from L. W. Randolph's drug store and began to use them according to directions. It was only a short time before I felt the good effect and from that time on I improved steadily under the treatment. My back pained me and was so weak and sore that I dreaded to bend, and when I had a cold or over exerted myself I suffered severely. I used several different kidney remedies but got little, if any relief. I give Doan's Kidney Pills all the credit for my improvement. I think they are a fine medicine for a lame back."

Two Runaways at Louisville.

LOUISVILLE, Ky., May 7.—Good weather, a fast track and the six events well filled characterized the fourth day's racing at Churchill Downs. The chief event on the card was the Clark handicap at a mile and a sixteenth, and, like the Kentucky Derby, it was captured by a little thought of outsider. Nine horses went to the post in this event, Golden Wishes, with Winkfield up, being added. Love's Labor won by a neck from Harry New, with Airlight half a length back, in a hot finish. Jane Oaker and Joe Buckley, the former heavily played, destroyed their chances by running away, each going more than three miles before they were stopped.

Closing Day at Jamaica.

NEW YORK, May 7.—The inaugural spring meeting of the Metropolitan Jockey club came to a close at Jamaica yesterday. The meeting has been a pronounced success, the attendance has been up to the average and the racing clean and spirited. The Corona stakes at a mile and seventy yards, the feature of the closing day, was won by T. D. Sullivan's Setauket, second choice in the betting, with Embarrassment second and Tribe's Hill third. Collector Jessup and Miss Nancy were the winning favorites. Today the scene of racing shifts to Morris park, with the $15,000 Metropolitan handicap as the feature.

Major Delmar to Meet Lord Derby.

GLENS FALLS, N. Y., May 7.—Secretary W. F. Bentley of the Northern New York Horse Breeders' association announced that arrangements have been completed with the owners of Major Delmar and Lord Derby for a series of three races to be trotted on the mile tracks at Glens Falls, Albany and Poughkeepsie. The Glens Falls meeting begins July 20 and continues for five days. The Albany and Poughkeepsie races will be held during the two weeks following in the order named. Each track puts up a purse of $2,500.

Racing at Worth.

CHICAGO, May 7.—Overconfidence on the part of Jockey P. Phillips cost Dan McKenna the purse in the fourth race, the feature event at Worth. Having what appeared to be a safe lead at the last pole, Phillips let up on his mount. Potheen, overlooked by Phillips, came with a rush and snatched the victory by a nose in the final stride. In the third race Melkirk clipped a fifth of a second from the track record for four and a half furlongs, setting the mark at 54 4-5 seconds.

Vendale Wins Chester Cup.

LONDON, May 7.—At the Chester race meeting the Chester cup, a handicap of 2,550 sovereigns, about two miles and a quarter, was won by Vendale. Throwaway was second, and Caro was third. Fifteen horses started.

Shamrocks Race Tomorrow.

GLASGOW, May 7.—The first set race between the two Shamrocks is expected to take place tomorrow, and there will be a special race over a measured course in the firth of Clyde Saturday.

Liberty's Last Trip.

NEW YORK, May 7.—The four horse public coach Liberty, now running between New York and Lakewood, will make its last trip on Friday, May 15.

Work on Broken Levee Abandoned.

NEW ORLEANS, May 7.—Work on the Hymelia crevasse, thirty-five miles above the city, which has been running for several weeks, has been finally abandoned. No further attempt will be made to mend the broken levee until the river is again within its banks. Over $150,000 has been expended in the effort to close the crevasse. While the effort has not succeeded, the proportions of the break have been so much reduced as materially to curtail the damage done.

To Help Nordenskjold.

STOCKHOLM, Sweden, May 7.—The government introduced a bill in the riksdag granting about $50,000 for the equipment of a vessel to be sent to the relief of the Nordenskjold antarctic expedition, which left Gothenburg Oct. 16, 1901, and should have been heard from long ere this.

"Undue haste to succeed is often the cause of failure. The road to success is not to be run upon by seven-leagued boots. Persistent systematic saving will lead slowly but surely to a competence." $5.00 will start an account in the Special Department of The Plainfield Trust Company that will earn three per cent. interest.

SPORTING NEWS

ON THE DIAMOND.

The Cuban Giants will cross bats with the St. Agnes Lyceum team from New Brunswick on the Arlington avenue grounds Saturday afternoon.

The City High School baseball team will meet the team from St. Francis Xavier College Preparatory School on Stillman field this afternoon at 3:15.

The Grace church choir boys will play a game of baseball with the Holy Cross church choir boys Saturday morning on the Fairview avenue grounds.

The baseball nine of the North Plainfield High School has scheduled a game for Saturday with the Rutgers College Preps, in New Brunswick. Next Wednesday a game will be played with the Jersey City High School on the Myrtle avenue field.

The Alis Club will open the baseball season with its regular schedule Saturday afternoon on Crescent Oval. The opposing team will be the Star Athletic Club, of Newark, one of the strongest in the State. Provisions will be made for the accommodation of all who attend.

The members of the North Plainfield High School baseball team will leave this city Saturday morning at 8 o'clock for New Brunswick where, on Neilson Field, a ball game will be played with the Rutgers Preparatory School. This game has been postponed once, but the local players are confident of victory.

The Whittier School nine defeated the Jr. Y. M. C. A. team yesterday at baseball when on Hope Common the Whittier boys rolled up a score of 24-8 against their opponents. The line-up of the Whittiers was: Collier, 1b; Taylor, c; Randolph, cf; Rockwell, 2b; Hardcastle, lf; VanDeventer, ss; Loizeaux, 3b; Douglas, rf; Mitchell, p. The latter in the box played a steady game.

The Star A. C., of Newark, which organization the Alis Club will meet Saturday on the diamond, is one of the strongest organizations in Newark. All the players are exceptionally good and they have one of the best pitchers in New Jersey. The pitcher for the Alis Club will be Chauncey H. Burt, whose pitching last year and so far this year has shown all that he is no kindergarten graduate in the baseball diamond.

The members of the West End Hose Company of the borough have accepted the challenge extended them by the members of the Warren Engine Company baseball nine to a game of ball to be played some time this month. The West End nine is captained by Dennis Baglin and he has been hard at work during the past week in drilling his men in team work. The members of the Warren company are also actively engaged in practicing.

The game at Westfield, Saturday, will be for blood. Twice the Aeolian organ factory people have pitted a team of selected top-notch professional talent against Westfield and bit the dust. This year employment has been given good ball players with the idea of having a first-class strictly Aeolian employes' team. Under the direction of P. H. Lenz, a thorough expert in ball management, the Aeolian aggregation amounts to considerable and, as it is to be a permanency, the question of defeating Westfield is everything to them. Whether they will rely upon their regular team or pad as in previous games is a matter of conjecture. Westfield is to have something hard against it anyhow but, as in all such cases, will line up prepared for all comers.

Manager Cose, of the Hope Y. M. A. team, received word yesterday cancelling the game of the Sacred Heart Academy with Hope for Saturday afternoon. Hope's manager immediately made arrangements to have the Dunellen nine play on Hope Common Saturday afternoon. Ettinger and Brown will be the battery for the visitors who will also be strengthened with several New York players.

Miss Hughson was well known in this city among a large circle of friends who will be surprised to learn of the wedding. She came to this city a year ago from Morristown where she has always lived. Mr. and Mrs. Barker will reside in Newark where Mr. Barker is employed.

Campaign Against Truants.

The truancy committee of the Borough Board of Education has several additional names to be investigated, and if the parents of the pupils do not send their children to school the matter will be brought up in court. GUARANTEED.

That word means something, when it is backed by the $5,000,000 capital and surplus of the

FIDELITY TRUST COMPANY.

It means for you an easy mind if you have one of those guarantees covering the title to your premises.
The man, who does business the way it was done a generation ago, is surely on the road to failure. This is an age of progress. There has been progress in methods of conveyancing as well as in other lines. Out of the need for something less uncertain than a lawyer's certificate and a lawyer's responsibility, has grown up the system of policies of insurance, or guarantees of title by companies with large capital and a force, specially trained in the work.
There is none better in this line than

THE FIDELITY TRUST COMPANY OF NEWARK, N. J.

It has an agency at Elizabeth for conducting Union County business. Rates will be given on application at its office, No. 215 Broad Street, and an investigation of its resources and methods is invited.

AS A SIDE SHOW.

Tramway Being Constructed to be Used in the West.

Many people walking up Watchung avenue past the old skating rink have wondered what the little tramway which is being built in one corner of the vacant lot at the corner of East Fourth street and Watchung avenue is for. The little railroad is being built by C. F. Fulmer, a machinist, assisted by Peter Davis and J. H. Pope. Mr. Fulmer is building the machine for use in country fairs and traveling shows. He is merely erecting it on the grounds in this city and as soon as he has found that it is in good working order it will be shipped west. The idea is to have the entire track covered with little cars in one string and the entire train will be propelled by power at a high rate of speed.

Miss Scott, of New York, is the guest of Miss Louise Patten, of West Seventh street.

Came to Attend Court.

Robert Patterson, the father of the late Harvey Patterson who met death in the Westfield disaster, was in town last evening. It was reported some time ago that Mr. Patterson grieved over his son's death until it caused his demise. He laughted at the idea that he had been reported dead. He was in New Jersey for the purpose of attending the court proceedings which will be tried today at Elizabeth in a suit which he has brought against the railroad company.

SEARLES CASE TO JURY

TESTIMONY AND ARGUMENT WERE COMPLETED THIS MORNING.

Suit Against the Trolley Company—Defence Claimed Contributory Negligence.

(Special to The Daily Press.)

Elizabeth, May 7—The case of Mrs. Frank R. Searles against the Elizabeth, Plainfield and Central Jersey Street Railway Company, which was opened in the Supreme Court yesterday morning, was continued throughout the day, most of the time being occupied with the examination of witnesses. Among those examined was Dr. Gedney, of New York, who operated on Mrs. Searles, removing a small portion of the end of the spine. His testimony was to the effect that she would be an invalid for life.

This morning the time was taken up by counsel in summing up, Craig A. Marsh making a strong plea for his client. Mr. Bergen for the defense, claimed contributory negligence in his argument, stating that if the occupants of the carriage had looked far enough down the street before crossing the trolley tracks, the accident would not have occurred. In conclusion Mr. Marsh personally thanked Mr. Bergen for his courtesy in not examining Mrs. Searles, who was in court on a stretcher, thereby relieving her of further trouble and distress.

The case was given to the jury at noon and it may be late this afternoon before a verdict is reached.

PLAINFIELD GROOM.

He is an active member of Trinity Reformed church and Sunday-school. He holds a fine position with the McVickar Realty Trust Company, of New York. The bride is also well-known in this city, being a cousin of Mrs. Clarence Thorn, of the borough.

One of the bridges, situated near Belle Mead, is known as Cortelyou Bridge; another will pass over Mine Brook in Bernardsville; the third is near Chimney Rock.

to Appropriate and Borrow Money, and to Secure the Re-payment Thereof by the Issue of School Bonds, for the Purchase of Lands and Erecting a School House in the City of Plainfield.

WHEREAS, The Board of Education of the City of Plainfield has decided by resolution that it is necessary to raise money for the purchase of lands for school purposes and for erecting a school house in the City of Plainfield, and has prepared and delivered to each member of the Board of School Estimate of said City a statement of the amount of money estimated to be necessary for said purposes, which it has estimated to be One Hundred and Twenty-Five Thousand Dollars; and

WHEREAS, The said Board of School Estimate of the City of Plainfield has fixed and determined the said sum of One Hundred and Twenty-Five Thousand Dollars as the amount necessary for said purposes, and has made two certificates for such amount, one of which has been delivered to the said Board of Education, and the other to the Common Council of said City; and

WHEREAS, Said Common Council has, by resolution, appropriated the sum of One Hundred and Twenty-Five Thousand Dollars for such purposes, and has directed that the said sum shall be raised and borrowed for the purposes aforesaid, by the issuing of bonds in the corporate name of the said City, bearing interest at the rate of four per centum per annum, which resolution was duly approved by the Mayor of said City; and

CRESCENT OVAL OPENS WITH GAME TOMORROW

Alis Club Sends Out Invitations to Its Fair Friends to Attend Opening Game.

FINE DIAMOND THERE

A COMMODIOUS GRANDSTAND HAS BEEN BUILT AT THE OVAL.

Club is to be Incorporated—House Committee Empowered to Complete Equipment of Clubhouse—Other Plans to be Considered.

Three hundred invitations have been issued by the members of the Alis Club to baseball enthusiasts among the women in this city to attend the opening game of the club tomorrow afternoon when that club will cross bats with one of the strongest teams in this State, the Star Athletic Club, of Newark. The game will be played on Crescent Oval and, through an arrangement made with the trolley officials, cars will run from the Watchung avenue terminus to the grounds twice every fifteen minutes.

This promises to be one of the greatest ball games of the week and all who would see a good game with plenty of excitement should not fail to attend that game. Since the ground has been rolled and put in good condition it may be safely said that the Alis Club has the finest diamond to the found in this section of the State.

A permit was granted in the office of the building inspector a few days ago to erect a large grandstand on the lot which will seat over 350 people and will be covered over with a roof. The stand will be located directly behind the catcher's box and the people will be screened by a fine wire netting. The cost of the erection of the stand will be about $500.

Since the Alis Club has changed its name and reorganized, there have been many evidences of its progressive management. The club is to be incorporated under its new name and Francis J. Blatz, one of its members, has been authorized to draw up the necessary papers. The arrangements for this will be completed tonight at a meeting which will be held at the new clubhouse on Arlington avenue.

The house committee has been granted permission to spend an amount of money which it thinks advisable to complete the furnishing of the house, including the purchase of a billiard table. Some furniture has recently been purchased from the old Crescent Club and that has been installed in the new house.

A new board of trustees has been elected. J. S. Slevin was chosen for a term of two years and Dr. A. H. Dundon, Frederick J. Pope, Roy T. Phillips and Chauncey H. Burt were chosen for one year terms.

PLEASING PROGRAMME.

For Musicale of the Misses Whitney at the Casino.

One of the most pleasing events of the present season, will be the musicale and poses plastique exhibition under the direction of the Misses May Vincent and Bertha Hurst Whitney at the Casino, Tuesday evening. While this is not a "pupil's recital," a few of them will play. By special request, the brilliant arrangement of Rossini's "William Tell" will be given. In this, Miss May Whitney will have the assistance of Wm. E. MacClymont. The overture to "Tannhauser" will also be rendered by request, performed by Miss Conger, Miss Remson, Mr MacClymont and Miss Whitney. Two of Sohmer's best grand pianos will be used. Miss Bertha Whitney will give several recitations, one number with musical accompaniment, and Master Erskine Porter, the wonderful nine-year-old soprano, will be heard in vocal selections.

CRITERION DANCE.

Local Club Entertained Many From Out of Town.

The Criterion Club dance, the last of the season, was held last evening at the Casino. The music was provided by Westervelt, of Elizabeth. The committee which had charge of the affair comprised Albert Clark, chairman; William DeMeza, William Kennet, John Hall, Mortimer Slater and Clarence Brokaw.

A noticable feature was the large number of out of town people present. Guests of the club were present from Newark, Somerville, Elizabeth, Bound Brook, New Brunswick and other places.

$15,000 IN SEARLES CASE

VERDICT BROUGHT IN BY JURY YESTERDAY AFTERNOON.

In Lowrie Damage Suit Against the Central—The Plaintiff Was Non-Suited.

(Special to The Daily Press.)

Elizabeth, May 8—In the damage suit brought by Mrs. F. R. Searles, of Plainfield, against the E., P. and C. J. Railway Company for injuries received at the corner of Madison avenue and Fourth street, August 18, the jury yesterday afternoon brought in a verdict of $12,000 for Mrs. Searles and $3,000 additional for her husband for loss of what the law calls "consortium."

The suit against the Central Railroad of New Jersey brought by Mrs. Henry H. Lowrie, wife of Dr. Lowrie, of Plainfield, was heard yesterday. The suit was brought to recover damages for injuries received in Jersey City while boarding a ferryboat. The court ruled that the injuries were inflicted through Mrs. Lowrie's own carelessness as it was not yet dark and the obstruction was visible. The court granted the defendant a non suit. Mrs. Lowrie's counsel, Craig A. Marsh, took exception to the court's rulings and the court replied that he was entitled to the exception. The case will be taken at once to the highest court in the State on a writ of error.

At the regular monthly meeting of the Union County Board of Freeholders yesterday afternoon in Elizabeth, the appropriation for the Giraud avenue bridge was changed from $1,700 to $3,500, Somerset county having agreed to the change. This was the principal business transacted of interest to Plainfield.

In the absence of Director J. Frank Hubbard, John Farrell was elected director pro tem. Sheriff B. Frank Coriell presented a bill for the care of prisoners during the time he has had them in charge. The bill was not presented in detail and was returned to the sheriff to be itemized.

Mrs. Betsey French, one of the oldest residents of Plainfield, died early this morning, at the home of her daughter, Mrs. Morgan Bird, of Park avenue. Mrs. French was ninety years of age.

The deceased was born in the vicinity of Washingtonville and lived there a great many years, her husband, the late Moses H. French, being one of the best known millers in this section of New Jersey.

Mrs. French leaves two sons, C. Frank French and N. Whitford French, and two daughters, Mrs. Lemuel E. Hart and Mrs. Bird. The funeral services will be held Sunday afternoon from the house, 235 Park avenue, at 2:30 o'clock.

Death of Samuel M. Davis.

CHIEF WITNESS HAS DROPPED FROM SIGHT

Man Who Saw Burglars in Fay's Bakery is Missing—Both Sides Want Him.

ARE SEVERAL STORIES

MRS. FAY SAYS HE WAS PAID TO RETURN TO ITALY.

She Believes Members of the Gang Paid Him $1,000 to Disappear—Sold Out His Shoe Making Shop—Said to Have Left Monday.

Harris Ellis, otherwise known as Farbman or Farber, the principal witness for the State against Joseph Block, who was caught while passing through the rear window of Fay's bakery after an attempt had been made to rifle the safe of the bakery, at about 3 o'clock last Saturday morning, has disappeared. The knowledge of his disappearance is now common property, the story being that he has gone back to Europe, probably to his old haunts in sunny Italy. If this is true, it would seem that the case against Block must fall through, as the only evidence against him outside of Ellis's testimony is to all appearances entirely circumstantial.

A Press reporter called yesterday afternoon at the home of Mr. Fay, the Italian who runs the bakery, and was met at the door of the house on Liberty street by Mrs. Fay. According to the latter's story, Ellis left Plainfield Monday noon bound for foreign parts. Mrs. Fay says that Ellis was paid $1,000 and given his fare to Europe on condition that he leave the country. She claims that the money was given him by members of the gang concerned in the robbery. Mrs. Fay further states that Ellis knew all the names of the men implicated in the affair, and for this reason his departure was desired. Before leaving town, she adds, he sold out his business as shoemaker for $20. However this may be, the fact remains that the man has gone, and this, in itself is suspicious.

Counsel Newcorn for Block claims that Ellis's testimony was more necessary and more favorable to the defense than to the prosecution. The man is at any rate a much desired individual, and his disappearance does much to complicate further a rather unusual and mysterious case.

MR. FISK IS VERY LOW

PLAINFIELD'S FORMER MAYOR TAKEN SUDDENLY WORSE YESTERDAY.

Complication of Troubles—All His Family at Bedside—Three Physicians There.

Former Mayor Charles J. Fisk lies very low at his home on West Seventh street. There is still hope but Mr. Fisk is a very sick man and only his wonderful vitality can be depended on to successfully carry him past the crisis. Word of his serious illness became noised abroad yesterday and since that time there has been a host of friends who have called in person or inquired by 'phone to learn the condition of Plainfield's best known citizen.

For several years Mr. Fisk has been in poor health, suffering considerably from heart and kidney trouble. This year, he had an abscess, first one in one ear and then one in the other. They greatly weakened his system. He had just recovered from them and was able to be around again when he had an attack of inflammatory rheumatism Tuesday. Yesterday morning he began to grow rapidly worse. In the afternoon convulsions of the heart began. During the evening he became so weak that it was necessary to administer oxygen. It was feared that he might not survive the night but he made a plucky fight and appeared somewhat easier at 8 o'clock this morning.

Mr. Fisk is attended by Dr. E. W. and B. Van D. Hedges, of this city, and Dr. Francis Kinnicott, a New York specialist. All the members of his family are assembled at the home and his brothers were called here, with the exception of Pliny Fisk, who is now in Paris. He was notified by cablegram of his brother's condition.

At 2:30 o'clock he was reported as having gained considerably in the last three hours.

OVER VETO.

Brunswick's Council Again Grants Ordinance to the Central Jersey 'Phone Company.

By a vote of 7 to 5, the members of the New Brunswick Council have passed the ordinance of the Central Jersey Telephone Company over Mayor Viehmann's veto.

The objections raised by Mayor Viehmann in vetoing the ordinance were explained by the company's counsel, Alan Strong, who said that the company would not only put up a bond of $6,000, guaranteeing that any streets torn up would be laid again in the same condition that they were before the work was started and that the company would also put up a bond of $2,500 additional to show that it meant business.

The session was the liveliest that has been held in years. One alderman, A. S. Marsh, said that one member of the board had been threatened if he voted for the ordinance; that he would lose his police appointment and that he, Marsh, has been offered a money consideration if he voted against it. Marsh voted for it.

The company, according to the ordinance, will begin work installing the conduits in six months.

FELL ON HIS HEAD.

Robert Hart Tumbled Out of Hay Mow This Morning With Serious Results.

Robert Hart, aged twenty-two years, living at Rock avenue and Fourth street, had a decidedly exciting epxerience this morning about 6 o'clock, when he nearly lost his life. He was working in a hay mow, about twenty-five feet high, when his feet slipped and he fell the entire distance, striking his shoulder and head.

A fellow-workman was outside of the barn and it was some minutes later when he discovered Hart lying on the barn floor in an unconscious condition. He was frightened and hastened to the house to inform the family. Assistance was secured and the injured man was carried to the house, where he remained unconscious for some time.

A physician was not called until later in the morning, when upon his advice, Hart was taken to the hospital. He afterward came to and is now recovering. He will be detained at the hospital for several days. His injuries consist chiefly of a bruised head and shoulders.

Association Lost Thirteen Sustaining Members by Death or Removal—Dr. Rushmore Was Appointed Visiting Physician.

The annual meeting of the Plainfield Children's Home Association was held yesterday afternoon, when the work for the past year was reviewed. The association has cause for deep regret in the fact that during the year it has lost thirteen sustaining members, either by death or removal from the city.

The members discussed at some length the prospects of the addition to the home, made possible through the generous gifts of James Clark.

In the choice of officers the following were re-elected: President, Mrs. Horace Kimball; vice presidents, Mrs. Martin I. Cooley, Mrs. Laura S. Gilbert, Mrs. J. C. Peck; recording secretary, Mrs. Ruth C. Leonard; corresponding secretary, Miss Lucy H. Everett; treasurer, Miss Ella Serrell.

Dr. Edward Rushmore was again appointed visiting physician to the Home and Mrs. Sarah A. Henderson was re-engaged for another year as matron. The standing committees and board of managers will be announced at the meeting to be held Thursday, June 4.

The expenditures amounted to $5,478.67, leaving a balance May 1, of $908.53. The amount in the City National Bank is $880.42 and the amount of cash on hand is $28.11. The treasurer's report is audited by Charles Place and C. W. McCutchen as auditing committee.

PLAINFIELD LITIGANTS WON

TWO SUITS IN SOMERSET COUNTY COURTS DECIDED.

One Wound Up by Plaintiff Paying Defendant—Plumber's Suit Over Work Done.

Two suits were settled in the Somerset county courts at Somerville last week in favor of Plainfield litigants. Counsellor W. S. Angleman represented the successful party in each instance, and F. A. Pope, of Somerville, the other side.

The first suit was the Supreme Court case of Elijah Stevens against John P. D. Kirch, administrator of the estate of John VanMiddlesworth, deceased. This was a suit brought to recover the sum of $288.87. The defendant denied owing the plaintiff anything, and filed an offset for $482.05 and interest. The case was settled before it was called for trial, by the plaintiff paying the defendant the sum of $490. W. S. Angleman, who represented Mr. Kirch, the defendant, reversed the usual order of things by making the plaintiff pay the defendant the sum mentioned.

The second case was that of Dennison J. Galbraith against Charles E. Moldenke, and was a suit for the recovery of extras for plumbing work on the defendant's house at Watchung. The case was referred by Justice Garretson of the Supreme Court to Hon. James J. Bergen, of Somerville, as referee. Three days were consumed in hearing the case. On the conclusion of the argument, after all the evidence was in, Mr. Bergen announced his decision in favor of the plaintiff on all the issues involved, and decided that there was due Mr. Galbraith from Mr. Moldenke the sum of $282.26.

JOURNAL'S CHANGES.

Elizabeth Journal Incorporated and Under the Editorial Charge of Joseph D. Lowden.

The Elizabeth Journal has incorporated, the title of the business being turned over to a company, recently formed. The company is capitalized for a comparatively small amount and is what is known as a "close corporation." Almost the entire issue of stock is held by Mrs. Vashti B. Foote and Augustus S. Crane, the former retaining the controlling interest. The remainder of the stock is held in small lots by Miss Julia M. Foote, Henry H. Foote, William P. Toler, Joseph D. Lowden, Augustus W. Schwartz and Thomas R. Millin, the last three being heads of departments and employes of long standing in the Journal office.

Since 1879 the Journal has been managed for Mrs. Foote by Charles C. McBride. He retires very much to the regret of those with whom he has been associated. Mr. McBride is succeeded in the editorial chair by Joseph D. Lowden, who since 1886 has been the city editor.

PROPERTY IS SOLD UNDER MARTIN ACT

City Disposes of Property of Delinquents Who Have Failed to Pay Taxes.

CITY PURCHASES ONE

ALL THE FORTY OTHER PROPERTIES GO TO OUTSIDE BIDDERS.

Good Number Attracted to the Sale—A. Kenzman Bought in Twenty-One—Amount Received From the Sale Was $2,125.91.

The sale of lands under the provisions of the Martin Act conducted yesterday by Collector of Taxes, F. H. Smith, attracted a fair sized crowd of interested citizens, some of whom desired to invest in Plainfield property. One noticeable feature of the sale was that the city was only obliged to buy in one property. Collector Smith adjourned the sale of seventeen properties.

In all forty-one properties were sold and the bidding was spirited. The prices ranged from $6 to $225, and in each case the purchaser was obliged to pay the amount of tax, together with the additional sum charged for advertising and the interest 10 per cent. The property can be held for one year after the notices have been served on the original owners and those affected thereby. The purchaser is required to pay for the search on the property.

Of the forty-one properties sold, A. Kunzman purchased 21; Councilman Murphy, 2; C. E. A. Heywood, 5; Arther Murphy 4; Robert H. Cook, 4; Ralph Waldo Emerson, 8; Wm. Sandford, 1 and the city bought in one property. The amount received from the sale of the property was $2,125.91.

Collector Smith met with some opposition during the sale by a few persons who seriously objected to his selling their property. One man in particular, who had failed to receive a tax bill when they were sent, argued that it was manifestly unfair to sell his property in the way prescribed by law. Mr. Smith informed the taxpayer that it was his duty to come after the tax bill when he failed to receive one, that it was not the duty of the collector to do anything but collect the money as assessed by the Board of Assessors. The party, upon the advice of Mr. Smith, went out to find Assessor Hand for the purpose of having the matter rectified.

Miss Voehl is related to Mr. and Mrs. Jacob Voehl, of Somerset street, and many people in this city and in North Plainfield have received invitations as both the bride and groom are well acquainted in this vicinity.

HOSPITAL STILL FILLED.

Twenty-Seven Patients Now at Muhlenberg, Including Wreck Victims.

There are now twenty-seven patients at Muhlenberg Hospital, the limit of capacity. In case of emergency extra cots would have to be put up, but this would crowd the hospital to an uncomfortable condition. Four of the victims of the Westfield disaster are still in the institution and they are likely to remain there for awhile.

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of wornout tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up, Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by L. W. Randolph.

COLUMN FOR THE SHOPPERS

SOME OF ATTRACTIONS TO BE FOUND AT LOCAL STORES.

A Few Interesting Items Concerning Greater Plainfield's Merchants

When you buy your provisions of J. W. VanSickle, of North avenue, you are sure of getting the "real article." They concede first place to no one. Good goods and right prices.

Speckled beauties of the best and freshest make Jerry Foss's market on Park avenue a boon to householders. Boston mackerel, porgies and Connecticut River shad are leaders in his store.

Those who have had trouble in selecting stationery to please them should examine the superior stock at A. M. Harper's store in Park avenue. He keeps a full line of the best grades, also pens, pencils, etc.

In the spring the people's fancy usually turns to spring tonics and blood purifiers. C. M. Nagle, of West Front street, has a tonic of his own concoction which is warranted to brace up the weary and feeble.

If you have never tried the refreshing and delicious soda water served at L. W. Randolph's modern pharmacy on West Front street, you do not know the real joys of living. All the latest drinks are served from pure fruit syrups.

By far one of the most attractive displays of women's suits, silk coats, fancy silk shirt waists is to be seen at the Boston Cloak and Fur Store on West Front street. All these goods are the best quality and are made strictly first-class.

Putnam & DeGraw's stock of spring and summer goods will compare favorably with the goods to be found in the largest dry goods store in New York. The firm invites an inspection of its new stock of goods, knowing that is will please you.

Silbert Brothers, of Somerset street, have for a number of years made a specialty of fitting glasses. Their system is the latest and most approved and their prices are cheap. Silbert Brothers have always kept a most complete line of jewelry and silverware.

Many housekeepers are at a loss to now what to get for luncheon. A visit to the store of R. W. Barnes, of Park avenue, will solve this problem for many as a complete line of delicacies are always kept on hand. Vegetables are also kept on hand in large assortments.

There are many different dressmakers in this city but all of them do not have an establishment as extensive as S. Hirsch, of 432 Watchung avenue. He has a large place with experience dressmakers in his employ. A satisfactory fit is guaranteed and the style is most up-to-date.

THEATRICAL.

Klaw and Erlanger's colossal production of the most successful spectacle ever presented in this country, "Mr. Blue Beard," will end its long run at the Knickerbocker Theatre Saturday evening of next week. This will give it the record of seventeen weeks, presented to the utmost capacity of this house and that of the most phenomenal hit ever staged at the Knickerbocker Theatre. The coming performances will be the last times "Mr. Blue Beard" will ever be presented in New York. Seats for all remaining times may be ordered by mail or telegraph.

Miss Alice Fischer in Grace Livingston Furniss' rollicking, farcical comedy, "Mrs. Jack," will be the attraction at the Grand Opera House, next week, matinees Wednesday and Saturday. "Mrs. Jack" had a very successful run earlier in the season of 100 nights at Wallack's and Victoria Theatres and the engagement at the Grand will undoubtedly meet with the same endorsement and approval from patrons of this popular West Side playhouse that won for it a hearty and well merited success on Broadway.

Piano Recital.

Miss Palmer and her pupils will give a piano recital at the Randolph-Cooley Collegiate School Tuesday afternoon, May 12 at 4 o'clock.

Scotland.

Rev. W. T. Dorwood, of Stelton, will give an illustrated lecture at Hope chapel Monday evening, taking for his subject "Scotland."

The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that Catarrh of the Stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure Catarrh of the Stomach. Kodol digests what you eat—makes the stomach sweet. Sold by L. W. Randolph.

Rosedale and Linden Park Cemeteries

Largest Burial Parks IN THE State.

Transportation Facilities superior to those of any other cemetery, as to number of trains, railroad fare, time and distance.

These New Cemeteries, now being developed on the modern park plan, are attracting universal attention.

By Reason of Location Alone they are destined, in a very short time, to become the best-known Cemeteries in the country and, with their natural advantages, the most beautiful and desirable in which to purchase lots.

They are Accessible from every quarter and within easy reach of over 4,000,000 people, and, considering the steady and rapidly increasing growth of Greater New York and its tributary cities and towns, it is only the question of a short time before plots in Rosedale and Linden Park will equal in value those of our most noted cemeteries.

Popular Favor has already been shown to a marked degree in the sale of lots, several hundred having been sold to residents in Elizabeth, Linden, Rahway, Cranford, Jersey City, Orange, Paterson, Westfield, Newark and New York City, and a large number of interments have been made.

In the Days of Happiness we do not know what is to befall us or when the inevitable will occur; therefore, it is a wiser precaution to make provision for a final resting place during health and life than to force the painful duty on one's friends or relatives after death. A place of burial will be needed sooner or later by every one, and no one should neglect selecting a suitable and proper place until future postponement is impossible.

Linden Lodge is the largest, most modern and best equipped Cemetery Lodge in the country and is provided with every requisite for the comfort and convenience of visitors who come to inspect the properties.

Our "CONCAVE" Shoulder and "CLOSEFITTING" Collar

Our "CONCAVE" Shoulder is a new and better way of making the shoulder of a coat. It does away with the superfluous wadding and padding—it gets its breadth and grace of line from the way it is cut, and from the skilful modelling and shaping by hand. It looks wider than the ordinary shoulder and sets better, and will retain its shape—always.

The "Closefitting" Collar is hand made, and worked in so that it always sets perfectly.

All of our $15 Spring Suits and Overcoats are made with our "CONCAVE" Shoulder and "Closefitting" Collar.

Our showing of Spring Suits and Overcoats at $15 is larger than that of any other house in New York. Among the materials you'll find everything that is usual, and much that is unusual.

Captain Economy Reports that he finds a few men and boys who are totally oblivious of the splendid money-savings which Hahne & Co. present and bids them hasten with all speed to New Jersey's most dependable and reasonably priced department, there to participate in a choosing of **Style, Quality and Price** that is unduplicatable elsewhere. **These, for instance, are particularly appealing:**

BOYS' SPRING CLOTHING.

The 2.98 Suits are values which combat successfully many $4.00 suits elsewhere. It's a popular price here. Sailor Suits, Norfolk Suits, Double-Breasted Suits. The beauty is not alone in the cloths, which are serges in different shades (the reds and browns are only in sailors for the small boy; plain colors for the larger boy in checks, stripes, mixtures or plain blue or black), but the make, cut and fit of the garments put a certain pride in your boy that nothing else can do. Sizes range from 3 to 16 years.

The 4.98 Suits—Another strong line. We cherish the reputation achieved on our $4.98 Suits. You'd think so, to see the many sorts at one price. Let's try and group them: Sailor Collar Norfolk, Sailor Suits, Double-Breasted Suits, Plain Norfolks, 3-Piece Suits. Bright souls have combined the beauties in these styles; serges in navy, brown, royal blue, gray; very rich, enduring blue and black and color interweaves; very different from the ordinary. The spring brings out a great many novelties, rough cheviots, etc. Sizes 3 to 16 years.

In Our 6.98 Suits we can hardly picture more dressy clothing for a boy of any age.

AMES FOUND GUILTY

After a Day's Deliberation Jury Convicts Ex-Mayor.

ACCEPTED BRIBE, AS CHARGED.

Crowded Court Room Showed Keen Interest Taken in the Case by the Citizens of Minneapolis.

MINNEAPOLIS, May 8.—Albert Alonzo Ames, former mayor of Minneapolis, has been found guilty of accepting a bribe of $600 while chief executive of this city.

After being out twenty-four hours, held up by a disagreement that was caused by a few jurors holding out against the majority, the jury came into Judge Elliott's court and returned their verdict of guilty. The keen interest in the case was shown by the silence in the crowded court room as the verdict was read by the clerk. The usual motions were read for a stay and an arrest of judgment, and now will come the fight on appeal. The case has broken every expectation as to the shortness of time taken to try it. Before the trial few would venture an opinion that it would take less than two weeks to select the jury. And yet inside of two weeks the case has been finished.

Through all the trial Dr. Ames has borne up well, and to every appearance he has not seemed better at any time than he was during the summing up of the case by counsel.

The defendant was on hand early with his wife and his attorneys. He chatted affably with the reporters and attorneys, however, and expressed confidence in the outcome. Mrs. Ames appeared decidedly weary, and lines of anxiety were evident.

The jury asked certain questions which formed the basis for quite an extended discussion in the judge's chambers as to the proper way to answer them without doing injustice to the defendant.

Brother of Slayer Czolgosz Arrested.

LOS ANGELES, Cal., May 8.—Acting under instructions from the secret service bureau at Washington the police have arrested a man who is suspected of being one of four brothers of Czolgosz, the assassin of the late President McKinley. Great secrecy has been maintained about the arrest, and practically no information has been given out concerning the man. It is known, however, that he was arrested yesterday and confined in the city jail. No charge has been lodged against him, the police simply detaining the man on suspicion until after the president shall have left Los Angeles. It is said that Czolgosz has been living in this city for several months, being employed in a tamale factory.

The Color Line In Tennessee.

GALLATIN, Tenn., May 8.—A colored carrier was held up by two masked men and threatened with death if he did not resign. The carrier is John Algood, and the feeling has been strong against him ever since his appointment. The matter is being investigated by the post office authorities, and another carrier has been sent over the route. There is no objection to the carrier personally, but the patrons along the route are opposed to him on account of his color.

NOT READY TO ACT.

No decision has yet been reached by the Common Council on the application of the Central Jersey Telephone Company for franchise. It was rather expected that the subject would come up at the last meeting of the Common Council but the application is still in the hands of the street committee and Chairman R. I. Tolles, of that committee, had nothing to say about it at the session. There was talk of a public hearing sometime ago but nothing definite has been done regarding it.

It is of interest to note that the New Brunswick Council has passed the franchise for the same company over the Mayor's veto and the new company will proceed at once to install its system in that city. All sorts of charges and counter-charges are being made as to the methods used in the fight over the franchise.

The present delay in acting on the application can be easily explained. The Councilmen are desirous of pleasing the people. If there is a general demand for a new company, the franchise will probably be granted. Otherwise it will not. Until they know more of the public feeling on the subject, they will not feel clear to move in the matter. A general expression of opinion through the columns of The Daily Press is much desired by the members of the street committee.

A committee of citizens and city officials has recommended that the city of Summit purchase its water plant from the Essex-Union Water and Light Company and erect an electric lighting plant of its own. Summit seems to be considering the question of municipal ownership quite seriously judging from these happenings. Summit should make sure about the legal status of the water supply plant before it purchases it. Its troubles with the millowners in the "Notch" will be remembered. The water company was charged with drying up the springs which feed the stream which passes out at Scotch Plains.

Tomorrow will see all the local baseball teams hard at work. All have games scheduled and if the weather is only good some interesting contests ought to result. It is too early to get much of an idea of the comparative strength of the different teams as the changes made for every game have their effect on the teams for either good or ill.

CLEVER ENTERTAINER.

Miss McClaren Who Appears at Y. M. C. A. Hall Monday Night.

"She reads with a fire and intensity, and an authority and conviction that are startling." Thus speaks the Brooklyn Daily Eagle of Miss Gay Zenola McClaren as a reader and impersonator. In her presentation of "Way Down East," Miss McClaren gives the entire four act drama, and impersonates twelve different characters. The musical portion of the evening programme at the Y. M. C. A. Monday evening affords a rich treat to the lovers of music in selections to be rendered by N. Paulding DeNike, well and favorably known in Plainfield as a 'cellist of great ability.

ONE BAD INNING DID IT

CITY HIGH SCHOOL BEAT ST. FRANCES XAVIER BOYS.

Final Score of Game Played on the Stillman Field Was 9 to 4.

The City High School baseball team defeated the St. Francis Xavier Preparatory School team in an uphill game played on Stillman Field yesterday afternoon. The score was 9 to 4.

The visitors started right off to score in the first inning and netted two runs on loose playing by the High School. They also scored in the second and third innings. When the High School boys came to the bat in the fourth, the score stood 4 to 1 in favor of the visitors. A combination of sharp singles and costly errors properly proportioned caused six of the High School players to circle the bases before the third out was made and after that inning there was at no time any doubt as to the outcome of the game.

VanAuken pitched the game for the home team, and although he had not had a ball in his hand for nearly two weeks, he broke his record as pitcher, striking out nineteen of the opposing batsmen. He received good support after the first inning and only eight errors were made by the High School. The visiting pitcher proved an easy mark for the High School boys, who made six hits in the course of the game. The infield playing of the visitors was unsteady throughout and there were times when the whole team went up in the air at most important places in the game. Their outfield, however was right up to form at all times, and played an errorless game, exciting much applause by excellent judgment of flies. Walters took Miner's place in the seventh.

The teams batted as follows:

P. H. S.—Thompson, 1b; Smith, 3b; Craig, ss; Ulrich, lf; Munro, c; Miner, Walters, rf; VanAuken, p; Bock, cf; Brokaw, 2b.

S. F. X.—Downey, ss; Duffy, lf; Barry, 3b; Connoly, p; Egan, cf; Quinn, rf; Schmitt, 1b; Taylor, 2b; Graff, c.

The score by innings:

P. H. S. . 0 1 0 6 0 0 2 0 x—9
S. F. X. . 2 1 1 0 0 0 0 0 0—4

Struck out, VanAuken, 5; Connolly, 1; hit by pitched ball, VanAuken, 1; Connolly, 1; bases on balls, VanAuken, 5; passed balls, Graff, 1; wild pitches, VanAuken, 1; Connolly, 1. Umpire, Peter Simmons; scorers, J. Lounsbury, L. L. Sheppard.

It is expected that representatives of Leal's track team will compete in the Pingry School games at Elizabeth, May 16.

Justice Dismissed Bender.

The case of Miss Addie Vanaman against Moses Bender on a charge of receiving stolen goods, was brought before Justice Huff yesterday afternoon. The plaintiff claimed that the defendant had received a bicycle tire which she alleges was stolen from her by "Barney" Tracey. After hearing both sides of the case, Justice Huff dismissed the complaint, deciding that Miss Vanaman had no case.

DeWitt's Little Early Risers are the famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Now Cometh the Spring Lamb,

and by the kindness of nature also plenty of new mint to make the inner man glad. The Spring Lamb we offer is Lamb, it is far from the mutton period of its existence. FASHIONS OF THE MOMENT.

Deep Belts With Short Coats—New Cotton Gowns.

Deep belts are universally worn with the sack bolero. In fact, only a tolerably deep one is admissible, as no vest, shirt waist or blouse should show between the belt and the bolero. The pointed belts made of tinsel ribbon are very effective with a dark coat and skirt, but are not suitable for a large figure, as they call too much attention to the waist.

Those who are making their cotton and linen gowns will be glad to hear of the crape cotton with black spots. The price is small, and this material makes up so smartly that the fact of its being cotton is entirely overlooked. The little flecks and dashes of white in the crape add greatly to the effect. Modish pastel red, blue, tussore and pink are all good in their way. A little dress of this type, slightly relieved with black, can be made to wear over a silky sateen and will be charming for morn-

ings, for the river or sea side. There is also an admirable gray which could be worn for mourning or otherwise.

Every fabric is being pressed into service for the blouse of beauty and the blouse of utility—washing satin, crepe de chine, Japanese silk, muslin, foulard and that delightful fabric known as chiffon voile are all charming wear.

The cut shows a smart accordion plaited peau de soie coat having a broad fancy collar.

COATS AND SLEEVES.

Coffee Coats Pretty and Becoming. Small Coats.

Lace coffee coats are very useful for home wear, but are disappointing elsewhere, as they have a loose negligee effect which is not desirable away from one's own fireside. The blouse with deep fall of lace and extensively pouched front has more style, and, if cut square, the neck is easily filled in with a chemisette when required less decollete.

There is apparently a tendency to return to the fashion of distinct sleeves differing from the bodice. Several of the Paris models have had the diverse undersleeves so extended that the real oversleeve formed little more than an

epaulet. However, while we wear loose bodices and sack boleros, the sleeve of different color or material has very little chance.

Lace is as popular as ever, and in medallion form, arranged separately or in groups or partially broken lines, will be very modish.

The small black coats, inlet with medallions of lace, are very smart, and these will be worn over black and white skirts as well as with black ones of every description.

The cut shows a three-quarter coat of gray novelty goods.

MYSTERY OF THE BAYOU WOODS

By WALKER KENNEDY.

Copyright, 1903, by A. N. Kellogg Newspaper Co.

"That would be a good idea. Let me caution you, however, about what you write for your paper. It is just possible that your ingenious theories may be true, and if you outline them to the public you may render impossible the capture of the criminal."

"Well, I will agree not to say anything yet on that subject provided you will not furnish the other papers with any of my theories, as you call them."

"All right," said the chief, with a smile; "if you unravel the mystery I think you are entitled to a monopoly of it."

Warde then sought Col Franklin to lay his investigations before him, anticipating that he would find in the lawyer a more sympathetic judge of the importance of his discoveries.

When he had gone the chief of police gave word to a subordinate to place Herbert Wright under arrest on suspicion of being implicated in the murder of his father.

CHAPTER IV.

Col. Franklin was a man of strong traits and prejudices, and it was evident to Irving Warde that if he interested himself in the Wright case he would come nearer perhaps than any one else in solving the mystery involved in it. He was not an extensive practitioner of his profession, but he had accomplished a number of wonderful feats in cases which had become historic. It was Franklin who had unravelled an election conspiracy and made the demonstration so clear to the courts that the eminently respectable gentleman who appeared to have been elected chancellor on the face of the returns was deprived of the office to which he had been elevated by one of the cleverest frauds recorded in the history of electoral rascality. Beside this, there was the great diamond swindle which had a fame in its day throughout the entire lower Mississippi valley; a case ramifying into Nilus, New Orleans and Vicksburg. It was Franklin who exposed it, and by the exposure landed a number of audacious swindlers in the penitentiary. He was known to be wealthy, though he did not practice his profession with that assiduity which betokens the born lawyer. Indeed it was hardly of sufficient scope for the man's many-sided activity, and though he took a very sharp interest in that class of litigation which demands the readiness of a resourceful intellect and makes unusual demands upon the ingenuity, he very cordially despised that other sort which inflicts a dull drudgery. It was popularly supposed that the colonel was interested in a number of enterprises outside of the law, which paid him more handsomely than his profession. In Arkansas he owned a plantation which yielded him a fine cotton crop every year, and it was said that he had some interests in common with his friend John T. Wright. He came to Nilus about 20 years before the opening of this narrative, and by his affable manners, his dash, his decidedly handsome face, and the mesmerism, as it were, of his personality, he was soon successfully launched. He happened to win at the start several cases that occupied notable places in the popular fancy, and this at once made him famous. But his financial success dated from the time when he defended John T. Wright from the charge of murder. In a fit of passion the latter had killed the overseer of his plantation, and when his anger subsided and his reason returned he found himself in a by no means enviable position. Public sentiment was against him, and in those days that was more potent than the law. While the invisible statute allowed one man to kill another for insult or slander, it was often brought to bear with equal force against the wanton perpetrator of a crime. Franklin was employed to defend Wright. He at once saw the desperate situation of his client, and the necessity of securing an acquittal by other means than trusting to the luck of a jury trial. He worked on the case like a remorseless machine, and he did not hesitate to use his client's money freely. Public sentiment was subsequently vanquished by the corruption, and Wright was acquitted. From that time on a close intimacy existed between the client and his lawyer. The popular idea was that Wright had given him an enormous fee and that he had allowed him a share in his own business and in addition had probably assisted him in embarking in several independent enterprises. In any number of ways did the planter show his gratitude for the services rendered him by the lawyer.

At the time Wright was murdered, Franklin was about 40 years old. He was tall of stature and he dressed with scrupulous care. He was a very handsome man, and it was a matter of pride with him to groom himself well. The correctness of his attire, the faultless linen, and the rose that he always wore in the lapel of his coat were all intimately connected with the suavity and courtliness of his demeanor. His hair was partly frosted by Time's blighting touch. His eyes were small and soft and brown; the set of his mouth, shadowed by a small mustache, was resolute and masterful, and the general expression of his face was dignified and gracious. Evidently he was a man of resolute nature, whose friendship was as valuable as his hostility would be dangerous. Such a man seemed to Warde in the nature of a special dispensation in this emergency, for he would doubtless enter with all his soul into any efforts made to bring the murderer of his friend to justice, and it need hardly be added that Warde had now become a prey to a rather absorbing interest in the mysterious crime and had made up his mind to unravel it, if that were possible.

When he entered Col. Franklin's law office he found that gentleman smoking a cigar and reading Byron's poems, a book of which he was excessively fond. He seemed to think it necessary to explain that whenever he did not feel like working he did feel like reading Byron; "the greatest of all the poets," he would say, with a half-caressing touch upon the worn volume.

He received the newspaper man courteously and laid the book aside.

"I come to see you," said Warde, "about the murder of your friend, Wright."

"Has anything come to light?"

"No; nothing tangible; but I thought perhaps you might be able to suggest a theory concerning it."

"I am afraid," said the colonel, "that I can throw but little light on that terrible affair. Everything seems veiled in the densest mystery. Wright was killed in the woods where no human being could have been a witness to the deed. For two or three days the body lay there, and no one but the murderer knew that the crime had been committed. In the meantime the homicide, whose object seems to have been robbery, but who may have used robbery to veil a deeper motive, has no doubt left this section of the country, and will not be likely to make his appearance here again for some time—unless, indeed, he can be apprehended and brought back by the law."

"I have some reason to doubt whether he has left Nilus," said Warde.

"Indeed," replied the colonel, keenly interested.

"Of course, it is only a surmise on my part, but there are certain circumstances which lend color to the idea that the murderer was not an ordinary thief, and that his motive was something else than robbery. It is my opinion that he is now in the city."

"That is important news, surely, if true. What proof have you in support of such a theory?"

"You see," answered Irving, smiling, "I have contracted the detective craze recently, and I have made some investigations on my own hook, and I believe the murderer has not only not run away, but that he has seen his victim twice this very day."

"How do you know this?" asked the colonel with a skeptical smile.

"I do not know it, but I suspect it very strongly, and I will give you my reasons for doing so."

ARBITRATION FAILS

Fifteen Thousand Striking Italians Voted It Down.

NO WORK ON NEW YORK SUBWAY

Strikers Demand Two Dollars For an Eight Hour Day—Subcontractors Say They Will Hire Nonunion Help.

NEW YORK, May 8.—Sweeping aside the pleading of Chevalier Branchi, their consul general, Port Warden James E. March and officials of the Central Federated Union of Labor, 15,000 striking Italian laborers have voted almost unanimously not to return to work in the city subway until they are assured of $2 for eight hours' work.

This means that the arbitration agreement entered into by the committee of the federation and the subway contractors Tuesday is repudiated. Not a stroke of work is being done in the subway, as was promised by the committee, and another handicap is enforced against the already crippled building operations of the city. Immediately after the meeting the police were called to suppress a demonstration at One Hundred and Eighteenth street and Second avenue.

Only one thing remains to be done, according to subcontractors. So soon as the formal reply of the union is received they will seek nonunion labor wherever it can be found. This means, according to some authorities, other Italian laborers who would be willing to accept $1.87½ for ten hours' work or $1.50 for eight hours' work and negroes from the south and even from the West Indies.

It was expected that the subway men would accept the arbitration idea, and Herman Robinson, organizer of the Rockmen and Excavators' union, had so stated. In this he was backed up by Vito Pacelli, leader of the Italians. According to them, the votes in the various unions had shown this tendency. But at yesterday's meetings the men simply ran away from all control.

Emperor William's Gift Arrives.

BOSTON, May 8.—Emperor William's gift to the Germanic museum at Harvard university reached this port on the Hamburg-American steamer Adria from Hamburg via Halifax, N. S. The gifts were formally presented to President Eliot by Prince Henry on his visit to Harvard a year ago. Preparations for their reception have commenced. They will soon be placed in the museum, and for that reason the museum will be closed to the public until everything is ready for the formal opening, at which dignitaries of this country and Germany will be present. The cases number 118 pieces. It is understood that the value placed on the collection by historical art collectors is 500,000 marks, and the same collection as a whole could not be duplicated except through the influence of an emperor.

Victoria Memorial Hospital.

NICE, France, May 8.—The cornerstone of the Victoria Memorial hospital was laid here by the Grand Duchess Mary of Saxe-Coburg and Gotha, who was accompanied by Princess Beatrice. Men from the crews of the Chicago, Albany, Cincinnati, Buffalo and Machias of the American squadron and a detachment of British bluejackets formed the guard of honor. Music was furnished by the band of the Chicago. Among those who attended the ceremony were Admiral Cotton and officers of the American squadron and the American vice consul here. At the conclusion of the function the band of the Chicago played the national hymns of France, Great Britain and the United States.

Crushing Defeat For Moros.

MANILA, May 8.—Captain Pershing, whose force recently administered a severe defeat to the Bacolodian Moros in Mindanao and who returned to that country because of reports that the Moros were again assembling, has had an encounter with the rebels at Taraca, east of Lake Lanao. There was a running fight, which finally centered on a group of ten earthworks. Eight of these were easily captured by the Americans, but the defenders of the ninth and tenth made a gallant resistance and lost 130 men in killed and wounded before they were overcome. The Americans had two killed and seven wounded.

Bequest For Cats and Dogs.

TIFFIN, O., May 8.—By her will, just filed for probate in the surrogate's office, the late Charlotte M. Hoyt bequeathed to the Society For the Prevention of Cruelty to Animals of this city $50 per month "for the care and maintenance of all cats and dogs of which I may die the owner, payments to begin at my death and to continue so long as they shall maintain any of said animals." To her father, Casper Guss, the testatrix left $100 a month for the remainder of his life.

Storm In the Adirondacks.

SARATOGA, N. Y., May 8.—A storm reaching almost the magnitude of a cloudburst has swept through the lower Adirondacks and served to extinguish the numerous forest fires that had become rekindled during the past few days. The precipitation was accompanied by thunder, lightning and hail.

Mayor Low to Rest.

NEW YORK, May 8.—Mayor Low, accompanied by Mrs. Low, will leave here tomorrow on his yacht for a short cruise to obtain rest. He will be away till May 19 [illegible] James river and [illegible] Va.

SPORTING NEWS

ON THE DIAMOND.

St. Mary's boys are getting into shape and expect to give the Scotch Plains team something to do in tomorrow's game at the 'Plains.

The Orange Field Club will go to Cranford Saturday to play the strong Echo A. C., of that place. Galvin will be seen in the box for O. F. C.

The Y. M. C. A. has arranged games for the next three Saturdays. Tomorrow the association nine meets New Market, next week comes Dunellen and the week following Scotch Plains.

Kinney and Bolan will be the battery for Hope in the game with Dunellen tomorrow. Ettinger and Brown will be Dunellen's battery. The only change on the Hope team will be that Shortman will come into the infield and Howell will go out to take his place.

It looks as if the Alis Club and Hope Y. M. A. would meet on the Crescent Oval Saturday afternoon, May 16. As the Alis team is largely made up of the players who won the championship for the Y. M. C. A. last year, the Hopes are particularly anxious to see what kind of a showing they can make against the players who defeated them last season.

Following will be the batting order of the Star A. C. and Alis Club for tomorrow afternoon's game: Star A. C.—Deveraux, 2b; Nafie, lf; Falk, 3b; Karnish, 1b; Nealy, ss; McGuirk, cf; Haak, c; Gilroy, p; Smith, rf. Alis Club—Barnes, c; Lederer, cf; Hoffman, ss; Noble, 2b; Schoonmaker, 3b; McLaughlin, 1b; Pond, lf; Burt or Dupee, p; W. Schoonmaker, rf. Game will be called at 3:30 o'clock. ASK FOR ANOTHER TRAIN

PETITION SENT TO GENERAL PASSENGER AGENT C. M. BURT.

Want One That Leaves New York Between 4:10 and 4:20 at Night.

A petition has been sent to the Central Railroad of New Jersey by about 250 citizens of Plainfield and vicinity, asking for an additional train from New York to leave between 4:10 and 4:20 in the afternoon. The train would accommodate a large number of patrons of the road who are now obliged to wait for the 4:40 train, and who, by the desired arrangement, could spend from a half to three-quarters of an hour more in Plainfield in the evening. This accommodation, especially in the summer season, would be deeply appreciated. The petitioners have asked for an express train, to stop at Elizabeth, Plainfield, Bound Brook and Somerville.

The petition was sent to General Passenger Agent C. M. Burt, Wednesday, the company agreeing to give the matter its most careful consideration. Most of the signers are Plainfield people, although there are also affixed the names of many influential citizens of Somerset county. Among the Plainfield signatures are those of Isaac L. AMERICANIZING OF INDIA

RETURNED EXPERT REPORTS EXTENSION OF AMERICAN INDUSTRIES.

Jersey Mosquito Outclassed by Its Indian Relatives—Jerseyites Take Courage.

American industries seem to be booming in India. This is the report that Frank A. Rodgers, of Los Angeles, California, American laundry expert, brings from that country, from which he has just returned.

Mr. Rodgers is spending a few days with H. W. Marshall, of the American Steam Laundry, demonstrating laundry methods. He is making a tour of the leading cities of the country before returning to his home in Los Angeles. He was sent to India from Boston with complete equipments of laundry machinery, and established the first and only American steam laundry in Bombay.

Mr. Rodgers states that American machinery and American methods in India are supplanting those of European nations. There are about two hundred Americans engaged in business in Bombay. Almost everything manufactured in this country, says Mr. Rodgers, is shipped by carloads to India and finds there ready sales

Incidentally, Mr. Rodgers has a word to say on the subject of mosquitoes. The size of the little winged pests in India is several times greater than that of the far-famed Jersey mosquito, and their bite sometimes requires the attention of a surgeon. Seventy-five of the insects weigh an ounce.

LAID AT REST WITH HONORS

Military Escort For Remains of Former Major E. Douglass Murphey.

FUNERAL LAST EVENING

Conducted by Rev. C. E. Herring, the Young Man's Pastor—Told of His Work While at Southern Pines—A Cadet Escort for High School Battalion.

There were funeral services over the remains of Egbert Douglass Murphey, Jr., at the home of his father, 29 Sandford avenue, last evening at 8 o'clock, and the remains were escorted to the vault at Hillside by a detachment of the City High School battalion this morning at 10.

The home of the departed youth was thronged with his sorrowing friends last evening that they might look for the last time upon the face of the dead and might hear the words of Rev. Charles E. Herring, the pastor's tribute to the dead.

The simple services opened with the singing of the baritone solo, "Is My Name Written There?" a favorite hymn of the departed. After a brief prayer, Rev. Charles E. Herring spoke a few words of the lad's career and of his promising future, cut short by his untimely death.

He spoke of the boy's especial interest in religious work—told how he was a member of the First Presbyterian church and an earnest worker in the church Sunday-school and Christian Endeavor Society. He said that while Murphey was in the south, he was called upon to address a convention of colored people at Southern Pines, North Carolina. He spoke on the subject of "Lost Opportunities." In conclusion he said it would be his eager desire to form a Christian Endeavor Society before his return north. His health prevented this but the society has been formed and is known as "The Douglass Memorial Christian Endeavor Society of Southern Pines."

After words of comfort to the bereaved parents, the services closed with a brief prayer and the singing of the hymn "Will Jesus Find Us Watching." The body rested in state with stacks of guns at the head and foot and the American flag draped with crape resting across the stacks. The lad was buried in the uniform of the High School battalion, of which he was major and the sword, gloves and hat rested on the coffin.

The floral decorations were abundant and handsome. Among them was a large piece from the High School battalion and faculty where he was held in high esteem. A subscription started at the school for flowers resulted in the securing of $40 in the course of the morning. A part of this money will be used for the purchase of a picture, French's "Death of the Sculptor," to be hung on the walls of the school chapel as a memorial.

This morning the body was taken from the house to Hillside cemetery. A detachment of thirty men from the High School battalion accompanied the body. Commandant James D. Macnab was in charge and Cadet Captain Alden E. Moore commanded the detachment. At the cemetery there was a brief prayer by Rev. Mr. Herring. In conclusion the body was taken into the vault between the double lines of cadets and "Taps" was sounded by Buglers Thompson and Briggs.

The pall-bearers were Major Frederic T. VanAuken, Captain Francis K. Anderson, Ex-Adjutant Blanchard M. Fosgate, Adjutant George L. Babcock, Quartermaster Lucius T. Koons and Lieutenant Arthur F. Conant, of the High School battalion.

The lad is survived by his father and mother, Mr. and Mrs. Egbert D. Murphey, a younger sister, Ruth, and a younger brother, Chauncey.

PLANS FOR NEW BRIDGE

WHAT FREEHOLDERS ARE GOING TO DO AT GIRAUD AVENUE.

Somerset County Board Agrees to Everything Desired by Union County Men.

The new bridge which is to span Green brook at Giraud avenue is going to be a fine structure, according to the plans agreed upon by the committees from the Union and Somerset County Boards of Freeholders. It will be remembered that the Somerset Freeholders stood out against a modern bridge last year but a change of heart came over them this season and now they have agreed to all the ideas of the Union county men and erect a bridge that will be a credit to city and borough.

At the last meeting of the Union County Board of Freeholders, the appropriation for the bridge was raised from $1,700 to $3,500. Somerset's board will do the same. As now planned the bridge will be fifty feet wide, allowing for a ten foot walk on either side, and the span will be forty-five feet long, the length adopted for all the bridges over Green brook in this vicinity. Bids will be asked for three styles of bridges and the most reasonable one in cost will probably be adopted.

WORKED BRUNSWICK PASTORS

SAID HE WAS AN EPISCOPAL CLERGYMAN HAILING FROM PITTSBURG.

Departed Leaving Numerous Bills Behind—Said to be a Professional Swindler.

Plainfield people should be on their guard against a smooth looking individual wearing a clerical garb and representing himself as an Episcopal minister. This man who is about forty-five years of age has recently visited New Brunswick and called upon Rev. E. B. Joyce, rector of Christ Episcopal church; Rev. C. E. Phelps and Rev. Dutton Dale, rector of the St. John's Episcopal church, and departed leaving them with the unpleasant thoughts of having harbored a swindler of the slickest type.

The fellow represented himself as Rev. W. W. Raymond, of Pittsburg, who had a parish in the diocese of Rev. Bishop Whipple. He secured board there, introduced himself to the rectors in town and made such inroads into their confidence that Sunday morning he read prayers from the reading desk of Christ church, Monday secured some clothes, shoes, furnishings and a dress suit from merchants about town, Tuesday appropriated, it is said, some things from the boarding mistress and Wednesday skipped town an hour before a telegram arrived from Bishop Whipple exposing him.

It is said that the fellow has made a practice of going from place to place swindling Episcopal ministers. He made his appearance in this section some time ago when he represented himself as a Methodist divine. He is said to be one of the smoothest swindlers outside of jail.

WASN'T EXPECTING IT.

WAS HATCHETT SOBER? COURT THOUGHT NOT

Incident of "Growler Party" Made Trouble, and Participants Haled to City Court.

OTHER CASES IN COURT

GEORGE BUSS ARRAIGNED FOR ANNOYING A YOUNG WOMAN.

Judge Runyon Let Him Go With a Reprimand on Account of His Family—Hatchett Was Found Guilty and Fined $3.

George Buss, of South Second street, who is employed by the Safe Works and has a wife and five children, has a weakness for the fair sex. For the past few weeks, he has been annoying Catharine Nelson, who works for Dr. W. K. Browning, of East Fifth street. His attentions were not welcome and he was haled into court this morning before City Judge Runyon.

Buss was unable to offer any excuses for his misconduct, and the Judge arraigned him severely, although suspending sentence for the sake of his family.

Harry Hatchett, colored, is a member of a disreputable gang that is in the habit of "rushing the growler" in Fairchild's alley in the rear of L. M. French's carriage shop. Patrolman Nicholas Myers caught him at about 6 o'clock last evening, engaged in fisticuffs with Charles F. Miller, another young colored man. The fact developed before City Judge Runyon this morning that Hatchett had a slight "slant on" and threatened Miller with a knife because Miller remonstrated with him for speaking roughly to one of the "fair ones" in the growler gang. Hatchett informed the court that he had not been inebriated, although he might have taken aboard a few "boots." He was trying to be a "gemman," he said.

The Judge asked him if he was a "tank," and he denied the allegation. John Taylor, who knows a sober man when he sees him, testified that Hatchett had his troubles in navigating. The prisoner claimed that John didn't "tarry long" enough to be able to judge, but the court decided to accept the testimony as expert.

Miller was discharged there being no evidence against him, and Hatchett was given the choice of $3, or ten days. He decided that he would be able to spare the $3.

The case against John Konoko charged with disorderly conduct was adjourned to next Saturday morning as Counsel Newcorn, for the defense was out of town.

Surprise for Miss Walsh.

A surprise party was given to Miss Hattie Walsh, of Essex street, last evening. There was dancing, games and music, including selections by John Fritts, John Sweeney, T. Howes, William Firstbrook, the Laurel Club Quartette. There were about forty guests present. Miss Lillian Duckworth and Miss Annie Porter, assisted by the Laurel Club, arranged the affair.

For Complete Furnishing.

At the meeting of the Alis Club held last evening at its clubhouse on Arlington avenue, the house committee was authorized to furnish the clubhouse completely and money was voted to carry out this matter. A report was heard from the manager of the baseball team. Routine business was transacted and the club decided to adjourn to Friday evening, May 15.

A Few Interesting Items Concerning Greater Plainfield's Merchants

Even competitors will acknowledge that S. Scheuer & Company, the West Front street grocers and butchers, are in the lead in business. This is due to the fact that the firm handles such large quantities of goods that it is able to sell at a lower price.

The popular druggist in these days is the man who keeps a complete line of medicines and drugs and is able to compound them accurately. Such a person is Dudley S. Miller, of Park avenue. You will find his pharmacy one of the best in the State and he will give you prompt and satisfactory service at all times.

"There are more things in Heaven and earth, Horatio, than are dreamed of in our philosophy." FACTS ABOUT DRAIN NEAR STONY BROOK

Borough Health Board Considers Press Article As An Attack on That Body.

STORY SUBSTANTIATED

ALTHOUGH BOARD DOES NOT APPEAR TO BELIEVE ALL OF IT.

Statement From E. S. Hooley That He Did Notify Authorities About Drain a Year Ago—Reiterates Other Statements He Made.

To the Editor of The Daily Press:—The Board of Health of North Plainfield takes exception to the reflections cast upon it by The Press in a recent article and respectfully asks that a correction be made. It is not a fact that the gentleman referred to in that article "repeatedly called the attention of the health authorities to this drain" for nothing of the kind occurred, and the gentleman in question does not for a moment pretend that it did occur.

It is not a fact that the board has neglected or been indifferent to the condition of Stony brook, for the Inspector went up and down the stream three or four times last fall looking for drains and pipes, and he also examined it this spring.

As to the drain back of Rockview terrace it is not true that "a year ago the borough health authorities were notified, but the trouble was not remedied," for the trouble was remedied at once, and the connection promptly cut off. It is not true that this drain "has been daily emptying a stream of filth into the low land immediately adjoining Stony brook," for investigations shows that there are no house or cesspool connections whatever with said drain. It is not true that "a number of cases of typhoid fever have been reported among the boys during the last few years," because of the pollution of the brook or the "swimming pool" near by, for the records show the contrary.

Both drains have been carefully examined by the board. One was flushed and the other broken open, and nothing but surface or spring water could be found, and no "filth" whatever was discovered. Not only does the board feel that the attack upon it was utterly unwarranted, but it also feels that excellent citizens of high standing should not be accused of violating the laws when they are entirely innocent.

Andrew Love,
President North Plainfield Board of Health.
May 5, 1903.

(While The Daily Press has no desire to enter into any controversy with the North Plainfield Board of Health, we deplore the fact that a body of such reputable gentlemen should fall so greatly into error as this letter shows them to have fallen. Before the article about the drain into the low land adjoining Stony brook was published, a careful investigation was made. The writer, with three other witnesses including the owner of the property on which the drain emptied, visited the spot and saw the plug removed from the end of the drain and the liquid flow from it. There were solid particles in it which closely resembled sewage and it had a distinct odor. From the appearance and the odor, the opinion of those who saw it was unanimous that it was sewage.

In regard to any previous notification of the existence of the drain being given to the borough health authorities, The Daily Press has the best of authority to back its original statement. When E. S. Hooley, owner of the property on which the drain was found, was interviewed on the subject, he reiterated his former statement. Mr. Hooley said that he notified Mayor Smalley about the drain a year ago, that Mayor Smalley in turn notified Inspector Pangborn, who is the authorized representative of the North Plainfield Board of Health, that Inspector Pangborn visited the place, saw the drain and said that he notified the owners of the adjacent houses on Rockview terrace to stop using it. Mr. Hooley said further that a few weeks ago he again called the attention of Inspector Pangborn to the drain and that the Inspector said that he supposed the drain had been abandoned a year ago when he first notified the owners of the houses.

Furthermore concerning the character of the liquid passing from the drain, Mr. Hooley said that Inspector Pangborn made the statement Monday, April 27, in the presence of Dr. W. E. Honeyman, secretary of the board, that there was no question but what it was sewage that flowed out of the drain on Mr. Hooley's premises but that he was not so sure as to the character of the flow from the drain on Mr. Brooks' property.

A condition of affairs which affected the health of that portion of the borough came to the attention of The Daily Press and the facts were published without fear or favor. There should be no quibbling over details now. It was no attempt to throw the board into disrepute. We have believed that its members were trying to do their duty according to their view but we feel sure that the best interests of the borough would have been far better served if some members of that body had devoted the energy to evolving a method of sewage disposal for North Plainfield that they spent in trying to find fault with the disposal plant of the city of Plainfield. The Board of Health should be working in heartiest cooperation with the Borough Sewerage Commission and should aid that body as far as possible instead of refusing repeatedly to meet with the Mayor and members of the Commission for a discussion of the sewerage problem. —Ed.)

THEATRICAL.

Messrs. Montgomery and Stone, who are credited with two absolutely new creations, the Scarecrow and the Tin Woodman in "The Wizard of Oz" at the New Majestic Theatre, New York, have long been favorites in the better class of vaudeville theatres, but this is their first appearance here in an important production of extravaganza. On the other side of the water, Montgomery and Stone are equally famous, and they get a rousing reception from all classes of theatre-goers whenever they face an audience in the British metropolis. They are among the few American comedians who have had the honor of appearing before His Majesty King Edward the Seventh by special request.

Greeley Square is the heart of Greater New York, in a theatre sense, and the throbs there are felt throughout the arteries that extend east and west, north and south, throughout the busy, bustling, hurrying metropolis. Greeley Square is important from another fact—all these roads, streets and avenues lead direct to the Manhattan Theatre, where public interest, so far as the amusement world is concerned, is centred just at this time. Since "The Earl of Pawtucket" has made his home at this popular playhouse, it has to its credit the largest business known to any playhouse in New York. The Wednesday and Saturday matinees have grown into great popularity with women and children, and as a rule while the theatre is crowded at matinees, the seats are taken up by the fair sex to such an extent that few men are seen.

REMARKABLE COLLECTION.

Natural Wonders Now on Exhibition at Hahne & Co., Newark.

There is now on exhibition at Hahne & Co., Newark, a large collection of natural wonders, collected and mounted by the celebrated Professor T. A. Schurr, who has devoted thirty years of his life to this wonderful work. There are a few larger collections in the country, but there is none that is considered so uniformly fine.

The collection includes the rarest and most beautiful specimens of the zoological kingdom, and the aggregate value of them cannot be computed. There are in the collection two specimens of butterfly that are valued at a thousand dollars apiece. The locust family includes a specimen known as the wood horse of America, which is over a half foot long, and one of the rarest specimens. The praying bug is also a great curiosity. The collar bird of paradise is a most beautiful specimen, and is valued at $500.

There are also three hundred varieties of humming birds, from the smallest to the largest, and from the homeliest to the most gorgeous. The spider family is largely represented, and, while some are repulsive enough, there are many specimens of great beauty—at least to the naturalist.

The crocodile case attracts great attention, the specimens being very handsome, particularly one of silver gray, which is a beauty.

People Believe In It.

It has been cynically said that anything can be sold by advertising nowadays. This is not so. Many liniments have been advertised but only one—Perry Davis' Painkiller—has stood the test of sixty years' use. Today its popularity is greater than ever and is based not upon what anybody says but upon what the remedy does. There is but one Painkiller, Perry Davis'.

NEW LIQUOR TAX LAW

Governor Odell Signs the Greene Excise Bill.

IMPORTANT AND SWEEPING CHANGES

New York Druggists May Sell Liquor Without Physician's Certificate, but Each Pint Must Bear a Stamp.

ALBANY, N. Y., May 9.—Governor Odell has signed Senator Greene's bill amending the liquor tax law in the respects asked for by the state excise commissioner. It authorizes the appointment of a second deputy commissioner at a salary of $3,500 and under a bond of $20,000. It changes to half and half in accordance with the division of the excise receipts the proportion of various expenses to be paid by the state and localities and authorizes the employment of special assistant district attorneys to conduct excise litigation when required by district attorneys.

The most important change involved in the new law is the establishment of a system of stamp taxes or druggists' sales of liquor. Under this provision druggists may sell in quantities not exceeding one pint without a physician's certificate, but each such pint must bear a ten cent stamp to be furnished by the excise department. Only one such sale may be made to any one person on any one day. The sales are subject to all restrictions as to hours, no license votes and other matters, and a record of names, dates and quantity sold must be kept.

The bill also reduces the penalty on a tax bond to the amount, plus one-half, of the tax for one year at the place licensed provided that no penalty be less than $500. The police are to be notified immediately of the revocation of any license. The bill reduces from five to three years the time after conviction of violation before a new certificate can be issued, and it meets recent court decisions by striking out the requirement that the certificate holders' answer to a complaint must be a sworn statement certifying guilt or innocence.

It also concedes to the liquor dealers that a second conviction for violation in order to effect revocation of license must be the second within the same license year. A further concession authorizes the court upon conviction for a single sale of liquor without a license to impose a minimum fine of one-half the regular tax for that place for one year.

To Settle Omaha Strike.

OMAHA, Neb., May 9.—A plan for the settlement of the strike, which now involves more than 3,000 teamsters, restaurant workers, freight package handlers and members of the building trades, was reached late yesterday afternoon, in which Governor Mickey will be a prominent figure. The plan for the proposed settlement was reached after the governor had held extended conferences with leaders representing both sides of the controversy. It provides for the appointment of a committee of seven men from each side to represent the Business Men's association and the labor unions, who will sit with Governor Mickey as chairman. The committee will meet in Omaha next Monday evening to try to reach a basis of settlement. Meantime the labor leaders have given their pledge to do everything in their power to preserve peace and prevent violence.

A Canadian Westinghouse Company.

PITTSBURG, May 9.—The Westinghouse officials have taken steps to form a Canadian Westinghouse company for the purpose of manufacturing in Canada the apparatus needed to supply that market. In order that its plant at Hamilton and its real estate there may be utilized the Westinghouse Air Brake company will be included. The capital of the company will be $2,500,000, of which the Air Brake company will have $850,000 and the electric company $950,000, the remainder of the capital stock being taken at par by the Canadians, who are desirous of securing an important minority interest in this new company.

Actors' Home at New Brighton.

NEW YORK, May 9.—The first annual ceremonies commemorating the dedication of the Actors' Home of America were held at the Actors' home at West New Brighton, Staten Island. There was a large attendance of actors and actresses and their friends, who inspected the grounds and the building, which now contains twenty-three retired actors and actresses, guests of the profession. Addresses were made by Joseph Jefferson and F. F. Mackay, who were introduced by Daniel Frohman.

Thousands at Fireman's Funeral.

NEW YORK, May 9.—A large body of firemen, 100 sailors of the United States navy and about 5,000 other people attended the funeral of William McNally, the young fireman who was fatally burned trying to save a man at a tenement house fire in this city last Sunday. The jackies were from the battle ship Iowa, on which McNally served during the war. The services were held in St. Catherine's church, in East Sixty-ninth street, and the overflowing crowd filled the street.

Bubonic Plague In Peru.

LIMA, Peru, May 9.—The existence of bubonic plague has been discovered in the suburbs of Callao, and the people of that port are much alarmed. The authorities have closed and isolated a flour mill where certain suspicious cases have originated. Forty laborers who were employed in the mill have been quarantined. It has been decided to close the principal market of Lima and to confiscate all flour coming from the mill in question.

MANCHURIAN CRISIS

Russians, In Great Force, Reoccupy Newchwang.

CHINESE ARE READY TO FIGHT.

Russia Trys to Influence American Opinion by Appeals to Traditional Friendship and Holding Out Hopes of Trade.

PEKING, May 9.—The Russians, it is announced, have reoccupied Newchwang with a large force and have also put garrisons in the forts at the mouth of the Liao river.

It is reported that Russia was accumulating great stores of provisions and war materials. It is also known that the Russian military authorities have been buying many horses. All information indicates that Russia is preparing to increase her forces in Manchuria.

The Russians have taken a large tract of land across the river from Newchwang and commanding the terminus of the Shanhaikwan railroad. It was stated that Russia informed the Chinese officials that the tract was needed for a Russian drill ground. The selection of the site seemed remarkable, because all the troops were then quartered on the opposite side of the river several miles distant, where plenty of land was available.

The Chinese officials describe the dowager empress as being greatly distressed and as fearing that the Russian aggression will excite antiforeign demonstrations resulting in retaliation on the part of the foreigners and the introduction of more foreign troops.

Nowhere has a suggestion been heard that China will resort to arms in order to resist Russia.

Prince Ching, the grand secretary, secured five days' leave of absence. This is a favorite stratagem of Chinese officials who are desirous of avoiding unpleasant situations.

It is stated here that Russian influence is being exerted to conciliate American opinion and that appeals are being made to the traditional friendship of the two nations, with the argument that Russian development of Manchuria will open a great field for American commerce, while the opposition of the United States to Russia's plans might provoke retaliation against American trade.

The Russians have established a consulate at Mukden.

Russia's coup has caused profound surprise here, as recent developments have led to the expectation that Russia would compromise her demands since they had been revealed to the powers. The latest maneuver is interpreted as being intended as a reply to China's refusal to grant Russia's demands, to the protests of the powers, and as a declaration that she is ready to fight in order to maintain possession of Manchuria. It is considered significant that the Russian army reoccupied certain strategical posts at just about the time naval re-enforcements were reaching the gulf of Pechili.

Move Reseated at Washington.

WASHINGTON, May 9.—The state department has received official confirmation from its agents in China of the increase of the Russian garrison in Newchwang, Manchuria, and there is reason to believe if President Roosevelt approves that it is preparing to take vigorous steps in the matter. Secretary Hay is in communication with President Roosevelt in California, and upon the latter's decision the secretary's course will depend.

Collector Crum's Report.

WASHINGTON, May 9.—An account of Dr. W. H. Crum's fees and expenses for the month of April as collector of the port of Charleston, S. C., has been received at the treasury department. It aggregated only $56.89 and was included in the regular account of the Charleston office. Collector Crum has been informed by the department that his personal fees and expenses cannot be paid at this time, the law saying, "No money shall be paid from the treasury as salary to any person appointed during the recess of the senate to fill a vacancy in any existing office if the vacancy existed while the senate was in session and was by law required to be filled by and with the advice and consent of the senate until such appointment has been confirmed by the senate."

Cuban Congress Delays.

HAVANA, May 9.—The disposition to delay action on the pending treaties, coupled with the fact that the senate foreign relations committee still shows no indication of reporting the coaling and naval stations agreement made Feb. 15 between President Roosevelt and President Palma, is causing increasing doubt as to whether all or any of the matters will be disposed of before the close of the present session of congress. Congress is likely to adjourn within six weeks. The next session will begin in November.

The Hague Protocols.

WASHINGTON, May 9.—Baron Gevers, the Netherlands minister, and Baron Moncheur, the Belgian minister, called at the state department to announce the intention of the Netherlands and Begium governments to adhere to The Hague protocols and thus become parties in interest with Venezuela at The Hague.

Cornell's New Medical Hall.

ITHACA, N. Y., May 9.—Modest ceremonies to celebrate the construction of Stimson hall, Cornell's medical college, were held in the new school. Dr. L. A. Stimson of Cornell Medical college of New York city delivered an address.

KODOL Digests What You Eat.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Kodol

Digests What You Eat

Mrs. Loring Nichols of Penn Yan, N. Y., writes: After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

Kodol cures indigestion, dyspepsia and all stomach disorders, and gives the heart a full, free and untrammeled action.

Morris Park Races.

NEW YORK, May 9.—A. Featherstone's Ingold, backed down from 12 to 1 to 4 to 1, won the Larchmont stakes at Morris park. Ingold rushed to the front at the lifting of the barrier and, holding his advantage to the end, won driving by a head from the 40 to 1 shot Brigand. Contusion, the 4 to 5 favorite, broke down at the head of the stretch, and O'Neil eased her up. The St. Nicholas hurdle race was won by the 40 to 1 shot Seminole. The favorite, Big Gun, after taking the lead in the stretch fell at the last hurdle.

Results at Worth.

CHICAGO, May 9.—G. C. Bennett's American Derby colt, Au Revoir, backed from 12 to 5 to 2 to 1, beat a good field in a mile race, the third event at Worth. Linguist, another Derby candidate, was a hot favorite in the same race, but failed to get a place. In winning the fifth race at a mile and seventy yards Thane took a fifth of a second off the track record, his time being 1m. 44 2-5s. Weather fine; track good.

Golf at Washington.

WASHINGTON, May 9.—Continued fair weather favored the players competing in the spring tournament of the Chevy Chase Golf club. Some fine work was witnessed, notably that by Horstmann of the Chevy Chase club, who defeated Byers of the Allegheny Country club and Carnegie of the St. Andrews (District of Columbia) club in the first and second rounds respectively of the contest for the President's cup.

The Talent Beaten at Louisville.

LOUISVILLE, Ky., May 9.—While there were no stakes or special features on yesterday's programme, the fields were evenly balanced and the finishes close and exciting. It was a bad day for the talent, for but two favorites, Henry Bert and Play Ball, finished first. Weather perfect; track fast.

Boiler Explosion Wrecks Tug.

WILMINGTON, N. C., May 9.—As the result of a boiler explosion on the government tug Cynthia, tending a dredge at work in the Cape Fear river ten miles below Wilmington, Engineer Augustus Dicksey was scalded to death and three others of the crew were seriously but not fatally burned. The captain of a private tug passing saw the accident and brought the dead and wounded to Wilmington.

Mill Boys and Girls Strike.

LANCASTER, Pa., May 9.—Eighty boys and girls employed in the spinning room of the Columbia Silk mill at Columbia have struck for an advance of 33⅓ per cent. The management locked the strikers in the spinning room, but the boys got out by means of a fire escape. The girls then battered down the doors and left the building.

MACHEN OFF DUTY.

Postmaster General Relieves General Superintendent.

INSPECTOR FOSNES IN CHARGE.

Action Taken on Recommendation of Bristow, Who Directs Investigation of Department to Expedite His Work.

WASHINGTON, May 9.—The investigation of the affairs of the post office department, which has been dragging along for two months, took a sensational turn when by order of Postmaster General Payne August W. Machen, general superintendent of the free delivery system and one of the most widely known government officials in the United States, was relieved from his duties and Post Office Inspector M. C. Fosnes was designated to take charge of that service. The change will take effect at once, and Mr. Fosnes will assume charge of the free delivery service, and at the same time that service will pass under the control of the office of the fourth assistant postmaster general.

The action of the postmaster general was taken on the written recommendation of Assistant Postmaster General Bristow, who is directing the investigation of the affairs of the department, that the transfer of Mr. Machen's bureau to his jurisdiction and its administration by a post office inspector would expedite the investigation. In ordering the change recommended the postmaster general gave Mr. Machen "leave of absence until the investigation is concluded." Mr. Machen promptly acquiesced in the decision of the postmaster general, taking occasion to say in doing so that he courted the fullest investigation of his official conduct.

Mr. Machen has been under fire ever since the investigation began. Charges of various kinds have been preferred against the administration of the free delivery branch of the postal service. These include allegations of collusion with letter box manufacturers in the furnishing of boxes to post office patrons, particularly on rural mail routes; the furnishing of advance information regarding the selection of routes and the appointments of carriers, etc.

There also has been a conflict between Mr. Machen and First Assistant Postmaster General Wynne ever since the latter assumed office. Mr. Wynne charges Mr. Machen with insubordination. The strained relations between the head of the free delivery service and other officials resulted in an embarrassing state of affairs, and for several months correspondence between the general superintendent of the free delivery service and his immediate superior, the first assistant postmaster general, has been conducted on the part of the former through one of his subordinates.

Mr. Bristow all along has been of the opinion that the best interests of the service would be served by the relief of Mr. Machen and has pointed out to the postmaster general that that action was imperatively necessary to the successful conduct of the investigation.

Mr. Machen came here from Toledo, O., in 1893 and qualified as superintendent of the free delivery service on May 6 of that year. Since then the office has grown to immense proportions, and the rural free delivery service has been introduced and extended to cover all parts of the country.

Mr. Fosnes is one of the best known inspectors in the service. He is chief assistant of Mr. Bristow in the investigation. He is a native of Norway, where he was born in 1851, and his home is in Des Moines, Ia. He was once a special examiner of the pension bureau and subsequently served as post office inspector at Philadelphia, Chicago, Helena, Mont., and St. Paul. He is still post office inspector in charge of the St. Paul division. He is best known in connection with his investigation of the postal frauds in Cuba.

To Relieve Germans In Antarctic.

ST. JOHN'S, N. F., May 9.—Captain Nichaus, the German naval officer who is here seeking to hire or purchase a sealing steamer to proceed to the antarctic regions to relieve the German exploring expedition which left Kiel in August, 1901, on board the steamer Gauss, probably will purchase the steamer Southern Cross. This vessel already has been to the antarctic with the Sir George Newnes expedition under Borchgrevinck. She has been docked for inspection by Captain Nichaus.

Oil Ship Lost?

NEW YORK, May 9.—It is the general belief in shipping circles that the steamer S. V. Luckenback has been lost at sea. She was engaged in the tank oil trade and left Sabine Pass, Tex., March 22, bound to New York. She should have made the trip in about seven days. She took from Sabine Pass, which is the point of call for the Texas oil fields, 1,100,000 gallons of petroleum. There were thirty-three men all told on the ship, and it is thought that none of them escaped.

Clyde Strikers Disowned.

OUR ANNIVERSARY.

In these days of feverish business activity, but little time is given to the consideration of the happenings of the past or the possibilities of the future.

It is the present that is all important. It is wise, however, to stop occasionally to call to mind what has been accomplished and plan a little for the future. For The Daily Press, there can be no more fitting time for such retrospection than now on the eve of the sixteenth anniversary of the establishment of this newspaper.

Sixteen years have made a wonderful change in The Daily Press. Sixteen years ago tomorrow this newspaper was launched upon the public by the publishers of the Constitutionalist, W. L. and A. L. Force. They were confident that there was a field for such an enterprise and their confidence was not misplaced. Time has proved that. Unlike some business concerns, The Daily Press did not go up like a rocket and come down like the stick. Its growth, from the time of its establishment, has been a healthy and natural one. Steadily it has come to the fore until today it is recognized as Plainfield's leading newspaper, the best advertising medium and with a circulation 700 more than any daily newspaper in Plainfield.

Why has this success come to The Daily Press? Because it has pursued a consistent course during those sixteen years. It has been run on sound business principles and has given the news truthfully and without bias. Its news columns contain the facts. Its editorial column is independent and looks to serve the best interests of the people of Plainfield without regard to politics. It is never used to settle personal grievances or to assist in practical jokes.

While The Daily Press is not given to self-praise, we cannot but feel proud of The Daily Press and the position it has now reached. It is respected and trusted by the people of Plainfield and we appreciate their respect and trust. We will try to live up to them. Every effort has been made in the past to improve this newspaper. Important improvements have been made in its equipment and corps of workers. Others are now in contemplation.

Even the last twelve month has seen a substantial growth in The Daily Press. Without exception, advertisers who tried the efficacy of our advertising have increased their space. And best of all, we can truthfully state that there is not a single advertiser who is not paying rates according to the schedule laid down. Then, too, the news columns are not crowded with reading notices.

The most important happening of the year was the terrible Westfield disaster. It was covered more accurately and completely than in any other newspaper. Despite the fact that the editions of those days were enormously enlarged, they could not supply the demands. Everybody wanted the most authentic account and copies of The Daily Press were sent all over the world to carry the news of this terrible catastrophe. Other events have been chronicled as well and the public has come to learn that the news is best and most accurately told in The Daily Press.

The Daily Press now begins its seventeenth year under most auspicious circumstances. We make no promises save that we will do our best. Those who have stood by us in the past we thank. We desire their patronage to continue. It may be that we may make occasional mistakes. If we do, bear with us for we are but human. Our efforts will be constant, however, and no stone will be left unturned in the work of publishing Plainfield's best newspaper.

Those who remember the success that met "Patience" as produced at the Casino by local talent under the direction of William Holmes last year will not hesitate in turning out for his production of "The Pirates of Penzance" at the Casino this season. Mr. Holmes has been particularly fortunate in surrounding himself with talent of unusual ability both in a musical line and as actors. Then he has a chorus of which any leader might be proud. The play is one of Gilbert and Sullivan's tuneful comic operas and its presentation will be one of the musical events of the year.

The Plainfield Children's Home Association has met a serious loss this year in the reduction of its sustaining members by death and removal. That very worthy charity has never been overburdened with funds and this loss promises to reduce the amount of capital at its disposal unless some of its friends come to the rescue.

The omission by The Daily Press of Craig A. Marsh's name as the lawyer who obtained the $15,000 verdict in the Searles damage case was not intentional. Mr. Marsh gains so many verdicts like this and the Spicer verdict which was larger yet, that he will hardly miss the accidental omission referred to.

According to the Philadelphia Record, a Michigan furniture man says he began to advertise in newspapers outside the State when he could afford to expend but $10 a month on that account. He has built up such a business ("all done by advertising") that his advertising bills now average $5,000 a month.

It was pleasant to note that the bonds for the new fire department headquarters in the borough went to a local financial concern. With four banking institutions in Plainfield, all in the best of condition, municipal bonds should go to one of them whenever possible.

Somerset county is becoming wonderfully generous these days. It has now agreed to assist in building a first class bridge over Green brook at Girard avenue and has accepted the ideas of the Union county Freeholders. Surely Somerset must be getting worried.

A number of Plainfield commuters have asked the Jersey Central Railroad to add a train to its afternoon service for the accommodation of those who can leave the city shortly after 4 o'clock each afternoon. As it is they now have to wait for the 4:40 train.

It is really better that the name of the Public Utilities of New Jersey was not adopted for the trolley merger. The Public Service Corporation of New Jersey expresses the situation much better.

It is rather disquieting to learn that while the new challenger has outsailed the old Shamrock, the new cup defender has not come up to the work of the yacht Columbia.

SUBURBAN NEWS

A Department Devoted to the Minor Events in Greater Plainfield's Suburbs by Our Own Correspondents.

DUNELLEN.

A large crowd of local "fans" are in Plainfield this afternoon witnessing the game between the Hope chapel Y. M. A., and the locals. Judging from former games this ought to be one of the hottest of the season. The locals will be strengthened by the addition of McQuade, the former Eastern Leaguer. He will play behind the bat, where he will greatly help the team. Brown will play first base.

When the management of the Watchung A. C. learned that the Dunellen A. C. would not play in town this afternoon they had their game with the Netherwood A. C. for this afternoon transferred here. It will be played on the Lincoln avenue grounds.

Letters are at the postoffice uncalled for, this week, for Miss Mary Ann Trupp, and Mrs. Freeda Shieley.

The Levering & Garrigues factory ball team will play a Bound Brook aggregation this afternoon.

Robert Patterson, of Portchester, N. Y., was a visitor with friends in town during this week.

Defender Fire Company was out for a wash last evening under direction of Chief Wyhuskey.

Miss Edna Smalley, of East Orange, has been visiting her aunt, Mrs. L. B Nelson.

The Banjo Club will give an entertainment in New Market in the near future.

Dr. P. W. Brakeley was in New Brunswick on business yesterday.

Ex-Mayor Swackhamer still remains in about the same condition.

Both local teams held practice on their grounds last evening.

P. M. Ising visited in Plainfield yesterday afternoon.

North avenue will shortly receive a coat of top dressing.

Willard Apgar's new house is slowly nearing completion.

David Smith, of New York, was in town last evening.

Paul Reusch has recently purchased a new carriage.

NEW MARKET.

Miss Mabel Whitford, daughter of Dr. W. J. Whitford, has recently won the prize offered by a Newark newspaper for the best story by a child.

The ball team was out for practice last evening. A game with the Y. M. C. A. is being played here today.

Miss Laura Dent has returned home after a visit with friends in Easton, Pa.

Mrs. Lillie Gaskill has been ill at her home during the past week.

Rev. L. E. Livermore will occupy his pulpit again today.

PLAINS AND FANWOOD.

With the advent of city water, the local fire department will undergo a decided change. The old hand engine, which has done good service for several years, will be relegated as a thing of the past. The truck will be kept on duty as well as the chemical engine but the principal apparatus will be the hose cart. The changes cost the department nothing unless more hose is needed as a hose carriage and several hundred feet of hose has been used in connection with the hand engine.

Scotch Plains is a mecca for those out with their automobiles, especially on Sundays. The new State law, which allows twenty miles an hour, does away with the township ordinance which regulated the speed to ten miles per hour and the chauffeurs take the limit of the law when they strike the good roads, especially when they get a straightaway course like Mountain avenue.

The Brookside Gun Club, which was organized during the winter by a number of the followers of baseball, will remain a permanent organization. The members will return to trap work as soon as the baseball season closes. Several meets may be held by the club during the coming summer.

Decoration Day is only three weeks away and while no definite arrangements have yet been made for the observance of it, the usual programme will no doubt be carried out and the graves of the fallen heroes buried here will be decorated as in the past.

Mr. and Mrs. Frazee Ryno, who have been boarding with Mr. Ryno's parents for sometime, will resume housekeeping again in the near future, having rented the Hunter property on Stanbery avenue.

Services at the Baptist church tomorrow will be as usual. Sunday-school, 9:30; morning preaching, 10:45; B. Y. P. U., 7; evening preaching, 7:45.

Geo. W. Marsh is having the barn at the rear of his property on Front street torn down. The change will make an improvement in the property.

The promise of better service by the trolley company has failed to realize as yet. The schedule is upset nearly every day, the same as in the past.

Chas. Layton, who has been suffering for several weeks with a severe attack of inflammatory rheumatism, is able to be around again.

There will be the usual Saturday evening dance at Earle's pavilion tonight. Naylor's orchestra will furnish the music.

The local baseball team and the St. Mary's, of Plainfield, are battling for supremacy on the local diamond this afternoon.

Constable Robert Walpole has been appointed one of the court constables for the May term of court at Elizabeth.

Rev. Mr. Shaw will have charge of the weekly prayer and praise service at the Methodist church tonight.

Constant agitation will eventually land something in the way of sidewalks for the borough residents.

The Misses Marsh, of Front street, have been entertaining out-of-town friends for a pleasant visit.

John H. Coles has been making some improvement about his property on Park avenue.

The Seeley cottage on Stout avenue has been rented to a Cranford party.

Miss Susie L. Parse was the guest Friday of friends in Plainfield.

SOUTH PLAINFIELD.

Rev. J. A. Cubberley will speak tomorrow morning at the Baptist church on "The Surrendered Life." At the evening service "The Host Invited by the Guest." The Holy Communion will be observed at the morning service, and new members will be received.

Morris Higgins moved Mr. Wagner and family, of Newark, into part of the house now occupied by Michael Humphrey.

The Patriotic Order of America will hold a dime social at the residence of Mrs. William Force, Tuesday evening.

The Christian Endeavor meeting will be led by H. J. Manning tomorrow night at 7 o'clock.

Miss Nellie Manning spent yesterday at the home of her brother in Newark.

Howard Teeple has returned home after an extended visit with relatives here.

Miss Grace Terrell is the guest of relatives in Newark.

Planning Lawn Party.

The Young Women's Club met at the home of Miss Mabelle Firstbrook, of Liberty street, last night, and a social time was enjoyed. Games and refreshments were the features of the entertainment. A lawn party was planned for some time in the near future.

Furniture Department.

An important announcement is made by Hill & Shupp, the dry goods merchants, today. Monday the firm will open a first-class furniture department at its store.

TRADE CONDITIONS.

R. G. Dun's Review Tells of the Week's Results.

NEW YORK, May 9.—R. G. Dun's weekly review of trade says: Unrest in the ranks of labor has increased rather than abated since May 1, when difficulties of this sort usually culminate. No single struggle of great magnitude is in progress, but the frequency of small strikes is disturbing, and in the aggregate a large force is idle, while important industrial undertakings are checked. This is notably the case as to structural work, of which a large amount has been contemplated. Good reports are received from footwear factories, shipments from Boston for the year thus far surpassing all records, and clothing makers receive duplications of spring orders in addition to getting out fall samples.

At Baltimore there is great activity in the manufacture of straw hats and negligee shirts, while paper mills at Philadelphia find conditions satisfactory. Weather reports are irregular, stimulating retail trade at some points, but more often retarding the distribution of merchandise. Prices of commodities declined slightly during April, Dun's index number falling from $99,267 to $98,561. A year ago the highest point of recent years was touched at $102.289. Railway earnings were 13.4 per cent larger than in last year and 28.7 per cent above 1901.

Cotton attracts most attention in the markets for the great staples. The south reports the crop late, and injury has been done in many states, although the large acreage will probably make up much of the loss.

Grain has not maintained last week's position, no definite reports of injury being received, although farm work has been retarded by unfavorable weather. Unsatisfactory conditions at flour mills contributed to the easier tone of wheat.

Failures for the week numbered 175 in the United States against 218 last year and 22 in Canada compared with 24 a year ago.

DEFENDS ROCKEFELLER.

Chancellor Andrews Denounces Oil Magnate's Detractors.

CHICAGO, May 9.—A dispatch from Lincoln, Neb., says that in an address before the students of the University of Nebraska Chancellor E. Benjamin Andrews has referred to a proposed gift of John D. Rockefeller and defended the latter.

"The Standard Oil trust has not offered any money to anybody," the chancellor said. The gift, he declared, was offered by John D. Rockefeller, who had drawn but a small part of his wealth from the Standard Oil company, the remainder being drawn from railroads, mines and other enterprises that are important to the country.

"Rockefeller came up from the ranks," he continued, "and I have occasion to know that many of those who have inherited their wealth are using every means of vituperation against him, including the newspapers."

Labor Quarrel Causes Strike.

WILKESBARRE, Pa., May 9.—The laborers at the Boston mine, operated by the Delaware and Hudson Coal company, are out on strike on account of the miners asking them to stand half of the dockage. They refused to do so, and in order to compel the miners to continue with the old system they left the mine and resolved not to return until the order was rescinded.

Hardware Man's Body Found.

OGDENSBURG, N. Y., May 9.—The body of Stephen H. Higbee, a prominent hardware dealer of Ogdensburg, who disappeared on April 9, has been found in a field fifteen miles from here. Mr. Higbee, who was seventy-three years old, is supposed to have wandered about the country until he succumbed to exhaustion.

Rosedale and Linden Park Cemeteries

Largest Burial Parks in the State.

Transportation Facilities superior to those of any other cemetery, as to number of trains, railroad fare, time and distance.

These New Cemeteries, now being developed on the modern park plan, are attracting universal attention.

By Reason of Location Alone they are destined, in a very short time, to become the best-known Cemeteries in the country and, with their natural advantages, the most beautiful and desirable in which to purchase lots.

They are Accessible from every quarter and within easy reach of over 4,000,000 people, and, considering the steady and rapidly increasing growth of Greater New York and its tributary cities and towns, it is only the question of a short time before plots in Rosedale and Linden Park will equal in value those of our most noted cemeteries.

Popular Favor has already been shown to a marked degree in the sale of lots, several hundred having been sold to residents in Elizabeth, Linden, Rahway, Cranford, Jersey City, Orange, Paterson, Westfield, Newark and New York City, and a large number of interments have been made.

In the Days of Happiness we do not know what is to befall us or when the inevitable will occur; therefore, it is a wiser precaution to make provision for a final resting place during health and life than to force the painful duty on one's friends or relatives after death. A place of burial will be needed sooner or later by every one, and no one should neglect selecting a suitable and proper place until future postponement is impossible.

Linden Lodge is the largest, most modern and best equipped Cemetery Lodge in the country, and is provided with every requisite for the comfort and convenience of visitors who come to inspect the properties.

The Girl Who Is a Thoroughbred

"IT'S mostly by the things she doesn't do that one knows her."

"Ah!"

"For instance, she never whines. That, I do believe, is one of the first attributes of the thoroughbred woman or girl. She bears her own troubles and doesn't force her friends to bear them for her. When the girl who isn't the real thing has even a finger ache, the whole world knows it, the whole world has to feel the twinges of that finger ache. When the thoroughbred girl has a heartache—a breaking heart—no one knows its existence under the smiling exterior she wears. In fact, it is principally in sorrow and in adverse situations that the thoroughbred strain comes out. It is easy enough to present an imposing appearance when all goes well; it is not so easy to stand upright when one is crushed by circumstance. It is a noticeable point about the thoroughbred girl that while she may not always shine in favorable surroundings the minute she has anything to endure—the more she has to endure, in fact—the more she rises to the occasion."

"You remark the same thing in thoroughbred horses, I believe?"

"Yes, in a team of horses, if there are three beasts of ordinary degree and one thoroughbred, the thoroughbred does three times his share of the work and fairly dies in the harness."

"Well, there are other points"—

"Dear me, yes! You can never make the real thoroughbred girl uncomfortable or ill at ease unless she has done something she knows is wrong, something against her own principles. She has a calm, sure poise which nothing can disturb, certainly not the actions of her inferiors, when they show themselves to be such."

"And the thoroughbred girl never gossips?"

"Certainly not. When she has something to say she says it whether it be good or bad, but she doesn't make conversation out of it. She is above that."

"And she has a soul of honor?"

"Yes; like a man—I beg your pardon—like a man thoroughbred. There is the other kind of man, too—the male mongrel, who resembles the woman of his kind."

"And she keeps secrets?"

"She forgets them after they have been told to her, and she doesn't even know what you are talking about when you refer to them."

"And she is not politic?"

"She gives favors, big or little, according as she is situated. She particularly dislikes to take them. She never asks for them."

"And she is not curious?"

"She may be so inwardly, but she never reveals the fact. What one is willing to tell her she accepts, but she

THE MONGREL WOMAN'S WAY.

never digs for knowledge, and the fact that a friend of hers wishes to conceal a thing makes it distasteful to her to know that thing."

"And her treatment of servants?"

"Ah, that is a sure sign! She treats them as if they were human beings. The mongrel woman orders them as if they were slaves."

"But she sometimes has a temper, your thoroughbred woman?"

"Right you are, but it is a royal temper. It never causes her to appear undignified, to raise her voice, to grimace, to show herself at her worst. A few words spoken in an even lower tone of voice than usual—show her anger."

"But is she a saint? Does she never take revenge?"

"Revenge? No; she is too proud for that. Small slights, even those that hurt a great deal, she passes over in silence, merely foregoing the acquaintance of the person who showed them. When, however, some one near or dear or weaker than herself is attacked and there is a necessity for defense, then she does strike once, and once only, a clear, merciless, deadly stroke. You never find her bungling it or nagging. But in her scale of justice she has such a large view of the world that mercy more than outweighs punishment."

"And that's what half the women one meets are trying to be—thoroughbreds?"

"Yes; it's a fad now, and the appearance is not so hard to put on. It's when the real test comes, however, that the veneer cracks off. But as for the real thoroughbred woman—she is about the best, the truest, the most worthy of being loved in this world."

MAUD ROBINSON.

MYSTERY OF THE BAYOU WOODS

By WALKER HENNEDY.

Copyright, 1903, by A. N. Kellogg Newspaper Co.

He then gave a detailed account of his investigations. Col. Franklin listened attentively to the story without interruption and without betraying whether or not he was impressed with the young journalist's ingenious theories. When the story was finished, he sat lost in thought. He was evidently bringing to bear upon the evidence presented all the powers of his astute intellect. At length he said: "Your story is certainly startling, and you deserve great credit for the interest you have taken in the matter. I believe that your investigations will aid materially in solving the mystery, and I thank you for putting me in possession of such facts as you have."

This was all the satisfaction that Warde could get out of the lawyer, and he was visibly disappointed; but he knew that Franklin was not the man to catch at every plausible surmise offered, and, after obtaining from him the main events in the life of the cotton king for biographical purposes, he took his departure after agreeing to inform Franklin of any new discoveries on his part.

"I shall need every assistance possible in unwinding this tangled skein and you may aid me materially," said the great lawyer with a flattering smile as he bowed him out.

CHAPTER V.

The Wright place was one of the oldest homesteads in the country, but neither time nor war had dismantled it of its old-time grandeur. The sharper tints of the dwelling had been toned down, and there was left the soft reposefulness and aristocratic old age. Good care had been taken of it by the Wrights, who had kept it in thorough repair and enhanced its interior decoration. The long avenue, sentinelled by trees, leading to the house, was scrupulously gravelled, the trees were trimmed with care, and the lawn in summer was as smooth and soft to the eye as green silk.

The house itself was an example of the magnificent in structure. It had a long piazza, spacious halls and big rooms. Seen in summer, environed by the green foliage, it was very cheerful and inviting, but in winter its outward semblance was one of gloom and melancholy. One could easily imagine that it was hiding some unpleasant secret behind its massive walls. On Irving Warde this impression was deepened on the cold, cheerless morning of the inquest when, in company with his friend, the chief of police, he drove up the carriage way. The murky sky seemed somehow to have become entangled in the uncanny arms of the black trees, and the grayness of the earth added to the cheerlessness.

An unusual commotion reigned about the place. The negro servants were in a flurry of excitement and the neighbors were arriving in twos and threes, ostensibly sad, but devoured by curiosity. Each one present had his own theory of the murder, and a great many gratuitous suspicions were bandied about in the crowd. Warde was content to use his ears and eyes while he waited developments. Perhaps among those present stalked the bold perpetrator of the crime. This thought made him silent and watchful, and he soon became absorbed in the contemplation of some of those who had arrived.

Franklin also was there and taking a marked interest in the inquest, for he talked a great deal with the coro-

"HE TALKED A GREAT DEAL WITH THE CORONER."

ner and whispered with the chief of police and the sheriff, and occasionally he could be seen interrogating some person who appeared to have a story to tell which might throw light upon the tragedy.

When the coroner was ready to take up the examination the crowd repaired to the apartment where the body had been deposited. There were two parlors, which, by means of sliding doors could be merged into one room almost large enough to accommodate those present. Those who could not get in stood in the halls and managed to hear the testimony.

None of the deceased's family was present except the young man who had given the police the information about the murder. Under police surveillance he wandered up and down the hall pale and unhappy, apparently absorbed in reflections by no means wholesome. Curious eyes were often turned toward him, and frequently eyes that had another light than of curiosity in them, but he seemed oblivious to it all, although being under arrest he knew that suspicion pointed to him.

His mother and sister were said to be very much unnerved by the tragedy and remained in their rooms until they were compelled to testify.

When the jurors had taken their seats and everything was in readiness, an examination of the body by the coroner revealed the fact that Wright had been shot in the back of the head, and at close quarters, too, as was evidenced by the powder burns on the hair. And the inference was unavoidable that the murderer had been walking behind his victim, and that the latter did not expect the attack. He must also have been fully aware who it was that walked thus behind him, for the squareness with which the blows had been dealt showed that he had not turned his head in suspicion or curiosity.

The first witness examined was an old negro, who was evidently in grave doubt whether the coroner would send him to jail for life or order him hanged on the spot should aught go amiss with his testimony. His terror gave an incongruous element of comedy to the serious business on hand. He took his seat gingerly and the coroner began to question him.

"What's your name?"

"London, sah," was the answer.

"London?" said the coroner, in surprise.

"Dat's my name. Ef you doan bleeve me you can ax de mistes ef hit ain't. I done tole you de truf."

"I dont' doubt that, old man," said the coroner, repressing with an effort an inclination to smile. "Now tell us your last name."

"Wright, sah. I jes' calls myself London Wright, sah."

"Well, London, we want to get out of you what you know about this murder."

"Lordy, boss, I doan know nuthin' 'bout it. I clar ter goodness I didn' hab nuthin' ter do wid it. Mars John always done treat me well."

"Nobody thinks you had anything to do with it, London," the coroner said, reassuringly, "but there is some information that you can give us perhaps. Tell me, were you at home the day before Mr. Wright was killed?"

"Yes, sah; I wus dar."

"Did anybody call on that morning?"

"Yes, sah."

"Who was it?"

"Well, young Mr. Wright wus one. Tudder man I doan know who he wus."

"Mr. Wright had two visitors then?"

"Yes, sah."

"Who got there first?"

"Dis udder man."

"Can you tell me what this other man looked like?"

'No, sah. I did'n see him; I on'y heyrd him. You see Mars Wright he sen' me ter clean the gun up fur him, 'caise he gwine huntin' nex' day, an' he tole me soon's I got it fixed ter fetch it ter him in de library. W'en I done git it cleaned an' teck it ter him, I foun' de libray doah wus shut an' locked, an' I hearn two pussons talkin' in dar kinder low. W'en I knocked, Mars. Wright he comed ter de doah an' he holler froo ter bring de gun back later; dat he wus busy den. Well, I go out ter de stable an' feed de hosses, an' in 'bout half er hour I went back an' gib Mars Wright de gun. De stranger whoeher he wus, wus done gone."

CARNEGIE AT THE HEAD.

Great Library Dispenser Presides at Iron and Steel Institute Dinner.

LONDON, May 9.—Andrew Carnegie presided last night at the annual dinner of the Iron and Steel Institute at the Hotel Cecil. Prime Minister Balfour was seated at the right and the Duke of Devonshire at the left hand of the chairman. The 550 guests present included Ambassador Choate, Secretary White, Lord Alverstone, Sir Henry Fowler, Sir Henry Campbell-Bannerman, John Morley, James Bryce and other prominent persons.

Seldom has a citizen of a foreign country been the center of a more brilliant gathering. Mr. Carnegie struck a happy note at the outset when he toasted King Edward as "the greatest of ambassadors and the greatest harmonizing force" and kept Premier Balfour in peals of laughter at his American anecdotes. Sir Henry Campbell-Bannerman made an amusing speech in which he chaffed Mr. Carnegie with having his heart in Scotland, although he had temporarily assumed foreign citizenship.

The speeches of the evening referred to a great extent to the relations of capital and labor.

Almost all the speeches eulogized Mr. Carnegie, Sir Henry Fowler particularly referring to his priceless services in promoting the friendship of the United States and Great Britain. These allusions were all warmly cheered. The toast to Mr. Carnegie's health was received with the singing of "For He's a Jolly Good Fellow" and three cheers and "another for Mrs. Carnegie." Mr. Carnegie's response was in a humorous vein and elicited constant laughter.

SENATOR SCOTT IN PARIS.

American Workingmen and Soldiers Are Best, He Says.

PARIS, May 9.—Senator Scott of West Virginia is here, after visiting Egypt, Turkey, Italy and Germany, making a study of the conditions of the European working classes as compared with American working people and also making an investigation of the equipment and condition of European soldiers as compared with American in connection with the senate military and other committees. He said:

"I have visited the homes of working people in a number of European cities, examining how they are housed, clothed and fed, and I am convinced that four-fifths of the American workers have higher wages and better homes, food and clothing and more of all material comforts than the average middle classes in Europe and are immeasurably better off than the working classes of Europe. I particularly observed the widespread use of hand labor, which is the only means remaining to keep the European masses employed, with the result that it places European hand labor far behind the American machine labor and fetters the industrial progress of Europe.

"I saw the British soldiers in Egypt and also those of most of the other leading armies of Europe in camp and garrison, and I consider our troops better from every view point, particularly education and general intelligence. The European soldier impresses the American as being a mere machine, moving automatically, incapable of intelligent, initiative action."

BEDOUINS CAPTURE CONVOY.

French Baggage Train a Prize of Desert Tribesmen.

ALGIERS, May 9.—A French convoy has been attacked by tribesmen in the Figuig district. The baggage train was captured after fighting in which thirty men were killed.

The attacking force was composed of 600 horsemen and 900 men on foot of the Uladjerir and Benaguil tribes. On Thursday night they attacked the convoy near Taghit, seventy miles from Figuig. The French baggage train was composed of 500 camels loaded with provisions and clothing. The tribesmen carried off everything.

Thirty men were killed and eighteen were wounded. The tribesmen displayed great temerity in their onslaught. They are camped in the middle of French territory at the confines of the Zousfana valley.

Firm Against Carpenters' Demands.

PHILADELPHIA, May 9.—The Master Carpenters' association has decided to stand firm in its refusal to grant the demands of the Brotherhood of Carpenters and the Amalgamated Association of carpenters, whose members have been on strike since May 1. The meeting was attended by about 150 master carpenters. There are about 6,000 carpenters on strike, and probably a thousand additional building craftsmen who are dependent upon the carpenters are idle. The demands of the striking carpenters include 50 cents an hour, an eight hour day and Saturday half holiday.

Did Jones Rob Uncle Sam?

NEW YORK, May 9.—John E. Jones, a discharged clerk in the post office at Englewood, N. J., has been committed to the Hudson county jail on a charge of embezzling from the government and of burning letters in the post office stove. Jones said that he had soaked the stamps from two foreign letters, as he wanted them as curiosities.

Southern Baptist Convention.

SAVANNAH, Ga., May 9.—The forty-eighth annual session of the Southern Baptist convention was called to order in the First Baptist church by President James P. Eagle, ex-governor of Arkansas. Notwithstanding a disagreeable northeast storm the auditorium was crowded, there being 1,767 delegates in attendance.

Savilton Post Office Robbed.

NEWBURG, N. Y., May 9.—The post office at Savilton, Orange county, has been robbed. Both stamps and money were taken.

SPORTING NEWS

GOLF.

The second team match of the season at the Hillside Tennis and Golf Club will be played today between Hillside and the Harbor Hill teams. Captain Morris J. Dumont is now selecting his men for the team.

T. R. VanBoskerck, of this city, was a member of the Produce Exchange golf team which won the match Thursday, with another team from the Exchange. The match was played on the Knollwood Golf Club course.

Captain Morris J. Dumont has selected a ten men team to play Harbor Hill this afternoon on the Hillside Tennis and Golf Club course. Mr. Dumont will be unable to play, and he has secured A. R. Fisk to act in his place. The team will play as follows: W. L. Glenney, Howard deP. Wright, A. R. Fisk, Robert Abbott, Dudley H. Barrows, C. Westley Abbott, Dr. B. VanD. Hedges, F. C. Ard, Thomas R. VanBoskerck and Walter Peterson. The team has arranged another match with the Hackensack Golf Club team on the latter's course, May 23.

WHIST.

The monthly meeting of the New Jersey Whist Association will be held at the Newark Bay Boat Club, 47 West Thirty-fourth street, Bayonne, Wednesday evening, May 13. There will be prizes to winning pairs, as usual.

The Forest Hill Whist Club team, challengers, defaulted to the Camera Club Whist team, holders, last evening, in the play for the Metropolitan challenge trophy. The local team received a telegram early in the evening announcing that the challengers could not come to Plainfield. This does not affect the standing, except that the Forest Hill Club will go to the foot of the list. The next challenger will be the Knickerbocker Club, of New York, and the match will probably be played during the latter part of next week.

BASKET BALL.

What will probably be the last basket ball game of the season will be played Tuesday evening at the Y. M. C. A. gymnasium when the Business Men's class will play a game with the Hope Y. M. A. Much interest will center in the game as the Business Men have been making a great showing of late.

ON THE DIAMOND.

The management of the Alis Club nine is having score cards printed for free distribution at its games this summer

Manager E. P. T. Smith, of the Reform A. A., has been doing much talking but he expects to have a good nine on the diamond this season. He has some fine material with which to work and he expects to make a strong bid for first place in the Plainfield Association League.

The Park Athletic Club won a well contested game from the Invincibles on the cricket field yesterday afternoon, the batteries being Ovens and Howard for the Park nine, and Nischwitz, Heath and Webster for the Invincibles. Ovens had ten strike-outs to his credit and Nischwitz six.

Captain "Brit" Martin is very well satisfied with the material he has at hand for the Hope Y. M. A. team. While there may be some changes it is Martin's intention to play the men together as much as possible. It was often in team work that Hope lost its games and Martin wants to remedy that trouble this year.

Manager Beers, of the City High School baseball team, has received word from the manager of the East Orange High School cancelling the game which was to have been played at East Orange between the two teams this afternoon. The reason for cancelling the game is because of a hitch in the matter of the East Orange boys securing a field.

Chauncey F. Burt, who pitches for the Alis Club against the Star Athletic Club, of Newark, this afternoon, was with the Y. M. C. A. team which won the championship in the City League last year. Burt is an old hand at the work, having been very successful as a pitcher at Princeton. George Dupee, who played on his freshman team while at Yale, is another twirler whom the Alis Club has ready.

Much credit is due Fred Armstrong, manager of the N. P. H. S. baseball nine. He has trained his men well but there are still points in many of his players which could be greatly improved. Th field work is rather slow, although his catcher and shortstops have done very good work.

Claude Edwards, formerly of this city, did the twirling for the Seventh Regiment in the game with Westfield, Saturday. Edwards pitched for the City High School the year he lived here and was subsequently with the Knickerbocker A. C., of New York. His home is now in Bayonne.

Manager Albert D. Beers, of the City High School baseball team has succeeded in arranging a game with Pingry School for June. The game will be played at Elizabeth and will be of special importance in that it will be the annual ball game played at the commencement exercises of the Pingry boys.

There isn't a steadier or more reliable man in the box on Plainfield diamonds today than George Whitley who is doing the twirling for New Market this spring. Several of the league managers have been after him but George has so far steadily refused all offers. His pitching has given the New Market team the standing it now has.

Bert Moore's injury of two weeks ago did not prevent him from playing in Saturday's Safe Works-Garwood game. It will be remembered that he was spiked by a Dunellen base runner as the latter slid for second base. Moore had a bad-looking eye for a few days but the scars have disappeared and he is playing as good a game as ever.

Edgar George, of the North Plainfield High School baseball nine, has made some wonderful showings this year so far as pitcher for that team. His work is exceptionally fine and, although his team has lost several games, he has held up his end of the plank in good style. His delivery is rapid and is decidedly confusing to the man at the bat.

There's going to be some good ball playing when the Alis boys steady down to solid work. They had a practice game last Saturday with St. Marys and showed up on good form. It wasn't good baseball weather and they lacked practice. As soon as the season is well under way, the Alis Club is going to have one of the crack teams of this part of Jersey.

Fred VanAuken was busy with examinations Saturday so he was unable to occupy the box for the City High School. Monro went in and did excellent work, barring that one inning when the Stevens Institute Undergraduates rolled up eight runs. But for that one inning, the City High School would have had the victory without trouble as the playing of the local school boys was superior.

William Mundy, of Duer street, one of the members of the North Plainfield High School baseball nine, has been confined to his home suffering from an attack of poison ivy. He became poisoned while practicing with the members of the team recently and has been unable to participate in many of the games. He generally plays third base and is one of the strongest men on the team.

Manager Steiner, of the Y. M. C. A., has two batteries in view for this year. He tried out Squires and Mayer in Saturday's game against Clinton Avenue. Next time it will be the turn for Keene and Barry to show their ability in the most important positions. Squires is a clever man with the leather sphere and has done good work for the Clinton Avenues. Keene's skill was demonstrated on the St. Mary aggregation.

"Jimmy" Montross played his opening game at Westfield Saturday afternoon and he justified all the good things that Manager Denman had expected of him. He pitched a great game and practically saved the day for Westfield. The Seventh Regiment boys couldn't find his delivery while eight of their best men struck out. At bat, "Jimmy" was equally satisfactory. He made three hits and scored twice and did some speedy work around the bases.

Kinney, the new pitcher for the Hope Y. M. A. team, promises much. The showing he made at Scotch Plains Saturday greatly pleased the rooters and Manager Cose thinks he has the coming man. Kinney pitched for the Springfield-Milburn consolidated team last year and did excellent work. He expects to take up his residence in Plainfield soon and will then play regularly with the Hopes in the league contests. His catcher, Bolen, came over from Springfield for Saturday's game and it is said that he, too, is likely to come to Plainfield and catch Kinney in the league series.

Again the North Plainfield High Scohool baseball team has met defeat. There seems to be little excuse for a team, composed of the men which are on the N. P. H. S. team, to lose a game with a school team like that which is playing for Pingry, by a score of 16 to 2. Manager George has had his men out at practice enough but the trouble is that the men do not seem to take enough interest in practice to benefit by it. The batting seems to be weak, and in the field the men need some help as the balls are too slow. More concentration in practice would result in better scores if not victory.

GUARANTEED.

That word means something, when it is backed by the $5,000,000 capital and surplus of the

FIDELITY TRUST COMPANY.

It means for you an easy mind if you have one of those guarantees covering the title to your premises.
The man, who does business the way it was done a generation ago, is surely on the road to failure. This is an age of progress. There has been progress in methods of conveyancing as well as in other lines. Out of the need for something less uncertain than a lawyer's certificate and a lawyer's responsibility, has grown up the system of policies of insurance, or guarantees of title by companies with large capital and a force, specially trained in the work.
There is none better in this line than

THE FIDELITY TRUST COMPANY OF NEWARK, N. J.

It has an agency at Elizabeth for conducting Union County business. Rates will be given on application at its office, No. 215 Broad Street, and an investigation of its resources and methods is invited.

TABLEAUX AND MUSIC.

Chief Features of Entertainment by Children of Sunday-School at Church of the Heavenly Rest.

The children of the Heavenly Rest Sunday-school won the hearty approval of fully two hundred and fifty people at an entertainment given in the parish house of the church on Clinton avenue last evening. The programme was arranged by Mrs. E. E. Brown to raise funds for a midsummer children's outing at a seashore resort.

About twenty-five of the scholars had part in the exercises. The special feature was a tableau entitled "Egyptian Concert," planned by Mrs. Brown. A piano duet and trio by the Squier family, proved most acceptable. The entertainment was a financial success.

The programme included musical selections and drills by the school, piano selections by the Misses Grace, Nellie and Edith Squier, mandolin solos by Ray Pugh, solos by Miss Florence Phillips and Valeria Brooks, "Floral Love Story" by Miss Emma Grannatt, recitation by Miss Viola Leivers and several tableaux.

The committee in charge were Mrs. E. E. Brown, of Astor place, chairman; Mrs. William Peck, of Clinton avenue; Miss Elizabeth Foster, of Grove street; Mrs. Vannorden, Miss Jennie Wenzel and Miss Nellie Miner.

HILLSIDE CLUB.

Sturday was an ideal one for the popular game of golf and the devotees of the sport gathered in large numbers at the Hillside Tennis and Golf Club, where throughout the day the game was enjoyed fully. The course has never been in better condition. Much time and labor has been spent in putting the course in shape and the greens are almost perfection.

In addition to the playing, the social features at the clubhouse were plentiful. The club steward, Mrs. Lena Hellstrom, served a great many luncheons during the day, and Mrs. Evarts Tracy gave a small luncheon for a few friends. All were delighted witth the service and menu and this part of the club life promises to be a distinctive feature this season. It was noticed that many of the old-time members were at the clubhouse, while not a few tried their luck at the game.

There were two events on the course, the weekly play for the Golf Committtee cup and a team match between Hillside and Harbor Hill, both in the afternoon. In the weekly competition it was a record day for low scores. Robert Abbott, Morris J. Dumont and H. D. Hibbard each with a net score of 77 tied for first honors. Each received two points for the cup. Out of all the scores posted the highest net was 83.

The scores for the Golf Committee cup are as follows:

	Gross	Hand.	Net
Robert Abbott	78	1	77
Morris J. Dumont	81	4	77

PARK GOLF CLUB.

Low scores were the rule at the Park Golf Club Saturday afternoon when the weekly competition for the President's cup was held. With the course in the best of condition and the day a perfect one, the golfiacs turned out in crowds and thoroughly enjoyed the day.

By dividing second honors with Samuel Townsend, Former Senator Chas. A. Reed came to the fore in the race for the trophy and now leads by a small margin. Dr. A. W. Anderson, one of the most enthusiastic golfers, was in fine form and won first place for the afternoon.

After having completed his rounds in the competition, Morgan T. Townsend lowered the course record with a 38, two better than bogey. His score compared with bogey as follows:

Townsend ..... 2 3 7 4 4 4 4 4 6—38
Bogey ..... 4 3 6 4 5 4 5 4 5—40

The standing for the President's cup is now as follows:

Dr. A. W. Anderson	3
Frank Rogers	2½
T. U. Dudley, Jr.	2
Samuel Townsend	1½

MADE GREAT HIT.

The Asbury Park people think well of Miss Gay Zenola McClaren as an entertainer, and as a proof of their appreciation she was called to fill a second engagement within one month's time. The Asbury Park Journal says: "Her interpretation of fifteen different characters in the drama presented was truly wonderful."

Miss McClaren has been making a great hit in her presentation of "Way Down East" during the past season and will be heard in this great moral drama this evening as the last programme on the Y. M. C. A. supplemental course, of entertainments.

NEGLECT COSTS HIM HIS LIFE

With Signals Against Him, Engineer Shirley Runs Into Switch and Wrecks Train.

NEAR BOUND BROOK

Theory is That Engineer Was Asleep—Fireman Has Narrow Escape Under Locomotive—Engineer the Only Victim—Load of Granite Blocks Tear Up Tracks.

(Special to The Daily Press.)

Bound Brook, May 11—One man was killed and several slightly injured in a freight wreck one mile east of this place this morning at 5 o'clock. The entire traffic on three tracks of the Central Railroad of New Jersey was blocked. The engineer, Henry Shirley, of Philadelphia, aged sixty-five years, was crushed and scalded under his engine which turned over. Joseph Gallagher, aged forty, his fireman, was also buried under the engine but was not injured beyond several slight burns and scratches.

The wreck occurred directly beneath the trolley bridge of the Middlesex and Somerset Traction Company. Eight cars were piled up and freight was scattered about the tracks for some distance. Much of the freight was in the shape of hugh blocks of granite and these stones did considerable damage to the other tracks and consumed much time in their removal.

The wrecked train was a Philadelphia and Reading fast freight bound east. It was on what is called the "south siding," a track which runs parallel to the main tracks for almost a mile. At the end of the stretch is a switch to allow the cars to enter the main line. When the switch is closed a derailing switch is set. It was this switch that the freight ran into. All the signals were set against the engineer and even the lamps, used at night, were still burning with the red light facing the approaching train. This has led many to think that the engineer was asleep at his post.

The remains of the engineer were scalded and crushed and were almost unrecognizable. They were taken to a Bound Brook undertaker's parlors. Shirley was well known in Bound Brook.

Rush on Trolley.

During the "rush" of trolley cars on the Arlington avenue line, Saturday afternoon, a fuse burned out in one of the open cars, causing a delay of considerable time. JAPANESE FETE BY LOCAL SCHOOL GIRLS

Everything in the Entertainment and Decorations Was of the Flowery Kingdom.

WAS COMPLETE SUCCESS

HELD AT THE RANDOLPH - COOLEY SCHOOL SATURDAY AFTERNOON.

Japanese Fan Dance Given During Afternoon—Refreshments Served in Tea Room—For Benefit of "The Quiver"—Other Details.

A very successful Japanese fete and tea was held at the Randolph-Cooley School for young women Saturday afternoon from 3 to 6 o'clock. The affair was the idea of Miss Lord, instructor of English at the school, and her untiring efforts in planning and in training the girls were in a large measure the cause of its success.

The rooms were tastefully decorated with strings of Japanese lanterns, fans, dog-wood and quaint Japanese pictures, and the pupils were tastefully gowned in soft Japanese silks.

During the afternoon, twelve of the young women, three times executed a pleasing Japanese fan dance in costume and sang a quaint Japanese love song. Those who took part were the Misses Gladys Biglow, Margaret Gibbs, Marjorie Howard, Lillian King, Katherine McCutchon, Grace Otterson, Gladys Peck, Mary Runkle, Marion Smith, Margaret Townsend, Anne Waldo and Evelyn Wells.

Refreshments, consisting of tea, lemonade and ice cream were served in true Japanese style in the beautifully decorated tea room. Miss Helen Martin was in charge. There was a candy booth in charge of the Misses Helen Batchelor, Elinor Waring and Caroline Martin. The cake table was in charge of Miss Marion Smith and Miss Ellen Burke, and the Misses Gladys Biglow, and Margaret Low were at the fancy booth. The ever popular grab bag was presided over by Miss Dorothy Burke and Miss Blossom Randolph was the popular Japanese fortune teller.

The affair was highly successful financially as well as socially, and more than $100 was taken in in the course of the afternoon. The proceeds will be for the benefit of the school paper, "The Quiver."

MUSICAL EVENT.

Musicale of the Misses Whitney at the Casino Tomorrow Night.

These young women are well and favorably known as eminently proficient in their respective callings, and their entertainment appeals particularly to all lovers of musical and artistic merit. A programme of novelty has been prepared and they will have the assistance of Master Erskine Porter, a nine-year-old soprano, said to be a wonderful vocalist, Wm. E. MacClymont and several others whose names have been before announced. Tickets can be procured as per advertisement in another column.

LOCAL TEAMS MEET DEFEAT

Many of Them Beaten in Saturday's Baseball Games—All Attract Crowds.

SOME GOOD PLAYING

Crescent Oval Opens Career As a Baseball Field With Defeat for Alis—Hope Loses to Dunellen—St. Mary's Swamped at Scotch Plains—Westfield is Beaten.

Saturday was not a particularly happy day for the local baseball teams as nearly all of them were beaten. The day was ideal, however, and large crowds attended all the games. Of most importance was the opening of the Crescent Oval as a baseball field.

'PLAINS, 18; ST. MARY'S, 0.

(Special to The Daily Press.)

Scotch Plains, May 11—The strong aggregation of ball tossers at the 'Plains administered a severe drubbing, Saturday afternoon, to the St. Mary's team of the City League. The heavy hitters of the local found White, of the visitors, for thirteen hits, beside Harvey's home run in the seventh, while Davis, of the home team, was invincible, allowing only one base hit, and this not until the ninth inning. The support given him was of league style, only one error being charged, William on third base being the guilty man.

One of the features of the game was Bosterli's playing at second base, gathering in every thing coming his way, no matter how warm it was. Not a man on the visiting team reached second base. Following is the line up and score by innings:

Scotch Plains—Baldwin, rf; Harvey, lf; Bosterli, 2b; Crusius, ss; William, 3b; Davis, p; Brogan, c; Flannery, cf; Hand, 1b.

St. Mary's—Cooney, 3b; Winn, 1b; Davidson, c; Taylor, lf; Barry, cf; Owens, rf; Doyle, 2b; Marlborn, ss; White, p.

AEOLIAN, 3; WESTFIELD, 0.

(Special to The Daily Press.)

Westfield, May 11—The Westfield baseball team met defeat on Saturday at the hands of the Aeolian team of Garwood, in one of the prettiest exhibitions of the season. It was mainly a pitcher's battle, only three hits being made off Wallas, Westfield's new find from the west. The final score was 3 to 0 in favor of the visiting team. The fielding was sharp and good and the whole game was played with much snap. The score by innings was as follows:

Westfield ..... 0 0 0 0 0 0 0 0 0—0
Aeolian ..... 0 0 0 0 0 2 0 1 0—3

Batteries—Westfield, Wallas and Burke; Aeolian, Gaffeny and Poole.

ECHOS, 28; ORANGE F. C. 22.

By a score of 28 to 22 the Orange Field Club, of this city, was defeated Saturday afternoon, when it played a game of ball with the Echo A. C., at Cranford. The local players put up a strong game but played in face of heavy odds.

RUTGERS, 9; N. P. H. S., 7.

The North Plainfield High School baseball team journeyed to New Brunswick, Saturday morning and played a game with the Rutgers Prep. School. The borough boys lost the contest by a score of 9 to 7, principally through bad errors, a total of twelve being charged up against the team. George and Ovens, the battery for the visiting team, performed well but the errors made by all but three of the team were too much to overcome. The teams follow:

Rutgers Prep.—H. Lang, cf; Heath, p; Bauley, 2b; McKibben, 1b; Hancock, lf; G. Lang, ss; Fisher, 3b; Winckler, rf; Cose, c.

R. A. A., 10; WATCHUNG, 3.

The Reform A. A. opened the season Saturday by defeating the Watchung baseball team, of Dunellen, by a score of 10 to 3. It was a lively game throughout and the patronage was large. It was played at Dunellen. Scott twirled the lambskin for the local team with the result that he made fourteen strike outs while Monahan who did the twirling for the Watchungs made four.

STAR A. C., 17; ALIS, 10.

The Alis A. A. baseball team made its initial appearance Saturday afternoon on its own grounds, Crescent Oval, before a large and enthusiastic crowd of friends, including a host of the fair sex. The team had for its opponent the veteran Star Athletic Club, of Newark. All things considered the home team did well, although the members made a bunch of miserable errors.

Barnes, the regular catcher, was unable to play on account of a sore hand, and Egan took his place, and in the second inning George Dupee had to take Geo. Schoonmaker's place on third base, the latter having injured his knee. Burt pitched all but the last two innings, when Dupee finished the game.

The accommodations for seeing the game at Crescent Oval are fine, a large substantial covered grand-stand having been erected, together with bleachers.

The summary of the game is as follows:

DUNELLEN, 13; HOPE, 11.

The baseball aggregations that represent Hope chapel and Dunellen gave a very striking illustration Saturday of how the national game should not be played. A "Comedy of Errors" in nine painful acts, with the score laid at Hope Common, is the story in brief of the afternoon's work.

There were a few redeeming features. Ettinger, for Dunellen, and Martin, for the locals, rapped out a couple of beautiful hits past centre field that resulted in home runs, although in one case rapid fielding might have limited the runner to three bags. Ettinger pitched respectably well, outclassing his opponent who took several baloon fights up into the clouds and was hit freely at all times.

Both nines enjoyed a merry-go-round on the bases, aided by exceedingly yellow fielding. O. Dodge, who presided for Hope, fanned six men, and Ettinger struck out seven.

Hopes had a splendid chance to win

WOMAN JUMPS TO HER DEATH

Leaps From Trolley Car Near Garwood and Strikes on Her Head As She Falls.

CAR AT FULL SPEED

Either An Attempt to Commit Suicide or Due to Confusion in Sudden Desire to Leave the Car—The Body Was Taken to a Friend's Home Nearby.

Miss Dagmar Jensen, aged twenty-five years, a domestic in the employ of Mrs. Begon, of Fanwood, was killed last evening at 5 o'clock by jumping from a rapidly moving trolley car one mile east of Garwood. The car was bound from this city to Elizabeth. The woman struck squarely on her head and the spine was fractured near the base of the neck. The car was backed and when the woman was picked up she was still breathing feebly.

There were several Plainfield people on the car, among them being George Frazee, Thomas R. Howett and John H. Cose. According to the story told by those who saw the woman jump, it is thought that either the woman deliberately planned suicide, or else become confused and forgot to stop the car. She had been in this country only three weeks, during which she has had spells of melancholia.

The County Physician was telephoned for and he gave a permit to remove the body. It was taken to the home of a friend who lived a few blocks away. The conductor and passengers did everything in their power to revive her but it was useless, as she died in five minutes after the accident.

"PIRATES OF PENZANCE."

Everything Ready for Its Complete Production May 21.

"The Pirates of Penzance," which will be given in the Casino, May 21, is probably the most difficult opera that Gilbert and Sullivan have written. As a rule amateurs cannot sing the difficult numbers, and consequently the opera is seldom given in its entirety. May 21 every bar of music, solos and choruses, will be sung in a most pleasing and intelligent manner.

Just think of the cast, Judge Runyon as the "Sergeant of Police" will tell you what a policeman's life is like. Raymond A. McGee with his magnificent bass voice will show you what a pirate king should look like, and sing like a—well come and hear him. Geo. Smith as Frederick, the lover, will undoubtedly have a number of proposals of marriage next (leap) year. Major-General Holmes has ordered new dresses for his twenty-three daughters, and would like to pay for them with the proceeds of the opera.

Miss Delancix (Mabel) has a very trying part which covers a range of over two octaves; she just smiles at high C. Come and hear her, she is not married yet. Mrs. Ward, everybody remembers her magnificent portrayal of Jane in Patience. You must hear her laugh in the Paradox trio.

Go to Armstrong's at once and get your tickets. All seats are reserved.

SUNDAY BASEBALL.

Arrests Made at Elizabeth for Playing Ball Yesterday.

(Special to The Daily Press.)

Elizabeth, May 11—As a result of Judge VanSyckel's warning, the Palmer Athletic Club and three members of the Star A. C., of this city, were arrested yesterday for playing Sunday baseball. They were released on bail to appear in police court on Friday for a hearing. Judge VanSyckel in court this morning commended the officers for making the arrest and doing their duty, and he urged them to continue to arrest those who violated the law.

"To be contented trade at Dunn's Park grocery." These words were at first merely a catchline in an advertisement but of late years it has gotten to be proverbial. Dunn's is them most complete grocery store in the borough.

I. H. Boehm has, at his store on Front street, one of the most elaborate displays of millinery ever shown in this city. The prices, it is claimed, are far below those of any other store and the stock is guaranteed to be as represented.

Edwin Schomp, the young son of Mr. and Mrs. Fred Schomp, of West Fourth street and Lee place, is convalescing from a recent illness.

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of wornout tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up, Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by L. W. Randolph.

THEATRICAL.

It is seldom that a show has started on Broadway under better auspices than those which will attend the first night of "The Runaways," at the Casino this evening. Coming as it does after preliminary engagements in both Baltimore and Washington where there was unanimous praise for the play, its interpreters and its lavishly rich mountings, it seems as if pronounced success on Broadway must be assured from the start. The fantastic musical comedy or musical extravaganza, whichever theatre goers choose to call it, is distinctive in many things, novel in many others and certainly is the best dressed and most expensively mounted production which has ever been illuminated by footlights and calciums on this side of the Broad Atlantic.

The summer plans for the F. F. Proctor circuit of theatres have been practically completed, and unless all present signs fail, the outlook is a brilliant one promising success for the management, steady employment for the large band of actors in Mr. Proctor's employ, and—best of all—a gay season of highly entertaining shows for the public at large. Later on, there will be a revival of several of last season's biggest hits, and then there will be produced in quick succession half a dozen gay pieces never before seen in New York. All those productions will be as carefully made as though the season were at its height, for it is never Mr. Proctor's idea to curtail expenses, be the season early or late. At his Twenty-third Street Theatre the plan of presenting all vaudeville shows will be continued throughout the summer, the bills being made up with especial reference to the warm weather. At his One Hundred and Twenty-fifth Street house, the favorite stock company will continue its excellent work, strengthened immeasurably by the reappearance of Miss Adelaide Keim, who resumes her stage work after a much needed period of rest.

DEAD FROM FLAMES.

Erie County (N. Y.) Man and His Wife Lose Lives In Burning Home.

BUFFALO, May 11.—Herman M. Blasdell of North Collins, sixty-three years old, a former assemblyman, after whom the town of Blasdell, N. Y., is named, and his wife were so badly burned in a fire which destroyed their home in the early morning that both of them are dead.

An adopted son, who was the only other occupant of the house at the time the explosion occurred, was slightly burned.

Mr. Blasdell died a few minutes after escaping from the house. Mrs. Blasdell died at the hospital several hours later. She was conscious for some time before her death, and from her it was learned how the explosion occurred. They were awakened early in the morning by a strong smell of gas. Mrs. Blasdell got up and started down stairs. At the head of the stairs she struck a match. Instantly there was a terrific explosion. The walls of the house were forced outward, and one side of the building dropped. Fire broke out in half a dozen places, and the whole house was soon in flames.

The adopted son, who slept in a remote corner of the house, rushed to his foster mother's rescue and succeeded in smothering the flames that enveloped her. Mrs. Blasdell walked out as far as the street, where she fell, unconscious. Mr. Blasdell, who had been awakened by the explosion, endeavored to reach the stairway, but found himself cut off by the flames. With his nightclothes ablaze and the fire spreading about him rapidly, he was forced to jump from an upper window. The shock of the fall and the severe burns soon resulted in his death.

WRECK OF THE VERA CRUZ.

Large Number of Passengers and the Crew Saved.

CHARLOTTE, N. C., May 11.—A special to the Observer from Beaufort, N. C., says:

"More definite news has been received regarding the wreck of the Portuguese bark Vera Cruz at Portsmouth, on the south side of Ocracoke inlet, sixty miles north of here. The only communication is by boat to this place, and the boat which arrived yesterday brings intelligence that there were 251 passengers, all Portuguese, and a crew of sixteen. All were rescued by the Portsmouth life saving station crew, but one person died a few minutes after the rescue.

"The Vera Cruz was in charge of a local pilot, having put in at Ocracoke inlet for water. She struck the outer bar and then on the inner bar hard and fast nearly two miles from the life saving station. A gale was blowing, and the sea was very rough, making the work of rescue extremely dangerous. There are only about sixty people at Portsmouth, so nearly all the Portuguese had to be taken across the inlet to Ocracoke, five miles distant. Some of the cargo was landed, mainly whale oil, of which sixty tons was on board.

"The wind continues from the northeast, and it is believed the vessel will be a total loss. A wrecking tug has arrived there from Norfolk. T. G. Terrell, the keeper of the Portsmouth station, and his crew are highly commended for their excellent work, which occupied about twelve hours."

PANAMA CANAL OUTLOOK.

Pulecio Wants United States to Pay $25,000,000.

PANAMA, May 11.—Gerardo Pulecio of Bogota, an important member of the Conservative party, says that the renewal of the canal concession grant by President Sanclemente is legal, the government having constitutional faculties to take this step. No company or European government is willing to risk any money in the canal venture after the De Lesseps failure, therefore the United States only can undertake the construction of the canal with chances of success.

Colombia never enjoyed effective sovereignty on the isthmus because the United States landed troops there whenever it wanted to and even denied Colombians "the innocent right to kill each other." Still, in the canal treaty Colombian sovereignty on the isthmus should be distinctly recognized, argues Senor Pulecio, not only to calm the nerves of apprehensive patriots, but because Colombia may within 100 or 200 years develop into a strong nation and be able to recover the sovereignty on the isthmus which it now lacks. He proposes the following plan: The United States to pay Colombia for the canal concession the sum of $25,000,000 and $2,000,000 yearly rental for the canal zone, Colombia to be free of any claims which may arise against the canal company. The United States is to recognize the sovereignty of Colombia on the isthmus.

OTTAWA'S BIG BLAZE

Incendiary Causes Great Loss of Buildings and Lumber.

FIRE AREA IN RAILWAY YARDS.

Originated Close to the Site of the Great Hull Fire of 1900 on the Banks of the Ottawa River. Water Supply Deficient.

OTTAWA, Ont., May 11.—A fire suspected of being of incendiary origin yesterday afternoon and evening destroyed hundreds of houses and millions of feet of lumber in this city.

John White, who has just been released from the penitentiary after serving a term of imprisonment for arson, was caught near where the fire was first discovered. He was taken to the police station and will be charged with starting the conflagration.

The fire originated within a stone's throw of where the great Hull fire of April 26, 1900, was checked. The Hull fire started on the opposite side of the river and spread to the Ottawa side, destroying millions of dollars' worth of property. It burned out near where the Ottawa and Parry Sound railway enters the western part of the city, and it was in the lumber yards near the railroad that this fire originated.

Two hours before the principal blaze started two smaller blazes were discovered and quickly extinguished in the lumber yards near the Canadian Pacific railway. It was 3:30 when the third fire was discovered. When the brigade arrived at the scene it was found that the water main had been damaged and no water could be obtained.

When the brigade did get water the fire was utterly beyond its control. It swept along over the same ground that the former fire had gone, the only difference being that it was going in the opposite direction. There is a large cliff which extends from the Ottawa river on to the corner of Margaret and Preston streets.

The fire area was on the flats below the cliff. At two or three points it came very near getting over the cliff, and had it done so nothing would have saved the city. At 9:30 last night the fire was thoroughly under control.

While the fire was burning fiercely among the lumber piles the whole brigade of the city, which had been summoned, was forced to remain idle.

For an hour not a drop of water was thrown into the flames. A stiff southwest wind was blowing, and by the time the water main had been repaired the lumber yards were a mass of glowing coals. From the lumber yards the flames spread to a group of frame houses on the outskirts of the city formerly known as Rochesterville, but which is now united to the city. Every house in the little settlement was destroyed.

Another lumber yard in a thinly settled section northeast of Rochesterville was swept by the fire in an incredibly short time. This brought the fire to the more thickly settled sections.

After leaving the lumber piles the flames swept over Pine street, which runs east and west; down Willow, Poplar, Anderson, Eckles, Somerset, Spruce, Elm, Maple, Albert and on to the Richmond road, or, properly speaking, Wellington street, where it was stopped, a short distance from the Canadian Pacific railway depot.

It was feared that the fire would get over the cliff, on the top of which is St. Jeanne Baptist church. In the rear and a short distance back from the church is the residence of the late Hon. David Mills, whose body lay unburied in the house.

The family began moving out, and the hearse was in readiness to move the remains of the distinguished Canadian should the necessity arise. The firemen, however, succeeded in keeping back the flames.

Fifteen million feet of lumber were destroyed. The loss on the lumber will be about $300,000. The buildings burned were principally dwelling houses and stores. The loss on the buildings is estimated at various figures. Mayor Cook said that there were from 500 to 600 families homeless, or about 2,000 individuals.

The mayor said the city would oppose any aid being asked from outside Canada, and personally he thought that the city should grapple with the situation without any appeal for outside help.

Fatal Tennessee Wreck.

KNOXVILLE, Tenn., May 11.—Southern passenger train No. 12 for Asheville, N. C., jumped the track about noon a mile west of White Pine, Tenn. The train consisted of engine, combination express and mail car, baggage car, two day coaches and two sleepers. All were derailed except the sleepers. Engineer Robert B. Holloman of Knoxville was caught beneath his engine and crushed to death. Seven persons were seriously hurt. The train was running thirty miles an hour when the accident occurred. No cause can be assigned for it. The rails were torn up for 200 feet, and a delay of over six hours occurred to travel.

SPRINGFIELD, Mass., May 11.—Henry Griffin, the fourteen-year-old son of Morris Griffin of Indian Orchard, was accidentally shot and killed by his brother William on Saturday. MARCUM'S ASSASSIN

Curtis Jett, Charged With the Shooting, In Jail.

THE HOUSE SURROUNDED BY NIGHT

Posse of Kentuckians Met No Resistance—Prisoner Talks Freely on All Subjects but the Killing of Marcum.

LEXINGTON, Ky., May 11.—The capture of Curtis Jett, charged with the assassination of J. B. Marcum in Jackson Monday, has been accomplished without bloodshed. He is now in the Clark county jail at Winchester.

Bearing a warrant which had been sworn out by Sam Jett, uncle of the accused, Sheriff McChord and a posse of seven men left Winchester at midnight Saturday. Reaching Jackson's Ferry, ten miles distant, at 2:30 a. m., they left their buggies and crossed the Kentucky river to Madison county in canoes. They proceeded on foot to the home of Mrs. A. Haggin, Jett's mother-er, two miles from the ferry. Six of the posse were stationed around the dwelling, and Sheriff McChord and Deputy Stokeley approached the front door and knocked. Jett's mother answered and after some parley admitted that Curtis was within. They were admitted and found Jett awake, but in bed. He shook hands with the sheriff and said that he would give no trouble. Reaching under his pillow, he drew out his pistol and turned it over to his mother to keep. He made no show of resistance and was landed in jail at Winchester by daylight.

Jett's stepfather, A. Haggin, charges that when Jett reached his house Saturday night from Jackson he proceeded to draw his pistol on him and ordered him to get out of the neighborhood. Haggin went to Richmond and swore out a warrant charging Jett with breach of the peace by assault with a pistol.

In the jail Jett was communicative on all matters save the killing of Marcum. "I'll get out of this all right," was the only statement he would make which could be construed as a reference to the charge. He said he wanted to be tried in Breathitt county. He was bitter in denouncing his uncle, who had him arrested, and said that the score would be evened up when he was at liberty. When asked about the statement that five men would testify that he killed Marcum he sneered and replied, "What's that to you?" To Sheriff McChord he was equally noncommunicative as to the Marcum tragedy.

Jett is twenty-eight years of age, athletic in build, with deep set, keen eyes and has bushy red hair. That he submitted to arrest was an agreeable surprise to the officers, who feared an encounter. Jett denied that he drove his stepfather from home. He will be arraigned tomorrow, and it is supposed he will be transferred to the Jackson district for trial.

Fatal Labor Trouble Quarrel.

FREMONT, O., May 11.—A serious conflict, the outcome of labor troubles in this city, has occurred here. Otto Mischke, a young man, was shot and killed and Albert Gummel fatally wounded, the shooting being done by a gang of colored nonunion men, three of whom are now in jail. The police are searching for the others. A party had taken place at the Gummel home, and as the guests were homeward bound they met a crowd of colored men. Remarks were passed at which the negroes took offense, and the shooting followed, the colored men starting the shooting. William Kimbro is the man who is believed to have killed Mischke. A mob has surrounded the jail, clamoring for the prisoners. A false alarm of fire has been turned in with the hope of scattering the crowd. The police are using every effort to prevent the prisoners falling into the hands of the mob.

The Colored Postman.

WASHINGTON, May 11.—The civil service commission makes the following explanation of the circumstances attending the appointment of John C. Allgood, the Tennessee letter carrier who has been prevented from performing the duties of his office by the patrons of his route: "There were fifteen applicants for positions as rural letter carriers on these routes. Eight of these applicants have been offered appointments, of whom five accepted. For route No. 1 Allen S. Dillard, a white man, was appointed. Notice was received that Dillard had declined. The next man on the register was John C. Allgood, the colored carrier who recently was compelled to abandon his route."

Turkey Makes an Apology.

CONSTANTINOPLE, May 11.—It is denied here that the powers have lodged claims for damages resulting from the Salonika outrages. The Turkish government has apologized to the Bulgarian diplomatic agent here for the domiciliary visits made by the police of Constantinople last week, when about sixty Bulgarians were arrested and when the papers of the secretary of the Bulgarian diplomatic agency were seized at his residence. The agent threatened to leave Constantinople unless satisfaction for this action was given.

RUSSIA'S ATTITUDE.

Claims She Has Violated No Pledges Given.

STEPS TAKEN IN SELF DEFENSE.

Troops of Czar Sent Into Manchuria For the Protection of His Interests and Not as a Menace to China.

WASHINGTON, May 11.—The receipt by the state department from Minister Conger of confirmation of the dispatch from Peking that the Russians re-entered Newchwang and then retired has brought relief to a strained situation, and it has been decided by the department that there is no longer occasion for action, even diplomatically, at this stage.

Count Cassini in the course of his talk with Secretary Hay earnestly impressed on the secretary his conviction that the Russian government had lived up to its agreements, and in view of these representations Secretary Hay did not hesitate to dissipate the impression which might have existed that there remained any need for diplomatic action relative to Manchuria by the United States, Great Britain and Japan.

The situation consequently lapses back to where it was after the original Russian disclaimer which followed the demands on China two weeks ago, and for the present the attitude of the United States government will be simply one of observance. Count Cassini said:

"When the whole truth is known it will be found that Russia has not violated a single pledge made to any nation, nor does she intend to do so. Moreover, whatever steps have been taken in Manchuria are only in self defense."

Mr. Takahira, the Japanese minister, in a long interview with Secretary Hay at the state department manifested deep concern over the Manchurian situation, but declared that the legation was without official advices, in the absence of which he did not care to discuss the matter. There is an intimation that Japan is disappointed at the character of the support she has received from other powers up to this time in her efforts to stop Russia's alleged aggression.

Russia Explains.

ST. PETERSBURG, May 11.—The foreign office here strongly deprecates the excitement concerning Manchuria. It believes that mischief makers are responsible for the reports from there and says that the arrival of troops at Newchwang was due to the retirement of troops from Moukden province southward instead of northward. The troops depart by sea. The other alleged warlike preparations of Russia are ridiculed.

Killed by Jealous Husband.

PITTSBURG, May 11.—Mrs. Margaret E. Kountz, the surviving victim of her husband's jealous attack upon her and her escort, Contractor John E. Walsh, lies in the Homeopathic hospital suffering from the effects of two serious wounds. She is ignorant of Walsh's death and imagines that he is lying wounded in the next room to her. J. F. Kountz, the man who did the shooting, is secretary of the Wiota Coal company, with offices in the Park building. Up to a year or so ago he was a praticing dentist in this city, but gave up his practice to take a more lucrative position of secretary of the coal company. Walsh, the man who was killed, was a prominent contractor here and lived in a handsome home on Squirrel hill. For some time past Mrs. Kountz had been living at the Walsh home as housekeeper. She had entered suit against her husband, alleging nonsupport.

The Bubonic Plague In Peru.

GUAYAQUIL, Ecuador, May 11.—Callao and Pisco, Peru, have been officially declared infected with the bubonic plague. The banks and business houses of Guayaquil are subscribing funds for the purpose of cleaning the city. The Cosmos line steamers, Herodot and Sesostris, from southern ports, will be refused admittance here. Ecuadorean troops have been stationed on the Peruvian frontier to stop communication. The board of health at Payta, Peru, has closed that port to vessels from Callao. The municipal council and the board of health at Guayaquil are in session to discuss steps against the introduction of the plague. The Cosmos line steamer Totmes, now in this port, will not be allowed to discharge her cargo, as she brings flour from Pisco.

Another Typhoid Victim.

PALO ALTO, Cal., May 11.—Foster E. Brackett of Washington, a senior in the department of Latin, is dead of typhoid fever. Brackett had been down with the fever for more than three weeks. He would have received his bachelor of arts degree this month. Funeral services were held in the Memorial church, and the body was sent to his home in Washington. Brackett's death is the eighth resulting from the epidemic. Several more deaths among those now ill are expected.

Kohlsaats Received by the Pope.

ROME, May 11.—Among other persons received by the pope were Mrs. Herman H. Kohlsaat of Chicago and Miss Kohlsaat. The pontiff expressed surprise at hearing Miss Kohlsaat speak in the Italian language.

Killer of Striker Sentenced.

WILKESBARRE, Pa., May 11.—James Sweeny has been sentenced to twenty years' imprisonment for the murder of Joseph Cullen, a striker, during the recent strike at Nanticoke. Sweeny pleaded guilty.

SUNDAY OBSERVANCE.

Two of the local pastors spoke yesterday in no uncertain terms regarding Sunday observance. Sunday baseball and golf has not yet reached Plainfield although both have been prevalent in other parts of Union county. With the resumption of activity in baseball, Sunday games were resumed and then came Justice Van Syckel's charge to the Union county Grand Jury in which he demanded the indictment of the police officials if the Sunday games were not suppressed by yesterday. There was considerable Sunday baseball last season and there promised to be even more this year if it had not been thus checked.

While the Justice's charge had its effect, it did not entirely stop the Sunday games in Elizabeth. Managers of several teams decided to test the legality of the charge and therefore went ahead with their games scheduled for yesterday. They were arrested and now will contest the case in the county courts.

The baseball players are bound that if they have to give up Sunday games the golfers shall stop their Sunday playing. As there are four golf clubs in this county where golf is layed regularly on Sunday, any organized effort to end it is going to cause considerable excitement. The arguments advanced by the ball players and seconded by some of the clergymen is that the golf players have no more right to play their favorite sport than have the lovers of the National game and that golf as well as baseball should stop on Sunday.

This week will see the opening of the Hotel Netherwood for the summer season. Those society folk who summer in Plainfield have found that hotel a delightful place of resort in past years. Dancing and other social attractions have been held there in a continual round of activity and the local society people have mingled with the guests to the enjoyment of all. The Netherwood is to be under the same management this year as last which would seem to insure a continuance of last year's successes.

Under very auspicious circumstances, the Alis Club opened its season Saturday. There is no doubt that this club will possess one of the strongest baseball teams in Plainfield this summer and its games with powerful out-of-town teams are going to attract many despite the league contests. Good baseball takes these days and while a local interest naturally makes the games more attractive, the Alis Club seems likely to have a good following on Saturday afternoons this summer.

Every trolley line in the land is making special preparations for the summer business. Trolleys have always been popular during the heated months even when they offered no special destination. With so many summer parks springing up on all sides, the trolleys promise to carry greater crowds than ever this summer.

All Plainfield has been deeply interested in the condition of Former Mayor Charles J. Fisk. He has been a great friend to Plainfield and to thousands of its people and there isn't one of us who wouldn't do anything he could to bring Mr. Fisk back to health and strength.

Yesterday started the seventeenth year for The Daily Press. We are doing our best but we admit that we are not infallible. If you have any ideas for the improvement of The Daily Press, we would be pleased to hear them.

All of the league teams are now hard at work getting ready for the opening of the leagues late this month. Saturday afternoon saw them participate in games all more or less exciting.

LOCAL TEAMS MEET DEFEAT

(CONTINUED FROM PAGE 1.)

out in the eighth with the score ten to nine in their opponent's favor. They rallied strongly with the stick in their half of the eighth and ninth innings, but wretched fielding with Dunellen at bat in the ninth, allowed the visitors to score three runs and spoiled the locals last forlorn hope.

Line up and score by innings:

Dunellen — Giles, ss; Smith, 3b; Ettinger, p; McQuade, c; Brown, 1b; Ayers, 2b; Smalley, rf; Giddis, rf; Hurlick, lf.

Hope—Howell, lf; Martin, 2b; F. Dodge, 3b; Shortman, ss; O. Dodge, p; Dalley and Symonds, 1b; Hewitt, rf; Roseberry, cf; Bolan, c.

Dunellen	3	1	2	0	2	0	2	0	3—13
Hope	0	0	3	0	0	2	3	1	2—11

Umpires, Pearson and Mesrole.

ST. AGNES, 5; C. GIANTS, 2.

In a hard fought, well played game, Saturday, the Cuban Giants met defeat at the hands of the St. Agnes Lyceum nine, on the Arlington avenue grounds. The game was remarkably free from errors, and was won in the fifth inning, when St. Agnes tallied four times on an error by Alexander at centre field.

The batting and fielding of Johnson for the Giants was a feature, and Brokaw, who occupied the slab for the Cubans for the first time, likewise distinguished himself. The Giants earned both of their runs, and St. Agnes one of theirs. The batting order was as follows:

Cuban Giants—Nelson, c; Davis and Alexander, cf; Brokaw, p; Johnson, 2b; Hopkins, lf; Hatchett, rf; Peterson, 3b; Moore, 1b; Simmons, ss.

St. Agnes—Kane, Gray, Harper, Cody, O'Rourke, Nelson, Brown, Meyers, Long.

Score by innings:

Cuban Giants	0	0	0	0	1	0	1	0	0—2
St. Agnes	0	0	0	0	4	0	1	0	0—5

Y.M.C.A., 18; N. MARKET, 6.

Superior field work and good pitching won the game between the New Market nine and the Y. M. C. A. for the latter Saturday afternoon, on St. Mary's field. The game resulted in a score of 18 to 6.

Tom Keefe held the pitcher's box for the Y. M. C. A., and made eight strike outs while Whitley, of the New Markets, put out two men. Star playing was done by Munro at shortstop. He played last year with the Hope Y. M. A. This year he has improved greatly.

The Y. M. C. A. was much the superior at the bat than the visitors although the New Market men were faster on the bases. The first inning showed that the Y. M. C. A. had the best part of the string and they kept hold of it all through the game.

The line-ups:

Y. M. C. A.—Munro, ss; Parent, 2b; Mayer, c; Beekman, 1b; Smith, 3b; Marsh, lf; Keefe, p; Hall, rf; Koons, cf; Sutphen, umpire.

New Market—Lyons, rf; Pettington, cf; Waglow, lf; Fletcher, ss; Drayton, 3b; A. Nelson, c; George Herman, 2b; Wykoff, Voorhees, 1b; George Whitley, p. George McCombe, umpire; Walter Nelson, scorer.

The scores by innings follow:

Y. M. C. A.	1	0	0	1	2	1	0	3	1	0—18
New Market	0	5	0	0	0	0	1	0	0	0— 6

DUNELLEN.

Nothing has pleased local baseball enthusiasts so much in a long while as the victory of the Dunellen A. C. over the Hope chapel team Saturday afternoon. It was the general opinion that the local team was a strong one and the opinion was fully justified in Saturday's showing. Some hard hitting was done all through the game, "Al" Giddes doing much execution with the stick. The fielding was also good at times, Smith and Brown being the best in that particular.

ROOSEVELT'S TOUR.

President's Sunday In the El Dorado State.

HOTEL DEL MONTE, Cal., May 11.—President Roosevelt spent one of the most restful Sundays he has had since his trip began. In one of the most beautiful spots in California, two miles from the nearest city, unhampered by curious crowds, he had a chance to thoroughly rest and prepare for the coming week, which promises to be one of the busiest of his journey. His train arrived here at midnight, but he did not leave it until about 9 o'clock in the morning. At that time Colonel Ward and a detachment of the Fifteenth infantry, who are stationed at Fort Monterey, arrived.

After the president had greeted the colonel and his staff he was escorted to the hotel, where he and his party had breakfast. The president and a small party then rode on horseback over the famous seventeen miles drive along the sea. Governor Pardee and some of the party drove over the route in carriages. The weather was perfect, and the trip was greatly enjoyed by the president, who was enthusiastic over the scenery.

In the afternoon he attended St. John's chapel, on the hotel grounds.

The services were conducted by the Rev. Hobart Chetwood, the chaplain. At the conclusion of the services the president, Secretary of the Navy Moody, President Butler of Columbia college and President Wheeler of the University of California spent two hours strolling about the hotel grounds, and the evening was passed quietly at the hotel.

It was the intention to have the president review the troops stationed at Fort Monterey yesterday, but he declined to do so on Supday. He requested Colonel Ward to do away with all formality, as he desired to spend the day quietly. The start for the north was made at 8 o'clock this morning.

SPORTING NOTES.

Grand Circuit Stakes at Cincinnati. Sunday Baseball.

CINCINNATI, May 11.—The stakes for the grand circuit meeting at Oakley park next September were announced through Secretary P. M. Campbell. The entries for the Ohio, $5,000; 2:09 trotters, the Oakley, $2,000; 2:14 trotters, the Queen City, $2,000; 2:19 trotters, the Clifton, $2,000; 2:09 pacers and the Buckeye, $2,000, for 2:20 pacers, will close June 1. In addition to these, the Horse Review stakes, $6,000, for three-year-old trotters, and the Horse Review stakes, $3,000, for two-year-old trotters, will be raced during the meeting. The usual class purses to close just before the meeting will run the entire stakes up to about $50,000.

Sunday Baseball.

NEW YORK, May 11.—Three games of baseball were played under National league auspices yesterday. At St. Louis the home team lost two games to Chicago, the first by a score of 3 to 6 and the second by a score of 8 to 13. At Cincinnati the Pittsburgs defeated the locals by a score of 0 to 1. Only one game was played by Americans, and that was at Canton, O., where Cleveland defeated Detroit by a score of 6 to 2.

Good Sport In the Adirondacks.

PLATTSBURG, N. Y., May 11.—The outlook in the Adirondacks for trout fishing this spring is better than it has been for many years, big catches of brook and lake trout being so numerous as to attract little attention. Old fishermen say the excellent fishing is due to the dry weather.

Vanderbilt's Horse Gets Place.

PARIS, May 11.—W. K. Vanderbilt's Reinette II., Rausch up, ran second in the contest for the Prix de Courbevoie at Longchamps.

Forest Fires In the Alleghenys.

JOHNSTOWN, Pa., May 11.—One of the fiercest and most damaging forest fires in the history of the Allegheny mountains has been raging since early morning above Dunlo, the big coal and lumber town in this county. Much apprehension is felt for the safety of several camps of lumbermen working for Kuhns & Goodwin, who were in the great district which has been swept by the flames. Some of them may have perished. They would have to flee from the camps ahead of the fire, and as no tidings have been received from them there is much alarm. The flames came toward Dunlo with terrible fury, and every man, woman and child in Dunlo was out doing everything possible to save the town from destruction. After hours of fighting the progress of the flames were checked, but it will require vigilance all night to keep it under control.

The Stage For McKinley's Daughter.

NEW YORK, May 11.—Mrs. Mabel Baer, a niece of the late President McKinley and a daughter of Abner McKinley, the late president's brother, it is announced, will appear in June on the Hurtig & Seamon vaudeville circuit for twenty-five weeks, arrangements to that end having been completed. Her first appearance as a professional vocalist will be made in Washington.

Secretary Hitchcock's Tour.

SULPHUR SPRINGS, I. T., May 11.—Secretary Hitchcock and party have inspected the government reservation here. He was escorted over the reservation by the citizens. Later an informal reception was held. The special train carrying the party then left for a brief tour of Oklahoma. Secretary Hitchcock is due at Washington next Friday.

Manila Alleged Embezzler.

MANILA, May 11.—Albert Roberts, cashier of the government ice plant here, has been arrested on the charge of embezzlement. His accounts have been found to be $4,000 short.

AN IDEAL LOCATION.

BEAUTIFUL AND ACCESSIBLE.

ON MAIN LINE PENNSYLVANIA RAILROAD.

Rosedale and Linden Park Cemeteries

Largest Burial Parks in the State.

Transportation Facilities superior to those of any other cemetery, as to number of trains, railroad fare, time and distance.

These New Cemeteries, now being developed on the modern park plan, are attracting universal attention.

By Reason of Location Alone they are destined, in a very short time, to become the best-known Cemeteries in the country and, with their natural advantages, the most beautiful and desirable in which to purchase lots.

They are Accessible from every quarter and within easy reach of over 4,000,000 people, and, considering the steady and rapidly increasing growth of Greater New York and its tributary cities and towns, it is only the question of a short time before plots in Rosedale and Linden Park will equal in value those of our most noted cemeteries.

Popular Favor has already been shown to a marked degree in the sale of lots, several hundred having been sold to residents in Elizabeth, Linden, Rahway, Cranford, Jersey City, Orange, Paterson, Westfield, Newark and New York City, and a large number of interments have been made.

In the Days of Happiness we do not know what is to befall us or when the inevitable will occur; therefore, it is a wiser precaution to make provision for a final resting place during health and life than to force the painful duty on one's friends or relatives after death. A place of burial will be needed sooner or later by every one, and no one should neglect selecting a suitable and proper place until future postponement is impossible.

Linden Lodge is the largest, most modern and best equipped Cemetery Lodge in the country, and is provided with every requisite for the comfort and convenience of visitors who come to inspect the properties.

WOMEN GOLD SEEKERS.

They Have Struck It Rich In Various Ingenious Ways.

It is a phase of the period that for the first time in civilization, so far as known, women are in the stampedes to new gold regions and in the rushes along with men boomers to new lands. Recently a girl in a northwestern state heard of a mineral claim that was to be vacant on the 1st of January, owing to not having done on it the work necessary to "prove up" the property. Without telling of her intention this girl of grit started to drive to the claim and be on the ground by midnight of the new year. The thermometer was 14 degrees below zero, and, worse yet, a blizzard was raging, but the young lady drove through the savage weather and camped upon the claim till morning, when she set up her stakes and wrote her name upon them. Now she is in possession of a property that will give her returns worthy of her grit.

An American woman physician, tall, strong, dignified and wise, went to

MISS FITZ ON A JOURNEY.

Dawson in 1898. It had been made practically impossible for an American doctor to go into practice in the Klondike. Nothing daunted, the American woman physician began work as a trained nurse in one of the rude hospitals. It was the time of typhoid, and capable nurses were in demand. The lady's sphere of influence grew wider and wider, she watched her opportunities and made investments wisely till now, after only five years, she is ready to retire with money enough to support her the rest of her life.

A refined young woman, a widow, walked over Chilkoot pass in the summer of 1898. She remained in Dawson a year, but did not strike it rich. She learned, however, a useful trade there, one she hardly expected ever to acquire—namely, laundry work. On receipt of the news of the gold discoveries at Cape Nome she went down the Yukon with the "sooners" and got there. She did not wait for some man to give her a bushel or two of gold dust, but at once opened a laundry and reaped rich reward. American men, thank fate, try to be clean wherever they are, and if they cannot be clean they keep as clean as they can. Well, this widow, who never dreamed she would take in washing for a living, finds herself laying up a neat competency.

Among the most notable of all is Miss Frances E. Fitz, who came "outside" last winter for the first time in three years. Miss Fitz, stenographer, went to the farthest northwest, taking her typewriter along. She landed at Nome, but went a hundred miles beyond to Council City, a new mining camp. The plucky young woman was alone, but fortune favors the brave, especially if the brave one is that rare creature, a brave woman.

At once in Council she was made clerk to the government recorder. The typewriter did it. She had gumption, had Miss Fitz. She recorded mining claims, drew up contracts and bills of sale and copied documents of all kinds, besides attending to a great amount of correspondence. Her pay was exceedingly good, to say the least. An intelligent typewriter girl, with her own machine, who understands business forms cannot be picked up at call in a mining camp. With her first savings Miss Fitz had built a warm, snug winter log cabin and prepared to stay there till she found fortune. A cellar under the floor of an Alaska log cabin serves as an ice chest in summer and a storeroom for food in winter. Such cellars are opened by a trapdoor in the cabin floor. Miss Fitz dug her own cellar.

She bought mining claims; she became a notary public; she purchased a partnership in the Council City News, the first paper in the mining camp. Meantime she continued being a stenographer and typist for any who wanted her services. With all these irons in the fire and with a head to look after them all, this typical American girl accumulated property rapidly and took care of it too.

Then at length, early last winter, the longing for her old home and friends overcame her, and she journeyed to Nome in a sled drawn by Eskimo dogs. Muffled in furs, strapped upon the sled, a driver running alongside to whoop up the dogs, she began the journey, but a blizzard overtook them on the coast, and the whole outfit nearly perished. However, a girl like that is not to be either drowned or frozen, and Miss Fitz reached Nome in safety and embarked for the States. But the fascination of the dazzling arctic zone is over her, and she will return to Council City. MARCIA CAMPBELL.

MYSTERY OF THE BAYOU WOODS

By WALKER HENNEDY.

Copyright, 1903, by A. N. Kellogg Newspaper Co.

"You have no idea who he was?"

"No, sah. I guess Mars Wright mus hab let him inter de house hesef, caise I axed all de niggers bout him, and dey didn nobody pear to know nutin bout him."

"What made you ask about him?"

"Well, you see, us cullud folks likes ter know who comes ter de house, an all bout 'em, so's we kin talk it all ober in de kitchin monst ourselves."

"Oh, I see. Well, how long was it before young Wright put in an appearance?"

"He come a'mos soon's I done gib Marster de gun, fur I lets him in myself fo I goes out."

"Did he seem troubled?"

"Yes, sah. He looked mighty ornresty, an' he was mighty swif' too, fur he jes' said, 'Whar's my father?' an' w'en I tole him in de libray, he pushed me outen de way, an' he went right in. I wus so surprised like dat I stood dar in de hall an' hearn all dey say ter one anudder 'fo' I knowed w'at I wus doin'. But I 'clar dey talk so loud an' 'cited dat I couldn' he'p it, an' de doah wus open, too."

"What did they say?"

"Fust Mr. Herbert he speak kinder sof'-like, an' he tell he pa dat he come ter him fur ter git he'p. He say dat he wife an' he baby wus a-starvin', an' dat he couldn' beg from nobody else; dat he didn' keer fur hissef' but he couldn' stan' fur ter see dem hongry, an' so he come ter he pa fur some hep. Ole Mars Wright he answer kinder temtious-like, an' say dat he hearn tell nuff bout dat. He say Mr. Herbert ain got no business ter marry ginst he will, an' dat he mus' teck de sequences ob it. Den Mr. Herbert he git mad an' tell he pa dat he gwine hab somethin' anyhow, dat he was clean stracted an' he jes' boun' ter hab it. Den Mars John order him furm de house, an' tell him he ain' got no more time ter talk wid him, fur he wus agittin' ready ter go huntin' de nex' day."

"What did young Wright do then?"

"He jes' crump he hat on he haid and rush out, an' he mos' knock me ober de hat rack as he got out."

"Did he threaten his father?"

"No, sah; he didn' say nuthin', but he jes' look despirt, kinder 's if he didn' know what he wus doin' an' didn' keer."

London was then excused, very much to his relief, and he left the witness stand with the air of a man who had just escaped a deadly peril. The other servants were examined in routine, but nothing of importance was added to London's testimony.

There was a perceptible stillness in the assemblage when the next witness, Herbert Wright, was called, and all heads turned to look at him as he made his way to the witness stand. He was not nervous, though he was the very picture of forlornness. He appeared to take only a vacant interest in the investigation, and was either careless or oblivious of his own danger. At the moment he took his seat every mind there was revolving the probability of his having been the guilty cause of the present tragedy. With a rather bored air he waited the coroner's questions. After giving his age, name and other formal information, such as is required on occasions of this kind, he was asked the following question:

"You and your father were not on the best of terms, were you?"

"No, sir."

"What was the cause of your falling out?"

"My marriage."

"Why did he object to your marriage?"

"I can't see," said Wright, testily, "what my father's objection to my marriage has to do with his murder."

"It may have a great deal to do with it," said the coroner, significantly.

"Oh, I see," said Wright, with cool sarcasm. "You think that perhaps this may furnish a clew to connect me with his death. Very well. If the troubles that have overtaken me and mine will satisfy your curiosity and entertain this crowd, why I am ready to narrate them. Ask me what you will."

"I will repeat my former question," said the coroner. "Why did your father oppose your marriage?"

"His objection was to my wife?"

"On account of her poverty, or anything of that kind?"

"Not that I know of."

"His objection was a personal one?"

"Hardly that. For she was beautiful and amiable as well."

"I don't understand then what his objection to her could have been. Will you explain it?"

"Well, if you must have it, my father many years ago got into a difficulty with his overseer, Jefferson Baxter, and killed him. It was a very unfortunate affair in every way, and reference to it was carefully avoided in our family. My father was a very taciturn man naturally, and he never told me anything about it. I was from home a great deal, having been sent to college when I was 15, and I never knew the full details of the affair. Indeed, I only knew that years ago he had killed his overseer and that he had been cleared by a jury. To make a long story short, my wife is the daughter of Jefferson Baxter, and when my father learned that I was about to marry her he moved heaven and earth to break off the match; but I would not listen to his objections, and he accordingly disinherited me and forbade me to ever come again into his presence."

"You have sometimes solicited aid of him, have you not?"

"Yes; I have been very unfortunate in business. My wife's continued illness has been the cause of my losing several good positions, as I have always thought that my first duty was to her. At times we have been in great distress, and I have gone to my father to see if he would not relent and help us. The last time I went was a few days before his body was discovered; indeed, it was the day before he was murdered."

"Did you quarrel with him and threaten him on that day?"

"Our interview was a little stormy, but I was half crazy with hunger and despair. I am certain, however, that I never threatened him, and I never entertained any idea of wreaking vengeance upon him; for, of course, it was his privilege to make himself granite toward me if he so chose."

"Can you think of anyone who would have a motive for committing this crime?"

"I suppose I could; but I decline to give my surmises for testimony."

This answer created considerable speculation, but insist as they would, the witness could not be made to say whether he had any suspicions, or what they were. His testimony divided sentiment, some thinking that he was the guilty person, others siding with him because they believed he was innocent, or because they could not blame him much if he had rid the earth of such a man as John T. Wright.

The next witness was a young man by the name of Frank Bradley, who had been out hunting the same day as Wright. He was asked whether he had hunted anywhere in the vicinity of the murder. He replied in the affirmative.

"I dropped in at Uncle Dick's cabin to get warm," he said, "and after I had left him and was going to the city, I met Herbert Wright between there and the city."

"Who is Uncle Dick?"

"He is an old hunter who lives by himself in a cabin in the Bayou Woods. Doesn't have much to do with the world, but he's always very glad to see anybody who comes to his place."

"Where is his cabin?"

"It's on the long road through the Bayou Woods."

"You know Herbert Wright?"

"Yes; I have known him since we were boys."

"Did you stop and talk any?"

"It was bitterly cold, and he seemed almost frozen. I spoke to him and asked him where he was going; that was all."

"Did he reply?"

"He did."

"What did he say?"

"He said he was going to Uncle Dick's."

"What time was it when you saw him?"

"It was about a quarter past five, I think."

"Did you notice any weapon or bludgeon about him?"

"I think he carried a stout stick."

ATTEMPT TO DYNAMITE UMBRIA.

Infernal Machine on Dock Ready to Destroy Cunarder.

NEW YORK, May 11.—An attempt was made to blow up the Cunard line steamship Umbria, with passengers and crew of 700 aboard.

Just before the big ocean liner sailed an infernal machine containing a hundred pounds of dynamite was found on the dock at the foot of the first cabin gangway ready to be taken aboard the ship.

Fuses were already burning, and it is estimated by the police that the spark would have touched the dynamite within five minutes.

The letter of warning sent to police headquarters said:

"The Mafia greets you and wishes you well.

"At the Cunard dock is a box containing a hundred pounds of dynamite. Inside of that is a machine that will explode the stuff within thirty-six hours.

"The society has declared war against England and has ordered the destruction of every steamer flying the British flag that sails out of New York harbor."

Detectives were sent on the run to the pier, and they notified Captain Watson, the superintendent of the Cunard dock, and Mr. Floyd, the agent of the line.

When Captain Thomas Dutton of the Umbria was informed of the plot to blow up the vessel he declined to sail until the box was found. The police found the box without difficulty. It was roped and thrown into the water.

At the dock it was said that the box had been delivered there by two Italians. One of these men was tall and dark and smooth shaved.

The only description of his companion obtained so far is that he was of medium build and of dark complexion. The two drove up to the pier in a small dark green wagon such as may be seen used by peddlers on the east side.

VENEZUELA SETTLEMENT.

Could Have Been Made Without The Hague Tribunal.

WASHINGTON, May 11.—How Great Britain, Germany and Italy for the asking could have secured from Venezuela preferential treatment in the settlement of their claims had they asked in time and thereby been relieved of the necessity of an appeal to The Hague, with its consequent expense and delay, is told by Herbert W. Bowen, who acted as Venezuela's plenipotentiary in the peace negotiations at Washington, who has the correspondence and cablegrams relating to the Venezuelan protocols.

It shows that President Castro conferred on Mr. Bowen two sets of powers, one authorizing him to conduct negotiations exclusively with the representatives of the allied powers, Great Britain, Germany and Italy, and the other granting him full authority to effect a settlement with the representatives of all nations having claims against Venezuela.

Mr. Bowen on the day of his arrival here called at the embassies of the allied powers to present his credentials. He presented first his full powers, though expecting that these would be objected to promptly, in which event he intended to fall back on the original powers granted him. Instead the Italian and British ambassadors and the German charge accepted without question Mr. Bowen's letters empowering him to negotiate with all the creditor nations.

In so doing they waived at the outset the question of separate or preferential treatment for their governments, and this point was not raised until the peace protocols were practically ready for signature.

CAPTAIN PERSHING'S COLUMN.

Moros of Taraca Thoroughly Subdued.

MANILA, May 11.—Captain Pershing and his column have returned to Camp Vicars, Mindanao, from the expedition through the country east of Lake Lanao. The column experienced no opposition after the fighting at Taraca. The prisoners captured at Taraca took the oath of allegiance to the United States and were released.

Among the Moros killed in the Taraca forts were nine dattos and one sultan. The moral effect of this fight will be far reaching, and it is doubtful if there will be any further hostility in the Lake Lanao country. Captain Pershing estimates the population of Taraca at 30,000 and that of the district at 100,000. He says the population of the Lake Lanao district has been underestimated.

Four natives have been found guilty of the murder of three American marines at Olangapo, Subig bay, last September and have been sentenced to death.

The ladrone situation seems to have materially improved. In Albay province it is still unsatisfactory, but the other districts which recently have been disturbed are quieter.

Wanted to Dynamite Monastir.

MONASTIR, May 11.—The Bulgarian revolutionists attempted to commit here the anarchistic outrages analogous to those perpetrated at Salonika. Thanks to efficacious measures taken by the imperial authorities, they have been unable to put their designs into execution. Stoutsheff, one of the ringleaders of the Bulgarian revolutionary committee, perished with five of his companions at the village of Fraishna, Florina.

Shot on His Own Porch.

LEXINGTON, Ky., May 11.—Information from Winchester says that B. J. Ewen was shot while washing his face on the back porch of his home at Jackson at sundown. The assassin was concealed in bushes near Ewen's home. It is not known whether the wound is fatal.

ARMENIAN SPOKE.

Addressed Trinity Reformed Church and Marconnier Chapel Yesterday.

Mugerdich Kalemjian, an Armenian, now a student in the Rutgers Theological Seminary, delivered an interesting lecture at Trinity Reformed church, last evening. The massacre of his parents caused him to give up his studies of law and escape from Turkey to this country to study for the ministry.

The speaker said that the Armenians were the first Christians, they having accepted Christianity 315 years after the birth of Christ. He told how thousands of Christian Armenians were killed by the Turks. He expects to return to his country as a missionary. The offoering received last evening was given to Mr. Kalemjian to assist him in his studies.

MAY WALK.

Germans Went to Beeching Farm for Early Morning Stroll.

Fifty-four members of the Gesang and Turn Verein enjoyed their annual May walk yesterday with their families. The destination was the Beeching farm on the Stirling road. The start was made at 5 o'clock in the morning and the entire distance was covered on foot.

Era of Waterfalls.

One of the most notable things in the rapid march of mechanical science is the increasing use of waterfalls for the production of electric power. This is going on in all parts of the world, and has resulted in an enormous increase in the money value of the falls. Some one has estimated that Niagara falls, as a producer of power, is worth $1,000,000,000. Waterfalls are now driving tram-cars, lighting cities, running factories, irrigating farms, and performing innumerable other services, often at a distance of many miles from the source of power. Italy, abounding with waterfalls on the slopes of the Alps and the Apennines, is among the leaders in this advance. In India it is proposed to derive 50,000 horsepower from the Doogh Sagar river, at a point where its waters descend about 2,500 feet.—Youth's Companion.

For Sake of Science.

Prof. Angelo Mosso, of Turin, Italy, is well known for his many experiments relating to human physiology. The confidence that his scientific knowledge inspires was recently illustrated by one of his fellow citizens, Sig. Teodoro Scribante, who placed himself unreservedly in Prof. Mosso's hands for confinement in a hermetically sealed chamber where air mixed with increasing quantities of carbonic oxide was administered to him. When the proportion of carbonic oxide to air rose to one part in 233, Sig. Scribante fell into a cataleptic state, from which he was rescued with the aid of oxygen. The object of the experiment was to determine how much carbonic oxide in the air is fatal to human life.—Youth's Companion.

Animals and Poisons.

Certain substances which are deadly in their effects upon men can be taken by the brute creation with impunity. Horses can take large doses of antimony, dogs of mercury, goats of tobacco, mice of hemlock, and rabbits of belladonna, without injury. On the other hand dogs and cats are much more susceptible to the influence of chloroform than man, and are much sooner killed by it. If this invaluable anaesthetic had been first tried upon animals, we should probably have never enjoyed its blessings, as it would have been found to be so fatal that its discoverers would have been afraid to test its effects upon human beings. It is evident, then, that an experiment upon an animal can never be the means of any certain deductions so far as man is concerned.—Family Doctor.

Opprobrious.

Mrs. Nuritch—Mrs. Betterdaze told me she was going to send her boy to you for a job.

Mr. Nuritch—Yes, she sent him and I turned him down proper. You'd oughter seen the high-handed letter she sent with him—said she sent him to me because he "must have work of some kind even if he had to work for a mere pittance." The nerve of her callin' me names like that!"—Philadelphia Press.

TEA TABLE TALK.

Short Sketches That Are Not Always News, But Just as Interesting.

According to statements made in the Insurance Press, a paper devoted to the interests of insurance and insurance men, Plainfield was paid in insurance policies during the past year $131,301 and the amount paid to policy holders or their beneficiaries in the entire State aggregated $11,035,158. One of the most noteworthy payments made in this city during 1902 was to Charles W. Burton's beneficiaries, $10,032. The most notable one in New Brunswick was to the heirs of the late Mayor, Nicholas Williamson, $15,000.

Thomas Schaefer, the well-known show man of this city, has recently imported a large and expensive moving picture machine from Lamere, Paris, France. The machine is at the headquarters of the fire department on East Second street where the owner is putting it up. The machine is not used commonly in this country, so the owner declares, the only other ones now in use being at the Eden Musee and at Keith's New York theatre. The machine cost $300 and is known as the cinematograph. As soon as the machine has been put in running order Mr. Schaefer will join the Guy Brothers circus, with which company he has travelled for two years.

Robert H. McCarter, the new Attorney-General, is the son of the late Thomas N. McCarter, an eminent member of the New Jersey bar, and brother of Thomas N. McCarter, Jr., whom he succeeds as Attorney-General. Mr. McCarter was born in Sussex county, N. J., on April 28, 1859. Soon afterward the family removed to Newark, and his early education was had at Newark Academy, from which he was graduated to enter Princeton. He was graduated from Princeton in the class of '79 and took up the study of law in his father's office and at Columbia College Law School, from which he was graduated in 1882. He began the practice of law in his father's office, in Newark, and afterward became a member of the firm of McCarter, Williamson & McCarter, of which he is now the leading partner. Mr. McCarter has never held a political office, and has not been actively identified with partisan politics. Another brother, Uzal H. McCarter, is the president of the Fidelity Trust Company, of Newark, and prominent in financial circles. Robert H. McCarter has won a leading place in the New Jersey bar. He is counsel for the Lehigh Valley Railroad Company and for the Delaware, Lackawanna and Western, and has appeared in many of the principal cases in court in which large corporations have figured.

Despite his hitherto spotless character and known abhorrence for intoxicants, a well-known Plainfield young man has been kept busy during the past week denying that he was not under the "influence" last Thursday night. It all came about through a natural state of affairs that is apt to occur to anyone at anytime and yet gives rise to suspicion. On the night mentioned the young man escorted a Cranford young woman to her home from New York and returning to the depot found he had considerable time to spare before a west bound train was due. He promptly fell asleep and woke up just as the train which reaches this city at 2:08 stopped at the station. He essayed to rise but the next moment fell headlong to the floor, as his left limb was completely paralyzed from an exaggerated case of "sleep." Once more he tried to start and again he went down. By degrees he managed to reach the door and throw it open only to tumble out on the platform in a confused heap, while his calls for assistance met with derisive laughter on the part of the conductor and brakemen of the now receding passenger train. When the numbness finally left him and he was able to walk back to the waiting room, the stationmaster intent on being kind added insult to injury by advising him to sign the pledge. He was forced to wait at Cranford and take the paper train home and then to his horror he found the intoxication theory had preceded him. Several friends were in the 2:08 train and were witnesses to his wild cavortings on the Cranford platform. They promptly spread the report and they and the young man have not yet succeeded in heading it off.

Mrs. A. M. Gillem, of Duer street, leaves for San Miguel, California, on Thursday, to visit relatives. She will be gone about two months.

A Little Early Riser now and then, at bedtime will cure constipation, biliousness and liver troubles. DeWitt's Little Early Risers are the famous little pills that cure by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach and liver that the cause of the trouble is removed entirely, and if their use is continued for a few days, there will be no return of the complaint. Exceeded the Limit.

King Edward recently traveled from London to Windsor in a little over an hour, going in an automobile. The distance is 20 miles, and as the legal limit of speed is 12 miles per hour it is obvious that ultra-royal constables must have looked the other way when the royal vehicle dashed past.—N. Y. Sun.

FASS IS SET FREE; WAS IT BLACKMAIL

That Theory Advanced to Explain His Arrest and Farbmann's Disappearance.

FASS READY FOR TRIAL

BUT CHIEF WITNESS WAS GONE AND NO PROSECUTION DEVELOPED.

Fass Had Witnesses to Prove His Innocence, But They Were Not Needed—Case Was Dismissed by Justice Huff.

The case against Jacob A. Fass, charged with being implicated in the attempted robbery of Fay's bakery, May 2, was dismissed in Justice Huff's court last evening.

Counsel Blatz for the prosecution asked for a dismissal, inasmuch as the principal witness for the State, Farbman, through whom information had come leading to the arrest of Fass, had disappeared. Counsel Newcorn for the defense objected to a dismissal without a hearing, stating that he had witnesses to prove that Fass was at home on the night in question, and could account for every minute of his time. Mr. Blatz persisted in not making a case against Fass, and the charge was therefore necessarily abandoned.

The warrant for the arrest of Fass was issued by reason of an affidavit made by Farbmann to the effect that Fass was concerned in the affair, by which statement Farbmann contradicted his testimony given in the Block trial a week ago, when he asserted that he had not recognized any of the men whom he had seen drilling into the safe.

As a matter of fact, it is reported on reliable authority that Fass is a much abused man. It is alleged that Farbmann made out his affidavit against Fass for the purpose of blackmailing the latter, and when he discovered that Fass was determined not to knuckle to him, he became frightened, and "skipped" town. This is an inside view of the affair that explaining a whole lot of mystery, and reveals Farbmann in a new light. Counsel Newcorn for Fass would be very happy if Farbmann could be located.

NO FOREIGN SUNDAY.

Rev. John MacMurray Strongly Denounces Sunday Baseball and Golf—Their Causes.

Rev. John MacMurray, pastor of the Monroe Avenue M. E. church, preached a stirring sermon Sunday evening on Sunday observance. A large congregation heard him.

The pastor discussed the subject from the viewpoint of a citizen whose duty it was to raise his voice against the observance of Sunday as foreigners dictate. Baseball games and other sports on the Sabbath, the pastor said, were the result of the invasion of great numbers of foreigners into this country who endeavor to observe Sunday as it is observed in Europe. All right minded citizens should rise up against this, if for no other reason than patriotism.

Sunday golf playing was even worse because men who play golf can find time to follow that game in the week days.

SHOOTS AND MAY WALK.

Independent Gun Club Makes Varied Plans for the Summer.

Considerable business was transacted last evening at the meeting of the Independent Shooting Club. The dance committee made its report and showed that the net proceeds of the dance more than covered the expenses. The committee on the May walk also made a report. The walk will start from the headquarters at the Arlington Hotel a week from Sunday morning. The destination is not known. Arrangements were completed for the Decoration Day shoot at the Myrtle avenue grounds.

Bodine, of Dunellen, will leave tomorrow from Elizabeth on the Pennsylvania Railroad, for Los Angeles, Cal., where they will attend the General Assembly of the Presbyterian church to be held from May 20 to June 1.

TWO BURGLARS WALKED IN

VISITED MIDDLEBUSH HOME WITH THE AID OF PLANK AND TREE.

Captured $50 in Cash and Some Clothing, When They Were Frightened Away.

(Special to The Daily Press.)

Middlebush, May 12—The house of Mr. and Mrs. Paul Huff was entered Saturday night by two masked men and a quantity of clothing and about $50 in cash was taken. The burglars were frightened away before they finished their job by the screams of Mrs. Huff as the men tried to enter the sleeping room of the aged couple. Neighbors, hearing the cries, rushed out of their houses and joined in a chase of the thieves across fields. They escaped.

Entrance was gained to the house by means of a plank stretched from the limb of a nearby tree to the window in the upper story. The rooms down stairs were ransacked, and the money was taken from a drawer in the dining room. John Kregis and John Hicks, neighbors, chased the men for nearly a quarter of a mile, during which shots were exchanged between pursuers and pursued. None of the shots, it is believed, took effect. A woman by the name of Mrs. Cobourn saw the men and describes them as being two darkies, one very dark and the other a little lighter. This is the third time in two months that the house has been robbed.

IN CITY COURT.

Several Unfortunates Brought to Book—Wife Beater Among the Number.

James Barry, Patrick Lawlor, Austin Gulick and Martha Snedeker appeared before City Judge Runyon this morning charged with being drunk and disorderly on Compton avenue yesterday afternoon. Three of the quartette received sentences of varying severity, sentence in the case of Patrick Lawlor being suspended. Martha Snedeker was sent up for fifty days with a $50 fine attached. Austin Gulick was sentenced to $20 and twenty days and James Barry to $10 and ten days.

John Butler, colored, wife-beater, arrested this morning on complaint of his wife, was found guilty and Judge Runyon gave him fifty days and a $50 fine.

Judge Runyon respected the gray hairs of Newton Honeyman, aged sixty, who was helplessly intoxicated last evening and suspended sentence.

TO GRAND JURY.

Justice Hand Referred the Assault Case Brought Before Him Last Night.

The trial before Justice Hand last evening in the case of assault between Josephine Carey and "Rev." James Brooks, Ella and Marietta Brooks resembled a Methodist revival as much as it did an ordinary case at law. Counsel Swackhamer, who appeared for the Brooks family, and Harry Runyon, who represented Josepine, made impassioned appeals to the court amid choruses of amens from a crowd of spectators that crowded the small court room to suffocation. Justice Hand decided to send all papers in the case to the Grand Jury, now in session, and give the superior court a chance to wrestle with the problem.

Josephine Carey, in her own behalf, testified that on May 1, James Brooks, his wife, Ella, and her sister-in-law called at 721 Watchung avenue, where she was employed as a domestic, summoned her to the door and severely pummeled her face. No particular reason was given to explain the assault. Brooks denied that he was present at the time in question, although he had received a written invitation to be there, to which his wife and sister-in-law responded, the meeting resulting in the battle aforementioned.

In view of the conflicting testimony, Justice Hand decided to submit the case to the Grand Jury.

YOUNG KANEN GETS VERDICT OF $18,000

Big Damage Suit Brought by One of the Victims of the Westfield Disaster.

THE VERDICT GIVEN OUT

CASE WAS COMPLETED THIS MORNING WHEN JURY WAS CHARGED.

Young Kanen Brought Into Court on Cot to Testify—Doctors Tell of His Condition—An Invalid for Life.

(Special to The Daily Press.)

Elizabeth, May 12—It was impossible yesterday for the lawyers to conclude the trial of a suit for $30,000 damages brought by Frederick E. Kanen, by next friend, against the Philadelphia and Reading Railroad Company, for injuries sustained in the Westfield disaster. The boy was employed in the New York brokerage office of Henry Nicolo & Co., and was a daily commuter.

His injuries consists of spine trouble chiefly and in the examination of physicians, witnesses for the plaintiff, yesterday, Dr. Endicott, Dr. Buchanan, of Plainfield and Dr. V. P. Gibney, of New York, testified that the boy would probably be an invalid for life. Physicians were called on the other side to disprove this. The boy himself was brought into court on a cot where the physicians were able to show exactly the injuries sustained.

C. A. Marsh represents the plaintiff and he was allowed a short time this morning to sum up the case. The case was given to the jury about 11 o'clock.

The jury came in shortly after noon and gave a verdict of $18,000 damages for Kanen.

The case of Mrs. Eliza Bonnell, of Plainfield, against the Elizabeth, Plainfield and Central Jersey Street Railway Company, for injuries received while alighting from a trolley car on Grand street, Elizabeth, some time ago, was opened this morning by her counsel, Robert M. Clark. The case will probably take up the rest of the day. Riker & Riker represent the company.

The monkey will make an ascension in a balloon before the matinee performance. He ascends 3,000 feet in the air and comes down in a parachute. The act is a thrilling one. This will be a public exhibition.

Reserved seats for the performance will be on sale at William Warnock's bakery, on West Front street, and at Bert Schreiner's drug store on Park avenue. The club has been forced to provide reserved seats because of the great rush for tickets.

SUNDAY OBSERVANCE.

Fearlessly Handled by Rev. E. V. Stevenson at Grace Episcopal Church Sunday Morning.

Sunday observance was fearlessly handled in the sermon preached by Rev. E. V. Stevenson, rector of Grace Episcopal church, Sunday morning. He was outspoken in expressing his opinion against the general desecration of Sunday, and said that if it continued it would be because the people thought more of themselves and their pleasure than of religion and the welfare of the church.

The rector did not deny anyone the right to seek such pleasure on Sunday as they choose, so long as they do not interfere with the rights and observance of other people who want to keep the day holy, but he said that the Christian people have certain inalienable rights which the State is bound to recognize and assist in the observance of a Christian Sunday.

DEATH OF MRS. RANDOLPH.

In Respect to Her Memory There Will be No Services at the Mission.

Following an illness of several weeks Mrs. Elizabeth Stickles Randolph, wife of Elbert Randolph, passed away this morning at 2:45 at the age of fifty-five years. She was formerly the wife of Roundsman Charles W. Stickles, of Orange, who died a little over six years ago.

UNION MEETING OF TEACHERS

HELD IN THE FIRST BAPTIST CHURCH SATURDAY EVENING.

Advisability of Forming a Union of Sunday-School Teachers Discussed—Another Meeting.

A union meeting of the teachers of the Baptist Sunday-schools was held in the First Baptist church Saturday evening, when the advisability of forming a union of Sunday-school teachers, was discussed. The purpose of forming such an organization is to review the lessons of the following Sunday. The scheme met with instant favor and another meeting will be held this Saturday evening, when an organization will, no doubt, be completed.

It is understood that Rev. Gideon M. Shott will teach the lesson for the present, until a regular pastor is secured at the First Baptist church. The meeting is primarily for the benefit of the First and Park Avenue churches, but all the other teachers of Baptist and other denominations are welcome to attend.

A meeting of the teachers of the First Baptist church Sunday-school was held Sunday afternoon after the regular session of the school, when the question of changing the hours of Sunday-school sessions was brought up. It was agreed to change the hours during the hot weather from 2:30 in the afternoon to 9:30 in the morning and to continue the new hours beginning the third Sunday in June to the third Sunday in September.

It was also decided to send the teachers of the primary and infant departments to the Summer-school at Asbury Park this summer. Other matters of importance were discussed.

CHIMNEY FIRE.

Some Excitement in Borough Yesterday Afternoon—$10 Damage.

An alarm of fire from box 142, at the corner of Manning avenue and Somerset street, yesterday afternoon at 4 o'clock, caused some excitement in the borough. It was for a small chimney fire in the house of John Curran, of Somerset street, near Race street. The apparatus was not taken from the engine house, as the flames were under control before the alarm stopped ringing. The house is owned by Mrs. Lena Hoerster. The damage amounted to $10, covered by insurance. The alarm was sounded by John Doud, who is employed at the sub postoffice.

The club will lay out a court on that site in a few days so that it will be ready when the season gets in full swing.

IN THE SOMERSET COURT

TRIAL OF CRIMINAL CHARGES IN SOMERSET COUNTY COURTS.

Finds Wm. Ralph Not Guilty of Robbing Store at Gladstone—He Claims That Wm. Leary is Responsible.

(Special to The Daily Press.)

Somerville, May 12—The trial of the criminal cases of the April term of Somerset county courts was taken up here yesterday morning before Judge Schenck.

The first case moved by Prosecutor Griggs was that of the State against William Raiph, who was charged with having broken into the general country store of James W. Rodenbaugh at Gladstone January 30 and stealing three boxes of shells, a half dozen of razors, a box of cigars and a dozen packs of cigarettes.

In his own behalf the defendant testified that on the night in question he went to the postoffice in company of William Leary. After inquiring for mail they left the office and went past Rodenbaugh's store. Some seventy-five yards the other side Ralph alleges, Leary told him to wait while he went back to the store. After about ten minutes Leary returned and gave him a box of shells. He went to Mayberry's barber shop and then home. He swore he had no knowledge of the robbery. Leary skipped after Ralph was arrested. John A. Frech was counsel for the defense. The jury, after a short deliberation, rendered a verdict of not guilty.

John Morecraft and Harry Hayes, of North Plainfield, charged with the theft of chickens, retracted their pleas of not guilty and pleaded non vult.

William Kennedy, breaking, entering and larceny, retracted and pleaded non vult.

James A. Little, assault and battery, retracted and pleaded non vult.

These four were held for sentence tomorrow morning.

VANAUKEN WINS.

Gets the Appointment to Annapolis Naval Academy at Competive Examination at Elizabeth.

The competitive examination, held by Congressman Charles N. Fowler at Elizabeth, Saturday, for the purpose of selecting a midshipman at the Annapolis Naval Academy from the fifth Congressional district of New Jersey, resulted as follows:

1. Frederic Tabor VanAuken, 310 East Sixth street, Plainfield; 2. Nathaniel Pendleton Rogers, Jr., East Front street, Plainfield; 3. William H. Cook, Madison; 4. Charles Simpson Robert, 175 Martine avenue, Plainfield.

Mr. VanAuken, therefore, will be appointed midshipman, and the others, alternates, in the order named.

VanAuken made an attempt last year to secure the appointment for West Point, but was defeated by N. Pendleton Rogers, of this city. Van Auken came out second in the competitive examination. Rogers having successfully passed the necessary examinations for entrance to the academy, VanAuken took the examination for Annapolis.

While by no means unhoped for, the appointment has been a decidedly agreeable surprise to the winner. The necessity of further courses of study for entrance examinations this summer will make it necessary for Van Auken to leave the High School without securing his diploma, although the extra studies necessary will be taken at the High School. The entrance examinations will be held June 15.

Do you want a little lobster? This is not a proposal of marriage; merely an announcement that the A. and P. Tea Co. have the best lobsters on the market. They are also making a specialty of sardines this week, which they are selling at reduced rates.

Look over the advertisements in The Daily Press and then draw conclusions as to where the best values for the money can be secured in silverware, jewelry and watches. Nine out of ten will say that it is L. Moraller & Sons, on Park avenue. One will say the same thing about watch repairing.

Man wants but little here below, but when he smokes he wants the best on the market or none. The saying in this case applies to Dobbins' cigars. A smoker thoroughly enjoys the cigars bought at Dobbins' store because they are the acme of the cigarmaker's art.

THEATRICAL.

William A. Brady has issued a notification cancelling all the road time held for Grace George in "Pretty Peggy." The production will finish the season at the Herald Square Theatre, New York. Grace George, who was booked to begin her next season in October at the Chestnut Street Opera House, Philadelphia, will open in September instead in order to resume her run at the Herald Square Theatre, where she has scored a remarkable success.

Vaudeville in all that the word implies will be furnished by the bill offered at Keith's during the coming week. Chief among the acts that will keep the interest aroused is the slack wire work of the Great Sidonia. True to nature is the sketch "The Bowery Sweethearts," offered by Fields and Whalen. The little ones will be astonished at the work done by Buster Keaton who is the youngest of the Keaton family, father, mother and son. He is a whole show in himself, with his singing, dancing, jokes and comedy turns. "A Gymnast's Parlor Amusement," in which the Pantzer Trio, assisted by Mrs. Carl Pantzer, is the refinement of acrobatic comedy work. Marion Littlefield, the famous contralto, will sing, while Edward Doyle will do some wonderful feats of juggling. Reno and Richards; Al Lawrence, Parker's Marvelous Dogs and a well-known story illustrated by Keith's moving pictures will also appeal to the younger element. These with many others all as good in their line will help entertain rounding out the bill to the usual Keith completeness.

—The Woman's Foreign Missionary Society will meet this afternoon at 3:30, at the Crescent Avenue church, to discuss the subject "Siam and Laos."

Shamrock III. Does Good Work.

GOUROCK, Scotland, May 12.—The Shamrock III.'s windward work is little short of marvelous, and even more so was the manner in which she carries way while going about. She stayed on the weather bow of the old boat and practically kept pace with her opponent with light winds and through smooth water. Yachtsmen are surprised at Mr. Fife's persistent avoidance of a formal racing trial, although Sir Thomas Lipton is anxious that the racers go the set course, and the challenger has shown form adequate to secure a victory with any reasonable handicap. It is believed that Mr. Fife is not willing to give an opportunity of showing all that the Shamrock III. is capable of between marks.

Morris Park Races.

NEW YORK, May 12.—Lux Casta, with Odom up, won the Crotona handicap at Morris park. Mexican, who was making his first appearance of the year, won the last race by a head from the outsider, Zoroaster, with the favorite, River Pirate, third. Five favorites and one second choice divided the money. Jockey Tommy Burns carried off the riding honors by piloting three winners.

VISIT TO BIG TREES

President Dines In Shade of Giant Redwoods.

A PLEA FOR THEIR PRESERVATION

Roosevelt Eats Beans Prepared by a Mother of Thirty-six Children. Santa Cruz Gives Him an Ovation.

SANTA CRUZ, Cal., May 12.—President Roosevelt was given an ovation on his arrival here. He was received at the station by the reception committee and escorted to a carriage drawn by two black horses. The other members of the party were also assigned to carriages.

After a drive on Beach hill, where he had a good view of the bay and city, the president was driven along Pacific avenue, which was crowded with an immense throng, hundreds having come from miles around. His carriage was driven through an avenue of thousands of school children with waving flags who for a mile scattered flowers along his pathway. The cheers of the children were taken up by the pioneers, the Grand Army, Knights of Pythias and citizens. In carriages following that of President Roosevelt were Congressman Needham, President Benjamin Ide Wheeler of the University of California, President Butler of Columbia university and others.

Fags were lavishly displayed. The courthouse was a mass of national colors. The president spoke briefly at the courthouse.

At the close of the president's remarks, preceded by the naval reserves and band, the procession moved slowly up the street to a special train. The big trees were reached in fifteen minutes, and the party sat down to an al fresco luncheon. Twenty of Santa Cruz's prettiest young ladies waited on the tables. The naval reserves and officers acted as a guard. At the close of the repast the president said:

"I want to thank you for your courtesy and to say how much I enjoy being here. This is my first glimpse of the big trees. I desire to pay tribute to the associations, private owners and state for preserving these trees and also to the citizens who acted in cooperation with the state in preserving these wonderful trees. Let me preach to you a moment. All of us desire to see nature preserved. Above all, the trees should not be marred by placing cards or names on them. People who do that should be sternly discouraged. The cards give an air of ridicule to the solemn and majestic giants. They should be taken down. I ask you to keep all cards off the trees or any kind of signs that will mar them. See to it that the trees are preserved; that the gift from nature is kept unmarred. You can never replace a tree. Oh, I am pleased to be here among these wonderful redwoods. I thank you for giving me this enjoyment. Preserve and keep what nature has done."

The president requested that he be unaccompanied in his walk along the trees, and President Butler was his only companion. While he was away Secretary Loeb, President Wheeler and others acted on the president's suggestion by tearing down the cards from the trees amid great applause. During the luncheon the president was informed that the Spanish beans served at luncheon had been prepared by Mrs. J. M. Gesetterest, who resides near Watsonville and who is the mother of thirty-four children. He laughed heartily, saying, "She should be made the president of some association, I don't know what."

The Pioneers' society presented to the president a silver plate. A tree was dedicated in the president's honor. The president expressed his thanks, but he objected to a big sign with his name on it. He also received pictures of the big trees. After a photograph was taken and many had shaken hands with him the train started for this city. The station at Big Trees was crowded with people from Boulder Creek and Felton. While the party was at Big Trees Native Daughters decorated the trees with flowers.

WRECKED VERA CRUZ

Portuguese From Barkentine at Ocracoke Inlet.

LIVED ON SEA WATER FOR FIVE DAYS

Terrific Storm Carried Away Vessel's Sails and Drove Her Ashore With Immigrants Bound For New Bedford.

NORFOLK, Va., May 12.—The 433 shipwrecked Portuguese immigrants from the barkentine Vera Cruz III., driven ashore at Ocracoke inlet, North Carolina, Saturday night, are still being cared for on the coast. A revenue cutter will carry them to New Bedford, Mass., whither the barkentine was bound when she anchored off the North Carolina coast Friday for food and water and later was wrecked. Of the immigrants 390 are men. One man died from starvation. A thrilling story of the experience at sea of the barkentine has just been received.

The Vera Cruz, bound from the Cape Verde islands to New Bedford, Mass., was within 135 miles of the Massachusetts coast two weeks ago when a terrific storm carried away the vessel's sails and drove her far out to sea.

It was thought the craft would founder, and most of those aboard abandoned all hope of ever reaching shore again. Jury sails were finally rigged, but another storm came up and carried them away. The barkentine arrived off Ocracoke helpless Friday afternoon. The immigrants aboard had been drinking sea water for five days to prevent perishing from thirst, and food of all kinds had given out. The immigrants' baggage and portions of the ship's deck load had to be burned for a fire to make as good condensation of salt water as possible.

The captain on arriving off the North Carolina coast declared he would never put to sea again with his human freight. That night a bad storm drove the ship ashore. All the immigrants are destitute and dependent entirely on charity until the government takes charge of them on the revenue cutter Boutwell.

President Olyphant Retires.

NEW YORK, May 12.—After twenty-seven years of service Robert M. Olyphant retires today from the presidency of the Delaware and Hudson Canal company, and hereafter his only connection will be that of chairman of the board of managers. Mr. Olyphant, who is now past eighty-six years old, has been the head of the Delaware and Hudson for nineteen years and was connected with the road for eight years previously. During his management the road grew to be one of the richest corporations of its kind in the United States and one of the most important factors in the coal carrying industry.

Great Northern Men's Ultimatum.

ST. PAUL, Minn., May 12.—The vote of the trainmen on the differences with the Great Northern was given out by the men, the vote standing 1,199 in favor of the position of the committee to 15 in support of the company. Of the latter fourteen were said to be conductors and only one a trainman. The grand officers and the committee of the Great Northern trainmen have sent an ultimatum to General Manager Ward saying that they could not accept his proposition, but would have to maintain their original position.

Shallow Water Holds Arkansas.

WASHINGTON, May 12. — Colonel Mackenzie of the engineer corps, who for many years was on the Mississippi river, when asked what prospect there was to get the Arkansas down to Cairo said it would depend on whether or not there was a "June rise" of the river. Between St. Louis and Cairo the low water stage is six feet, and even below Cairo the river often shoals to that depth. The aim of the government is to obtain nine feet of water at the low stage, but that has not yet been accomplished.

Italian Strike Riot.

NEW YORK, May 12.—Fierce rioting between striking Italians and workmen whom they first tried to coerce into joining them and later attacked occurred in Brooklyn yesterday afternoon, and the police reserves of two stations had a hard fight and were compelled to fire many shots before the mob was dispersed. One of the workmen who had resisted the demands of the strikers to quit work and join them was stabbed, and many others were more or less bruised.

Cotton Soars Still Higher.

NEW YORK, May 12.—Cotton brokers had their greatest excitement this season yesterday when an enormous covering movement was started by an unexpected advance of 11 to 14 points in Liverpool attended by heavy sales of spot cotton in the English market. The local market responded with an advance of 15 to 24 points on the more active months, new high records in all cases being made.

Girl Fires House Five Times.

LAWRENCE, Mass., May 12.—Mary Cuddy, thirteen years old, has confessed to setting fire to the tenement house in which she lived five times. At the time of the fires a police officer was placed in the house, but one fire was started while he was there. The girl's action led to her detention, but she did not confess until questioned by the court.

Holls Named For Umpire.

NEW YORK, May 12.—President Roosevelt has tendered to Mr. Frederick W. Holls of this city the position of umpire to act in the settlement of the claims of Germany and Italy against Venezuela.

PRESIDENT RESIGNS

Political Troubles Force Marroquin Out.

NEW PRESIDENT IS RAPHAEL REYES

Politicians Who Will Decide Fate of Canal Do Not Forget the Humiliating Incidents During the Recent Insurgent Hostilities.

PANAMA, May 12.—It is reported here that President Marroquin has been compelled to resign office on account of political troubles and that General Raphael Reyes, second vice president of Colombia, will assume the presidency. Friends of the canal are anxiously awaiting confirmation of this report.

General Raphael Reyes says he has reason to believe that the recent interpretation of the United States of its obligatory rights to maintain free transit across the isthmus and its manner of enforcing these rights had created a very unfavorable impression throughout Colombia. He said the politicians who would be called upon to decide the fate of the canal would not be likely to forget the humiliating incidents which occurred during the recent insurgent hostilities on the isthmus. General Reyes, however, in no way expressed himself as opposed to the construction of the canal by the United States.

Northern Securities' Appeal Docketed

WASHINGTON, May 12.—The record in the case of the United States versus Northern Securities company recently decided by the United States circuit court for the district of Minnesota adversely to the Securities company has reached the United States supreme court on appeal and has been docketed as No. 696. The docket covers almost 1,700 printed pages and is confined largely to the testimony. Ex-Attorney General Griggs, Francis Lynde Stetson of New York, C. W. Bunn, George B. Young and M. D. Grover enter their appearance as counsel for the company. As the call of the docket has been suspended for the present term the case cannot be called before next October.

The Dreyfus Case.

PARIS, May 12.—Minister of War Andre has not yet decided to present the Dreyfus case before the court of cassation. It is said that General Andre intends to take advantage of the diversions caused by the dispersion of the congregations and the visit of King Edward and take the unexpected step of referring the case to the court of cassation, thus preventing the chamber of deputies from interfering. In the event of the court acquitting Dreyfus he would be restored to the army, promoted and given a staff appointment. At the same time Colonel Picquart would also be restored to the army and promoted to be a brigadier general.

The Postal Scandals.

WASHINGTON, May 12.—Referring to resolutions adopted by the convention of the Amalgamated Street Railway Employees of America at Pittsburg alleging flagrant abuses of the mails, Postmaster General Payne said that during the street car troubles in San Francisco a postal official was accused of giving undue privileges to detectives employed by the companies. Mr. Payne said that he had forgotten just what these privileges were, but the case was investigated at the time and the action of the post office condemned by the department. He said he had never heard of the complaints emanating from New Orleans.

Strike In Chicago Lumber Yards.

CHICAGO, May 12.—A strike of 1,500 tally men and lumber inspectors which may develop serious trouble in the lumber industry of this city, has been inaugurated. Seventy-five lumber yards throughout the city are involved. Upon the refusal of the employers to grant a demand for 30 cents an hour and a ten hour day the men walked out without any warning, although an agreement had been signed Jan. 1 between the tally men and the lumber inspectors' union and the employers making the wages 22½ cents an hour for one year.

Malignant Fever at Isthmus.

WASHINGTON, May 12.—General Haines, a member of the isthmian canal commission, who has just returned from the isthmus, says that fever is prevalent there and that it is quite dangerous to white men. He says it is either yellow fever or such a malignant type of malarial fever as to be as bad as yellow fever. The condition can be improved, but it would require control by the government of sanitary measures. He thinks it would take about a year to place the canal region in proper sanitary condition.

Not Guilty, Says Cashier.

TRENTON, N. J., May 12.—Cashier Draper of the First National bank of Asbury Park, who was indicted in the United States district court for falsifying the records of the bank and making false reports to the comptroller of the currency as to the bank's condition, pleaded not guilty to the indictment. Mr. Draper gave $2,500 bail for his appearance for trial on Wednesday, May 20.

Strike In Montreal Ended.

MONTREAL, May 12.—The strike of longshoremen which was inaugurated last fall and which has tied up the commerce of this port since the opening of navigation this spring has been settled, both sides to the controversy having signed an agreement.

NO IMMEDIATE ACTION.

While it is probable that the street sprinkling question will come before the Common Council at its meeting Monday evening, it can be stated with considerable degree of certainty that nothing will be done this year. The tax budget has been fixed and the Councilmen are not yet sure how the public opinion stands on the subject.

The Daily Press is not opposed to municipal street sprinkling. On the contrary, it is inclined to look on the project with favor as the only method whereby all the streets can be properly sprinkled. But we do not want to see the tax rate go up. At present it looks as if the street sprinkling could not be done without raising the tax rate seven or eight points. That is what troubles the Councilmen. There has been so much talk about the tax rate and the temper of the people has been clearly shown as opposed to any raise.

Because municipal street sprinkling does not start this year, it does not mean that it can never be started some other time. If the city's affairs can be arranged so as to bring about the desired result without any very great increase in the tax rate, it is very likely that public opinion would approve the change. Just at present there has been no expression of opinion which would lead the members of the Council to believe that there is a great public demand for street sprinkling with a considerably increased tax rate.

As The Daily Press has stated before, conditions like those of this spring should not be permitted again. Those dust storms were by no means desirable. It is certainly to be hoped that the Common Council will discuss the subject and see that something is done to prevent their recurrence. It does not look, however, as if the Council would approve of an immediate installation of a municipal street sprinkling plant.

The announcement made a few days ago that Homer J. Wightman would remain as supervising principal of the North Plainfield public schools was received with general satisfaction throughout the borough. Everybody knows that Mr. Wightman has done much to improve the borough schools and that he is a very valuable man. The talk that the advocates of Greater Plainfield, when they secured control of the Borough Board of Education, would turn him out was the rankest nonsense. The members of the board know a good man and they intend to keep him. The new board has, however, accomplished wonders in its campaign after the truants so that "playing hookey" is fast becoming unknown in North Plainfield. Special credit for this should be given to Samuel Townsend, chairman of the committee on truancy.

A keen observer affirms, in the Philadelphia Record, that considering the direct returns, no other class of advertising is so poorly done as is that of the summer resorts. "In the course of the season the average amount paid by the average hotel man for advertising in the newspapers is a trifle over $100, and in many cases this sum includes the booklets. Few spend more than $1,000. The 'ads' are not changed even from year to year. Yet there is no other enterprise which could bring better returns from liberal and modern advertising in the leading newspapers."

Very satisfactory was the opening of the Crescent Oval Saturday as a baseball field. The diamond is a good one while ample accommodation has been made for the spectators. The covered grandstand is a welcome future but it would still be improved by a shade roof at the western end to keep the sun out of the eyes of the spectators. It looks as if the young men of the Alis Club were going to be very successful in their baseball season even with the league games going in opposition.

The supplemental course of entertainments at the Y. M. C. A. came to a close last evening with a programme of unusual excellence. The star course during the winter was very satisfactory and this extra course has been equally pleasurable. The Y. M. C. A. has been remarkably successful in its effort to provide good, wholesome entertainment for the young people of Plainfield.

Another P. and R. engineer ran past a red danger signal with fatal consequences. When the red light is neglected, the results are generally serious to somebody.

The Association Baseball League opens its season Saturday of this week. Some exciting games are promised by the four clubs interested.

IN HARD LUCK.

Taxpayer Explains How His Property Was Placed on Sale and He Didn't Know.

To the Editor of The Daily Press:—I was interested in the issue of Friday's article, headed "Property sold under the Martin Act," particularly the latter part of article, as the man referred to was myself. I am the unfortunate owner of a piece of property lying east of Belvidere avenue; have owned it for seventeen years; have seen it possibly five times; have received tax bills regularly, and paid the tax regularly until 1900, the bills ceased to come. I didn't know but thought possibly the new assessor had viewed the property and concluded it was valueless.

The first thing I knew the property was advertised to be sold for taxes as the property of the man who owned it before I did and who has been dead seventeen years. I went to see the assessor about it but he insisted that that was the man who it had always been assessed to. Of course the Collector could not give me a tax bill for what was assessed to another man. I paid all taxes and cost up to date but have no receipts. I made no remonstrance against paying, only to say, I thought it too bad to have to pay the cost when it was no fault of mine that it had not been paid. I shall insist that Mr. Hand fix it up so that I shall get a receipt for it in the regular form. Signed, Tax Payer.

"WAY DOWN EAST."

Cleverly Presented at Y. M. C. A. Entertainment Last Evening.

Before a large and thoroughly appreciative audience, Miss Gay Zenola McClaren gave a clever presentation of "'Way Down East" at the Y. M. C. A. last evening, in the supplemental course. Those who have seen the play appreciate how difficult it would be for one person to impersonate the many characters in the play, but Miss McClaren did it in a masterly manner and from the beginning to the end she held the close attention of everyone. Miss McClaren is especially talented in this work and her work was of a high order. In addition to her, W. Paulding DeNike, accompanied on the piano by W. E. MacClymont, gave several of his best selections on the 'cello. He was obliged to respond to a number of encores. Altogether, the entertainment was one of the best of the season.

PERSONAL.

Conductor Charles Dodwell, of the New Jersey Central, is enjoying a well-earned week's vacation.

Mr. and Mrs. John Hiscocks, of Westerly, R. I., are visiting Mr. and Mrs. Robert Mitchell, of Grant avenue.

Adjourned for Two Weeks.

The case of the Gaskill estate against John Hayes, which was to have been tried before Justice von Minder at New Market, was adjourned for two weeks. John H. Van Winkle & Son represent the defendant, and Nelson and Wm. N. Runyon, the plaintiff.

The Grass Twine Mattings have also become popular for summer use. The demand for them steadily increases. Our prices for them (until we move) is 35c per yard. The stock is now at its best.

The Carpet stock has never been fuller or better, although very much condensed owing to our present lack of room. Special prices will prevail from now until we move.

SUBURBAN NEWS

A Department Devoted to the Minor Events in Greater Plainfield's Suburbs by Our Own Correspondents.

DUNELLEN.

The members of the Crokinole Circle gave Mr. and Mrs. Thomas C. Bodine, of Dunellen avenue, a very pleasant surprise, Saturday evening. They assembled at the home of W. J. Hamilton, and went to their destination in a body. The couple were completely surprised. The evening was spent pleasantly playing the favorite game, and at the close, refreshments were served. After that Rev. N. J. Sproul, in a few well chosen words, which provoked a great deal of merriment, presented Mr. and Mrs. Bodine, in the name of the circle, with a beautiful drinking cup in a handsome leather case, for use on their coming trip to California.

The Watchungs were somewhat handicapped in their game with the Reform Club Saturday as several of their best players could not play.

Mr. and Mrs. T. C. Bodine will leave tomorrow morning for the trip to California. They will connect with the special at Elizabeth.

The body of the engineer, who was killed at Bound Brook yesterday was removed from here to his home in the afternoon.

Court Dunellen, I. O. F., held a meeting last evening at which regular routine business was transacted.

The Dunellen A. C. will cross bats with the Y. M. C. A. team, of Plainfield, next Saturday.

Dr. P. W. Brakeley has left for a few days' vacation which will be spent at Cookstown.

Brown played an unusually good game at first on Saturday and should be kept there.

Miss Lottie Smith, of Baltimore, has been visiting friends here and in Baltimore.

Rev. N. J. Sproul has been entertaining an out-of-town friend for several days.

R. J. Swackhamer still continues in the same unsatisfactory condition.

Mr. and Mrs. W. S. Stevens spent yesterday afternoon in Plainfield.

Henry Garretson spent yesterday afternoon in New Brunswick.

Charles Coriell was in New Brunswick on business yesterday.

A meeting of the Literary Circle will be held this evening.

NEW MARKET.

The lead of ten runs which the Y. M. C. A. team secured in the first inning of Saturday's game was too much for the local boys. After that inning, however, the game was close and exciting. The local team was considerably changed about.

George Hermann, of Plainfield, formerly with the Orange Field Club, has signed with the locals. He is a very valuable man.

A meeting of Friendship Council was held in the hall last evening and considerable business was transacted.

F. P. Vail visited in Plainfield, yesterday afternoon.

PLAINS AND FANWOOD.

The attendance at Saturday's ball game was very encouraging to Manager Johnston, who has worked hard to get a cracker jack team together. About 500 people were in attendance and the best of it is nearly all pay something and do it willingly, which shows that the national game has taken a firm hold in the village and has come to stay.

Flannery at centre field is putting up a great game for the locals. Everything coming his way is accepted and so far not an error is charged against him although he has gathered in several flies that looked to be impossible but Peter was there when they landed.

Saturday's game with the Safe Works team, of Plainfield, should draw a record breaking crowd. The visitors are determined to come up and break the locals' winning streak. If they do one of the prettiest games of the season will take place.

Miss Nina Seeber, a former teacher in the public school but now teaching in one of the New York schools, has been visiting at the home of Miss Robison, of the borough.

Miss Olive Humes, who has been the guest of the Misses Marsh, of Front street, for several days, has returned to her home in Jersey City.

Fanwood Council, R. A., will meet in its rooms tonight. A full attendance of members is desired as important business will be transacted.

Willie, the young son of Mr. and Mrs. W. R. Stanbury, of the borough, is detained at home suffering from a light attack of scarlet fever.

Rev. G. M. Shott, secretary of the ministers' conference, attended the weekly meeting of that body held in New York yesterday.

Mrs. Chas. Frentz, of New York, is spending a few days with Mr. Frentz's parents, Mr. and Mrs. A. L. Frentz, of Westfield avenue.

Mr. and Mrs. Conrad Peltz have been entertaining friends from Bayonne over Sunday.

SOUTH PLAINFIELD.

Those who recently united with the Baptist church here were the Misses Florence and Mildred Johnson, Mabel Smith, Sadie Dayton, Mildred Soper, Charity Randolph and Heber Cubberley. These all received the hand of fellowship last Sunday except the Misses Mildred Soper and Charity Randolph, who were detained by sickness in their families.

Eddie Maher thinks the physician's treatment by antitoxine in the very beginning of his sickness was greatly in his favor, enabling him to get about in a short time. He was cared for by Dr. Nelson, of New Market.

Camp No. 1, P. O. of A., will hold the postponed rosette social at the home of Mrs. William Force, at New Dover, this evening. Every body invited. A good time is expected.

It is reported that the little son of Mr. and Mrs. Milton Major was accidentally burned by the contents of a bottle of carbolic acid which he picked up in the street.

In a lively game played here Saturday afternoon the Mount Pleasant Hustlers were beaten by the local Middlesex Baseball Club. The game stood 27 to 16.

Lewis Campbell has somewhat improved from his serious illness, but yesterday was not quite as well as previously.

The children who reside near have been interested of late in a little pet lamb on William B. Manning's lawn.

Heber Cubbeley finds his new bicycle a great convenience in getting to and from school.

Albert Manning is doing carpenter work for William Faulks today.

Piscataway farmers are commencing corn planting this week.

LAND OF HETHER.

Described by Rev. W. T. Dorwood in Lecture at Hope Chapel.

A lecture of exceptional interest on "Scotland" was given at Hope chapel, last evening, by Rev. W. T. Dorwood, pastor of the Baptist church at Stelton. Mr. Dorwood being a native of Scotland was able to make the lecture very instructive. He related many incidents of an amusing character and told of the beautiful country of Scotland. There was a good-sized audience present to enjoy the talk.

Commission Sends Instructions to Governor Taft.

WASHINGTON, May 12.—Secretary Root, Mr. Ide of the Philippine commission, Colonel Edwards of the insular bureau and members of the monetary commission held a conference yesterday and discussed the Philippine monetary situation in its relation to the operation of the new currency laws for the islands.

After the conference the following cable message was sent to Governor Taft for his information:

"Henry C. Ide, Charles A. Conant and Professor Jeremiah W. Jenks recommend no time be fixed for establishment of gold standard until full preparations have been made covering in detail methods of maintaining parity. Letter on the subject will be mailed you in a few days. Recommend continuing present policy as to fixing ratio between Mexican and United States currency. Recommend no legislation to interfere with either import or export of Mexican dollars. Recommend ultimately taking up Spanish Filipino currency at approximate bullion value. Recommend that Mexicans be not taken up at any time by Philippine government, but their use discouraged by receiving them for government duties only at rates below bullion value after sufficient supply of new currency is on hand to meet wants of business. Secretary of war approves all these recommendations."

A blazing oil barge in the East river, New York, made a spectacular harbor fire. One man is missing.

Three sisters of Colonel J. R. Shafter, superintendent of the Panama railroad, have died of fever at Colon.

The body of Mrs. Augusta Harper Lynde, who disappeared April 28, was found in the North river, New York.

An unidentified young woman was killed in front of 355 Broadway, New York, by a case of goods falling on her.

ON MAIN LINE PENNSYLVANIA RAILROAD.

Rosedale and Linden Park Cemeteries

Largest Burial Parks in the State.

Transportation Facilities superior to those of any other cemetery, as to number of trains, railroad fare, time and distance.

These New Cemeteries, now being developed on the modern park plan, are attracting universal attention.

By Reason of Location Alone they are destined, in a very short time, to become the best-known Cemeteries in the country and, with their natural advantages, the most beautiful and desirable in which to purchase lots.

They are Accessible from every quarter and within easy reach of over 4,000,000 people, and, considering the steady and rapidly increasing growth of Greater New York and its tributary cities and towns, it is only the question of a short time before plots in Rosedale and Linden Park will equal in value those of our most noted cemeteries.

Popular Favor has already been shown to a marked degree in the sale of lots, several hundred having been sold to residents in Elizabeth, Linden, Rahway, Cranford, Jersey City, Orange, Paterson, Westfield, Newark and New York City, and a large number of interments have been made.

In the Days of Happiness we do not know what is to befall us or when the inevitable will occur; therefore, it is a wiser precaution to make provision for a final resting place during health and life than to force the painful duty on one's friends or relatives after death. A place of burial will be needed sooner or later by every one, and no one should neglect selecting a suitable and proper place until future postponement is impossible.

Linden Lodge is the largest, most modern and best equipped Cemetery Lodge in the country, and is provided with every requisite for the comfort and convenience of visitors who come to inspect the properties.

Black and White Effects—Embroidery a Smart Trimming.

There are endless variations of the black gown arranged over a white foundation, but separate motifs of lace of large size are most effective when the material is cut away to show the white underneath. Fine silky voile is a favorite material for black skirts, and this is charming with many tucks of the small pin type, with lace insertions or transparent medallions.

Embroidery is a most fashionable trimming for the moment, and very subdued and harmonious colors are so deftly blended that the effect is neither crude nor bizarre. Perhaps the most effective results are obtained by combining several shades of one color, such as blue shading from pale sky blue to a deep royal blue.

The separate motifs of embroidery or lace look very handsome on crepe de

chine or thin textures, but stitched lines and broad strappings are very popular on cloth and hopsack costumes.

The sack bolero has caught on immensely, though it is by no means a desirable garment for every one.

A charming fancy of which women do not seem to tire is that for the little short lace coats known as tea or coffee sacks and which are often worn over a blouse. There is no doubt of the utility of such garments, especially for afternoon wear at home. They give a finish to a blouse and are not difficult to make.

The picture shows a tailor made suit made of mixed goods and trimmed with pipings of a lighter shade.

SEPARATE WAISTS.

The Tendency Is to Have the Waist Match the Skirt.

Separate waists are still in vogue, although the tendency is to have them match the skirt.

Many waists have a deep cape effect rounding up in the front into the collar. Those which do not do this usually have a wide collar or bertha of lace.

The shirt waists meant to be worn with tailor made suits are without

these shoulder effects, but on a dressy blouse they are indispensable.

Waists blousing both back and front are seen in lace trimmed with perpendicular strappings which simulate a bolero.

Fichus of every conceivable shape are smart and useful accessories both for waists and summer dresses.

For morning wear the plain shirt waist of white cheviot or white embroidered linen is the proper thing, worn with the tailor made tie of cheviot or white pique.

Delaines rush linens close in popularity for country frocks. Some of the newest patterns from Paris show the spot, while checks and stripes are also increasing in favor.

The waist in the cut is of soft silk and gulpure lace, with a triple yoke and box plaited front.

MYSTERY OF THE BAYOU WOODS

By WALKER KENNEDY.

Copyright, 1903, by A. N. Kellogg Newspaper Co.

While this witness was giving his testimony, a detective came hurriedly into the room and called the chief of police aside. They engaged in eager conversation for some minutes. When the chief returned to his place he whispered something into the ear of the coroner, who listened attentively, bowed, and then resumed the proceedings.

A witness was next produced who had seen Herbert Wright in town about 6:30 o'clock of the day of the murder. The witness was in a saloon at the time, had seen Wright enter, pour out a very large drink of whisky and gulp it down.

"Did he pay for it?"

"Yes."

"What was his appearance?"

"He was either nervous or very cold. He had a bundle under his arm which I took for groceries."

After this witness had been examined, Warde whispered the chief that he considered it a pretty lame case against young Wright.

"You still hanker after the mysterious arctics, do you?"

"Yes."

"Of course your theory is more sensational and picturesque, but as a general thing murder is a rather prosaic affair. Wait till you hear all the testimony and I think you will say that we have made out a pretty fair case."

Warde himself was next called upon to testify. He told all about his investigation of the footprints in the snow, but his testimony was received with a smile, and it was evident that the auditors looked upon his discoveries as of no importance, and considered him a harmless young man who labored under the impression that he was cleverer than other people. Even Col. Franklin did not appear to attach any importance to Warde's investigations. So the mysterious arctics walked out of court as a joke.

There was a moment's pause ere the next witness answered the summons, and an expectant hush fell on the crowd when Miriam Wright, the daughter of the deceased, stepped

SHE WAS SLENDER AND GRACEFUL OF FIGURE.

into the room. Decidedly her appearance on the stand was thus far the most interesting event of the trial. Warde studied the face of the young woman with not a little curosity, for the secluded life which her taciturn father had forced his family to lead made her the object of much speculative curiosity throughout the community. She was slender and graceful of figure, with a rather pale face, refined features and dark-gray eyes. Although dressed in mourning, the expression of her face was haughty and self-possessed, rather than sorrowful. It would have been somewhat difficult to imagine her as having shed many tears over the crime that had been committed. Warde fancied that her features contained the proofs of a domestic tragedy; for the face that ought by right of youth and beauty to have been soft, was somewhat cold and emotionless; and one gifted with psychologic powers might have been able to construct a family history with its secrets, its injustices, its cruelties in the set lines of that young girl's fair and beautiful face.

It was soon evident that whatever sympathies she had were enlisted in behalf of her brother. Several times in the course of the examination she seemed on the point of saying something condemnatory of her father, but the tragic character of his death restrained her. Her self-possession was faultless in its frigidity, and she answered all the questions put to her with the clearest precision.

After the usual preliminary questions she was asked: "What were the relations existing between your father and your brother?"

"My father entertained a feeling of the most uncompromising hostility toward Herbert; in fact, he seemed to hate him more than he did any being on earth."

"And your brother—how did he feel toward your father?" asked the coroner, promptly.

"That you had better ask him."

"Did he ever express himself vindictively toward your father in your presence?"

"No; he has complained at times of my father's treatment, but that was all."

"Do you know of any reason why he should have been interested in bringing about your father's death?"

"I do not. He could hardly have expected my father to leave him anything."

"Have you examined your father's will?"

"No, sir; I have not given the subject a thought."

"You do not know then, whether he left a will or not?"

"I do not."

"Do you know, Miss Wright," asked the coroner, quietly, "what kind of a watch your father had?"

"Yes, sir."

"Describe it."

"It was a plain gold watch without any ornamentation whatever. I don't think it had even his name on it. It was presented to him a few years ago by a Creole friend of his."

"Was there any sort of inscription on it?"

"Yes; the French word 'Amitie' was engraved inside the case."

"You would know the watch then if you saw it?"

"Certainly."

From a small bundle which had been handed him by the chief of police the coroner took out two watches. One of these he examined for a moment and then passed it to the witness with the question: "Can you identify this watch?"

"Yes; it is my father's."

"Did this other one also belong to him?"

A second watch of a handsome design was handed to her, which she was positive she had never seen before. This watch had no inscription of any kind, but it bore the number 9,999 and was of a Swiss make.

The coroner then handed her a pair of sleeve buttons, a diamond pin and a pocket knife. Miss Wright identified the sleeve buttons and the knife as her father's, but did not think the pin was his. He never wore jewelry of any kind, and she had never seen the pin before.

While this part of the examination was going on, Miss Wright was nervous and wore a startled air, which might be interpreted either as an admission that she had been subjected to a line of examination that she had not expected, or a fear that she was giving testimony to the detriment of her brother in some way which was inscrutable to her. Groping thus in the dark, she was growing more and more agitated, and her self-possession was near to breaking down completely. Fortunately she was not subjected to any further inquisitorial process, and, half dazed with fear and uncertainty, she left the stand and quitted the room, casting as she did so a glance full of questioning despair upon her brother.

The full significance of this testimony was now brought out by placing on the stand Detective Fenton. He told a very plain and damaging story.

A FITTING TRIBUTE.

A Citizen of Plainfield Pays a Well-Earned Tribute.

The following public statement of a respected citizen adds one more emphatic endorsement of merit to the scores that have appeared before.

Mrs. R. Wortman, living with her daughter, Mrs. S. E. Cook, of 204 Somerset street, says: "I used Doan's Kidney Pills with good results for severe pains across my back and hips, which no doubt was caused by the kidneys being out of order. It was painful for me to stoop or bend forward and I could not sit ten minutes in one position but had to be continually changing about. I used many different kinds of medicine recommended for kidney trouble but I could not see that any of them benefitted me. Doan's Kidney Pills were procured for me at L. W. Randolph's drug store and it is the only remedy I ever used that gave me any relief. I always keep a supply of them on hand and would not think of being without them."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

ROCK ISLAND-FRISCO DEAL.

J. P. Morgan & Co. Make Public the Purchase Terms.

NEW YORK, May 12.—J. P. Morgan & Co. have made public the terms of the Rock Island-St. Louis and San Francisco railroad deal. Acting for the Chicago, Rock Island and Pacific Railroad company, they offer to holders of Frisco common (par value, $100) $60 par value in 5 per cent gold bonds of the Chicago, Rock Island and Pacific company and $60 par value in common stock of the Rock Island company of New Jersey, the holding corporation of the Chicago, Rock Island and Pacific road.

The sale is not to be consummated unless 225,000 shares of Frisco common are deposited with Morgan & Co. by June 1. This is a mere formality, however, as it is understood that a majority of the shares have already been pledged. President Yoakum is to remain at the head of the Frisco road, which will be conducted as an independent company. It is reported that he may eventually become president of the Chicago, Rock Island and Pacific.

Gold Standard For Nicaragua.

WASHINGTON, May 12.—Nicaragua is contemplating a change from the silver to the gold standard. It is expected that the change will have to be gradual and that it probably will require several years to effect it. Mr. Corea, the Nicaraguan minister at Washington, has submitted to his government an exhaustive report on the financial system in the United States with a view to its introduction into Nicaragua. He will confer with his home government the last of this month and then go to Europe to continue his study of financial matters.

Quarantine Against Bubonic Plague.

PANAMA, May 12.—The board of health has resolved not to allow the steamship Palex, which is coming here from Callao, Peru, to enter the bay. The gunboat Chucuito has been ordered to prevent any communication with the Palex, which will be placed in quarantine and made to anchor ten miles from the city. The government has received cable advices from Lima informing it that the Palex has on board flour from the mills where the bubonic plague was first discovered. Panama undoubtedly will be closed to all vessels coming from southern ports.

Compressed Powder Instead of Black

WASHINGTON, May 12. — Compressed powder will be substituted for black powder in the ignition charges of the guns of the vessels of the north Atlantic squadron which are now repairing at the New York yard. This change is made to avoid the smoke encountered in the use of black powder and will be effected when the ammunition is removed from the ships when they go into dock. Repairs also will be made to the cartridge bags, and there will be a reapportionment of ammunition throughout the fleet.

The Asiatic Squadron.

WASHINGTON, May 12.—The navy department expects that the protected cruisers Cincinnati, Albany and Raleigh of the European fleet, which are destined for the Asiatic squadron, will get under way in a very few days. Their departure has been delayed because of the necessity of making repairs to one of the vessels, but when these are finished the three vessels will start together. They are now in French waters and will make the cruise to Asia under the command of Commander John A. Rodgers of the Albany.

Porte Denies Balkan Outrages.

CONSTANTINOPLE, May 12.—The porte has communicated to the representatives of the powers here a denial of the excesses recently reported at Monastir. It denies the participation of Bashibazouks and Mussulmans in these disorders and says there was no pillaging of houses belonging to Christians and no murdering of women.

SPORTING NEWS

ON THE DIAMOND.

The Cuban Giants desire a good catcher, to whom they will offer excellent inducements.

Teddy Overton will return to the Hope Y. M. A. team Saturday and fill his old place in the field.

The Safe Works team goes to Scotch Plains Saturday, while Y. M. C. A. and Dunellen will meet the same day.

It is announced that Bolan, the Hope chapel catcher, will reside permanently in Plainfield, having secured a position in town.

The City High School baseball team will meet the Battin High School players on Stillman Field this afternoon. The game has been called for 3:45.

R. Dalley, who has been occupying the first corner on the Hope chapel nine, will hereafter hold down the same bag with Dunellen. Dalley has made himself strong with the fans by fast work with the stick and in the field, and should make a valuable man for Dunellen.

No doubt the Alis-Hope game on Crescent Oval, Saturday afternoon, will attract a large crowd of spectators. The game will be watched with much interest, as the result will show the relative strength of the teams. It is likely that Dupee and Barnes will occupy the points for the Alis team.

A baseball playing aggregation from the Senior class of the City High School will meet the scrub team of the school on Crescent Oval tomorrow afternoon. The members of the Senior team, the Excelsiors as they call themselves, are players whose ability on the diamond is yet untried. They are a strong coterie, and will doubtless show the scrubs how to play the National game.

The Underwoods defeated the Scotch Plains H. S., yesterday afternoon, by the score of 14 to 9. Johnson started in to pitch for the visitors, but the Underwoods soon knocked him out of the box and his successor did little better. The line-up of the Underwoods was: Doane, Capt., 1b; R. Taylor, cf; J. Douglas, 2b, Long, 3b; Gainn, lf; E. Taylor, rf; Glenny, ss; W. Douglas, c; Minford, p.

A number of the old-time baseball players from Somerville and this city witnessed the Alis-Star Athletic Club game on Saturday, and it refreshed their memory of the old days. Nearly all of the members of the visiting team are veteran players, having been in the game twelve and fifteen years. Gilroy, the pitcher, is an old league player and his performance gave evidence that he is still in the game.

League affairs were generally discussed at a meeting of the executive committee of the City Baseball League last evening, but no action was taken save to adjourn to meet again Monday evening.

GUARANTEED.

That word means something, when it is backed by the $5,000,000 capital and surplus of the

FIDELITY TRUST COMPANY.

It means for you an easy mind if you have one of those guarantees covering the title to your premises.
The man, who does business the way it was done a generation ago, is surely on the road to failure. This is an age of progress. There has been progress in methods of conveyancing as well as in other lines. Out of the need for something less uncertain than a lawyer's certificate and a lawyer's responsibility, has grown up the system of policies of insurance, or guarantees of title by companies with large capital and a force, specially trained in the work.
There is none better in this line than

THE FIDELITY TRUST COMPANY OF NEWARK, N. J.

It has an agency at Elizabeth for conducting Union County business. Rates will be given on application at its office, No. 215 Broad Street, and an investigation of its resources and methods is invited.

GOLF.

The Hillside Tennis and Golf Club team will play a match game with the Hackensack Golf Club team on the course of the latter on May 23.

An attractive railing has been built around the extended porch at the Hillside Tennis and Golf Clubhouse, improving the general appearance of the front of the house very much.

There is something attractive about the new names given to the eighteen holes at the Hillside Tennis and Golf Club course, and in some cases the names are very appropriate. The record for the course is 76, made last season by Frank O. Reinhart. The names and distances given on the new score cards are as follows: 1, Pool, 330 yards; 2, Vista, 300; 3, Circle, 250; 4, Trouble, 258; 5, Hillside, 340; 6, Grand View, 126; 7, Orchard, 390; 8, Plateau, 230; 9, Road, 365; 10, Circus, 210; 11, Faraway, 480; 12, Valley, 350; 13, Sloope, 240; 14, Farm, 257; 15, Ruins, 175; 16, Homeward, 360; 17, Downhill, 250; 18, Punch Bowl, 310. The total number of yards in the eighteen holes is 5,239.

BASKET BALL.

A good game of basket ball will probably be seen at the Y. M. C. A. gymnasium, this evening, between the Business Men's team and Hope Y. M. A. team.

What will probably be the last game of basket ball this year will be played at the Y. M. C. A. gymnasium this evening between the business men's class and the Hope Y. M. A. The game is to be called at 8:15 o'clock.

WHIST.

The monthly meeting of the New Jersey Whist Association will be held at Bayonne tomorrow evening, when there will be the usual play for pairs.

Entire New Wiring.

Owing to a recent inspection by a representative of the Board of Fire Underwriters, all of the electric wiring in the First Baptist church will have to be changed to conform to the new law governing such construction, necessitating an expense of between $800 and $900. Repairs have been going on at the church during the past two weeks and some of this work has been stopped to allow the other changes to be made.

Another Council Meeting.

The idea of adjourning the last Council meeting to Monday evening, May 18, is intended to give more time to the consideration of city business. The regular meeting last week was too long a session to suit most of the members and where there is so much to consider the policy will be to have another meeting during the month.

An Evening With Aunt Abby.

At the Congregational church Wednesday evening the mid-week service will consist of readings from Mrs. Annie Trumbull Slosson's book. Some of the selections will be Aunt Abby's Lithes, Aunt Abby's Heaven, Aunt Abby's "Next Doors," Aunt Abby's Pasture.

Half Holiday Question.

An important meeting of the Master Plumbers Association will be held this evening when matters pertaining to a half holiday for the employes on Saturday will be discussed.

Miss Annie VanCamp, of South Branch, is visiting relatives in this city.

Its object is to advance the interests of the colored people and to stimulate unity among them.

The following officers were then elected: President, David Thompson; secretary, Harry Thomas; treasurer, T. M. Miller. The next meeting will be held May 25.

The Champion Husband.

The champion married man and ex-widower is Fritz Kottman, a citizen of Creglingen in the kingdom of Wurtemberg. He has been married 11 times, and he has only just turned 50. Fritz is simply an honest fellow who had hard lines with wives and they, in turn, had the hardest of luck. The entire batch died more or less dramatically. Each one of his first three died after nine months of honeymoon. His two following wives were drowned accidentally. Two more met their deaths in an avalanche. The next one dropped dead at a dance. Her successor committed suicide. The tenth was torn to pieces by a mad bull, and the eleventh, his present wife, has only one arm and one leg, the missing limbs having been carried away by a railroad train.—N. Y. Sun.

Mrs. Lot Was Too Fresh.

A little Danville (Pa.) maiden only four years old and whose first name is Grace, belongs to the infant class in a Sunday school in that place. The teacher had told the children the story of Lot's wife to inculcate a lesson in obedience. Having finished the story, she asked: "Now, then, who can tell me why Lot's wife was turned into a pillar of salt?" The question was asked several times, the teacher expecting some child to answer that she was punished for disobedience. At last Grace said: "Pleathe, Mith Skimmer, I know." "Well," said the teacher, "you tell us, Gracie." "I think it wath becauth she wath too fresh."

Applying the Lesson.

A little four-year-old boy being taught politness at meal time was told that he was not to expect to be helped first, and particularly that ladies were always served before gentlemen. Soon after, when it was all being digested in his little mind, he said to his mother, who was undressing him at night:

"Mother, you are going to die first."

"What in the world do you mean by that?" his mother asked.

"You will die before I do."

"And what makes you think I will?"

"Why, you know ladies always before gentlemen."—N. Y. Times.

Advertising Did It.

He didn't have a dollar; he didn't have a dime. His clothes and shoes were looking just as though they'd served their time. He didn't try to kill himself to dodge misfortune's whacks. Instead, he got some ashes and he filled five dozen sacks. Then, next he begged a dollar. In the paper in the morn he advertised tin polish that would put the sun to scorn. He kept on advertising, and, just now, suffice to say, he's out in California at his cottage on the bay.—Lyre.

She Had to Surrender.

"I've refused George twice," she said, "but it's no use."

"No use!"

"Not a bit. He believes in predestination."

"What has that to do with it?"

"Why, he thinks I'm predestined to be his wife, and of course, if that is so, I'll simply have to give in, no matter what papa says. He can't expect me to defy fate."—Chicago Post.

Hard on Little Hermann.

Hermann Piefke was "kept in" after school hours for his want of proficiency in mental arithmetic. A note to that effect was given him to take home and bring back the next morning with his father's signature. The father is an honest tin plate worker, a citizen of Pittsburg, and a strict disciplinarian. Hermann returned the note to his teacher with downcast eyes. It was signed as follows: "Read and walloped. C. Piefke."

KING'S DAUGHTERS TO CONTINUE BABY CAMP

Increased Pledges for Work Made at Meeting of City Union of K. D.

ARE FOUR NEW CIRCLES

SEMI-ANNUAL MEETING OF CITY UNION HELD AT TRINITY REFORMED CHURCH.

Reports From Circles in City Union Showed Increase in Membership and a Greater Amount of Work Accomplished.

The semi-annual meeting of the City Union of King's Daughters was held yesterday afternoon in the lecture room of Trinity Reformed church and was largely attended. Miss Lillian A. Force, the retiring president, occupied the chair for the last time in that capacity. After calling the meeting to order, Miss Force asked Rev. Dr. Schenck to read the Scripture lesson and offer prayer.

The first report presented was that of Mrs. S. A. Krom, treasurer. Her first report covered the period of six months, but as the members wanted to know the result for the year, figures for that time were given. The report showed total receipts of $1,432.88 and disbursements of $1,111.05, leaving a balance of $321.83. There is a balance in the camp fund of $183.83, but this is to be used for a lean'to at the camp building.

The report of Mrs. W. L. C. Glenney, as chairman of the nurse committee, contained warm words for Miss Emily Tracy, who was obliged to give up the chairmanship of the committee, and for Miss Anderson, the former nurse, and Miss Olive De Lany, the present nurse. In all 243 cases have been cared for during the past six months and there have been three deaths.

Then followed the reports from the various Circles, telling what each had done during the past six months. The work consisted of making articles for the nurse's closet, helping poor families and contributing to both home and foreign mission enterprises, including mission work in New York. Each report was very encouraging.

At the request of the president, Miss Zaidee VanBoskerck, agent for the Organized Aid Association, told how helpful the Union had been to the association and she thought it an excellent plan that the camp on the mountains will be so conducted this summer that children can be kept there for a whole week instead of two or three days. She threw out the suggestion that if the members would report to her cases of need, they would be able to do that much more for their own organization. At the same time she realized the fact that the King's Daughters assist in a peculiar way as no other organization can.

When the pledges were called for the total amount, $770 was found to exceed that of a year ago. Then it was about $400. The pledges made are as follows:

Advance Circle, $50; Benevolent Band, $200; Charity Circle, $125; Cheerful Workers, $50; Daughters of the Cross, $100; Whatsoever Circle, Trinity Reformed church, $30; Brightside Circle, $15; Whatsoever Circle, Park Avenue Baptist church, $5; Golden Rule Circle, $35; Opportunity Circle, Mt. Olive Baptist church, $10; Cup Bearers' Circle, $50; Junior Advance Circle, $10; Silver Cross Circle, $50, and Loyal Daughters, $50. The last four named Circles were organized this week. Nearly every Circle reported an increase in membership and a greater amount of work accomplished.

It was the unanimous wish that the baby camp work on the mountain should be a success this season and all expressed the opinion that it would be and that there would be no lack of support for this enterprise, inasmuch as it has proven to be such a blessing to many children and mothers.

The officers for the coming year were then chosen as follows:

President, Mrs. Charles A. Reed; vice president, Mrs. Dorsey W. Hyde; recording secretary, Mrs. F. W. French; corresponding secretary, Mrs. Anna Most; treasurer Mrs. S. A. Krom. To Miss Force, the retiring president, and all other officers who retired, the Union extended a hearty vote of thanks for their loyal devotion and earnest work during the year. This completes Miss Force's second year as president.

HOPE BOYS OUT OF FORM

EASILY BEATEN BY BUSINESS MEN'S TEAM LAST NIGHT.

Final Score Was 20 to 9—But Game Was Very Exciting—Large Crowd Present.

The basket ball game at the Y. M. C. A. gymnasium, last evening, between the Business Men's team and Hope Y. M. A. team, attracted a large number of spectators. The game was exciting from start to finish, although it was rather one-sided, the home team winning by a score of 20 to 9.

The visitors lost the game for the reason that they were out of practice and they did not support one another as they should. They did not play as strong a game as during the league series. They had plenty of chance to score, but they either went to pieces or were wild in throwing. The Business Men's team put up a strong game and the men showed the benefit of frequent practice.

The line-up was as follows:

BUSINESS MEN.		HOPE Y. M. A.
Whitford	right forward	Dilks
Doane	left forward	Porter, Duckworth
Spicer	center	Foster, Roseberry
Browning	right guard	McCombe, Porter
Clark	left guard	Chamberlain

Score—Y. M. C. A., 20; Hope Y. M. A., 9. Goals from the field—Spicer (3), Whitford (3), Doane (2), McCombe, (2), Porter (1), Chamberlain (1). Goals from foul—McCombe (1), Doane (4). Fouls—Business Men, 10; Hope Y. M. A., 11. Referee—Charles Burdette Morse, of Hope Y. M. A. Umpires—Ray Smith and Harry Scull, of Y. M. C. A. Timekeeper—William Doane. Scorers—William Heinecke, of Y. M. C. A., and V. W. Nash, of Hope Y. M. A.

At the close of the recital Miss Palmer had in store a surprise for her pupils in Master Hans Bergman, a pupil in the Virgil Piano School of New York. Although under eleven years of age young Bergman rendered such pieces as Bach's "Prelude and Fugue" and waltzes by Chopin and Heller with marvelous skill.

HIGH HONOR.

HANGS HIMSELF IN CITY JAIL

Wm. Ross Takes His Own Life While a Prisoner Locked in a Cell.

BELT SERVES PURPOSE

Done So Quietly That It Wasn't Known Until a Passing Officer Spied the Body—Cut Down by the Police, But Too Late, As Ross Was Already Dead.

William Ross, of 311 Plainfield avenue, committed suicide at 7:40 o'clock, last evening, at the city police court, by hanging himself with an ordinary black belt which he fastened to the bars of his cell door. Ross was arrested at 3:45 yesterday afternoon by Patrolman Overbaugh for drunkenness.

The circumstances of the suicide were somewhat unusual. At 7:35 last night, Ross called to Sergeant Frederickson, who is acting chief in the absence of Chief Kisly, and requested a drink of water. He appeared to be laboring under no excitement at the time, although still largely under the influence of intoxicants. The sergeant gave him the water, and Ross then held out a couple of coins to the sergeant with the request that a messenger be sent to inform Mrs. Ross of her husband's whereabouts. The prisoner was told to keep his money and Patrolman Saunders would be sent to his wife. The sergeant then returned to the court room, and, five minutes later, Patrolman John Conroy, passing by the cells, noticed Ross hanging in a heap, the belt strap around his neck tied to the bars of the cell door. Not a sound had been heard even by the prisoner in the next cell.

Conroy instantly summoned help and with the sergeant's assistance cut the strap. The body collapsed on the cell floor, there being not the slightest evidence of a remaining spark of life. Death came from strangulation.

Dr. Charles B. Lufburrow was sent for and was on the scene two minutes after the discovery of the hanging had been made. He pronounced life extinct, death having occurred within the space of a few seconds. Dr. Westcott, of Fanwood, the county physician, and Dr. O. L. Jenkins, mayor, were also summoned and delivered the body over to Undertaker G. W. Cole. Dr. Lufburrow worked over the body a long while after arriving on the spot but his efforts were of no avail.

Ross had a bad police record, although he had never been arrested for anything more serious than drunkenness and disorderly conduct. He was the son of a former restaurant keeper of Park avenue, his father being now an inmate of the Soldier's Home at Kearney. He leaves a wife and nine children, eight of them girls. He was thirty-eight years old.

The theory of the police is that Ross was attempting merely to "bluff" them and gain their sympathy; and that, after he had secured the strap about his neck, he was too intoxicated to struggle or cry out.

A Press reporter called upon Mrs. Ross at her home on Plainfield avenue this morning and learned something of Ross's past history. The dead man was a stone-cutter by trade, a native of Elizabeth, and had lived in Plainfield sixteen years. Mrs. Ross, whose eyes gave evidence of much weeping, stated that her husband had been working steadily since he had last been "sent up," which was for sixty days about eight months ago. He had always been kind, she said, to herself and children, although he had seemed somewhat despondent of late. He had seemed much as usual when he left her yesterday morning.

Ross lived in a ramshackle house, and his numerous children, at the time the reporter called, were playing contentedly about the yard as though nothing had happened. Ross is said to have been in arrears with his landlord and to have gone on his last drunk with $6, which his landlord had refused to accept. He had words with a bartender which led to his arrest.

The case of Mrs. Ross and her nine children, eight of them girls under the age of fourteen, is altogether pitiful. Forced soon to vacate their poor home on Plainfield avenue for nonpayment of rent, they will be left by

LIKE HALF CENTURY AGO

OLD FOLKS CONCERT GIVEN BY MIZPAH LODGE OF ODD LADIES.

Costumes and Selections Were of An Appropriate Nature—The Participants.

An old folk's concert was the attraction at Washington Hall last evening which drew a large number of people from this city and Westfield. It was given by the members of Mizpah Lodge, No. 1, of Odd Ladies, in their lodge rooms. The affair was given for the benefit of the general fund of the organization, which, during the past three months has been growing to a great extent. It may be repeated.

The programme was entirely in keeping with the customs of a half century ago. All the performers were attired in costumes of the first part of the past century and, in all, the evening was most enjoyably spent.

Ernest Powlison Had His Face Burned by Exploding Chemicals at Borough High School.

While at work in the laboratory of the North Plainfield High School, Monday, Ernest Powlison, the son of John A. Powlison, of the firm of Powlison & Jones, was burned about the face by an exploding test tube.

Young Powlison was pouring some alcohol into a test tube containing some sulphuric acid when he started to shake it up to mix it more thoroughly. Without warning the fluids exploded throwing the burning mixture in the boy's face. He was taken to the office of Dr. Long where his injuries were dressed. He was not seriously injured.

Called No Pastor.

The published statement which appeared in another paper to the effect that a call had been extended to Rev. John Justin, of Union, to accept the pastorate of the German Reformed church in the borough has been branded as absolutely false. It has aroused considerable indignation among the members of the congregation.

MUSIC AND TABLEAUX WERE MUCH ENJOYED

Delightful Musical Given by the Misses Whitney at the Casino Last Evening.

ASSISTED BY OTHERS

ERSKINE PORTER, BOY SOPRANO, HAS A WONDERFUL VOICE.

Several of Their Pupils Assisted in Instrumental Work and in the Series of Poses Plastique and Tableaux Mouvants.

One of the leading social events of the week was the musicale and series of tableaux given last evening at the Casino under direction of Miss May Vincent Whitney, pianist, and Miss Bertha Hurst Whitney, reader, assisted by Erskine Porter, soprano, a youthful prodigy, nine years of age. The entertainment was divided into two sections, the first a musicale with Miss May Vincent Whitney in charge. Miss Whitney arranged a delightful programme, and, together with her pupils performed with a degree of skill that won the audience completely. The tableaux composing the second part of the programme were in charge of Miss Bertha Hurst Whitney and revealed a knowledge of Greek subjects carefully portrayed that made this division of the entertainment as instructive as it was pleasing aesthetically.

The musical section consisted of twenty-seven well rendered selections by Miss Whitney and her pupils, the Misses Florence Dickerson, Muriel Collins, Frances Rittenhouse, Carolyn Welles, Myra Emmons, Clara VanFleet and Ursula Krewson, Charlotte Conger and Miss Remsen. Wm. E. MacClymont and Miss Whitney played the overture to "William Tell" which was particulary enjoyed. The selections by Erskine Porter, who is a pupil of Francis Fisher Powers, evinced a wonderful ability for one so young. Master Porter's singing was characterized by a delicacy of sentiment and a power of technique that won for him rounds of applause. He has a wonderful voice. The readings by Miss Bertha H. Whitney were given with histronic skill and strength of interpretation, and brought out to a full extent the humorous and dramatic possibilities of her selections. The audience was appreciative and generous in its manifestations of approval.

The second part of the programme consisted of poses plastique and tableaux mouvants, a series of tableaux representing scenes from Greek myth and fable. The Misses Sophy P. Barlow, Elsie I. Brokaw, Saidee Mae Howell, Cornelia L. Hyatt, Marion H. McCutcheon, Isabel G. Milne and Mary E. Valiant, made beautiful pictures in their Greek costumes. Calcium lights added to the scenic effects. The piano accompaniment was played by Miss Alberta E. Waterbury.

The ushers were T. Harold Whitney, George E. Horne, Charles B. Morse, Rhey T. Snodgrass, E. Maxwell Honeyman and Louis V. P. Wilson.

Surprised Her.

Ten little girls, youthful admirers of Mrs. Nathan E Lewis, of Arlington avenue, gave her a surprise party, yesterday afternoon. It was planned and arranged by Miss Helen Rogers. Mrs. Lewis was consulted as to whether she would be at home but was properly surprised when they appeared. The afternoon was spent in playing games.

To Speak at Orange.

Mrs. Harry Stanton Blatch, daughter of Mrs. Elizabeth Cady Stanton and president of the New York Suffrage League, will address the Orange Political Study Club, May 5. A number of the members from the Plainfield and North Plainfield league will attend.

Epworth League Anniversary.

Sweeping Injunction Against Omaha Business Men.

MUST NOT BOYCOTT EMPLOYEES.

District Judge Emphatically Lays Down Law That There Must Be No Interference With Workmen's Rights as Citizens.

OMAHA, Neb., May 13.—Judge Dickinson in the district court, on application of John O. Yeiser, an attorney representing the labor unions whose members are on strike, has issued an injunction against the business men and proprietors even more sweeping than that issued by the federal court against the unions last week. The order restrains the business men from refusing to sell goods to dealers who employ union labor, prevents them from boycotting union labor, requires the Business Men's association to cease holding meetings or conspiring against the unions or in any way interfering with the unions in the management of their affairs.

The order of the court restrains the Business Men's association and others named as defendants as follows:

"First.—From in any manner threatening to injure the business or person of any employer of members of cross complainants' union or member of labor union, or any person who may employ or desire to employ such union men, or from refusing to sell commodities and supplies of merchandise to employers of such union labor and from discriminating against such persons in the prices charged for any such commodities.

"Second.—From threatening or intimidating in any manner any person into joining the said Business Men's association or any organizations to join labor unions.

"Third.—From threatening or intimidating any person who may have become a member of said association or organization, if he employs organized labor or recognizes labor unions, into discontinuing such employment.

"Fourth.—From imposing any fines upon its members, or any person, for violating any agreement not to employ organized labor or not to recognize a labor union.

"Fifth.—From receiving or paying out any money whatever in pursuance of any agreement to break up labor unions except attorneys in this action.

"Sixth.—From paying or offering any money to officers or members of unions directly or indirectly as a bribe to do or not to do any act in pursuance of any agreement or any of said defendants against such unions.

"Seventh.—From importing or engaging agents or servants to import any laborers into the city of Omaha or state of Nebraska in pursuance of any existing plan to destroy labor organizations or under any similar or new arrangement or plan.

"Eighth.—From bringing any other injunction suits or actions in pursuance of any general plan of prosecutions to break up labor unions or of any new or similar plans connected directly or indirectly with any existing plans."

Frauds In Haitien Securities.

PORT AU PRINCE, Haiti, May 12.—The Moniteur Officiel publishes the report of a committee of inquiry appointed by President Nord charging extensive frauds in the issuing of Haitian government securities. The amount involved is about $2,000,000, and the securities are alleged to have been fraudulently issued, with the complicity of the National bank of Haiti. The opinion prevails generally that the government will hold the bank responsible and that as the bank is a French institution the latter will take the case before a French tribunal.

Work of the Big Guns.

WASHINGTON, May 13.—At the navy department the substance of the report on the recent tests of the guns aboard the monitor Nevada off Cape Henry have been made public. Two 12 inch guns were each fired ten times, several of the rounds being together. The report shows that neither the mounts nor the decks developed weakness and that both the big and small guns worked admirably. It is stated that the tests of the Nevada's guns were very severe. The result is considered gratifying by the department.

University Rooms at Manila.

PRINCETON, N. J., May 13.—At a meeting of the undergraduates it has been decided to raise $1,000 for furnishing a room in the new $25,000 Institutional club at Manila. The students were prompted to this action by an address by the Rev. Dr. Henry Talbot of the Protestant Episcopal church of Manila. He urged the need of having rooms fitted out by the students of different universities, to be supported by them. Harvard, Yale and the University of Pennsylvania will also fit out rooms in the building.

Misinformed About Newchwang.

WASHINGTON, May 13.—The state department has satisfied itself that it was unintentionally misinformed respecting the reported Russian reoccupation of Newchwang. The United States consul at that joint had it upon what he regarded as trustworthy authority that the Russian troops were fortifying and reoccupying the place, and, as was his duty in such a case, he transmitted the report to the state department.

A STRICT LIBEL LAW

Governor Pennypacker Signs Grady-Salus Bill.

OPPOSED BY PENNSYLVANIA PRESS

He Claims Measure Will Not Harm Reputable Newspapers—Aimed at Reckless Journalism Only.

HARRISBURG, Pa., May 13.—Governor Pennypacker has approved the Grady-Salus libel bill and at the same time issued a long statement giving the reasons for his action. The bill, which was in the governor's hands for more than a month, goes into effect immediately and repeals all laws or parts of laws inconsistent with the new act.

The governor claims there is nothing in the terms of the measures which prevents any newspapers from making such comments upon legislative measures or upon the official acts of state, municipal, county or public officers as are proper for the information of the public or are in the line of legitimate public discussion.

Continuing, he says: "The bill in its applicaton is not confined to officials, but affects as well the citizen or business man, whose conduct constitutes no part of the right of the public to information. The corporation officer who has been falsely charged with crime, the manufacturer who has been falsely accused of being a drunken brawler, the woman whose domestic griefs have been unfeelingly paraded or whose chastity is improperly suspected, the student who has been falsely accused of murder, the clergyman who has been cruelly maligned, the quiet citizen whose peace of mind has been destroyed by the publication of evil gossip, the merchant whose credit has been affected by groundless rumors and the sufferers from reckless but not necessarily malicious publications are given the right not to prohibit publication, but to recover the damages which they have sustained provided they prove negligence or lack of care on the part of the publishing newspapers. All of these are instances of what has in fact recently occurred.

"Within the last quarter of a century two presidents of the United States have been murdered, and in each instance the cause was easily traceable to inflammatory and careless newspaper utterance. Crimes are widely propagated not by the malice, but by the recklessness of the press, and in certain classes of cases, among them murder, the accused are at times convicted or acquitted before they reach the court room."

The governor concludes his statement as follows: "The proposed legislation has been regarded by a large proportion of the reputable press with great misgivings. It is natural that this should be the case. The future is ever uncertain, and the easy way to avoid the dangers ahead is to stand still. This is nevertheless not a wise course. The boy conscious of many lapses who is invited by a stern father into a private room enters with a dread, and yet the purpose may only be to arrange for the coming holidays. When the gardener comes with his hoe into the garden which has been left to run wild it is safe to say that it is the mullein and not the pea which is likely to suffer. This bill may not be the best possible legislation, but the purpose is commendable, and should experience show it to be defective something better may be devised. It ought to be cordially and cheerfully accepted by the reputable press, for they have a special interest in it becoming a law. Where the tares occupy the ground the wheat perishes. It threatens them with no danger. Seeking to utter the truth and not the falsehood, what have they to fear?

"Into our courts, where learned judges administer the law with fidelity and juries are drawn from the masses of the people, well fitted to determine who is the wrongdoer, they are not likely to be summoned or if summoned they may go with entire safety. This much is certain: Since the laws of God and nature are immutable and inexecrable, unless means are found to uproot some of the tendencies of modern journalism the influence, already badly shaken, will be utterly lost, and the influence of the press, which has been so potent an agent in the development of civilization and in securing civil liberty, will be gone forever.

"With a serious sense that the evil is of more than ordinary moment, with full knowledge of the importance of the press and of its value to mankind through all past struggles and with the hope and belief that the greater care and larger measures of responsibility brought about by this law, tending to elevate the meritorious and repress the unworthy, will promote its welfare while benefiting the community, I approve the bill."

New Panama Steamship Line.

PANAMA, May 13.—The departmental government will receive proposals until May 30 for the establishment of a steamship service between the Pacific ports of the department of Panama. A subvention will be granted the company operating these vessels. Steamers of the Pacific Steam Navigation company now call at these ports. The purpose of establishing a new service is to obtain better freight rates than can now be had.

Foot and Mouth Disease.

WASHINGTON, May 13.—Secretary Wilson has received this cablegram from F. W. Bicknell, one of the agents of the department of agriculture at Buenos Ayres: "Foot and mouth on three ranches. GOOD ROADS.

The recent good roads convention held at St. Louis is said to have been productive of much good. There were delegates from every State and territory and all were enthusiastic in the work of improving the public thoroughfares. While New Jersey has been very fortunate in that direction, there are some States that have seen little or no progress on those lines. Much interest was taken in this movement to secure national aid in road building and it gained many friends by a clear explanation of its advantages.

Among the distinguished men present was President Roosevelt and he addressed the convention in earnest support of the good roads movement. Among the things he said were:

"It is the habit of road-building that gives to a people permanent greatness.

"The development of the iron road has been all that one could wish, but it is mere presumption to consider good railways as substitutes for good highways.

"We want to see cities built up but not at the expense of the country districts.

"If the winter means to the average farmer a long line of liquid morasses through which he must painfully force his team if bent on business, and through which he must wade or swim if bent on pleasure; if an ordinary rainstorm means that the farmer's boy or girl cannot use their bicycles, you have got to expect those who live in the rural districts will not find farm life attractive.

"We should all encourage any check to the unhealthy flow from the country to the city."

It is well to know that the President is heartily in favor of a general extension of good roads throughout the land. Those who have seen Jersey before their introduction and Jersey as it stands today come to some realization of the great good that hard roads do particularly to the residents of the suburban and rural districts. Somerset, although somewhat tardy in recognizing the benefit of it, is now deep in the work and there are more applications for good roads than the Board of Freeholders can possibly grant for years to come unless the county is bonded.

There is a possibility that Governor Murphy may have to call another special session of the Legislature to remedy a mistake made by the last one. It is the primary election law that is causing the trouble this time. Some Hoboken Democrats are the immediate cause of it, claiming that they have discovered defects in the law which will make it illegal. If their contention is proven correct, it is now reported that the Governor will get the legislators together and doctor up the primary election law before it is time for it to operate. While the primary election law had many of its most important provisions wiped out of it during its passage through the two houses, there is still some good left in it and it would be sorrowful to see those few improvements fail of enforcement.

While the project to extend the sanitary sewer through all of the West End not now sewered did not appear feasible to the members of the Common Council, a portion of the work is to be done this year and arrangements will be made to sewer that section near Plainfield avenue and West Eighth street which Philadelphia capitalists are planning to develop into a residential park. These capitalists agreed to build a number of handsome residences if the city would only do its part in laying the sewer in the section under discussion. As the city is planning to care for its end of the agreement, it looks as if there would be a decided building boom in the south-western end of the city.

Either everybody in Plainfield will have to become baseball enthusiasts or else some of the games this summer are going to lack a crowd.

All Plainfield learns with much satisfaction that the health of Former Mayor Charles J. Fisk is slightly improved.

Some slightly used pianos at less than half the regular price (genuine bargains). I have given up my store and hereafter will conduct the piano business from my house, 762 Kensington avenue. SUBURBAN NEWS

A Department Devoted to the Minor Events in Greater Plainfield's Suburbs by Our Own Correspondents.

DUNELLEN.

The Literary Circle spent last evening very pleasantly. The following, very interesting programme was given: "The Treasury Department and Its Work," W. J. Hamilton; "The Postoffice Department," Mrs. Lester Meseroll; roll call, "Quotations from Our Presidents;" "Washington and Its Environs," Mrs. C. B. Mattis; Washington Telegrams. After the literary programme the time was spent in serving refreshments and in sociability. The next meeting will be held May 26, on the Revolutionary Battle grounds.

It is rumored that there is a possibility of Levering & Garrigues' factory at this place being shut down entirely. If such a thing happens a large number from here will be thrown out of work.

The game between the Dunellen A. C. and the Y. M. C. A. team, Saturday, promises to be close although the locals are confident of winning.

The Dunellen Juniors will play a game of ball with the Underwood A. A., of Plainfield, this afternoon on the local diamond.

Mr. and Mrs. Thomas Bodine left for California yesterday morning. A number of friends were at the station to see them off.

Miss Amy Sampson has returned to her studies at the Trention Normal School, after a few days' vacation.

Whitfield Dunham, whose leg was amputated some time ago, does not show the improvement desired.

The Watchung A. C. will play a team from Levering & Garrigues' factory, on Saturday.

Prayer meeting will be held in the local churches as usual this evening.

The large house on the old Lowrie place is rapidly nearing completion.

NEW MARKET.

This place will probably be affected to some degree if the rumored closing down of Levering & Garrigues' factory takes place, as a number of the employes reside here.

Walter Atchison and E. V. Thomas, of New York, were in town on business yesterday.

Dr. Nelson is still attending some diphtherian cases at South Plainfield.

An entertainment will be held in the hall Saturday evening.

PLAINS AND FANWOOD.

The dancing class, which has been in charge of Mrs. Westcott, of Somerville, will hold the last of their series of lessons in the hall Thursday night. Tuesday night of next week the class will tender a closing reception to their friends. Admission will be by invitation.

Fanwood Council, R. A., held an initiation at its semi-monthly meeting held last night in the Library rooms, Frank Hollingsworth being the new member added to the roll.

If the baseball management or some one else would open a stand for the sale of soft drinks and cigars at the ball games it would be a great convenience to the baseball lovers.

The Amity Club held its weekly meeting and reading last night.

SOUTH PLAINFIELD.

Two boys came from Plainfield and took a boat ride yesterday. One of them left his vest containing a small sum of money lying on the shore. When they returned from their ride the vest and its contents were out of sight.

Bethune Dunham is engaged in carpenter work for William Campbell, at Dog Corners.

Thomas Brantingham has a new trotter. It is too young, however, to be driven.

Lewis Randolph is somewhat indisposed. Dr. Nelson is attending him.

SETTLED WITH ALL.

Three Claimants in Geo. E. Reed Case Were All Satisfied.

Claims Agent John K. Large, of the New Jersey Central, has just settled one of the most difficult claims against the company as a result of the Westfield disaster. The claim was that for the death of George E. Reed, of Clinton avenue, which brought out the fact two women claimed to be his wife. Not only did the two wives put in claims, but the dead man's mother also filed a claim. Mr. Large succeeded in settling the case amicably to the satisfaction of all three claimants and each one received benefits.

Cases Laid Over.

The cases of Harry Huff, charged with drunkenness, and Oliver Pell, accused of breaking an electric street light, which were to have came up in court this morning before City Judge Runyon were postponed until tomorrow, the Judge having been summoned out of town.

Director Hubbard Out.

The X-Rays.

Recent experiments, by practical tests and examination with the aid of the X-Rays, establish it as a fact that Catarrh of the Stomach is not a disease of itself, but that it results from repeated attacks of indigestion. "How Can I Cure My Indigestion?" Kodol Dyspepsia Cure is curing thousands. It will cure you of indigestion and dyspepsia, and prevent or cure Catarrh of the Stomach. Kodol digests what you eat—makes the stomach sweet. Sold by L. W. Randolph.

Model City at St. Louis.

ST. LOUIS, May 13.—It is likely that a considerable number of American cities will maintain a municipal pavilion as part of the model city or install a municipal exhibit as part of the general exhibition of the Louisiana Purchase exposition. The committee on legislation has begun a movement to induce the municipal lawmaking bodies to make appropriations to this effect. New York city already has made an appropriation of $10,000. Boston is at work on a similar appropriation and preliminary steps have been taken in Washington. Secretary Carles E. Reeves of the committee on legislation has addressed to the mayors of the twenty-five largest cities of the United States a letter urging that each city make a representative exhibit.

Molders Vote For Strike.

ERIE, Pa., May 13.—At a special meeting, attended by 600 molders, it was unanimously ordered that a strike be inaugurated, to begin today. Six of the largest shops in the city are affected at present, and it is expected the trouble will extend to several others. The conference of the international officers and local committees, which was in session for three days last week and adjourned to Buffalo and Geneva, N. Y., failed to settle the grievances of the men, the most important matter being a small increase in wages.

New Observatory In Chile.

SANTIAGO, Chile, May 13.—The commission from the Lick observatory of the University of California, which arrived here April 23 to establish observation stations in Chile, has selected a site for an observatory on a prominent hill near here.

New American Citizens Arrive.

NEW YORK, May 13.—Six steamers just arrived from European ports have landed 6,349 immigrants.

Reliance Takes a Spin.

BRISTOL, R. I., May 13.—The Reliance had her first trial spin yesterday since being refitted with spars and sails. When she left her moorings in the afternoon she carried a new mainsail which proved to be a good fit, also a new main boom and a larger main gaff, both of which seemed to work well in taking up the slack in the mainsail. The trip ended at 6 o'clock, the boat beating down as far as Fort Adams and running back again before the wind with ballooners and spinnaker set. Mr. Iselin, the manager; Captain Woodbury Kane, Dr. Monahan and Designer Nat Herreshoff were on board. Mr. Iselin when interviewed after the trip said that the test of the spars and rigging was satisfactory and that everything had worked well.

Results at Worth.

CHICAGO, May 13.—By clever riding Jockey Robbins landed Rankin winner in the fourth race, a mile and seventy yards handicap, at Worth. At the sixteenth pole The Lady seemed a certain winner, and Henry, who had the mount, eased her some. Robbins brought Rankin through on the rail with a rush and won the race by a short head. Thane, the odds on favorite, finished a close third. Weather wet; track slippery.

Morris Park Races.

NEW YORK, May 13.—In a driving finish Highlander, with Burns in the saddle, won the Harlem selling stakes at Morris park. The big son of Ben Strome was a 1 to 2 favorite. Burns rushed to the front in the first eighth of a mile and, maintaining his lead to the finish, won by a length, with Bon Mot second and Colonist third. The finish for the place was very close. Three favorites won.

Lombardi's Reception at Home.

BOSTON, May 13.—When Lombardi, the Italian who was under arrest on suspicion of being the murderer of Miss Nellie Sturtevant at Medford, Mass., just released from custody, arrived here he was given a hearty reception. Fully 300 Italians cheered him and shook his hand. At his boarding place the crowd made Lombardi speak, and he said a few heartfelt words in appreciation of their kind reception.

Four Hundred Powder Kegs Explode

WILKESBARRE, Pa., May 13.—An explosion at the Grace Dale Powder mills of 400 kegs of powder, ignited, it is said, by a spark from a passing locomotive, shook the community for many miles around. Only one man was seriously injured. He was violently thrown to the ground, and his clothing was burned from his body. The mixing house was burned to the ground.

Big Railway Fire at Buffalo.

BUFFALO, May 13.—The Lake Shore and Wabash transfer sheds at the corner of Van Rensselaer and Elk streets have been destroyed by fire, and the flames are spreading to adjacent property. Three alarms have been sent in, and the firemen are making a desperate effort to get control of the rapidly spreading fire.

Bubonic Plague at Callao.

PANAMA, May 13.—According to a cablegram received from Callao, Peru, there were five cases of the bubonic plague there on Saturday, seven new cases on Sunday and six new cases on Monday.

Salt Trust Guilty of Monopoly.

SAN FRANCISCO, May 13.—Before Judge De Haven in the United States district court the Federal Salt company was convicted of maintaining a monopoly contrary to the Sherman antitrust law.

Rosedale and Linden Park Cemeteries

Largest Burial Parks in the State.

Transportation Facilities superior to those of any other cemetery, as to number of trains, railroad fare, time and distance.

These New Cemeteries, now being developed on the modern park plan, are attracting universal attention.

By Reason of Location Alone they are destined, in a very short time, to become the best-known Cemeteries in the country and, with their natural advantages, the most beautiful and desirable in which to purchase lots.

They are Accessible from every quarter and within *easy* reach of over 4,000,000 people, and, considering the steady and rapidly increasing growth of Greater New York and its tributary cities and towns, it is only the question of a short time before plots in Rosedale and Linden Park will equal in value those of our most noted cemeteries.

Popular Favor has already been shown to a marked degree in the sale of lots, several hundred having been sold to residents in Elizabeth, Linden, Rahway, Cranford, Jersey City, Orange, Paterson, Westfield, Newark and New York City, and a large number of interments have been made.

In the Days of Happiness we do not know what is to befall us or when the inevitable will occur; therefore, it is a wiser precaution to make provision for a final resting place during health and life than to force the painful duty on one's friends or relatives after death. A place of burial will be needed sooner or later by every one, and no one should neglect selecting a suitable and proper place until future postponement is impossible.

Linden Lodge is the largest, most modern and best equipped Cemetery Lodge in the country, and is provided with every requisite for the comfort and convenience of visitors who come to inspect the properties.

SMART BLACK COSTUMES.

They Are Very Useful and Becoming to the Average Woman.

The smart woman fully recognizes the charm and adaptability of a good black gown, and the accessories now in vogue are simply made for the black toilet. The soft silky fabrics of the moment are most effective in black, and transparencies are easily arranged by means of a white slip.

The smart black skirt worn with a blouse either of tinted lace worn over white or of white taffeta lavishly

WALKING SUIT.

adorned with tinted lace is quite a modish toilet with a loose sack wrap of some description, but preferably in white or the palest putty or biscuit cloth.

The new white coque boas, tipped with black chenille or powdered with black petals, are most fascinating with a black toilet, and the white lace picture hats bordered with wide rims of velvet are ideal with black gowns. Big scarfs in tinted lace are worn over white blouses. The scarf is first drawn tightly around to the back and then draped again to the front to form a loose drapery over the bodice.

There never was such a season for lace, not only on dresses, but on outside wraps, which in many cases are made entirely of it. The manufacturers of today are perfect wonders in copying real Venetian point, renaissance, etc.

The picture shows a walking suit of black trimmed with fancy braid.

JUDIC CHOLLET.

WARM WEATHER MILLINERY

Straw Hats Have Taken the Place of Chiffon to a Large Extent.

A great variety of fancy straw hats are to be seen this season, and not so many chiffon as heretofore. When these chiffon hats are used, they are exclusively for dressy occasions and are made of tiny rufflings and shirrings mixed in with straw or satin braid.

All the hat shapes are larger than ever and if anything flatter. The trimmings are put on in flat fashion, and this is true even of feathers, aigrets being the only exception, and often they are set in at an angle which takes away a good deal from their height.

A great variety of small flowers, rosebuds, fuchsias, small berries, etc.,

TAILOR MADE HAT.

are being used for trimmings. This is especially the case with tailor made hats, where garlands of these are applied on the brims. Hats made entirely of leaves or flowers are always smart and are trimmed with rosettes of pale colored tulle or satin ribbon.

For country wear with tailor made frocks Paris milliners are inventing all sorts of odd straws. There is a certain amount of smartness noticeable in the biscuit straw and black chiffon bow on a black turban hat with odd tassels and loops of straw at the back. Straws as a rule are rather hard, and the cunning of the Parisian milliner is shown by the fact that she is mixing them with gauging or tucked chiffon, the softening effect of which no one can deny.

The hat in the illustration is a new tailor made model of cream straw trimmed with white silk and rosettes and quill in a dark red shade.

MYSTERY OF THE BAYOU WOODS

By WALKER KENNEDY.

Copyright, 1903, by A. N. Kellogg Newspaper Co.

"Yesterday afternoon," he said, "Herbert Wright was arrested on suspicion, and, as is customary, he was taken to the police station and searched. All the papers and articles found on him were taken charge of. Among these were two pawn tickets. These tickets did not arouse the slightest suspicion in my mind, for there are hundreds of poor people in the city who have such tickets in their possession. It has, however, always been a custom of mine to take the pawn tickets found on all prisoners and ascertain what articles have been pawned. This has in a good many instances enabled me to bag some very important criminals. More from force of habit than anything else I went to Rosenthal's and Neckar's pawnshops. At the first I found that the ticket called for a watch, a pair of sleeve buttons, a diamond pin and a knife. The clerk who took in these articles remembered that they had been brought in by a seedy looking young man named Abraham Jowatt about six o'clock on the day the murder was committed. The clerk was just getting ready to close up shop when Jowatt came in, and the transaction was therefore made about six o'clock, as that was the closing time. The description given by the clerk tallies with young Wright's appearance, and the giving in of a fictitious name aroused my suspicions. A visit to Neckar's pawnshop revealed the fact that under like mysterious circumstances Wright had pawned another watch under the name of Jowatt, and it was done shortly after six o'clock. I obtained from the pawnbrokers the various articles and turned them over to the chief."

The witness then identified the articles already offered in evidence as those which he had obtained from the pawnbrokers.

Neckar and the clerk from Rosenthal's were then introduced, and they identified Wright as the young man who under the name of Jowatt had pawned the watches and other articles.

The testimony was completed with the evidence of the sheriff and the chief of police. The material point in their testimony was that they, with the permission of Mrs. Wright, and in her presence, had gone through all the private papers of her husband and had found no will. The significance of this fact was, of course, brought to the attention of the jury by the coroner, who stated that in the absence of a will Mr. Wright's property would be divided without prejudice between his children, and consequently Herbert Wright was a direct beneficiary by his father's death.

The testimony given by the officers produced a profound impression not only on the jury, but on the crowd assembled there. Even Warde, who had been inclined to entertain a belief in Wright's innocence, was staggered for a moment. It was not an easy matter to conceive an explanation of the damning facts that had been brought to light. As for Herbert Wright himself, he seemed to be dazed by the chain of circumstantial evidence which had been wrought around him. His face was a strong psychological study, and upon it a growing horror depicted itself. Was it the despair of innocence surrounded by a network of apparently unanswerable accusations? Every bit of testimony seemed to embody a charge. Or was it the stupor of guilt detected that appeared in his face?

The coroner's jury made no attempt to construct any theory of innocence, but brought in a verdict that the deceased had come to his death from blows and wounds inflicted by his son.

CHAPTER VI.

Irving Warde could not have explained the impulse which caused him to seek an interview with Miriam Wright when the coroner's jury had finished its investigation. It was certainly not idle curiosity, nor the mere professional instinct of the newsgatherer; but some occult sympathy seemed to draw him to the cold, emotionless young woman whose beauty had been as great a revelation to him as her personality had been a mystery.

Miriam Wright had had no experience with newspaper people, and had no horror of the interviewer. At that time he had not attained the pinnacle of caustic opprobrium that has since then been erected to his industry and his discredit. So when Irving Warde sent up his card she came down immediately to the parlor to see what was wanted of her. He had the appearance and manners of a gentleman—for he was one—and so Miss Wright's suspicions of a prying newspaper reporter were never aroused.

From her appearance it was evident that she was the victim of a nervous relapse from a great mental strain. Her behavior on the witness stand, her marvelous self-possession until she was led to testify in the dark, had visibly been the result of an intense benumbing excitement. The calmness had gone from her face, and it was a helpless, feverish woman who confronted him.

Warde found himself [illegible] to say, endeavoring to allay her alarm.

"Miss Wright," he said, "I am one of those who believe that your brother's innocence will eventually be established, and I have come to ask you whether I can be of any assistance whatever to you."

After he had said this it sounded very foolish; but she evidently appreciated his good intentions, for she said: "It is very kind of you, Mr. Warde. I hardly know what to say. It has come upon us so suddenly, so horribly that I cannot tell what we shall do. If, however, we should see a way in which you could assist——"

"Believe me, I shall be only too ready to do so."

"Herbert and I have been peculiarly attached to each other since childhood, and I need hardly say, Mr. Warde, that his implication in the murder is to me more terrible even than my father's death, and I cannot conceive how it would have been possible for him to bring himself to commit such a crime. It is true that he was always high-strung and passionate, but that he could have taken his father's life, I—I cannot believe it."

"I have become deeply interested in this case, Miss Wright, because I am satisfied that the mystery has not yet been solved. It has taken hold of me completely, and I have thought of making some investigations in an entirely new line. The police have taken up a plausible theory, and have made out a strong case without a doubt; but it is not a complete case, for the reason that there are several minor clews which they have ignored entirely."

Do You Wish To Borrow Money?
In order to accommodate all classes of borrowers (those who cannot borrow at a bank, as well as those who can), the Mutual Loan and Investment Company, of 118 Market street, Newark, N. J., has a department for handling quickly and confidentially loans ranging from $10 to $300 on furniture, pianos, storage receipts, etc.
The security is not removed from your possession or in any way disturbed. The honest, careful and conservative borrower will try and decide two points before borrowing. First, where he can get the best terms. Second, where he can get fair and square treatment.
This company is in a position to give you by far the most satisfactory terms ever offered by any concern or individual negotiating this class of loans.

We also take up loans from other companies and advance more money.
Kindly call and let us explain our simple and up-to-date methods If not entirely convenient for you to call, please write and our representative will call and give you any desired information. Remember it costs nothing to make application. Loans promptly made in Elizabeth, Plainfield, Westfield, Roselle, Rahway, Perth Amboy and all suburban towns.

MILES OF CHEERING HUMANITY.

Troop of Colored Cavalry Lead the Guard of Honor—Grand Banquet at the Palace Hotel Ends the Day.

SAN FRANCISCO, May 13.—Heartier greeting was never given a president of the United States than that offered by the city of San Francisco to Theodore Roosevelt. Through miles and miles of densely packed, cheering, patriotically enthused humanity the nation's chief passed, bowing his acknowledgments, evidently wearied by maintaining an erect position in his carriage, but buoyed up by the impressiveness of the demonstration. It was a magnificent ovation.

The presidential train, drawn by a handsomely decorated locomotive, arrived promptly on time. A large gathering of federal, state and city officials, army and navy officers, foreign consuls and distinguished citizens was in waiting to welcome the chief magistrate.

Mayor Schmitz stepped aboard the rear car and formally greeted Mr. Roosevelt, the president making a brief response.

Before entering his carriage Mr. Roosevelt stepped up to the locomotive and warmly shook hands with Engineer McGrail and Fireman Everly, who had piloted him safely from the south. In the parade the line was headed by a troop of colored cavalry, this being the first instance in the west where negro soldiers have held the position of honor in a public procession. Following the president came United States troops from the local posts, sailors and marines from war ships in the harbor and at Mare island and regiments of the state militia.

After reviewing the parade the president was escorted to the Y. M. C. A. building, where a throng had assembled to participate in the burning of mortgages and notes representing the total indebtedness of $115,280 upon the property. The president by request touched a lighted match to the documents, and as the flames licked up the papers he joined with the assemblage in singing "The Doxology." The president then made a short address.

The president was banqueted at night at the Palace hotel by the citizens' committee. Immediately back of Mr. Roosevelt's chair was draped a presidential flag. To the right of Chairman M. H. De Young sat the president, Governor Pardee, Secretary Loeb, British Admiral Bickford, Dr. Rixey, Admiral Kempff and Dr. Butler. On the left were Secretary Moody, Mayor Schmitz, Senator Perkins, Assistant Secretary Barnes, General MacArthur and Dr. Wheeler.

One of the features of the decorations was an immense garland made entirely of California fruits and swung on the south wall of the room. Stretching from one end of the hall to the other was a string of electric lights spelling "Land of Sunshine, Fruit and Fowers Welcomes President Roosevelt."

Freight House Burned.

WEST BOYLSTON, Mass., May 13.—The West Boylston station, the freight house and the milk depot on the Massachusetts Central division of the Boston and Maine, have been destroyed by fire. Nothing remains but a mass of charred timbers. It was only through quick and hard work that the bridge over the Clarendon mill canal was saved. The fire was discovered on the roof of the station and was supposed to be set by sparks from a passing engine. The new American Telephone and Telegraph company's wires opposite the building were put out of business. Of sixty wires but ten are now left.

A Successful Convention.

ATLANTA, Ga., May 13.—The thirtieth annual convention of the National Association of Charities and Correction, one of the most successful and best attended in the history of the organization, came to an end last night. The principal address of the evening session was by Rev. Dr. Samuel J. Barrows, secretary of the New York Prison Aid association, who discussed the treatment of criminals.

SPORTING NEWS

ON THE DIAMOND.

The jerseys and caps which the Park A. C., the juvenile athletic club of Washington Park, ordered recently, have arrived. The club held a fair recently and the proceeds were used in the purchase of the articles.

The Park A. C. was to have played a game of ball on Saturday with the Laurel baseball club, but on account of the absence of a number of the players of that team, including Ovens, the pitcher, the game was postponed. Saturday the Park A. C. will play a game with the North Plainfield High School.

Last Monday the Philadelphia National League baseball team played a game with the Wilmington A. A. and defeated the latter by a score of 5 to 0. "Warry" McLoughlin pitched for the Phillies and he had the opposing team completely at his mercy. Only three hits were made off of McLoughlin.

"Orry" Dodge will not pitch for Hope this season. He was tried in last Saturday's game and it was decided that he was not heavy enough for the requirements of the position. It is now practically settled that Kinney will be Hope's regular slab artist with "Tune" Hewitt as a relief in case of emergency.

The opening baseball game of the season at Millstone on Saturday was between Millstone and the New Brunswick Y. M. C. A. The home team won by a score of 17 to 7. Harding and Remsen was the battery for the home team and Taylor and Winterson for New Brunswick. Next Saturday the New Market team plays at Millstone.

Teddy Overton will be cordially welcomed back to the Hope Y. M. A. team. Although the youngest player in the league last summer, his work was very satisfactory and everybody wanted to see him back again. His delay in making his appearance was occasioned by the fact that he was busy Saturday afternoons and could not get out in time for the games.

Much pressure has been brought to bear on Arthur Lederer to return to St. Mary's team this year instead of playing with the Alis Club. Lederer was one of St. Mary's cleverest players last summer, his fielding was excellent and his batting sure. His old comrades wanted him to return but it looks as if he would continue to wear the grey of the Alis Club for the remainder of the season.

Saturday's game between the Safe Works and Scotch Plains at Scotch Plains promises to to be a contest for blood. The Safe Works team came to the fore at the close of last season at a pace that would have won the league had it continued any longer. Scotch Plains is admittedly a professional team and has some veterans on its list. The meeting of these two nines is bound to be interesting.

That Somerville combination, Geo. Hoffman and Guy Noble, which occupied the places on either side of the second bag for Alis in Saturday's game, did not show up very well at the opening game. They are both old ball players, however, and as soon as they get into practice can be depended on to do some clever work. Hoffman was particularly wild Saturday although he did make some redeeming plays.

The types, the other day, were made to read that Edward P. T. Smith of the Reform A. A. was doing lots of talking. It should have been that Smith was not doing any talking. He has been very quiet during the days of the formative period for the teams and has devoted his attention to getting a good team together. He expects to have one that will be a credit to him and make a strong showing in the league at the opening game Saturday.

The North Plainfield High School was defeated yesterday afternoon at a game of baseball by the City High School team by a score of 4 to 0. The boroughites were shut out completely although their playing was a decided improvement over that of a week ago.

The lineups:

N. P. H. S.—Conover, ss; Humble, 2b; Mundy, 3b; Brose, 1b; Ovens, c; McLaughlin, p; Kipsey, lf; Nischwitz and Adams, cf.

City H. S.—Smith, 3b; Craig, ss; Thompson, 1b; Ulrich, lf; Monro, c; Miner, rf; VanAuken, p; Bock, cf; Brokaw, 2b. The games was umpired by Charles B. Morse.

Score by innings:

N. P. H. S.	0	0	0	0	0	0	0	0	—0
City H. S.	0	2	0	1	1	0	x		—4

FIRE DRILL.

City High School Cleared of Pupils in 1 Minute and 56 Seconds.

A fire drill was held this morning at the City High School in which the building was cleared of pupils in one minute and fifty-six seconds. While this time is not the best made this year, it is considered quick time for the whole building to be emptied. Principal Travell provides for such fire drills at irregular periods about once a week and the pupils have a regular system of leaving the school. In case of fire, this drill would prove invaluable.

Operated on Ear.

William E. MacClymont, of Washington avenue, underwent an operation in New York yesterday morning for a growth on the drum of the ear. The operation for its removal was very successful and the hearing in that organ which had hitherto been impaired was restored. The operation was performed by Dr. William E. Rounds, an eminent New York specialist.

Suit Over Building Contract.
(Special to The Daily Press.)

Elizabeth, May 13—The case of Miss Linclon against William Pangborn, on contract, is today occupying the attention of the court. Both parties are from Plainfield and the suit is for alleged non-fulfillment of a contract in erecting a building for the plaintiff. The case will probably be on all day.

The Wastes of the Body.

Every seven days the blood, muscles and bones of a man of average size loses two pounds of wornout tissue. This waste cannot be replenished and the health and strength kept up without perfect digestion. When the stomach and digestive organs fail to perform their functions, the strength lets down, health gives way, and disease sets up, Kodol Dyspepsia Cure enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten into the kind of blood that rebuilds the tissues and protects the health and strength of the mind and body. Kodol cures Indigestion, Dyspepsia and all stomach troubles. It is an ideal spring tonic. Sold by L. W. Randolph.

CHANGES IN TRAIN SERVICE

PENNSYLVANIA RAILROAD COMPANY PREPARING NEW SCHEDULE.

Will Go Into Effect On or About May 24—Two New Extra-Fare Flyers.

On or about May 24 the Pennsylvania Railroad Company will make some important changes in the through train service on that road, when the new schedule goes into effect. Two extra-fare flyers between New York and Chicago, to make the run in twenty-four hours, will be put on. This time is less than that of the Pennsylvania Limited by two hours.

These new trains will make their Philadelphia stop at Germantown Junction, running through the recently opened tunnel west of the zoological gardens.

In the operation of the New York, Philadelphia and Washington trains changes are to be made of particular interest to Philadelphians. A large number of the through trains will run via the subway tunnel line just about completed, making their only stop here at the West Philadelphia station. Passengers using these trains to and from Philadelphia will have to take local trains to Broad street station.

But for the special accommodation of Philadelphia passengers additional trains will be put on between Broad street station and Washington and New York. There will be no quickening of time between New York and Washington until the elevation of the line at Newark, New Brunswick, Chester and Wilmington is completed.

The managements of the Pennsylvania and the Baltimore and Ohio railroads have discussed in a general way the construction of a new party bridge across the Susquehanna river at or just above Havre de Grace. As yet nothing definite has been decided upon, but it is believed a new bridge to take the place of both those now in use will be built before long. Neither of the old bridges is strong enough to carry safely the largest locomotives hauling a heavy train at high speed.

TEA TABLE TALK.

Short Sketches That Are Not Always News, But Just as Interesting.

A robin building its nest in a tree in front of the house of Joseph Sattels, of East Sixth street, has contributed one of the oddest forms of free advertising yet noted. As part of the material for its nest, the little songster used a streamer containing the name of Neuman, the grocer, printed thereon in big letters. The streamer floats in the breeze in plain sight of the street. Sattels' residence is but a block away from Neuman's store on Watchung avenue.

Rosette Social.

A rosette social was held last evening at the home of Mrs. Wm. Force, Oak Tree, under the auspices of Washington Camp, Patriotic Order Sons of America. There was a large number of people present and the evening was spent in playing games, dancing, etc. The women made rosettes and these were bought by the men at auction. Afterward the men matched rosettes with the women and took them to supper.

Half Holiday Question.

A meeting of the Master Plumbers Association was held last evening when the question of a half holiday on Saturdays for the journeymen plumbers was among the items brought up for discussion. A committee was appointed to confer with a committee of the journeymen plumbers Thursday and the meeting adjourned until next Tuesday when the matter will be brought up again.

Coal Cars in Wreck.
(Special to The Daily Press.)

Whitehouse, May 13—A freight wreck occurred a half mile east of this place last evening shortly after 7 o'clock. The accident was caused by a broken axle and four cars were demolished and several more slightly damaged. No one was seriously hurt. The cars were laden with coal and was traveling on the Central Railroad of New Jersey tracks.

Not Responsible.

In justice to the local correspondent of the New York Sun, Walter C. Dobbins, it should be explained that he was in no way responsible for the article which appeared in The Sun this morning telling of the death of Former Mayor C. J. Fisk. He knew nothing of it until he saw it in The Sun this morning.

Pythian Memorial Day.

Crescent Company, Uniform Rank, Knights of Pythias, met at its rooms on West Second street, last evening and transacted routine business. Four initiates were received into the order. It was decided that Memorial Day should be celebrated the third Sunday in June. There was a large attendance.

HANGS HIMSELF IN CITY JAIL

(CONTINUED FROM PAGE 1.)

the death of the wage-earner practically destitute.

Papers were to have been issued today requiring Ross and his family to vacate the premises at 211 Plainfield avenue, but in view of the death of Ross, they will probably be witheld for a time at least. Decision was rendered in Justice Moffett's court last week against Ross in the landlord and tenant case of McCarthy against Ross.

Blameworthy as Ross may have been, the burden and suffering falls not upon himself but upon his innocent family.

DEATH OF G. W. SANFORD.

Former Teacher at City High School Dies at Greenville, N. Y.

George Weeks Sanford, who organized the commercial department in the City High School in 1897 and conducted it for four years, died Monday morning at his former home at Greenville, Greene county, N. Y.

After training in shorthand and commercial lines, he graduated from the Normal School in Geneva, N. Y., in 1897 and came to Plainfield. He was a faithful and conscientious worker and made many friends here. He also taught in the local Y. M. C. A. He left here to accept a better position as head of the commercial department of the Free Academy at Utica, N. Y.

At the beginning of the spring vacation, he went to his old home at Greenville. When vacation was over, he was unable to return to Utica on account of a severe attack of grip. Complications followed which resulted in his death. The funeral will be held at Greenville today.

Two Appointments Confirmed.

At the meeting of the teachers committee of the North Plainfield Board of Education held last evening two appointments of teachers were confirmed. The graduation list was also approved. Little else of importance was discussed.

Mr and Mrs. George Kiederling, of Watchung avenue, are rejoicing over the arrival of a ten-pound daughter.

WOMEN AS FIREMEN.

Extinguished Burning Smokehouse in Rear of L. A. Hummer's Meat Market.

A serious fire world have occupied the attention of the borough fire department yesterday morning in the rear of the meat market of L. A. Hummer, on the corner of Somerset street and Linden avenue, had the flames, which were enveloping a smoke house, not been discovered by some women who gave the alarm of fire and then worked like Trojans for half an hour battling with the flames.

The fire was caused by a ham falling from the beams on the fire below which was used for smoking the meat. Twelve hams were burnt to a crisp. The smoke house was of corrugated iron but this soon became red hot and ignited the wood work. W. T. Banks, a dealer in hides, also assisted in putting out the fire.

To Give First Euchre.

The first euchre ever given by the members of St. Joseph's R. C. church will be held in Saengerbund Hall, May 26. Great preparations are being made for the event and the prizes will be very fine. A dance will follow the euchre. It will be held for the benefit of the church.

Injured in Fall.

Mr. Simonson, of Duer street, who has been at work on electrical construction at the Plainfield Electric Light Company plant, was injured Monday by a fall. The injuries are not considered serious, although Mr. Simonson will be kept at home for a few days.

Stocking Streams.

Deputy Game Warden Miller, of Somerset county, has placed 2,000 calico bass in the South Branch of the Raritan and North Branch and in the Millstone rivers. The fish were brought from Lake Erie. They weigh from one and one-half to two pounds each.

Turn Them Down.

Because Henry I. Budd, State commissioner of public roads, has only $128,000 in his hands at present for State aid in road building, numerous petitions from various counties will have to be turned down.

RE-ELECT DIRECTOR.

Union County Freeholders Organize With J. Frank Hubbard As Director for Seventeenth Time.
(Special to The Daily Press.)

Elizabeth, May 13—The Union County Board of Freeholders met this morning and organized for the year, in accordance with the usual custom at this time. J. Frank Hubbard, of Plainfield, was elected director for the seventeenth consecutive year and E. M. Wood was re-elected county collector. The same course was followed in the election of J. W. Fink as county road inspector. Charles Smith and George Embree, the new Westfield members, were sworn in.

The Board received a communication from the National Guard asking that an appropriation be made in behalf of Companies C, I. and K, the latter of Plainfield, for drill room. The communication asked that the appropriation be made payable to the commandant to be used for armory accommodations. After the organization and transaction of a great amount of routine business, County Collector Wood entertained the Board at dinner at the Burkely Hotel.

THEATRICAL.

Frank Daniels, whose success with "Miss Simplicity" at the Casino last year was one of the noteworthy events of the season, has brought this same merry musical concoction to the Academy of Music, New York, for a three weeks stay, beginning Monday.

Mr. Daniels has for years been one of the most popular of our American comic opera comedians and year after year he has succeeded in securing pieces that have met with most pronounced favor. "Miss Simplicity" is said to afford the comedian the best opportunities he has ever had to show how funny he can be.

Miss Marie Cahill's manager, Daniel V. Arthur, announces that the musical comedy, "Nancy Brown," in which Miss Cahill has been appearing at the Bijou Theatre, New York, with much conspicuous success, will close its season at that house Saturday night. This was decided upon, owing to the fact that Miss Cahill has not been enjoying the best of health lately, and because her season in Boston opens rather earlier than usual. Her physicians advised her to close before the extremely hot weather comes, and recommended a trip to Europe. Miss Cahill will sail for England the latter part of this month, returning in August.

CAR RUNS AWAY, SEVERAL HURT

Fails to Take Sharp Curve at Cranford River Bridge and Encounters a Tree.

MOTORMAN BADLY HURT

Accident Happens Just Before Midnight—Few Passengers Aboard—Start to Jump and Are Slightly Injured—Conductor Randolph is From Plainfield.

(Special to The Daily Press.)

Cranford, May 14—Trolley car No. 67, of the Elizabeth, Plainfield and Central Jersey Street Railway, westbound, jumped the track east of the Cranford river bridge last night about 11:45 o'clock. The motorman, John Harrington, was the most seriously injured. He sustained a fracture of the collar bone, his shoulder was dislocated and he received several bruises and cuts. He was taken to the Elizabeth General Hospital. The conductor, William Randolph, of Plainfield, received a number of cuts and bruises. He was able to return home. There were four or five passengers, all men, in the car, but none were seriously injured. They were able to return home a little later. Soon after the accident, Drs. Sinclair and Harrison, of Westfield, and the local doctors were summoned to the scene of the wreck. They performed excellent service in making the injured comfortable.

The car left Elizabeth at 11:30 and was due in Plainfield about 12:30. Fortunately, it being late, very few passengers were riding and they all lived at Westfield and Cranford. The car, having a clear track, was making good time. Just east of the Cranford river bridge the car got away from the motorman on the grade at that point. There is a reverse curve just east of the bridge and another one just west of the bridge. The tracks are laid this way to give all the room possible on the bridge for carriages. It was on the down grade that the motorman lost control of the car and at the time it jumped the tracks, striking a large tree nearby.

The front trucks went off the rails, but the rear trucks remained partially on. It is said that if the passengers had remained in their seats instead of trying to get out of the car, they would have escaped all injury. They did not, however, and all were more or less injured. Motorman Harrington's injuries were the most serious and at one time it was not known whether he would recover, but this morning he was reported as doing better.

All speak in high praise of the valiant work performed by Conductor Randolph, who, in spite of his injuries, went to work to make others comfortable. He worked hard and was the last of the injured to give up and seek treatment.

The damage to the car was slight considering all things and a few repairs is all that is necessary to put it in running condition again.

General Manager Akarman is not inclined to place the blame for the accident on the motorman, for he is of the opinion that the tracks at the place of the accident should be straightened out and the two reverse curves removed. No doubt an effort will be made to have this done. Once before a trolley car met with a similar accident on the Cranford river bride because of the peculiar construction of the tracks.

A Daily Press reporter interviewed the injured conductor, Wm. H. Randolph, this morning at his home on Chatham street. He gave this version of the accident:

"As the car started to enter the down grade I noticed that the motorman was having trouble with his brake. They would not work. I gave him one bell to stop and then I understood that the car was running away. The brake chain had broken. At this time the passengers saw what was occurring and started to leave the car. I had nine fares. I pulled the trolley pole from the wire and then yelled, 'Keep your seats, don't jump.' Many heeded the warning but one or two passengers rose and started to leave the car. I warned them that if they jumped they would be killed. No sooner had I gotten the words out of my mouth when the front trucks left the rails and the next I knew was the crash.

"All was black for an instant and then I began getting the names of the passengers. My motorman was lying face down on the bridge bleeding from the ears. The car was smashed."

Randolph received a severe gash in the head and bruises about the body.

CORNER STONE.

Nothing Done About Having Formal Exercises at the Borough Engine House.

There has been considerable talk in certain quarters lately regarding a corner stone to be laid when the foundation walls of the new engine house in the borough has been completed.

Chief J. J. Stahl, of the borough fire department, when asked by a reporter of this paper what there was in the reports circulated, said that while a corner stone laying was desired by some of the members of the two borough fire companies it has not taken any definite shape so far. He said that a suitable block of stone could be secured and used as a corner stone, but as to getting a fine granite block, such as has been suggested, he thought that it was merely talk so far.

A tablet will be placed in front of the building on which the year and the names of the chief engineer and assistant, the Mayor and the fire committee will be inscribed.

FREEHOLDERS GO OUT; NEW BOARD ORGANIZES

Somerset County Freeholders Effect Organization After Being Sworn In.

MR. LOGAN AS DIRECTOR

NOW INCLUDES SEVEN DEMOCRATS AND THREE REPUBLICANS.

Old Board Winds Up Its Affairs—Chiefly Routine Business—Bernards Delegation Wants to Plead for Good Roads.

(Special to The Daily Press.)

Somerville, May 14—The final meeting of the old Somerset County Board of Freeholders was held in the Court House here Tuesday but little or no business was transacted. All the members were in attendance.

The bills of a number of justices of the peace were tabled by a vote of seven to three.

Mr. Bacon appeared before the board and asked that he be paid damages for breaking his wagon April 13 at a stone culvert near Raritan. This matter was referred to a committee comprising Messrs. Logan, Lutkins and E. B. Hoagland.

The board then adjourned until yesterday morning, when it again met to hear the final report of the County Collector.

The new board met yesterday morning and effected an organization by the election of Wm. J. Logan as director, A. P. Sutphen clerk, E. B. Allen county collector, Joshua Doughty, Jr. county engineer, and John A. Frech counsel. The board is composed of the following:

Bedminster, David Philhower, D.; Bernards, J. A. Whitenack, D.; Branchburg, E. B. Hoagland, D.; Bridgewater, Wm. J. Logan, D.; Franklin, T. E. Gibson, D.; Hillsborough, R. W. Hoagland, R.; Montgomery, Jacob M. Vreeland, R.; North Plainfield, Wm. M. Demler, D.; North Plainfield borough, A. Lutkins, R.; Warren, Joel Codington, D.

Justice Kitchen, of Somerville, swore in the new members and officers. The Freeholders dined at the Somerset with Sheriff McMurtry as the host.

At the business meeting in the afternoon very little was done. The usual six county papers were selected to print the statement. A delegation from Bernards, seeking more new roads, was not heard, as the board would not listen to their pleas.

The Johnson case occupied the attention of the court all of yesterday and is still on today. It will probably go to the jury late tonight.

GAVE WRONG AGE.

Alleged Parents Attempted to Evade Compulsory School Law.

There are still a number of pupils in the borough schools whose habits of truancy are still strong and the truancy committee of the Board of Education has been having its hands full in keeping them in school. Truant Officer Richard McDonald has been making arrests almost every day and compelling all pupils found on the streets under the school age to attend.

One case is in hand where the parent has placed the wrong age of the pupil on the blank so that the child could go to work in a factory. This case will be fully investigated. It is said that the child is a most diligent scholar and it seems a shame that the child should not have the benefit of an education.

Sanitary Case Adjourned.

The case of Isaac M. Runyon, charged by Health Inspector William Addis with having violated the sanitary laws of the Board of Health, which was to have come up before City Judge Runyon yesterday afternoon at 5 o'clock, was adjourned to Saturday morning at 9 o'clock, Judge Runyon being unavoidably absent.

A BLAZE AT ICE PLANT

STARTED IN BARN AS MEN WERE ABOUT TO QUIT FOR THE NIGHT.

Fire Department Called by 'Phone and Answered in Time to Extinguish Flames.

A serious conflagration was narrowly averted last evening about 5 o'clock in Frank T. Ostrom's stables at the Hygeia Ice Company plant on North avenue.

The men were about ready to quit work for the night, when Alfred DeNise noticed a spark dropping from the haymow in the stable to a manger below. DeNise rushed into the stable and quickly extinguished the spark. He then went to the haymow and discovered the mow filled with smoke and in one corner considerable fire. He then called to Chief Engineer Frederick Schreiner, Wm. Ackor and Henry Peterson, who were nearby and they all went to work with hand extinguishers. Later a hose was run in the building and the hay was thoroughly soaked.

In the meantime a telephone call was sent to fire headquarters and the chemical engine was sent to the scene. The work of the firemen effectually extinguished the fire.

It was fortunate that the fire was discovered early, for if it had occurred during the night in all probability the barn, as well as the seven horses and other contents, would have been destroyed and the ice plant might have been endangered. As it was the extent of the damage was the scorching of one bale of hay.

INTO DIFFICULTIES.

Several Who Eecountered Them Haled Before City Judge Runyon This Morning.

Harry Huff fell into difficulties at the railway station, Tuesday afternoon, because of a too affectionate attitude towards the spirits of rye. He told City Judge Runyon this morning that he would swear off for six months, and His Honor released him on parole.

Oliver Pell, a small boy who is going the downward path that leads to destruction at an alarming rate, added to his court record by throwing stones at a street lamp Tuesday. Judge Runyon delivered him over to the tutelage of Mrs. E. E. Williamson, the probation officer.

Patsey Parrett, late of Italy, was restrained by Judge Runyon from maintaining a nuisance on Cottage place, at the instigation of Health Inspector William Addis.

(Special to The Daily Press.)

Somerville, May 14—In the Somerset county Criminal Courts Tuesday the case of William Brown, colored, who was indicted for malicious mischief, was taken up. The defendant was charged with having broken a door while visiting a friend at the home of T. G. Winsor in Somerville. After the State's witnesses had been examined James J. Meehan, counsel for the defense, asked the Judge to direct the jury to find a verdict on the ground that no malice had been shown. This the jury did and the prisoner was discharged.

The case of the State against Samuel S. Johnson, who is charged with raping an eleven-year-old girl at Millstone, was on all the rest of yesterday and occupied the attention of the court this morning. A verdict will probably be reached late this evening. James J. Meehan is defending the prisoner.

BLOWS RANGE TO FRAGMENTS

Explosion of "Water Back" at Home of M. H. Evart, Fairview Ave., Wrecks Kitchen.

ALL ESCAPE INJURY

Water Pipes Burst a Moment Later and Flood Kitchen and Cellar—Blazing Coals in Range Start Fire—Prompt Action by Mrs. Preble, Nurse.

Through the accumulation of lime in the pipes in the water heating compartment of a kitchen stove in the home of Matthew H. Evart, at 44 Fairview avenue, yesterday afternoon, an explosion occurred which not only set fire to the kitchen but reduced the stove to a thousand bits of iron and wrecked the interior of the kitchen, narrowly escaping killing the cook and shaking the house to its foundations. Water and flood added terrors to the explosion and great excitement followed among the inmates of the house.

The accident happened at about 4 o'clock in the afternoon when the servants were finishing the ironing for the day. Mrs. Evart and her infant child, about three weeks old, were upstairs with Mrs. Caroline C. Preble, a trained nurse, when the entire block was thrown into a panic by the terrific noise. Mrs. Preble, with rare presence of mind, calmed the excited servants in the house and saw that her patients were taken to an adjoining house. She then returned to the house and assisted in putting out the fire which had ignited the flooring of the room in a hundred places where the burning coals from the stove had fallen.

While engaged at this work the water pipes burst in the boiler and water poured out into the room in great volumes. The water extinguished the flames in a few minutes and then soaked through to the cellar. Mrs. Preble started a search for the colored cook who had disappeared. At first it was thought that the unfortunate woman had been blown to atoms but after a search had been in progress for some time Miss Martha Johnson, cook, was found in the cellar shaking with fright and watching the rapidly rising flood.

The meeting was largely attended and was most helpful.
